Victorian Drawback Regulations.

Customs Department,
Wellington, 13th February, 1880.

THE following *Gazette* notice, received from the Department of Trade and Customs in Melbourne, respecting drawback of duty, is published for general information.

H. A. ATKINSON.

DRAWBACK REGULATIONS IN LIEU OF ALL OTHERS HITHERTO IN FORCE.—ACT 36 VICT. No. 434, AND ACT 41 VICT. Nos. 594 AND 597.

1. A drawback of duty paid on importation may be paid on the exportation of the goods mentioned in Schedule I. hereunto attached, and at the rate respectively specified against any item exported.

2. In order to entitle the exporter to claim any such drawback he shall comply with the following conditions:—

Form A.

(a.) A notice in the Form A. hereto must be given to the Collector of Customs at the port of export, at least two working hours before, of the intention to pack.

(b.) The usual export entry must be passed (or, if desired, such may be deposited with the proper officer before the vessel by which the goods will eventually be shipped has been entered out, the name of the ship being subsequently filled in prior to shipment of the goods), accompanied by invoices as regards the undermentioned, distinguishing—

Goods—Free.

„ Liable to *ad valorem* duty, specifying the rate.

„ Boots and shoes.

„ Clothing, &c., manufactured in Victoria [from material liable to duty].

„ And all goods repacked from original packages;

setting forth legibly in respect to each specific class of articles the actual cost price received, or to be received, from the purchaser of the goods, and, in respect to boots and shoes, the respective sizes, number of pairs, &c. The entry having been passed or deposited, and invoices in duplicate as required having been stamped, an officer of Customs will attend, before whom the following declaration must be made and subscribed by the exporter, or if by a firm, by a member thereof:—

“I, _____, do hereby declare that I am the exporter of the goods mentioned in this entry, that the quantities or sizes [*as the case may be*] are correct; and with regard to the goods on which an *ad valorem* drawback is payable, I further declare that the invoice dated _____ and signed by me represents the true value of the goods and the actual price paid to me or to be paid on the following terms _____, without any discount, rebate, or other allowance, by _____ the purchaser thereof, trading at _____, in the colony or port of _____, under the style and title of _____; and I further declare that these goods were properly

cleared at the Customs, and duty paid on importation at the rate specified in this entry, and that none of the said goods were the produce of or manufactured in Victoria, except as specified in the said invoice."

Goods liable to a fixed rate of duty, if in original packages as imported, are always liable to examination, and cannot be shipped without the authority of the Landing Surveyor or Jerquer; but on any goods, though specified to be exported in original packages, if repacked from the original packages in the presence of an officer, drawback may be allowed.

- (e.) Every facility, and especially any desired facility, must be given to the officer to superintend the packing of these goods and take a correct account according to such invoice.
- (d.) Upon the completion of the packing, the goods must be secured and sealed by the officers of Customs, and despatched in charge of a carrier duly licensed under the Customs laws into the Customs shed, and delivered to the custody of the export officer for shipment; or, if not so forthwith removed, they must be deposited in some secure room approved by the Commissioner of Trade and Customs; under the lock of the Crown, until removal.
- (e.) No claim for drawback of duty will be entertained unless the debenture in the Form B or Form C, as the case may be, be rendered duly completed, with the necessary certificates thereon, unless otherwise authorized by the Commissioner of Trade and Customs.
- (f.) If the exporter cannot specify the number of packages in the entry, such may be inserted, and the officer in charge is hereby required to see that such is inserted prior to the removal of the packages.
- (g.) Such proof shall be given to the Landing Surveyor or Jerquer as may be required that full duty had been paid on importation.
- (h.) Words and expressions used in these regulations and the schedules hereto shall have the meanings assigned to them respectively in any Act relating to the Customs.

3. No drawback of duty will be due or payable until the Collector of Customs at the port of export has received the drawback debenture duly completed, nor until such drawback debenture has been examined by the proper Landing Surveyor and found correct by him, nor until such drawback debenture has been approved under the hand of such Collector of Customs or other officer duly authorized by the Governor in Council.

4. No drawback will be paid unless the debenture be tendered, duly completed, within twelve months from the date of the exportation of the goods mentioned therein. Debentures, in the case of goods liable to a fixed rate of drawback, excepting with respect to goods exported across the border, will be paid one week after the departure of the vessel by which such goods have been exported, but as regards other goods on completion of the forms herein provided.

5. No drawback will be paid unless a charge of one shilling and sixpence per hour during the time of an officer being employed under these regulations, or other expense incurred, as certified by the Landing Surveyor or Jerquer, shall have been paid.

