Australian International Exhibition.

Colonial Secretary's Office,
Wellington, 20th January, 1879.

REFERRING to the notice published in the *New Zealand Gazette* No. 36, of the 26th of April, 1878, relative to the Australian International Exhibition to be held in Sydney, New South Wales, in August, 1879, it is hereby further notified that the Government of New Zealand will be prepared to receive and to forward to Sydney any articles for exhibition which may be prepared by persons resident in this colony.

A Royal Commission will be appointed immediately, who will prepare and publish regulations under which they will receive exhibits for transmission.

As articles for exhibition should be shipped from Wellington not later than June next, persons wishing to exhibit are invited to communicate with Dr. Hector, the Chairman of the Royal Commission, without delay.

All expenses of transmitting and exhibiting approved articles will be defrayed by the Government; but, as experience has proved that in exhibitions of this kind the best effect is produced by a few well-displayed objects of considerable size, and as the space allowed to the colony for exhibition will be limited, a careful selection will have to be made, so that the representation may be complete.

The Collectors of Customs at the various ports have been instructed to receive exhibits, and to forward them to the Chairman of the Exhibition Commission at Wellington, by whom they will be collected and transmitted to Sydney; but no exhibits can be received later than the 30th June, 1879.

After the Exhibition is closed, the exhibits will be either returned to exhibitors free of expense, or sold or otherwise disposed of in Sydney, at the desire of the exhibitors; but the Government undertakes no responsibility for loss or damage, either in transit or during exhibition, or in regard to the price to be realized if sold, nor will they guarantee the safe remittance of the money.

NOTICE TO MARINERS.

No. 22 of 1879.

Marine Department,
Wellington, 2nd May, 1879.

THE following Notices to Mariners, received from the Marine Board at Port Adelaide, and the Superintendent of Marine Surveys at Calcutta, are published for general information.

J. BALLANCE.

COMMISSARIAT POINT, SPENCER GULF.

MARINERS are hereby informed that a perch buoy, painted black, has been moored on a sand-spit between the two black beacons, Commissariat Point, Spencer Gulf. Masters of vessels navigating in these waters without a pilot should keep well in mid-channel, as the water in many places shoals suddenly.

R. H. FERGUSON,
President, Marine Board.

Marine Board Offices, Port Adelaide,
31st March, 1879.

PORT BROUGHTON, SPENCER GULF.

NOTICE is hereby given that a new channel has opened out at the entrance to Port Broughton, and has been marked by two perch buoys; one (painted black) lies 440 feet south of the red beacon marking the old entrance, and the other (painted red) lies 310 feet E. $\frac{3}{4}$ N. from the black buoy.

Twenty new cask buoys (painted red) have been moored along the channel, nearly up to the jetty. Vessels coming in should leave them on the starboard hand, and when approaching the entrance should borrow towards the perch buoys, as by passing either of these at a distance of 70 or 80 feet they will avoid a small knoil which lies in mid-channel and has a foot less water upon it.

By following the above directions, when nearing or crossing the entrance, not less than 5 feet at low water will be obtained.

Bearings are magnetic.

R. H. FERGUSON,
President, Marine Board.

Marine Board Offices, Port Adelaide,
31st March, 1879.

KANGAROO ISLAND (EASTERN COVE).

NOTICE is hereby given to masters of coasting vessels and others, who may be desirous of seeking shelter in what is locally known as American River, that the entrance has been marked by a chequered perch buoy, painted black and red, and moored in mid-channel, in 9 feet at low water. Vessels can pass on either side of it.

Another chequered perch buoy, similar to the above, has been moored in mid-channel, about half a mile to the S.W. of the buoy marking the entrance. After

passing this buoy no difficulty will be experienced in reaching the anchorage off Buick's, the sand-banks on either side being well defined.

President, Marine Board.

BAY OF BENGAL—BRITISH BURMA.

Sunken Dangers between Alguada Reef and Diamond Island.

