Australian International Exhibition.

Colonial Secretary's Office,
Wellington, 20th January, 1879.

REFERRING to the notice published in the *New Zealand Gazette* No. 36, of the 26th of April, 1878, relative to the Australian International Exhibition to be held in Sydney, New South Wales, in August, 1879, it is hereby further notified that the Government of New Zealand will be prepared to receive and to forward to Sydney any articles for exhibition which may be prepared by persons resident in this colony.

A Royal Commission will be appointed immediately, who will prepare and publish regulations under which they will receive exhibits for transmission.

As articles for exhibition should be shipped from Wellington not later than June next, persons wishing to exhibit are invited to communicate with Dr. Hector, the Chairman of the Royal Commission, without delay.

All expenses of transmitting and exhibiting approved articles will be defrayed by the Government; but, as experience has proved that in exhibitions of this kind the best effect is produced by a few well-displayed objects of considerable size, and as the space allowed to the colony for exhibition will be limited, a careful selection will have to be made, so that the representation may be complete.

The Collectors of Customs at the various ports have been instructed to receive exhibits, and to forward them to the Chairman of the Exhibition Commission at Wellington, by whom they will be collected and transmitted to Sydney; but no exhibits can be received later than the 30th June, 1879.

After the Exhibition is closed, the exhibits will be either returned to exhibitors free of expense, or sold or otherwise disposed of in Sydney, at the desire of the exhibitors; but the Government undertakes no responsibility for loss or damage, either in transit or during exhibition, or in regard to the price to be realized if sold, nor will they guarantee the safe remittance of the money.

The light is a revolving white light of the fourth order, flashing at intervals of 20 seconds, elevated 80 feet above high water, and should be visible in clear weather from a distance of 14 miles in every direction seaward.

The light tower—a white column 76 feet high from base to vane—is situated to seaward of the cocoanut trees, about $2\frac{1}{2}$ cables from the shore, and 4.6 nautic miles N. by E. $\frac{2}{3}$ E. from the old light-house at Cocanada.

The illuminating apparatus is catadioptric, or by reflectors and lenses of the fourth order

Position: Latitude $17^{\circ} 0' 40''$ N., longitude $82^{\circ} 16' 30''$ E.

This light is intended to lead vessels clear of the shoals to the north of Point Godavari (Gordeware), when coming into the Cocanada anchorage from the southward and eastward.

In rounding the point, vessels should not come under 10 fathoms till the Vakalapudi light bears to the westward of W.N.W., and the fixed light on Hope Island bears S. by W., when the anchorage, which is in 5 fathoms, may be safely approached.

The bearings are magnetic: Variation $2^{\circ} 0'$ easterly in 1879.

Fixed Light at Roji (Nowa-nugag).

OFFICIAL information has been received in this Department that a light is now—and has been since the year 1867—exhibited on Roji Island, south shore of the Gulf of Cutch.

The light is a fixed *white* light, elevated 42 feet above high water, and should be visible in clear weather from a distance of 7 miles, through an arc of 120° , or between the bearings of S.E. by E. $\frac{1}{4}$ E., round by the south to S.W. by W. $\frac{1}{4}$ W.

The light tower is round and white-washed, is 50 feet high from base to vane, and is situated near the west corner of Roji mata (temple), which lies on the north-east point of Roji Island, at the entrance to Nowa-nugga Creek.

The illuminating apparatus consists of a lantern with three burners and reflectors.

Position (Admiralty Chart): Latitude $22^{\circ} 32' 50''$ N., longitude $70^{\circ} 1' 30''$ E.

Fixed Light at Entrance to Toona Creek.

INFORMATION has been received from the Political Agent at Cutch Mandvee that a light was exhibited, on the 5th September, 1878, from a lighthouse recently erected on the swampy land south of Tekra Island, as a guide to vessels making for Toona, north shore of the Gulf of Cutch.

The light is a fixed *white* light, shown from an ordinary lantern elevated 17 feet above high water, and should be visible in clear weather from a distance of 6 miles.

The light tower—which is built of stone, and 23 feet high—stands on the eastern edge of a low mangrove swamp about three-quarters of a mile south of Tekra Island, Toona Creek. At high tides this swamp is overflowed, which gives the lighthouse the appearance of being built in the water.

