Regulations made by the Mount Ida Water-race Trust, under "The Mount Ida Water-race Trust Act, 1878."

Mines Department,
Wellington, 24th December, 1879.

THE following amended regulations, made in accordance with the provisions of section 19 of "The Mount Ida Water-race Trust Act, 1878," in substitution of the regulations (under "The Public Works Act, 1876") dated the 13th of June, the 18th of July, and the 7th of August, 1877, and published in the *New Zealand Gazette* Nos. 53, 62, and 70 of that year, are approved.

R. OLIVER,
Minister for Public Works.

REGULATIONS.

1. "The Manager" shall be an officer appointed by the Trust, at such salary per month as may from time to time be agreed upon. Such Manager to have control of all the dams, races, and works of any kind in connection with the Mount Ida Water-race and Sludge Channel (all hereinafter included in the expression "the race"). Any such Manager may be dismissed or resign on one month's notice being given.

2. The Manager shall have entire charge of the race, shall have the employment and dismissal of such men, with the exception of the waterman, as are necessary to assist in looking after the race, and keeping the same in repair, shall keep a set of books, in which shall be clearly shown the quantity of water brought in by the race each day of the year, the quantity daily sold, and the state of account between the Trust and each customer. The Manager, so long as he shall hold office, shall be the person to recover all rates and charges payable under these regulations, as provided in "The Public Works Act, 1876," and shall be deemed to be duly authorized by the Trust for that purpose. It shall be the duty of the Manager to furnish accounts monthly, and receive payments, give receipts for all moneys, enter on block of receipt-book concise particulars of what the money is for, and hand it over as soon as possible to the Treasurer, who shall give a written acknowledgment that he has received it. He shall also keep an account of the time wrought by each person in the employment of the Trust.

3. The waterman shall be an officer appointed by the Trust, on the same terms as to salary, dismissal, and resignation as the Manager. He shall have charge of the reservoirs and distributing races, and the supplying of water to customers.

4. The Secretary and Treasurer shall be an officer appointed by the Trust, on the same terms as to

salary, dismissal, and resignation as the Manager. He shall keep the books of the Trust, receiving from the Manager every Monday morning a transcript of the transactions as recorded in the Manager's day-book of the previous week, and post the items of water sold, channel rates due, and cash payments made to the account of the various customers. He shall, as soon after the first day of each month as possible, or at any other time when requested by the Manager, make out all outstanding accounts owing to the Trust and hand them to the Manager. He shall pay all moneys received into the Trust Account as soon after receipt as possible, and shall make out the monthly pay-sheets, and pay such accounts as are passed by the Trust. He shall also attend all general and committee meetings of the Trust, take minutes, give such information as may be required, and conduct such correspondence as the Chairman may direct.

5. No person shall take water from the race, or any reservoir or branch race in connection therewith, or run water or tailings into the sludge-channel, or in any way interfere with any of them, without the consent of the Manager or waterman.

6. Water from the race shall be sold by measure, the unit of measurement for the purposes of these regulations being taken to be what is known as the "Hogburn-head,"—that is to say, a stream of water flowing for eight hours through an aperture 16 inches wide by 1 inch high in one end of the gauge-box, 6 feet long and 5 inches deep interior measurement, with a pressure or "head" board of 4 inches in width above the discharge aperture; the box to be open at the top, and fixed level. For the purpose of measuring more than one "Hogburn-head" the box may be enlarged horizontally, or the sides may be raised and the aperture enlarged perpendicularly.

7. The rate at which water shall be sold for mining purposes shall be twenty shillings the "Hogburn-head" per week of six working days of eight hours each.

8. The charge for running water and tailings into the sludge-channel shall be one shilling and sixpence per "Hogburn-head" per full week of seven days, payable in advance.

9. Any person desiring to obtain a supply of water from the race for mining purposes shall apply to the waterman, stating the quantity of water required and where to be used, and where and when required to be supplied.

