which Bill was reserved for the signification of the Governor's pleasure thereon, having been laid before the Governor, His Excellency has been pleased to withhold his assent to the same.

ALFRED DOMETT.

Colonial Secretary's Office,
Auckland, 23rd Feb., 1863.

THE following notice respecting new Lights at Shortland's Bluff in the Colony of Victoria, is published for general information,

ALFRED DOMETT.

NOTICE TO MARINERS.

PORT PHILLIP HEADS LIGHTS.

In accordance with a notice to mariners, dated 17th April, 1862, navigators are hereby informed that on and after the evening of the 19th of February next, a Fixed Light, upon the dioptric principle, will be exhibited from each of the two towers recently built at Shortland's Bluff, close to and on the same line of bearing from each other as the two old towers, namely, N. 33° E. and S. 33° W., and distant from each other one thousand and fifty-six feet. On the exhibition of the new lights the present lights will be extinguished, and the old towers removed as speedily as possible.

HIGH LIGHTHOUSE.

Fixed Bright White Light.

The new high light house will, like the present one, exhibit a fixed bright white light between sunset and sunrise, and be visible from seaward to vessels in the offing from about E. by N. to N., but vessels close in with the Lonsdale land will not see the light except from N. E. by E. to N.

Governor's assent withheld from Bill, Canterbury.

Colonial Secretary's Office,
Auckland, 23rd February, 1863.

THE following Bill passed by the Provincial Council of the Province of Canterbury, entitled,—

“The Canterbury Local Marine Boards Ordinance, 1862,”

The light will be visible within the Heads from S.W. by W. to about N.E. by E. *i.e.*, from the Swanspit Lighthouse round southerly to Lonsdale Bight.

The tower is built of bluestone, and will remain its natural color. The centre of the light will be one hundred and thirty (130) feet above high-water level, and be visible at a distance of seventeen miles, allowing ten feet for the height of the eye, and at lesser distances according to the state of the atmosphere.

The attention of navigators is called to the fact of the new light being twenty feet higher than the present one and of greater intensity, it will therefore show further seaward and into the Barwon Bight than the latter did.

The alteration made in the new high lighthouse from the old high lighthouse consists in a change of color from white to grey, greater intensity of light and range in an E. and W. direction.

LOW LIGHT.

Fixed Red and White.

The new low lighthouse tower will be painted white like the present one.

The centre of the light will be ninety feet above high-water level.

The white light will be visible at a distance of fourteen miles, and the red light at a distance of ten miles, and at lesser distances according to the state of the atmosphere.

With the view of facilitating the navigation between the Heads and through the South Channel, and guiding ships to a safe anchorage at night, the following alterations will be made in the color of the low light, which has hitherto been all red :—

On and after the evening of the 19th of February next, the low light will show white from about N.E. by E. to N.E., and from N. N.E. to W. by N.; and red from about N.E. to N.N.E.

These bearings, it will be observed, show the low light to be white from Point Lonsdale to a safe berth clear of the reef; thence red to a safe berth clear of the Corsair Rock; thence white to a line passing from the lighthouse through the south channel to the southward of the Pope's Eye and black buoys, and to the northward of the white buoys, so that vessels caught after dark with light winds or adverse tide in the south channel will be aided in their passage through by a bearing of the light.

The change of color from red to white is intended to warn vessels approaching Points Lonsdale and Nepean Reefs to haul to the eastward or westward, as the case may be, to get into the stream of red light which will lead them clear of both reefs.

The two lights in one will, as heretofore, be the safest course for vessels of heavy draught entering between the heads.

SWAN SPIT LIGHT.

Fixed Red and White.

This light which has hitherto been colored red all round, will, on and after the 10th February next, be altered so as to show white from about E.N.E. to N.E. $\frac{1}{2}$ E., and from N.E. $\frac{3}{4}$

N. to N. by W. $\frac{1}{2}$ W., and red from N.E. $\frac{1}{2}$ E. to N.E. $\frac{3}{4}$ N. and N. by W. $\frac{1}{2}$ W. to S. $\frac{1}{2}$ W.

These bearings show white from the Queenscliff jetty round to a safe berth clear of No. 1 black buoy; thence red to a safe berth clear of the Royal George white perch buoy; thence white to the chequered buoy on Nicholson's Knoll; thence red across the Symonds and Lælia's Channels, and up the West and Cole's Channels.

These changes are intended to obviate the difficulties hitherto experienced in estimating a vessel's distance at night from the Shortland Bluff Reef and the two channel buoys at the entrance of the West Channel.

CORSAIR ROCK MARKS.

Alteration in the marks on Shortland's Bluff for clearing the Corsair Rock.

The present leading marks to clear the Corsair Rock are the flagstaff kept open west of the low lighthouse.

As the latter will be removed on the exhibition of the new lights, and the flagstaff being now on the spot where the lighthouse keeper's quarters are to be built, it will also be removed on the 19th of February to a site close to the high lighthouse, and from that date will cease to be a mark for the Corsair Rock.

Before the removal of the old low lighthouse and flagstaff, a stone obelisk, forty (40) feet high, colored red, will be erected close to the site of the former.

The leading marks to clear the Corsair Rock will then be the Red Obelisk and the east end of the Queenscliff Telegraph Station, a two-storied light-colored building, close to the high lighthouse.

On and after the 19th of February next, the following will be the directions to clear the Corsair Rock :—

Keep the east end of the Telegraph Station open to the westward of the Red Obelisk until you open the White Beacon on Point Nepean well out to the northward of the Red Beacon when bound inwards, and well out to the southward of the Red Beacon when bound outwards.

Masters of vessels and others who may possess the sailing directions and charts for this port can have the particulars of this notice inserted in their proper place in the directions, and the positions of the recently discovered rocks laid down on their charts, by sending them to this office.

The bearings are all magnetic, and are given from the ship, not from the lights.

*Leasing Government Railways, New South
Wales.*

Colonial Secretary's Office,
Auckland, 28th January, 1863.

THE following Notice, respecting the extension of the time for sending in Tenders

for Leasing Government Railways in New South Wales, is published for general information.

ALFRED DOMETT.

Department of Public Works,
Sydney, 9th December, 1862.

LEASING GOVERNMENT RAILWAYS.

Referring to the Notice from this Department, dated the 9th May last, inviting Tenders for leasing the Government Railways, from the 1st January next; Notice is now hereby given, that as the extensions at present in progress cannot be opened for traffic within the anticipated time, the Government will not be prepared to hand over the Railways before the 1st July next, and the time for receiving Tenders is consequently extended until the 1st May, 1863.

Those parties who have, in pursuance of the Notice dated the 9th May last, already submitted Tenders, are informed that the same will remain in this Office, unopened, until the extended time for the receipt of Tenders expires, up to which date they will be at liberty to send in amended Tenders or to withdraw those sent in.

Further particulars may be obtained at the Office of Public Works, Phillip Street, Sydney.
