WELLINGTON, SATURDAY, AUGUST 31, 1872.

(L.S.) G. F. BOWEN, Governor.  
A PROCLAMATION.

WHEREAS by a Proclamation bearing date the twenty-eighth day of May, one thousand eight hundred and sixty-eight, and published in the *New Zealand Gazette* of the second day of June in the same year, the district comprised in the Town of Lyttelton therein mentioned was (among other things) constituted and proclaimed to be a Borough under "The Municipal Corporations Act, 1867," as in the said Proclamation mentioned: And whereas by the said last-mentioned Act it is, among other things, enacted that it shall be lawful for the Governor, if he shall see fit so to do, by Proclamation, to annex to any borough, or to any ward, or in separate parts to any two or more wards of any borough, if divided into wards, any portion of New Zealand adjoining to such borough, and forming therewith one continuous area, and not lying within the limits of any borough or road district; and every such portion shall thereupon become and be part of such borough, and so much thereof as shall have been added to any ward of such borough shall be part of the ward to which it shall have been so added, and such borough or ward after such annexation shall, save where herein otherwise provided, be deemed to be the same borough or ward after such annexation as before: Provided that notice of the time when it shall please the Governor to order that any such intended annexation be taken into consideration shall be published by the Minister in the *New Zealand Gazette*, and in at least one paper generally circulating in the portion to be annexed, at least two months before any such annexation shall be made; and that if the whole or a majority of the inhabitant householders of such portion shall, by a petition under their hands, pray the Governor that such annexation be not made, then the same shall not be made: Provided also that there shall not be added to any borough or the wards thereof, either at the same time or at different times, any extent greater in the whole than nine square miles, or of which the population shall be less than fifty for each square mile so added, or in the like

proportion for any less extent: And whereas by "The Municipal Corporations Act Amendment Act, 1871," it is, among other things, enacted that the power conferred on the Governor by the eighteenth section of the firstly hereinbefore recited Act, of annexing to any borough or to any ward, or in separate parts to any two or more wards of a borough, any portion of territory adjoining such borough, may in the case of land reclaimed from the sea be exercised, notwithstanding that the whole or a majority of the inhabitant householders of such portion petition the Governor that such annexation be not made, and notwithstanding that the population of such portion is less than that required by the said eighteenth section of the said Act: And whereas it is expedient that the parcel of land described in the Schedule hereto should be annexed to the said Borough of Lyttelton, as the same is now constituted as aforesaid, and all the conditions and terms by the said Act imposed or required for the annexation of any portion of New Zealand to any borough as therein mentioned, and in so far as the same are applicable to the circumstances of the annexation hereinafter made, have been duly performed and complied with:

Now therefore, I, Sir George Ferguson Bowen, the Governor of the Colony of New Zealand, in pursuance and exercise of the power and authority vested in me by the hereinbefore in part recited Act, do hereby annex to the said Borough of Lyttelton that portion of land in the Province of Canterbury, in the said Colony, which is particularly described in the Schedule hereto.

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

WHEREAS by an Act of the General Assembly of New Zealand, intituled "The Electric Telegraph Act, 1865," the Governor of New Zealand is empowered to establish lines of Electric Telegraph and to purchase any lines of Electric Telegraph then existing: And whereas by the said Act it is, amongst other things, enacted that it shall be lawful for the Governor, by Order in Council, to make regulations for the transmission and delivery of all despatches, messages, and communications by means of any such line, and in like manner to fix and determine the fees, rates, or dues to be demanded and received for the transmission of any such despatch, message, or communication, and for the delivery thereof, respectively, and the modes and times of payment, and to regulate the conduct, management, working and maintenance of any such Telegraph Line, and any such fees, rates, dues or regulations from time to time to increase or lower, repeal, alter, or vary respectively, and direct and make such others as may be deemed expedient, and such fees, rates, and dues may be legally recovered; and such regulations shall have the force of law when published in the *Government Gazette* of the Colony:

**T**HE following Regulations respecting Subsidies to Works for Water Supply upon Gold Fields are republished for general information.

C. E. HAUGHTON.

WHEREAS by "The Immigration and Public Works Act Amendment Act, 1871," it is, amongst other things, enacted that the Minister for Public Works may receive applications from the owners or lessees of works for the supply of water on Gold Fields for mining and other purposes, or from other persons interested in such works about to be constructed, for advances of money to aid in the construction, extension, or improvement of such works: and by the said Act it is further enacted that the said Minister may make Regulations prescribing the mode of making and the form of such application, and for proceeding on such application, as in the said Act mentioned: And whereas it is expedient that Regulations should be made for the purposes in the said Act mentioned:

Now therefore, I, the Honorable John Davies Ormond, the Minister for Public Works, in pursuance and exercise of the authority vested in me by the said Act, do hereby make the Regulations set forth in the Schedule hereto, prescribing the mode of

making and the form of application for advances of money to aid in the construction of works for the supply of water on Gold Fields, and for proceeding on such application.

