This honey is separated from the combs by the 'Honey Extractor,' thereby retaining its original aromatic flavour;" the other panel has a beehive on a stand with following words, "Directions. Should this honey granulate, which may be taken as one of the surest tests of its purity, it may be liquidated again by immersing the tin in hot water." PRIZE ESSAYS.

Wellington, 29th December, 1884.

ONE gold medal and twenty guineas, one silver medal and ten guineas, and one bronze medal and five guineas will be awarded for essays on the present condition and future prospects of the industrial resources of New Zealand, and the best means for fostering their development.

In judging of the merits of the essays preference will be given to those which are of a practical character, rather than to mere abstract or theoretical disquisitions. The essays must be sent in to the Secretary of the Exhibition, signed with a motto and accompanied by a sealed envelope con-

taining the author's name and address, on or before the 1st day of December, 1885. This late date is fixed to enable the essayists, if they desire to do so, to utilize the information which the Exhibition itself will supply.

The essays will be submitted to a Board of three persons, to be hereafter appointed, on whose decision respecting the merits of the essays the above prizes will be awarded; provided the essays reach a sufficiently-deserving standard of excellence.

Terms of Payment: With the applications for deferred-payment sections one-twentieth of the upset price must be paid in cash, or by bank draft, or marked cheque; the balance of the purchase-money in half-yearly instalments extending over ten years.

The sections comprised in the above Schedules are situated near Pahiatua, in the Mangaone Block, in the Kopuaranga District, about Dreyer's Rock, near Dreyerton, and some of them front upon or adjacent to the main road connecting Masterton and Woodville. Branch roads have been formed through, or leading to, the sections at Dreyer's Rock, Central Mangaone, Hawera, and Pahiatua, at distances respectively from Masterton of about fourteen miles, thirty-one miles, thirty-five miles, and forty miles.

The railway is now being constructed to a point about seventeen miles north of Masterton.

The whole of the sections are covered with forest, the principal trees being tawa, rimu, hinau, rata, and kahikatea; the undergrowth is, as a rule, heavy; the general character of the soil is good, and in some places is of first-class quality, the formation being limestone, clay, marl, sandstone, &c.

The country is generally hilly and undulating, but there are large flats as well as broken ground within the area; it is well watered, and, as the climate is also very favourable, the land should, when cleared and brought into cultivation, prove well adapted for pastoral and, to some extent, agricultural purposes.

Maps, schedules, and application forms can be obtained at the Land Office, Wellington; at the Post Offices, Featherston, Greytown, Masterton, Woodville, Palmerston North, Foxton, and Wanganui; and at the various Crown Land Offices throughout the colony.

These sections are part of the block commonly known as the Waihi Block, and are all first-class, open, level lands, situate in the County of Clifton and Provincial District of Taranaki, and are only from one and a half to five miles from the Port of Waitara. Some of the sections are on the Main North Road, and none are more than a mile from it or the inland main road. Not more than 200 acres of this land will be leased to one person.

Attention is specially called to the fact of these being the last of the open lands of any extent likely to be in the market in this district.

These sections form part of the Waihi Block, and are forest land, some very good and some broken.

This block comprises lands belonging to seven distinct grants. Lands being portions of more than one grant will not be included in the same lease. Separate leases will, therefore, be prepared for any lease of two or more sections in different grants.

Other lands to be leased but not included in plan :—

CONDITIONS AS TO OCCUPATION AND IMPROVEMENTS.

The maximum quantity any lessee can hold is 640 acres of rural land of the West Coast Settlement Reserves.

Each lessee shall within two years from the date of his lease bring into cultivation not less than one-tenth of the land leased by him, and within four years of the said date not less than one-fifth of the said land, and within six years from the date of his lease, in addition to the cultivation of one-fifth of the land, shall place on such land substantial improvements of a permanent character to the value of £1 for every acre of such land.

Improvements to be suitable to and consistent with the extent and character of the holdings, and none shall be allowed for in any valuation in excess of £5 for every acre of rural land.

The lease will contain an arbitration clause to enable, at the end of the term, the value of improvements to be determined for which an outgoing lessee should be paid by an incoming lessee. It will also provide that, in the event of there being no accepted tenderer for the new lease, the old lessee shall have the option of accepting a fresh lease for the same period and on the same conditions as his first lease, at a rental to be fixed by arbitration, minus the value of the improvements, which is also to be fixed by arbitration.

CONDITIONS AS TO TENDERS.

Tenderers may offer for any number of sections, but no tender will be accepted for more than 640 acres in the aggregate. Such sections must, however, be contiguous, and not more than 200 acres of the open Waihi land will be let to one person.

After the declaration of tenders any sections not tendered for will be open for application at the upset rent. The first applicant to be declared the lessee, but, if there should be two or more applicants at the same time for any lease, the right to the lease shall be decided by lot.

A deposit of one half-year's rent must be made at the time of tendering, the amount to be calculated on the highest amount offered by any tenderer for an aggregate area of 640 acres or any less quantity; but no deposit will be required for any quantity of land tendered for beyond the 640 acres.

Coloured lithographic plans of the Waihi Block will be on view in the several Land Offices throughout the colony.

Reserves Trustee.
