(L.S.) NORMANBY, Governor.
A PROCLAMATION.

WHEREAS by "The Immigration and Public Works Act, 1870," it is enacted that the railways to be constructed under the said Act shall be only such railways as shall from time to time be determined by the General Assembly: And it is also thereby enacted that, subject to the provisions contained therein, the Governor may construct, or cause to be constructed, any lines of railway which shall be prescribed by the General Assembly as railways to be constructed under the said Act, or any part or parts thereof, and acquire the necessary engines, plant, and machinery for working and using the same, or any of them: And it is also thereby enacted that, whenever the Governor shall determine to construct any such railway, or any part thereof, it shall be lawful for him, by Proclamation published in the *New Zealand Gazette*, to declare and define the limits and description and line thereof, and the lands proposed to be taken for the purpose of such railway, subject to the provisions of any Act defining such limits and descriptions; and any such Proclamation may refer to maps, plans, or drawings to be deposited in the office of the Registrar or Deputy Registrar of the Supreme Court in the province in which such railway or part thereof is proposed to be constructed, and any maps, plans, or drawings so referred to shall be deemed to form part of such Proclamation; and upon the publication of such Proclamation, the provisions and regulations contained in the Seventh Part of the said Act shall be applicable to the railway, and to the lands to which the Proclamation shall relate: And it is also thereby enacted that it shall be lawful for the Governor to make, construct, and maintain any such railway as aforesaid, with proper works, approaches, and conveniences connected therewith, commencing at the place delineated on, and extending along the lines set forth in, and terminating at a point described in the Act or Proclamation proclaiming and defining

such railway, or shown in the maps, plans, or drawings referred to in such Act or Proclamation: And it is also thereby enacted that the Governor may direct that any part of such line of railway may be constructed on and along any part of any public highway, and that any part of any such line of railway may be constructed on or through any public reserves: And it is also thereby enacted that, subject to the provisions of that Part of the said Act and of the Acts incorporated therewith, the Governor may exercise all or any of the powers by that Part of the said Act or the said incorporated Acts conferred upon him for the construction of any such railway, and may enter upon, and cause to be entered upon, all lands within the colony, for the purpose of making such surveys as may be necessary, and may take and hold all the lands required for the railway along the line set forth and described as aforesaid, or within the limits of deviation described in the Proclamation relating thereto, and may temporarily occupy and use such lands as may be necessary on either side of the railway, during the construction thereof:

And whereas by "The Railways Act, 1870," "The Railways Act, 1871," "The Railways Act, 1872," "The Railways Act, 1873," and "The Railways Act, 1874," it is enacted that the Governor may, under the provisions of the hereinbefore firstly recited Act and of the now reciting Acts, construct and maintain, or cause to be constructed and maintained, the several lines of railway specified therein; and it is also thereby enacted that the line of the railways thereby authorized to be constructed shall be fixed by the Governor, and shall commence and terminate at points to be fixed by the Governor: And whereas by "The Immigration and Public Works Act, 1872," it is enacted that as to any railway which the Governor has been authorized to construct, and to fix the commencing and termination points and line thereof, it shall be competent for him, if he thinks fit, instead of fixing and proclaiming such points and the whole line at one time, to fix and proclaim portions of such line from time to time, and the commencing and termination points of any such portion or portions, and the limits and description of any such portion or portions, and the lands proposed

to be taken for the purpose of any such portion or portions, and to construct any portion or portions so fixed, and to take the lands for the same; and any such portion so proclaimed shall be deemed to be a railway within the meaning of the said Act and the said amending Act and this Act:

And whereas by "The Immigration and Public Works Act, 1872," it is enacted that, at any time after the expiration of twenty-one days from the publication in the *New Zealand Gazette*, and in a newspaper ordinarily circulating in the district, of a Proclamation under the thirteenth section of the said Act, whether of the whole or a portion or portions of a line of railway, the Governor, on behalf of Her Majesty, may enter upon, take possession of, use and hold, or cause to be entered upon, taken possession of, used and held, so much of the lands defined in such Proclamation as proposed to be taken as shall be required to be taken, purchased, or permanently used for the purposes of such railway, notwithstanding that an agreement shall not have been come to or an award made for the purchase or compensation money to be paid in respect of such lands:

And whereas by the said last-mentioned Act it is also enacted that in any case in which a road or right of road has been or hereafter may be reserved in any Crown grant, and in any case in which, under "The Native Lands Act, 1865," or any law for the time being in force relating to the sale of waste lands of the Crown, or any law whatever, there is a right to take a public road through any lands, it shall be lawful, after such road shall have been surveyed, to construct under the said Acts any railway, or any part of any railway, on the road so surveyed, notwithstanding that such road may not have been made:

And whereas the Governor has determined to construct and maintain a portion of the railway from Waipukurau to Manawatu, authorized to be constructed by "The Railways Act, 1874," which said portion is hereinafter described:

Now therefore, I, the Most Honorable George Augustus Constantine, Marquis of Normanby, the Governor of the Colony of New Zealand, in exercise and pursuance of the powers and authorities conferred on me by the hereinbefore in part recited Acts, and in exercise of every other power enabling me in this behalf, do hereby proclaim, declare, and define the limits, description, and line of the said portion of the said railway to be those set forth in the First Schedule hereto; and that the lands specified and described in the Second Schedule hereto are proposed to be taken for the purposes of the said portion of the said railway; and that the limits of deviation shall be those set forth in the said First Schedule hereto; and in pursuance and exercise of all powers and authorities conferred on me in that behalf, I do hereby fix the point of commencement of the said portion of the said railway to be at or near a point which is marked 58 miles 32.12 chains, situated on the Waipukurau-Manawatu Railway, in Section numbered 234, in the Province of Hawke's Bay, and the point of termination thereof to be at or near a point which is marked 63 miles 60 chains, and situated in Native land in the same province.

