NEW CALEDONIA QUARTZ-MINING COMPANY.

I, DANIEL TURNER, of Dunedin, in the Provincial District of Otago and Colony of New Zealand, Manager of the New Caledonia Quartz-Mining Company (Limited), do solemnly and sincerely declare that the statements hereunto annexed, and marked with the letters "A" and "B" respectively, are, to the best of my belief, true and correct in every respect; and I make this solemn declaration conscientiously believing the same to be true, and by virtue of an Act of the General Assembly of New Zealand intituled "The Justices of the Peace Act, 1866."

DANIEL TURNER.

Declared at Dunedin aforesaid, this 23rd day of April, 1880, before me—W. Parker Street, J.P.

A.

FIRST HALF-YEARLY REPORT of the Directors of the NEW CALEDONIA QUARTZ-MINING COMPANY (LIMITED), Hindon, for the period ending the 30th April, 1880.

The Directors have pleasure in submitting to the shareholders, at this the first general meeting of the Company, the statement of accounts for the half-year ended the 14th April, 1880.

On the 20th September the yield of first crushing was 57oz. 13dwt., and since that time only two crushings have been had, owing to the very dry weather and consequent scarcity of water. The want of water has been the only hindrance in obtaining regular returns from the mine; and, to obviate this difficulty, your Directors considered it advisable to bring in a race, capable of carrying two heads of water, from Coal Flat, at the head of Gamecock Creek, which would in the driest seasons supply ample water for carrying on operations continuously. This race is now being constructed, and in all probability will be finished by the middle of next month.

The Mining Manager reports that the mine is in thorough working order, and that as soon as the water is brought in the shareholders may confidently look forward to satisfactory and regular returns. The last letter from the Mine Manager is dated the 9th instant, and he informs us that he will be able to manage a week's crushing with the water which was then in the dams.

In the profit and loss account, on the debit side, appears the sum of £1,251 3s. 11d. for wages, which is the total amount expended for wages since the formation of the Company. Only a very small portion of that sum was actually expended upon getting out stone and crushing. The greater part was spent in opening up the mine and coal-pit, constructing dams, making roads, and laying tramways, &c.

There is an amount of £141 13s. 8d., on the debit side of the profit and loss account, for interest, which we consider the shareholders should have an explanation of. The engine, boiler, and battery contract amounted to £1,731, and the contractors who supplied the machinery agreed to accept payment in three years from the 19th May, 1879, in consideration of the Company giving them security, and paying interest at the rate of 10 per cent. per annum, by quarterly payments. This statement, then, easily explains the apparently large item of interest.

In the balance-sheet, under the head of liabilities, is the sum of £2,289 12s. 10d., representing unpaid

accounts. In this amount is included the sum of £1,731 for machinery, previously brought under your notice, thus leaving only a very small sum for current accounts unpaid.

For Directors.

J. B. CALLAN,
Chairman.

Dunedin, 14th April, 1880.

This is the statement, marked with the letter "A," referred to in the annexed declaration of Daniel Turner, declared before me this 23rd day of April, 1880—W. Parker Street, J.P.
