A Royal Commission will be appointed immediately, who will prepare and publish regulations under which they will receive exhibits for transmission.

As articles for exhibition should be shipped from Wellington not later than June next, persons wishing to exhibit are invited to communicate with Dr. Hector, the Chairman of the Royal Commission, without delay.

All expenses of transmitting and exhibiting approved articles will be defrayed by the Government; but, as experience has proved that in exhibitions of this kind the best effect is produced by a few well-displayed objects of considerable size, and as the space allowed to the colony for exhibition will be limited, a careful selection will have to be made, so that the representation may be complete.

The Collectors of Customs at the various ports have been instructed to receive exhibits, and to forward them to the Chairman of the Exhibition Commission at Wellington, by whom they will be collected and transmitted to Sydney; but no ex-

hibits can be received later than the 30th June, 1879.

After the Exhibition is closed, the exhibits will be either returned to exhibitors free of expense, or sold or otherwise disposed of in Sydney, at the desire of the exhibitors; but the Government undertakes no responsibility for loss or damage, either in transit or during exhibition, or in regard to the price to be realized if sold, nor will they guarantee the safe remittance of the money.

Tenders Invited.

TO IRONMASTERS.—WANTED, 100,000 TONS OF STEEL RAILS.

Public Works Office,
Wellington, New Zealand,
6th November, 1878.

WRITTEN TENDERS will be received at Wellington by the Hon. the Minister for Public Works up to 30th September, 1879, for the supply of the whole or any portion of 100,000 tons of steel rails, to be manufactured within the colony from New Zealand ores. Payment will be made in cash on delivery at the works—the Government of New Zealand agreeing to pay, in addition, one-half of the cost of the conveyance to the colony by sea of the workmen to be engaged in the manufacture.

Information as to the mineral resources of New Zealand, and maps indicating the various localities in which mineral deposits are situated in relation to means of transport, may be had on application to the Agent-General of New Zealand, 7, Westminster Chambers, Victoria Street, London; or to W. Walton Evans, Esq., 66½, Pine Street, New York.

As it is unlikely that intending contractors will enter into an engagement of the above nature without first satisfying themselves by personal inspection as to the position and extent of the raw material in New Zealand required for the manufacture of iron, every facility and information on this subject will be afforded on application to Dr. Hector, C.M.G., F.R.S., Director of the Geological Department, Wellington.

For the information of parties desiring to tender, it may be stated that the official returns show that there were imported into New Zealand, within the last eight years, 15,500 tons of cast-iron, and 93,000 tons of wrought-iron, exclusive of iron for Government and other railways, during which period 1,068 miles have been constructed and opened for traffic.

JOHN KNOWLES,
Under Secretary for Public Works.

NOTICE.

Public Works Office,
Wellington, New Zealand,
6th November, 1878.

THE foregoing advertisement will be published in the United Kingdom, the North American States, and the Continent of Europe.

New Zealand colonists who may have friends and correspondents connected with the iron manufacture are requested to be good enough to draw attention to the highly advantageous and profitable field for enter-

prise which this colony presents to those who can bring the necessary capital and practical experience to bear upon such manufacture.

JOHN KNOWLES,
Under Secretary for Public Works.
