*Notice to Mariners.—No. 40 of 1881.*

Marine Department,  
Wellington, 24th December, 1881.

THE following Notices to Mariners, received from the Secretary for Harbours and Navigation,

Melbourne, and the Portmaster, Brisbane, are published for general information.

H. A. ATKINSON.

#### ALTERATION TO LOWER LIGHT, QUEENSCLIFF, PORT PHILLIP HEADS.

REFERRING to Notice to Mariners dated the 14th September, 1881, pilots, masters of vessels, and others are hereby informed that, on and after the 16th December, 1881, in addition to the present cuttings, a red light will be exhibited from the Lower Lighthouse, Queenscliff, visible to the observer on a bearing of about W.S.W.  $\frac{3}{4}$  S. to W.S.W.  $\frac{1}{4}$  S., or from No. 1 Black Buoy to No. 2 Perch Buoy, at the entrance to the West Channel.

This light is intended to guide mariners in the fairway from Swan Spit to between Nos. 1 and 2 Buoys, and, so far, it will meet the requirements fulfilled by the Swan Spit Lighthouse, recently destroyed; but it will not be of service in enabling them to judge their distance from Shortland's Bluff Reef.

Vessels when bound outwards should haul to the eastward when the Queenscliff Jetty Light bears about W. by N., sufficient to clear Shortland's Bluff.

ALEXR. WILSON,

Secretary for Harbours and Navigation.

Department of Ports and Harbours,  
Melbourne, 30th November 1881.

#### SOUTH ENTRANCE TO MORETON BAY.

By following the directions published in April last for using the south entrance to Moreton Bay, with the leading beacons open twice their width to the northward, vessels cannot now depend on carrying more than 13 feet at low-water springs.

With the beacons open to the southward one width, they can carry 10 feet, and, from 4 to 8 widths, 11 feet.

When the state of the bar however will allow a vessel to haul up with the sea abeam, a depth of from 15 to 16 feet at low-water springs can be carried as follows:—

Cross the bar with the beacons open to the northward about three times their own width, and steer for the north break until a small sand cliff on the Amity Point shore comes in line with the dip near the western end of the high land at the back of the point. Steer with these in line until the north break is passed, when keep away for the main channel between the north and south breaks.

G. P. HEATH, Commander R.N.,

Portmaster.

Department of Ports and Harbours,  
Brisbane, 28th November, 1881.

These sections are situate between the Mangatainoka and Tiraumea Rivers. Every section has a road frontage, and to some of them the roads are made. The soil is rich and well watered, and when laid down in grass will yield liberal returns for labour and capital expended.

Terms: For the deferred-payment sections one-twentieth, and for the cash sections one-fourth, of the upset price with the applications; the future payments, deferred, may extend over ten years; and the cash sections, balance within one month.

Maps, schedules, contents, and upset price can be seen at the offices of the Town Clerks, Palmerston, Masterton, Greytown, and at the Land Office, Wellington, or will be forwarded by post on application to the undersigned.