*Schedule of Regulations prescribing the Mode of making Applications for Advances of Money to aid in the Construction, Extension, or Improvement of Works for the Supply of Water upon Gold Fields.*

1. Persons desirous of obtaining advances of money for the purposes specified shall make application in writing to the Warden of the District, and such application shall state—

- (1.) The names and descriptions of the Applicants, or if they be a Registered or Joint Stock Company, then the registered particulars thereof.
- (2.) The names of the Engineer and Manager of the works.
- (3.) The general description of the water race or races, dams, reservoirs, or other works proposed to be constructed, together with duly attested copies of the certificate or certificates of title to the water or ground; the quantity of water intended to be conveyed or stored; the length of the race or races; size of reservoirs or dams, with plans, sections, and specifications; the maximum rate proposed to be charged for the water; the nature and extent of the auriferous ground proposed to be supplied with water.
- (4.) The estimated cost of the undertaking, given in detail.
- (5.) The proposed capital to be expended on works for the supply of water.
- (6.) The interests, if any, affected by the diversion or storage of the water to be dealt with.
- (7.) The amount of money proposed to be borrowed.

2. Before making application, the applicant shall pay to the Receiver of Land Revenue of the district a deposit of 2½ per cent. upon the money proposed to be borrowed, and, on making the application, shall forward therewith a receipt for the same.

3. The advances will be granted in proportion to the amount of money actually expended on the construction of the work, and shall not in any case exceed one-third of the amount so expended. The advances, subject to the approval of the Minister, shall be made on the certificate of the District Engineer, or other duly appointed person, that such work has been executed in accordance with the plans and specifications previously submitted and approved of by him or by the Engineer-in-Chief or Assistant Engineer-in-Chief. Advances will be made monthly, and only during the actual progress or execution of the work, and the final payment will be made on its actual completion.

4. Not more than fifteen thousand pounds (£15,000) will be advanced to any one undertaking.

5. Immediately after any application shall have been finally decided upon, the deposit thereon will be repaid, except so much as may be retained under authority of the Minister for covering the cost of the investigation made under the Act.

6. No loan will be made unless the borrowers shall have complied with all the provisions and requirements of the several Acts relating to the Gold Fields, and of any other law or regulation for the time being in force within the Gold Fields with respect to the proposed works.

7. Every work in respect of which any advance is made, shall be carried out in conformity with the par-

ticulars contained in the application, and in strict accordance with plans, sections, and specifications, which shall be approved of by the District Engineer, or Engineer-in-Chief, or Assistant Engineer-in-Chief; and detailed estimates of the cost of the works, which shall also be approved as above, and which detailed estimates will form the basis of advances as they may be required in all cases where the work is not executed by contract; but, in cases where the work shall be executed by contract, then the schedule prices attached to such contract shall be the basis of such advance. In cases where the work may already have been executed, or partly executed, for which advances have been applied for, the value thereof shall be determined by the District Engineer, who shall give a certificate as to his estimated value of such work; and the District Engineer shall have access at all times to the works; and if the Minister shall be satisfied at any time that the provisions of this regulation are not complied with, he may cause notice to be given to the borrowers, or their Engineer or Manager, requiring them to conform to such particulars and specifications; and if they shall refuse or neglect for one calendar month after such notice to comply therewith, then the Minister may cause the assent to the application for a loan in respect of such enterprise to be cancelled, and any moneys advanced under the same to be recovered under the security to be granted: Provided that the Minister may, if he think fit, agree during the progress of any works to such modifications as he may approve.

8. The promoters of any undertaking may at any time remove the same from the operation of these regulations, by writing under their hands, or under the hand of their registered manager, addressed to the Minister, and on repayment of the moneys that may have been advanced by the Government, with interest to date.

9. A full and correct account of the cost of construction of any undertaking to which the benefits of the Act are extended, shall be kept at the office of the promoters, and shall be open at all reasonable hours to the inspection of any person deputed by the Minister, and a statement of all payments on such accounts shall be forwarded at such periods and intervals as the promoters and the Minister may agree upon. A final account, showing the cost of the works, shall on their completion be forwarded through the District Engineer to the Minister, and the final balance shall be paid on this account in the proportion above stated. Always provided that the proposed manner of carrying out the works either by contract or otherwise shall have been previously approved of by the Minister.

10. The promoters of any undertaking to which money may be advanced shall, before the issue of any loan to them, give to the Minister a valid security, including a lien or mortgage to cover the amount of loan over the works and property proposed to be constructed; and all deeds necessary shall be prepared and completed at the expense of the promoters.

11. No money shall be paid towards the construction of any water race, dam, or reservoir until the promoters of the same shall have duly registered themselves under the Mining Companies Limited Liability Act or the Joint Stock Companies Act.
