#### COLONY OF VICTORIA.

The Victoria Steam Navigation Board, by  
virtue of the power and authority vested in them  
by the 29th section of 16th Victoria, No. 25,  
and with the approval of His Excellency the  
Governor, have determined that from and after  
the 1st day of January, 1859, the following  
regulations shall be strictly observed on board  
all steam and sailing vessels coming within the  
provisions of the said Act.

#### STEAM VESSELS.

All steam vessels when under steam shall,  
between sunset and sunrise, exhibit the follow-  
ing lights:—

1. A bright white light at the foremast head.  
A green light on the starboard side.  
A red light on the port side.
2. *The mast head light* shall be so constructed  
as to be visible on a dark night with a clear  
atmosphere at a distance of at least 5 miles, and  
shall show an uniform and unbroken light over  
an arc of the horizon of 20 points of the com-

pass, and it shall be so fixed as to throw the  
light 10 points on each side of the ship from  
right a-head to 2 points abaft the beam on  
either side.

3. *The green light on the starboard side* and  
*the red light on the port side* shall be so con-  
structed as to be visible on a dark night with  
a clear atmosphere at a distance of at least 2  
miles and an uniform and unbroken light over  
an arc of the horizon of 10 points of the com-  
pass, and they shall be so fixed as to throw the  
light from right a-head to 2 points abaft the  
beam on the starboard and the port sides  
respectively.

4. *The side lights* are to be fitted with  
inboard screens, projecting at least 3 feet  
forward from the light, so as to prevent the  
lights from being seen across the bow.

carry their mast-head light.

6. Steam vessels plying on the river *Yarra*  
*Yarra above the Falls* shall exhibit—

*A bright white light* at

*A red light* hung outside  
the stem under the  
bowsprit.

*When under steam.*

*When at anchor.* *A common bright white  
light.*

#### FOG SIGNALS.

All steam vessels, whether propelled by  
paddles or screw, when their steam is up and  
when under weigh, shall in all cases of fog use  
as a fog signal a steam whistle placed before the  
funnel at not less than 8 feet from the deck,  
which shall be sounded once at least every five  
minutes, but when steam is not up they shall  
use a fog horn or bell as ordered for sailing  
ships.

#### SAILING VESSELS.

unbroken light over an arc of the horizon of  
10 points of the compass from right-a-head to  
2 points abaft the beam on the starboard and  
and on the port sides respectively.

2. *The colored lights* shall be fixed whenever  
it is practicable so to exhibit them, and shall  
be fitted with inboard screens, projecting at  
least 3 feet forward from the light, so as to  
prevent the lights being seen across the bow.

3. When the colored light cannot be fixed  
(as in the case of small vessels in bad weather),  
they shall be kept on deck between sunset and  
sunrise, and on their proper sides of the vessel,  
ready for instant exhibition, and shall be

exhibited in such manner as can be best seen on the approach of, or to, any other vessel or vessels in sufficient time to avoid collision, and so that the green light shall NOT be seen on the port side, nor the red light on the starboard side.
