	nd is si	tuate in the r			Mangatai-

This land is situate in the northern part of the Mangatai-noka Block, about seven miles south of Woodville, within a short distance of the main coach-road to Masterton. Re-serves have been made for one of the proposed lines of rail-way connecting Woodville and Masterton. Roads have been laid off from Pahiatua and from the Mangatainoka bridge, connected by a road through the centre of the block. The latter line is now being felled and cleared, and the Pahiatua line is being formed into a dray-road. The land is flat, undulating, and hilly country; the formation rests upon papa, gravel, and in one place upon limestone; the soil gene-rally varies from fair to very good; the land is generally covered with mixed timber—pine, rata, tawa, &c.; there are patches of light open tawa, white-pine, swamp, manuka-scrub, and some totara in places; the undergrowth is gene-rally thick.
