JULIUS VOGEL.

NOTICES TO MARINERS.

No. 11 of 1874.

Customs Department (Marine Branch),
Wellington, 27th May, 1874.

THE following Notices to Mariners, received from Queensland and Western Australia, are published for general information.

JULIUS VOGEL,
(in absence of Commissioner of Customs).

ENDEAVOUR RIVER.

IN consequence of the narrowness of the channel, and the want of available space for swinging within the Port, masters of vessels bound for the Endeavour River are cautioned not to enter without a pilot.

If when they arrive off the port the pilot is not available, they must either stand off and on until he is able to get out to them, or anchor off the mouth of the river in six fathoms, being careful to keep Walker Point open of Monkhouse Point. They must also have warps in readiness for mooring by the stern, if necessary.

Sailing vessels visiting the port should be provided with good long lines and handy kedges, as, during the S.E. trades, vessels always have to be warped out of the river.

A Signal Station will shortly be established, from which the necessary directions will be given to vessels arriving off the Endeavour, and warping buoys will also be laid down to facilitate the movements of vessels in and out of the port.

Commander R.N., Portmaster.

Department of Ports and Harbours,
Brisbane, 15th April, 1874.

Surveyor-General's Office,
Perth, 15th April, 1874.

THE following communication is published for the information of masters of vessels trading to and from Champion Bay, Western Australia.

MALCOLM FRASER,
Surveyor-General.

Brig "Centaur," Champion Bay,
26th March, 1874.

SIR,—I beg leave to report a reef which I passed on my passage from Fremantle. This morning, while steering for Moore Point, N.N.W., breakers were reported on the port bow. Being, as near as I could judge, about five miles outside the coast reef at the time, I consulted my charts of the coast; 3, the latest, is corrected (1872) by H.M.S. "Clio." I called Mr. Victor's and Mr. Forrest's attention to it, and we found that it is not marked. I took the bearings of the north end from the ship, centre of the Break West, distant $1\frac{1}{2}$ mile, Mr. Forrest's Trig. Station J N.E. by E. $\frac{1}{2}$ E., distant about eight miles, the low black point Port Grey N. by E., distant twelve miles; wind at the time blowing strong from S.S.W., with heavy sea. From the mast-head I could see the coast reef quite plain, and the reef above-mentioned to run N.E. and S.W., I should say about three miles in extent, breaking heaviest at the extremes. Trusting, Sir, that you will take notice of this for the benefit of shipmasters,

I have, &c.,
ANDREW L. EDGAR,
Master of the "Centaur."

To the Surveyor-General, W.A.