NOTICE is hereby given that a recent examination of the approaches to the Bassein River, made by the Superintendent of Marine Surveys, exhibits five separate shoal ridges—on which are rocky patches with from 4 to 13 feet water on them—lying in a N.E. and S.W. direction, between Alguada Reef and Diamond Island, Bassein River entrance.

The least water discovered was on the Hugh Rose Rock, which lies N.N.E. $\frac{1}{4}$ E., distant $2\frac{1}{2}$ miles from Alguada Reef lighthouse. This rock, on which the ship "Inchmarnock" struck in April, 1877, has only from 3 to 4 feet water on it at low water.

Also that the Alguada Reef lighthouse lies S. 9° $30'$ W. (true), distant $15\frac{1}{2}$ miles from the pagoda on Pagoda Point, and S.W. by W., distant nearly three quarters of a mile from the position at present assigned to it on the charts.

Mariners are cautioned that the passage between Alguada Reef and Diamond Island is absolutely barred, and is most dangerous.

Bearings are magnetic, except where otherwise noted. Variation 2° $30'$ E. in 1879.

By direction of the Government of India.

R. C. CARRINGTON,
Chief Civil Assistant,
(for A. DUNDAS TAYLOR, Comdr. late I.N.,
Superintendent, Marine Survey of India.)

This notice affects the following: British Admiralty Charts, Nos. 152, 834, 823, 829, 830, and 706; Indian Marine Survey Charts, Nos. 134, 15c, and 15d; Taylor's Sailing Directory, Vol. i., page 496.

If this notice is received on board ship, the substance of it should be inserted on the charts affected by it, and introduced into the sailing directions to which it relates.

Marine Department,
Wellington, 7th May, 1879.

THE Oamaru Harbour Board have given notice that the danger signals are now shown at the Port of Oamaru from a flagstaff erected on the Cliff immediately south of the breakwater.

The following signals are shown in accordance with the provisions of the Harbour Regulations:—

PUT TO SEA OR KEEP TO SEA,—

Night.—Two white lights horizontal, with a red light between them.

In bad weather the green light at the end of the breakwater cannot be shown. Masters of vessels in the roadstead will have to exercise judgment as to the practicability of getting their vessels to sea, as these signals have at times to be exhibited during calm weather.

IN accordance with a resolution of the Legislative Council, the following Standing Orders relative to Local Bills are published for general information.

L. STOWE,
Clerk of the Legislative Council.

STANDING ORDERS OF THE LEGISLATIVE COUNCIL
RELATIVE TO LOCAL BILLS.

1. Local Bills are those which not being such as require to be introduced as Private Bills, are yet Bills specially affecting local interests and dealing with private rights, or with public reserves for local and municipal purposes; also Bills altering the constitution, election, or powers of local public bodies.

2. There shall be a Standing Committee, to consist of five members, to be called the "Local Bills Committee," to which shall stand referred, after their first reading, all Bills which may appear to the Speaker to come within the description given in the preceding Order. Such Committee shall, in the case of every Bill referred to it, decide whether the same comes within the definition of a Local Bill; and, if so, whether the conditions laid down in Orders 3, 4, and 5 have been complied with.

3. No Local Bill shall be introduced into the Legislative Council by any member later than two months after the commencement of the session.

4. The member in charge of a Local Bill shall produce to the Local Bills Committee satisfactory evidence that the intention to introduce the Bill and the purport of the same has been made public in the locality whose interests are affected, by advertisement in a local newspaper, at least four times in four successive weeks. When the Bill specially affects the interests of any private individual, evidence shall also be produced that personal notice to the effect above stated has been given to such individual.

5. When a Local Bill refers to an exchange of or

other dealing with any Crown lands, or with a public reserve, the member in charge thereof shall also produce a certified map, on a scale of not less than 20 chains to an inch, showing the land or reserve in question, and the mode in which it is proposed to deal with the same.
