Notice to Mariners.—No. 46 of 1880.

Marine Department,
Wellington, 15th October, 1880.

THE following Notices to Mariners, received from the Commissioner of Trade and Customs, Melbourne, and Superintendent, Marine Survey of India, are published for general information.

H. A. ATKINSON.

PORT PHILLIP.—PILE LIGHTHOUSE FOR NORTH END OF WEST CHANNEL, IN LIEU OF PRESENT LIGHTSHIP.—RED BUOY TO MARK POSITION OF PILE LIGHTHOUSE.

MARINERS, pilots, and others navigating the West Channel are hereby informed that a red buoy has been moored closed to the southward of No. 9 buoy, on the edge of the bank, in 15 feet at low water.

The contractor will exhibit a white light from a pile showing the position of lighthouse from sunset to sunrise, as soon as the works commence.

CHARLES B. PAYNE,
Chief Harbourmaster.

Department of Ports and Harbours,
Melbourne, 13th September, 1880.

BAY OF BENGAL, COROMANDEL COAST.—MADRAS.—CHANGES IN THE BUOYAGE OF THE PORT.

WITH reference to Notice to Mariners No. 27, issued from this department on the 21st August, 1879, it is further notified that, owing to the continual extension of the harbour piers into deep water, and in order to permit of a greater space being available for steamers inside the harbour piers, it has become necessary to remove the large red buoy which hitherto marked the western limit of the anchorage for steamers.

Commanders of steamers are warned by the Marine authorities of Madras not to anchor between the piers in less than 5½ fathoms at low water; and that when anchoring in this depth they will do so on their own responsibility, and with the exercise of care and judgment.

All sailing vessels, excepting dhonies, should anchor in or beyond the 8½-fathom line of soundings, and outside the northern and southern port buoys.

The port buoys are painted red and white vertically, and are anchored in 8 fathoms. These buoys are danger buoys, and commanders of vessels making or leaving the anchorage are hereby warned not to pass inshore of either of them, nor come under 9 fathoms by night.

The northern buoy marks the position which will form the extreme end of the north pier.

Vessels are on no account to venture between the northern buoy and the north pier, nor between the southern buoy and the south pier, as the rubble bases of both piers extend much further seaward than the piers themselves.

By direction of the Government of India.

A. DUNDAS TAYLOR,
Commander (late I.N.),

Superintendent, Marine Survey of India.
Marine Survey Department,
Calcutta, 31st August, 1880.