6. Exporters of goods for drawback *via* any New South Wales or Victorian port on the River Murray must specify on the entry the name of the consignee and final destination of the goods, and at each port on the River Murray the Coastwaiter in charge will attend at his office on such day and at such hour as may be directed by public notice from the Commis-

sioner of Trade and Customs, to pass such goods for drawback in respect to which he may have received notice on the previous day, in which case no charge will be made for the officer's attendance.

Claims for drawback under this regulation must be made to the Collector of Customs at Melbourne, who will, if they are correct, pay them at the Customhouse, Melbourne, or remit the money to the claimant less the cost of remittance.

7. No drawback will be payable on goods except on packages repacked in the presence of, or inspected by, an officer of Customs, who will in the latter case cause such to be examined, as may be directed by the Landing Surveyor or Jerquer, and certify on the entry that such has been done, specifying whether the quantities, values, weights, &c., as the case may be, were correct or not on such examination.

8. The persons before whom declarations under these regulations shall be made in Victoria shall be a Justice of the Peace of the said colony or an officer of Customs. The Commissioner of Trade and Customs is also hereby empowered to cause any debenture to be passed for payment though not strictly in accordance with the forms required by these regulations. Provided also that the Commissioner of Trade and Customs may, if he shall think fit, authorize the payment of claims for drawback on goods entered and exported under these regulations which may not be landed or be landed in a damaged state, upon such satisfactory proof as he may require that any such goods have been lost or damaged in consequence of shipwreck.

9. Should the consignee be unable to sign the declaration, the signature of a Customhouse agent at the port of arrival, who must sign as such before the Collector of Customs, will be accepted.

10. Extra weighers in attendance at the repacking of goods for drawback shall be officers of Customs before whom the declarations in clause 8 may be made.

11. The attention of exporters is directed to the second section of Act No. 594, as follows:—

2. If any person shall commit any of the next following offences, namely—

Pass or attempt to pass for drawback any goods—

Not specified in any Order in Council under the provisions of the Act No. CCCXXXIV., or

At a higher rate for drawback than is allowed under any such Order, or

At a higher value for drawback than the fair market value of such goods in Melbourne, or

As of a greater quantity or weight than appears in any invoice or entry of such goods, or

Which, on being shipped or brought to any quay, wharf, or other place to be shipped for exportation, shall on examination by the proper officers of Customs be found not to agree with the entry thereof in the shipping bill or other proper document for allowance of drawback on shipment, or to be of less value for home use than the amount of drawback claimed,

every such person shall in any and every such case forfeit the sum of one hundred pounds or treble the amount of the drawback claimed, at the election of the Commissioner, and all such goods and the package containing the same, with all other the contents therein, shall be forfeited.

In the event of any of the above stated offences being detected, the goods connected therewith, and

also any goods included in the same package, are liable to be seized. Should the Collector of Customs desire it, any goods may be re-opened or re-examined after having been passed by the drawback officer; the unpacking or repacking to be conducted by or at the expense of the exporter.

12. Travellers' samples may be exported for drawback, subject to the following special conditions:—

- (1.) The traveller in whose charge any such samples may be sent must be a party to the bond required.
- (2.) The declaration in the export entry and in the claim for drawback must be signed according to forms D and E respectively.
- (3.) The said traveller must, on his return to Victoria, present himself to the Landing Waiter of the vessel by which he may arrive, and submit all his luggage and baggage for examination and verification with the invoices deposited at the time of his departure.

Of the 11 cases in Christchurch, 3 were of children under 6 months, and 5 of children from 6 to 12 months. Of the whole 35 deaths, 25 were of children under one year, or at an age when they would not readily have had access to cold water, and to whom cold water is not usually given. This fact is noticed as the increase in this class of deaths is often popularly attributed to the character of the drinking water, and thus causes are overlooked arising from improper diet and the neglect of the observance of strict cleanliness, not only in the use of infants' feeding vessels, but also in the domestic and outside arrangements of the house, so as to preserve the milk used by infants from contact with impure air, which it readily absorbs. The deaths from enteric fever amounted to 4 in January, against 1 in December.

Constitutional Diseases increased from 9 in December to 20 in January. Of these, phthisis alone caused 12 deaths.

Local Diseases also showed a large increase. The deaths were 29 in December and 35 in January. Of these, deaths from inflammatory diseases of the brain (meningitis, &c.) increased from 1 to 5. Heart disease also caused an increased number of deaths.

Violent Deaths.—There was only 1 death in January in the four boroughs of this class, viz., an adult female, who died at Dunedin from the effects of burns.

The subjoined table shows the mortality for the last two months at each of these four boroughs from six principal Zymotic diseases of the Miasmatic order, and also the deaths from certain inflammatory diseases of the lungs. These causes of death have been distinguished from the others of the classes to which they belong, as being the most important special diseases which give rise to sudden increases in the death-rates of towns, and the prevalence of which is closely connected with sanitary condition and climatic influence of the season on health.
