## REGULATIONS.

All goods specified in Part V., and not otherwise provided for in Parts II. and IV., will be charged in accordance with the classified rates in the preceding table, but subject to the following conditions and regulations, viz. :--

- Goods from different consignors to one consignee, or from one consignor to different consignees, will be charged separately.
   (a) Goods of Classes A, B, C, D, from one consignor to one consignee, will be charged at the classified rate, except the charge at scale for small lots amounts to more.
   (b) Any number of consignments of different classes from one consignor to one consignee will be charged separately or as one consignment of the highest class to which either of them belongs.
   (c) But when a consignment which would be charged at classified rates, and not at the scale for small lots, is sent with small lots, such consignment may be charged separately, and the small lots may be treated independently under regulation (b).

## (2.) Scale for Small Lots.

Where local or through rates prevail, they will be substituted for the classified rates in computing charges for small lots.

Goods for stations where no officer of the Department is in charge must be prepaid. They will be put out at such places at the risk of the consignee. The Department does not provide sheets for Classes F, L, N, O, P., and will take no responsibility on these classes of goods on account of damage from water unless insured. Sheets, if required by owner, for these classes of goods will be charged for at the rate of 1s, per day, or part of a day, per sheet. When loading or unloading of goods is done by owners, the Department will take no responsibility as to quantity or condition. For loading and unloading any package weighing over 2 tons an extra charge will be made ; packages over 2 tons weight will also be charged extra for cranage. Wherever an alternative charge is specified, it is intended that the lower charge shall be taken, unless otherwise provided. When goods are packed for carriage, the weight or measurement of the consignment will include the weight or dimensions of the case or description of packing when consigned alone. Fractions of less than 1 cwt. in the tonnage will be taken as follows :--Under  $\frac{1}{4}$  cwt. as  $\frac{1}{4}$  cwt.