Position (Admiralty Chart): Latitude $22^{\circ} 55' 30''$ N., longitude $70^{\circ} 7' 10''$ E.

WALTER H. PEARSON,
Commissioner of Crown Lands.

Legislative Council Standing Orders relative to Local Bills.

Legislative Council,
1st February, 1879.

IN accordance with a resolution of the Legislative Council, the following Standing Orders relative to Local Bills are published for general information.

L. STOWE,
Clerk of the Legislative Council.

STANDING ORDERS OF THE LEGISLATIVE COUNCIL RELATIVE TO LOCAL BILLS.

1. Local Bills are those which not being such as require to be introduced as Private Bills, are yet Bills specially affecting local interests and dealing with private rights, or with public reserves for local and municipal purposes; also Bills altering the constitution, election, or powers of local public bodies.

2. There shall be a Standing Committee, to consist of five members, to be called the "Local Bills Committee," to which shall stand referred, after their first reading, all Bills which may appear to the Speaker to come within the description given in the preceding Order. Such Committee shall, in the case of every Bill referred to it, decide whether the same comes within the definition of a Local Bill; and, if so, whether the conditions laid down in Orders 3, 4, and 5 have been complied with.

3. No Local Bill shall be introduced into the Legislative Council by any member later than two months after the commencement of the session.

4. The member in charge of a Local Bill shall produce to the Local Bills Committee satisfactory evidence that the intention to introduce the Bill and the purport of the same has been made public in the locality whose interests are affected, by advertisement in a local newspaper, at least four times in four successive weeks. When the Bill specially affects the interests of any private individual, evidence shall also be produced that personal notice to the effect above stated has been given to such individual.

5. When a Local Bill refers to an exchange of or other dealing with any Crown lands, or with a public reserve, the member in charge thereof shall also produce a certified map, on a scale of not less than 20 chains to an inch, showing the land or reserve in question, and the mode in which it is proposed to deal with the same. When any Schedule containing a description of any land is attached to such Bill, it shall be accompanied by a certificate of its correctness from an officer of the Survey Department or other duly-authorized Surveyor.

Tenders Invited.

TO IRONMASTERS.—WANTED, 100,000 TONS OF STEEL RAILS.

Public Works Office,
Wellington, New Zealand,
6th November, 1878.

WRITTEN TENDERS will be received at Wellington by the Hon. the Minister for Public Works up to 30th September, 1879, for the supply of the whole or any portion of 100,000 tons of steel rails, to be manufactured within the colony from New Zealand ores. Payment will be made in cash on delivery at the works—the Government of New Zealand agreeing to pay, in addition, one-half of the cost of the conveyance to the colony by sea of the workmen to be engaged in the manufacture.

Information as to the mineral resources of New Zealand, and maps indicating the various localities in which mineral deposits are situated in relation to means of transport, may be had on application to the Agent-General of New Zealand, 7, Westminster Chambers, Victoria Street, London; or to W. Walton Evans, Esq., 66½, Pine Street, New York.

As it is unlikely that intending contractors will enter into an engagement of the above nature without first satisfying themselves by personal inspection as to the position and extent of the raw material in New Zealand required for the manufacture of iron, every facility and information on this subject will be afforded on application to Dr. Hector, C.M.G., F.R.S., Director of the Geological Department, Wellington.

For the information of parties desiring to tender, it may be stated that the official returns show that there were imported into New Zealand, within the last eight years, 15,500 tons of cast-iron, and 93,000 tons of wrought-iron, exclusive of iron for Government and other railways, during which period 1,068 miles have been constructed and opened for traffic.

JOHN KNOWLES,
Under Secretary for Public Works.

NOTICE.

Public Works Office,
Wellington, New Zealand,
6th November, 1878.

THE foregoing advertisement will be published in the United Kingdom, the North American States, and the Continent of Europe.

New Zealand colonists who may have friends and correspondents connected with the iron manufacture are requested to be good enough to draw attention to the highly advantageous and profitable field for enterprise which this colony presents to those who can bring the necessary capital and practical experience to bear upon such manufacture.

JOHN KNOWLES,
Under Secretary for Public Works.
