THE following Notice to Mariners is published for general information.

LIGHT AT CAPE BOWLING-GREEN.

IN consequence of great changes having taken place in the formation of the outlying banks off Cape Bowling-Green, which have allowed the sea to make serious inroads upon the shore, it may probably be necessary to remove the present Lighthouse.

Masters of vessels are therefore cautioned that the present revolving light may probably be replaced shortly by a temporary fixed light, until some more permanent arrangement can be made.

The temporary light will be visible from a distance of nine or ten miles.

NOTICE TO MARINERS.

No. 25 of 1875.

WEST COAST OF MIDDLE ISLAND.

Customs Department (Marine Branch),
Wellington, 3rd November, 1875.

NOTICE is hereby given, that the danger off Kiourangi Point, West Coast of Middle Island, has been surveyed and found to be a most dangerous rocky shoal, of nearly three quarters of a mile long by half a mile broad, having near its southern end a shallow patch with only $3\frac{1}{2}$ fathoms on it, Kiourangi Point bearing S. 30° E. (magnetic), distant $4\frac{1}{2}$ miles. Vessels should approach this danger very cautiously in heavy weather, as the sea breaks heavily for a considerable distance. The passage inshore is about $3\frac{1}{2}$ miles wide, and is clear of danger.

Notice is also given, that the shallow banks inside the Steeples, Cape Foulwind, and the entrance to the Buller River, have been surveyed. Masters of vessels taking shelter inside the Steeples should, with the wind from seaward, get underweigh on the ebb as the flood sets on the Steeples. Vessels bound for the Buller should be guided by the signals exhibited on the flagstaff, and steer in as shown by the semaphore arm, as a strong current is sometimes felt across the entrance and on the bar.

The bar bears from the outer Steeple E. $\frac{3}{4}$ N. magnetic, distant $5\frac{1}{2}$ miles. The lighthouse on Cape Foulwind is in course of construction, and the light, which will be revolving, once every half-minute, is expected to be ready for lighting about June or July 1876.

The position of the flagstaff at the Buller is—latitude, $41^{\circ} 45' 55''$ S.; and longitude, $171^{\circ} 42' 7''$ E.

Charts of Kiourangi Shoal and Buller Entrance can be procured at the principal Custom Houses.