N.B.—Although the Auckland and Hokitika Hospitals are situated outside the boundaries of the respective boroughs, yet the deaths in them have, for the sake of uniformity, been included in this Report.

The population has been estimated by adding the excess of births over deaths since the 1st March, 1874, to the then census population. It is impossible to estimate the increase from immigration.

The births were 32 fewer than in June.

The deaths were 14 fewer in number than the deaths in June.

Of the deaths, males contributed 83; females, 55: 60 of the deaths were of children under 5 years of age, being 43.47 per cent. of the whole number; 42 of these were of children under 1 year of age.

There were 13 deaths of persons of 65 and upwards: 1 male of 80, and 3 females of 72, 80, and 87 respectively, in Auckland; 1 female of 73 at the Thames; 3 males of 65, 75, and 100, and 3 females of 70, 73, and 81 respectively, in Wellington; and 2 males of 71 and 75 respectively in Dunedin.

Notice to intending Exhibitors at the forthcoming Philadelphia Exhibition, 1876.

TO BE OPENED 10TH MAY, AND CLOSED 10TH NOVEMBER, 1876.

GENERAL REGULATIONS.

1. All Exhibits must be forwarded to the Commissioners at Wellington, through the Local Committees, before the 15th November, 1875.
2. Local Committees will take steps to insure that collections from their respective provinces shall reach Wellington by that date.
3. Each Exhibit must be accompanied by two copies of full, written descriptions, stating value; and by the name and address of the Exhibitor in full.
4. If Exhibits are not intended for competition, it must be so stated by the Exhibitor.
5. If more than one Exhibit is packed in a case, it will be advisable to distinguish each Exhibit by a serial number.
6. Each package must have affixed to it a label or mark showing the province from which it comes, and the serial number of the package.
7. All expenses of transport, &c., after Exhibits are received by Local Committees, will be undertaken by the Commissioners; but all expenses up to the time of their reception by Local Committees will have to be defrayed by such Committees.
8. The collections sent from New Zealand will be confined, as closely as possible, to the raw products of the country, and articles manufactured from them. The exhibition of miscellaneous articles—unless illustrating the history of the country or its scenery—will not be encouraged.
9. It is very necessary to insure that nothing is exhibited which is not first-class. Exhibitors, especially of wool, should therefore be very careful in their selection of specimens.
10. The principal articles the collection of which the Commissioners would urge are as follow—(The maximum and minimum quantities which will be received are also given, where limit is necessary):—
 - (1.) Gold.—The Commissioners will obtain specimens from the Bank of New Zealand.
 - (2.) Grain.—*Max.*, $\frac{1}{2}$ bushel; *min.*, $\frac{1}{4}$ bushel.
 - (3.) Wool.—*Max.*, 60 lbs.; *min.*, 40 lbs.
 - (4.) Coal.—*Max.*, 50 lbs.; *min.*, 25 lbs.
 - (5.) Timber.—Series of uniform samples only. Sections with the bark on and only half the face polished, the other half being left in its natural state. Specimens to be not longer than 3 feet.
 - (6.) Flax.—Dressed Fibre, *max.*, 50 lbs.; *min.*, 30 lbs.
Rope, and other Manufactured Articles.
 - (7.) Kauri Gum.—*Max.*, 50 lbs.; *min.*, 30 lbs. This is much used in the United States, and a carefully made collection would be of importance to the colony.
 - (8.) Tanning Barks.
Leather.
Dyes.
Paint.

- (9.) Preserved Meat.—*Max.*, 50 lbs.; *min.*, 30 lbs.
 (10.) Wine, Beer, and Spirits.—In bottle—*max.*, 2 gallons. Beer, in wood—*max.*, 18 gallons.
 (11.) Tobacco Leaf and Cigars.—*Max.*, 10 lbs.; *min.*, leaf, 5 lbs., cigars, 1 lb.
 (12.) Mineral Waters.—*Max.*, $\frac{1}{2}$ gallon.
 (13.) Minerals and Ores.
 (14.) Works of Art.—Only those illustrative of New Zealand scenery.
 (15.) Miscellaneous Articles.—Only such as illustrate the history of the country or its inhabitants.

11. If such specimens of the raw products of the colony as are enumerated above are not freely given, the Commissioners will take into favourable consideration any suggestions made by Local Committees as to their purchase.

12. The Commissioners will use every endeavour to provide against the loss or damage of the collections, which will be duly insured, but they will not hold themselves or the Government responsible for any damage or loss.

13. Any Exhibits not absolutely given to or bought by the Commissioners (unless the owners expressly desire that they be disposed of at Philadelphia) will be returned to the Local Committees at the expense of the Commissioners, who, however, will not be responsible for any damage or loss.

14. In case it is found impossible to forward samples of wool from the clip of next season by the 15th November, the Commissioners will receive such Exhibits in Wellington up to the 10th December; but no other Exhibits will be received after 15th November.

15. In the event of proposed Exhibits of Wool not being received in Wellington by 15th November, or by the Local Committees at such time as they may appoint before that date, duplicate lists and descriptions of such proposed Exhibits must be sent in full to the Commissioners by 15th November, just as if the Exhibits themselves were sent, in order that their description may appear in the Official Catalogue.

16. Local Committees will, at their discretion, accept articles for exhibition, subject to final revision by the Commissioners, as space for exhibition is limited.

17. Local Committees are recommended to appoint Sub-Committees to assist them in seeing that none but first-rate specimens of raw products are forwarded to Wellington.

W. B. D. MANTELL,

Chairman of Commissioners.
