Examination of Teachers.

Education Department,
Wellington, 22nd February, 1888.

THE following lists contain statements of the principal results of the examination held last month. It must be understood that the granting of a certificate depends only in part upon the result of an examination, and that candidates who have not had the experience required by the regulations, or who do not receive the necessary marks from a School Inspector, have no claim to a certificate.

The first list contains the names of the successful candidates at the examination for Classes C, D, and E. The second list gives the names of candidates who will be allowed to qualify for Classes C, D, and E, respectively, by passing at the next examination in those subjects only in which they have this year been unsuccessful. The names of candidates who were partially successful in former years, and have now passed in the additional subjects necessary for a certificate, are included in these lists. In the case of the candidates who relied partly upon work done at the matriculation examination, the results of that examination have been taken into consideration in preparing these lists.

Every candidate will receive a private intimation of his success or failure, and those whose names are in the third and fourth lists will be advised as to the subjects in which they will have to be examined again.

The third list gives the names of the candidates to whom prizes for drawing have been awarded; and the fourth the names of those who have gained prizes, or deserve special mention for their work in elementary experimental science.

Teachers already classified who are entitled to promotion as a result of the examination should send in their certificates for indorsement.

The next examination will take place in January, 1889, beginning about the ninth of the month. Notices must be given so as to be in the office of the Department by the thirty-first of October.
