Despatch from the Secretary of State.

Customs Department,
Wellington, 18th May, 1877.

THE following despatch from Her Majesty's Principal Secretary of State for the Colonies, with its enclosure, is published for general information.

GEO. McLEAN.

[CIRCULAR.]

Downing Street, 2nd February, 1877.

SIR,—I have the honor to transmit to you, for your information, and for publication in the colony under your Government, a copy of an Order of the Queen in Council, dated the 30th September, 1873, extending to Italian vessels the advantages held out by "The Merchant Shipping Act, 1862," to ships of foreign countries, adopting the rules for the measurement of tonnage which obtain in this country.

I have, &c.,

CARNARVON.

The Officer Administering
the Government of New Zealand.

The Board of Trade to the Colonial Office.

INSTRUCTIONS TO MEASURING SURVEYORS.

INTERNATIONAL TONNAGE.

Board of Trade, November, 1873.

THE Board of Trade forward herewith, for the information and guidance of officers concerned in the duties of measurement and registry of ships, a copy of a recently issued Order in Council which extends to vessels of the Kingdom of Italy the advantages held out by the 60th section of "The Merchant Shipping Act, 1862."

In consequence of the amount of deduction for propelling power being different in the two countries, option is granted by the enclosed order to the

masters of steamships of the Kingdom of Italy, whereby the said masters may elect to have the engine-room measured under the rules relating to British ships.

When the engine-room is measured according to the British rules in such cases, a "Certificate of British Tonnage" is to be granted, adopting thereon the gross tonnage as stated in the Italian Certificate of Registry, and deducting from the gross tonnage the allowance for engine-room under the British rules and also the allowance on account of spaces occupied by seamen or apprentices, and appropriated to their use.

A copy of the document furnished to the Italian master is to be sent to the principal surveyor for tonnage, with a note thereon of the measurement of engine-room and the amount of deduction under the Italian rules.

The fees for admeasurements under the accompanying Order in Council are to be the same as for the admeasurement of British ships for the time being, but only for the spaces actually measured.

THOMAS GRAY.

ORDER IN COUNCIL REFERRED TO.

At the Court at Balmoral, the 30th day of September, 1873.

Present:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it is enacted that, whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificate of registry or other national papers; and thereupon it shall no longer be necessary for such ships to be remeasured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted in their certificate of registry or other papers in the same manner, to the same extent, and for the same purposes in, to, and for which the tonnage denoted in the certificate of registry of British ships is to be deemed the tonnage of such ships:

And whereas it has been made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships now in force under "The Merchant Shipping Act, 1854," have been adopted by the Government of His Majesty the King of Italy, and such rules are now in force in that country, having come into operation on the first day of July, one thousand eight hundred and seventy-three:

Her Majesty is hereby pleased, by and with the advice of Her Privy Council, to direct as follows:—

1. As regards sailing ships: That merchant sailing ships of the said Kingdom of Italy, the measurement whereof, after the said first day of July, one thousand eight hundred and seventy-three, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage denoted in such registers and other national papers in the same manner, and to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.

2. As regards steamships: That merchant ships belonging to the said Kingdom of Italy which are propelled by steam or any other power requiring

engine-room, the measurement whereof shall, after the said first day of July, one thousand eight hundred and seventy-three, have been ascertained and denoted in the registers and other national papers of such steamships, testified by the dates thereof, shall be deemed to be of the tonnage denoted in such registers or other national papers in the same manner, and to the same extent, and for the same purposes in, to, and for which the tonnage denoted in the certificate of registry of British ships is deemed to be the tonnage of such ships: Provided, nevertheless, that if the owner or master of any such Italian steamship desires the deduction for engine-room in his ships to be estimated under the rules for engine-room measurement and deduction applicable to British ships, instead of under the Italian rule, the engine-room shall be measured and the deduction calculated according to the British rules.
