Despatch.—Revised Regulations respecting Naval Cadets.

Colonial Secretary's Office,
Wellington, 18th November, 1887.

THE following despatch, received from Her Majesty's Principal Secretary of State for the Colonies, is published for general information.

T. W. HISLOP.

(Circular.) Downing Street, 14th September, 1887.

SIR,—With reference to my circular despatch of the 1st June last, I have the honour to transmit to you, for information in the colony under your Government, copies of revised regulations respecting naval cadets.

I have, &c.,
H. T. HOLLAND.

The Officer Administering the Government
of New Zealand.

REGULATIONS RESPECTING NAVAL CADETS.—(In Operation for the Examinations in November, 1887, and June, 1888.)

[For alterations to be made in November, 1888, see memorandum attached.]

1. APPOINTMENTS to naval cadetships will be made by limited competition, with the under-mentioned exceptions:—

For cadetships given annually to sons of gentlemen in the colonies, on the recommendation of the Secretary of State for the Colonies.

Service cadetships, the total number of which is not to exceed five in any one year. Service cadets will be selected by the Board of Admiralty from (a) sons of officers of the army, navy, or marines who have been killed in action, or who have been lost at sea on active service, or killed on duty, or who have died of wounds received in action or injuries received on duty within six months from the date of such action or injury; (b) sons of officers of the navy who have performed long or distinguished service, and who hold or have held rank or relative rank on the Active List not lower than that of commander. Not more than two such latter service cadets will be nominated annually.

Applications for service cadetships should be addressed to the Military Secretary, Horse Guards, if the candi-

date is the son of an officer of the army; to the Secretary of the Admiralty, if the candidate is the son of an officer of the navy or marines; and to the Military Secretary, India Office, if the candidate is the son of an officer of the Indian army.

Colonial and service cadets will be entered on passing the test examination as specified in paragraphs 9 and 10, and will in all other respects be subject to these regulations.

The educational examination of all candidates will be conducted by the Civil Service Commissioners (address, Cannon Row, Westminster), who will deal with all questions connected with such examination and will announce the results. A fee of 10s. will be required from each candidate.

2. Except in special circumstances, not more than one-third of the number of candidates actually presenting themselves before the Civil Service Commissioners will be entered.

3. The nomination of candidates for naval cadetships will be made by the First Lord, by individual members of the Board, and by the Secretaries to the Board of Admiralty.

A flag officer or a commodore 1st class appointed to the chief command of a station, or to a separate command, and a captain, on first appointment as such to the command of a ship, will be allowed to nominate one candidate, provided the privilege is exercised within six months of appointment.

No captain will be entitled to nominate more than one candidate during the time he holds the rank of captain, but a flag officer or a commodore 1st class may claim the privilege each time he is appointed to a command as above.

In the event of a candidate's nomination being cancelled before he has commenced the examination, the officer who nominated him will be allowed to select another candidate for the same or following examination.

4. The nominations will be made half-yearly, as soon as convenient after the report of the last examination has been received from the Civil Service Commissioners.

5. The examinations will be held in London and at Portsmouth, and will commence on the second Wednesday in June and the last Wednesday in November in each year, and the appointments will date from the 15th July and the 15th January following respectively.

6. No candidate will be eligible for examination whose age will not be within the following limits on the 15th January following the November examination, and on the 15th July following the June examination, viz., for the examinations in November, 1887, to June, 1888, not less than twelve and a half nor more than fourteen years of age.

7. Every candidate must be in good health, and free from any physical defect of body, impediment of speech, defect of sight or hearing, and also from any predisposition to constitutional or hereditary disease or weakness of any kind, and in all respects well developed and active in proportion to his age. Before being examined by the Civil Service Commissioners he will be required to pass the medical examination according to the prescribed regulations, and must have been found physically fit for the navy. Rejection at such examination will finally exclude him from the navy.

8. The candidate will be required to produce (1) a certificate of the date of his birth,* or a declaration thereof made before a magistrate; (2) a certificate of good conduct from the masters of the school or schools at which he may have been educated during the two previous years, or, if educated at home, from his tutor or the clergyman of the parish in which he resides; and (3) proofs of good health.

9. The candidates will be tested by examination in the following subjects:—

	Marks.
(1.) Arithmetic: including proportion, vulgar and decimal fractions	250
(2.) Algebra: including fractions, and simple equations of one unknown quantity	175
(3.) Geometry: definitions, postulates, axioms, and subjects of the first twenty-six propositions of Euclid's Elements	175
(4.) English—	
Writing from dictation: spelling, 75; handwriting, 25	100
Reading with intelligence, and parsing easy sentences	100
(5.) French: translating by aid of a dictionary, French into English, and English into French; reading, parsing, and speaking	200
(6.) Scripture history	100
Candidates will be further examined in any two of the following subjects they may select:—	
Elementary mathematics: miscellaneous questions in arithmetic algebra (including quadratic equations), and geometry to the end of the first book of Euclid's Elements	300
Latin: reading, parsing, and translating, by aid of a dictionary, Latin into English, and English into Latin	300
Geography and English history	300

A certificate of baptism will not be accepted.

