\* The clean certificates for three flocks on this station are cancelled.

Clean certificate for ewe flock cancelled.

#### Rangitikei, 31st December, 1876.

SIB,-I have the honor, in forwarding my Returns of Sheep for the Rangitikei and West Coast District, to report an increase of 18,647 upon last year's to report an increase of 16,077 upon last years returns, making a difference in the amount of assess-ment of £38 17s. 11 $\frac{1}{3}$ d. in favour of the present returns. It will be seen at the same time that scab returns. It will be seen at the same time that scab has not been entirely eradicated from the district; I am glad, however, to say there is only one flock actually scabby, as compared with three in my last Report for 1875.

I drew attention in my last Report to the rapid increase the sheep-louse was making throughout the district. I am of opinion that the only remedy for this would be to have all flocks dipped once every year. I feel sure that every flockowner who has done this will bear me out that their flocks have been benefited to more than the cost of dipping by so doing.
There is a marked improvement in the breeding
\* A large proportion of Mr. Lethbridge's sheep are clean, although scab still exists in a separate flock, for which the owner hopes shortly to obtain a clean certificate.
\* Since making up my returns, I regret having had to cancel the clean certificate for a separate flock of 2,000 sheep belonging to Messre. Owen and Lethbridge in consequence of a scabby lamb from the flock of Mr. Lethbridge having mixed. No actual scab has appeared. Mr. Owen, however, lost no time in having the flock dipped, with a view to prevent an outbreak of the disease in the same.

clearly noticed throughout the district; the clip of wool has been unusually good this season; and in most cases the percentage of lambs has far exceeded that of former years.

# I have, &c.,