10. In allotting water to applicants, the Manager shall give a preference to the earlier applicants; but, in case the amount of water applied for shall at any time exceed the quantity available for sale and delivery, it shall be lawful for the Manager to allot to applicants less quantities of water than they shall have applied for, provided that in no case shall the Manager reduce the quantity for any one person or party to less than five "Hogburn-heads" without his or their consent.

11. Whenever the supply of water in the race shall be less than sufficient to supply to all consumers the full quantities of water to which they are entitled, it shall be lawful for the Manager to arrange the supplies in such manner as he may deem convenient.

12. The waterman shall furnish the Manager every Monday morning with a detailed account of the water sold during the previous week. The Manager shall keep an account for each customer, and shall use his own discretion in demanding cash payment in advance, or giving such credit as the circumstances of the customers and the method in which they are carrying on work require, taking such security for payment as he may deem advisable.

13. The waterman shall turn on the water from the race for the supply of purchasers and turn off the

same, and no person shall turn on water, or turn it off, or in any way interfere with the water, except by authority of the Manager or waterman.

14. Any person desiring to cut a tail-race to run into or connect with the sludge-channel shall apply in writing to the Manager, stating where the proposed tail-race will connect with the channel, its intended dimensions and "fall;" and if on inquiry the Manager shall be of opinion that such race may be safely allowed to be connected with the channel, he shall certify accordingly to the Warden.

15. No certificate for any tail-race to be connected with or run into the sludge-channel shall be granted by the Warden, unless it shall be certified to him by the Manager as aforesaid that such tail-race may be safely so constructed.

16. The Manager shall not, without the special sanction of the Trust, certify for the construction of any tail-race to be connected with and run into the channel of a greater incline than 5 inches in 12 feet for a distance back from the point of junction of 2 chains.

17. The Manager shall not, without the special sanction of the Trust, certify for the construction of any tail-race to be made to connect with the sludge-channel upon the eastern side, unless the same be tunnelled in the solid earth for a length of at least 33 feet from the bank of the sludge-channel, or be boxed for the same length and the earth filled in to the surface, and every such tail-race shall be fitted with a sufficient gate, which shall, if required by the Manager, be kept closed during floods. Provided always that this regulation shall not apply to the extension of the channel known as Brooke's Race.

18. No tail-race or head-race or flood-channel shall be made nearer to the sludge-channel than 66 feet on its eastern side and 33 feet on its western side, except by consent of the Manager.

19. When any tail-race shall have been made under the authority of these regulations to be connected with and run into the channel, it shall be lawful for the owner or occupier of such tail-race to run water and tailings through it into the channel subject to these regulations.

20. The Managers shall assess in "Hogburn-heads" the carrying capacity and average discharge of any tail-race that shall be connected with and run into the sludge-channel, and the owner or occupier shall pay weekly in advance the fees for the said number of "Hogburn-heads" run into the sludge-channel (or shall pay in advance or otherwise as provided in respect to payments for water the fees for the said number of "Hogburn-heads" run into the sludge-channel).

21. In case the owner or occupier of any tail-race shall be dissatisfied with the Manager's assessment of average discharge as aforesaid, he may appeal to the Warden, who shall thereupon confirm or vary such assessment, and the decision of the Warden shall be final.

22. The owner or occupier of any tail-race discharging water and tailings into the sludge-channel shall at any time cease to so discharge water and tailings when required so to do by the Manager or waterman, either verbally or in writing.

23. In case any person who shall have paid in advance for a supply of water or for the privilege of discharging water and tailings into the sludge-channel shall cease to require such water or privilege, it shall be lawful for him to obtain a refund of the unappropriated balance of the money so paid by him, and such refund shall be payable out of the funds at the disposal of the Trust upon a voucher certified by the Manager.

24. In order to encourage the development of new ground along the line of the head-race water may

be supplied free for periods not exceeding three months to persons or parties desiring to test such ground in any locality between Coal Pit Gully and the head of the race. Those wishing to take advantage of this provision must forward applications containing particulars as to locality and quantity of water required to the Trust in writing, and it shall not be lawful for the Manager to supply water under this regulation until the consent of the Trust has been obtained.