The final order of merit will be determined by the sum of the marks obtained in the test, as well as in the further examination.

In arithmetic the candidate will be required to obtain five-tenths, and in each of the other subjects of the test examination four-tenths, of the marks allotted thereto. In English the candidate must obtain four-tenths of the marks allotted for each of the two subdivisions of the subject.

10. Colonial and service cadets will be appointed on passing the test examination; they must, however, obtain 660 marks in the aggregate, as well as the proportion of marks in arithmetic and other subjects required from the candidates who compete.

11. A candidate who passes the test examination, but does not succeed in the competition, will be entitled to compete at the next examination, provided he is within the limits of age at that time. No candidate will be allowed to compete more than twice. A candidate who fails to pass the test will be entitled to another trial, but he will be allowed to compete at the next examination if he receives a fresh nomination and is still within the limits of age.

12. A candidate who, owing to illness, fails to appear at the examination for which he has obtained his nomination may receive a second nomination, provided he is still within the limits of age.

13. For all cadets entered under these regulations the payment will be at the rate of £70 per annum for the period in the "Britannia," to be paid half-yearly in advance to the Accountant-General of the Navy. But the Lords Commissioners of the Admiralty reserve the power of selecting, from among the cadets entered at each half-yearly examination, a number, not to exceed ten, being sons of officers of the navy, army, or marines, or of civil officers under the Board of Admiralty, with respect to whom the annual payment will be £40 only. In this selection their Lordships will have regard solely to the pecuniary circumstances of the cadet.

14. The period of training on board the "Britannia" will be four terms; there will be two terms in each year. The first term of each year will be from February to July, the second from September to December.

The vacations will be five weeks at Christmas, two weeks at Easter, and six weeks at Midsummer.

15. (a.) Examinations in seamanship and study will be held at the end of each term.

(b.) Cadets who fail at the end of their second term to obtain 40 per cent. of marks in mathematical subjects will be discharged.

(c.) Cadets who fail at the final examination to obtain 40 per cent in theoretical, and 50 per cent. in technical, subjects will be discharged.

(d.) Cadets reported to the Admiralty for unsatisfactory conduct will be "warned;" should they be again reported they will be discharged. Any cadet, however, who is reported for unsatisfactory conduct during his final term will be discharged without being allowed to present himself at the examination for passing out of the "Britannia."

(e.) Any cadet who shall at any time appear to their Lordships to be unfit for the naval service, for any reason whatever, will be removed from the "Britannia;" and it must be understood that this rule will apply to those who are considered unfit from insufficient physical development or weakness of constitution, although no actual organic disease may have been developed.

16. It is to be distinctly understood that the period of training on board the "Britannia" is a time of probation, and the parent or guardian of every cadet will be required to sign a declaration (on the admission of the cadet to the "Britannia") to the effect that he shall be immediately withdrawn on the receipt of an official intimation of his being considered unfit for the navy.

17. Cadets will, on passing out of the "Britannia," rank according to the amount of sea-time they obtain at their final examination, and those who obtain equal amounts of sea-time will rank in the order of merit in which they pass out of the "Britannia."

18. The parent or guardian of every cadet will be required to provide outfit under the regulations in force.

19. No pay or pocket-money will be allowed by Government to cadets in the "Britannia."

By command of their Lordships.

EVAN MACGREGOR.

Admiralty, July, 1887.

The following remarks apply only to the four principal boroughs:—
 The births in October were 321, against 225 in September, an increase of 96. The deaths in October were 92, against 98 in September, a decrease of 6. At Wellington the deaths fell from 42 in September to 26 in October; those from local diseases being 15, against 21 for previous month.
 There were 17 deaths of persons of 65 years and upwards: 5 males of 81, 76, 74, 72, 66, and 3 females of 84, 69, and 66, died at Auckland; a male of 65, and 2 females of 75 and 72, at Wellington; a female of 74 at Christchurch; and a male of 68, and 4 females of 82, 70 (2), and 67, at Dunedin.
Specific Febrile or Zymotic Diseases.—Again the mortality from these causes is found to be small, 7 deaths altogether. Diphtheria, which was fatal at each town in September, caused only 1 death at Christchurch. There were 3 deaths from whooping-cough at Wellington. No deaths from typhoid or other fever occurred at the chief towns.
Constitutional Diseases.—Of 20 deaths, 12 were from phthisis and 3 from cancer.
Local Diseases.—Of 49 deaths, 21 were from bronchitis, pneumonia, and other diseases of the respiratory system, the number for the previous month being the same.
Violent Deaths.—These were 2 in number, 1 being that of a case of accidental scalding of a child.
 The subjoined table shows the mortality for the last two months at each of these four boroughs from six principal specific febrile or zymotic diseases, and also the deaths from certain inflammatory diseases of the lungs. These causes of death have been distinguished from the others of the classes to which they belong, as being the most important special diseases which give rise to sudden increases in the death-rates of towns, and the prevalence of which is closely connected with sanitary condition and climatic influence of the season on health.
