GENERAL REMARKS. The weather has been unusually stormy throughout the Colony during this month. At Nelson, Christchurch, Hokitika, and Southland, there were very strong N.W. winds on 15th and 16th, with low barometer readings; and the maximum force of the wind for the month at all these stations occurred on the same date (16th). At Southland, the storm was very server. Gales also occurred in the North Island from the same quarter and about the same date. The most remarkable occurrence in this month was a severe earthquake shock, which was felt at all the stations except Mongonui, Otago, and Southland, on the 19th, at 0.15 a.m., and which appears to have come from the eastward, but was felt with greatest intensity as a wave of emergence along the west side of the Island—especially in Nelson and Taranaki, at which places a considerable amount of damage was done to buildings. buildings.
