* Section 112 is subject to an easement for a mill-weir across the Waiohira River.
 † Sections 28 and 29 are subject to adjustment of boundaries at Waiohira River, with freehold Sections 17, 18, and 19.

CONDITIONS AS TO OCCUPATION AND IMPROVEMENTS.

The maximum quantity any lessee can hold is 640 acres of rural land.

Each lessee shall, within two years from the date of his lease, bring into cultivation not less than one-tenth of the land leased by him, and within four years of the said date, not less than one-fifth of the said land, and within six years from the date of his lease, in addition to the cultivation of one-fifth of the land, shall place on such land substantial improvements of a permanent character to the value of £1 for every acre of such land.

Improvements to be suitable to and consistent with the extent and character of the holdings, and none shall be allowed for in any valuation in excess of £5 for every acre of rural land.

The lease will contain an arbitration clause to enable, at the end of the term, the value of improvements to be determined for which an outgoing lessee should be paid by an incoming lessee. It will also provide that, in the event of there being no accepted tenderer for the new lease, the old lessee shall have the option of accepting a fresh lease for the same period and on the same conditions as his first lease, at a rental to be fixed by arbitration, minus the value of the improvements, which are also to be fixed by arbitration.

Tenderers may offer for any number of sections, but no tender will be accepted for more than 640 acres in the aggregate. Such sections must, however, be contiguous.

A deposit of one half-year's rent must be made at the time of tendering, the amount to be calculated on the highest amount offered by any tenderer for an aggregate area of 610 acres or any less quantity; but no deposit will be required for any quantity of land tendered for beyond the 640 acres.

Coloured lithographic plans of the above sections are on view at the several Land Offices throughout the colony.

The formation of the ground is undulating and well watered, the soil inclined to be light. Sections 1 and 2, Block VI., Patoka, open fern land, hilly, soil light, overlying limestone-formation, a small quantity of bush on each. Access is given by roads which have been partly formed, about 2½ miles through the bush being cleared of timber. The Hawke's Bay County Council has in course of construction a line of road giving access to these lands from the inland Patea Road, a distance of six miles.
