Notice to Mariners, No. 22 of 1888.

Marine Department,
Wellington, 10th September, 1888.

THE following Notice to Mariners, received from the Colonial Secretary, Perth, Western Australia, is published for general information.

GEO. FISHER,
(For the Minister having charge of the Marine Department.)

CAMBRIDGE GULF, NORTH-WEST AUSTRALIA.

THE attention of shipmasters proceeding to Cambridge Gulf is drawn to the bank previously reported lying to the northward of Adolphus Island and directly in the track given by Captain Coghlan's leading marks for entering Cambridge Gulf. The following bearings of the shoal are given by Captain Gray, of the s.s. "Australind," from the position of that vessel when aground on the southern portion of the shoal, having 9ft. low water (moon first quarter): Isle Point, N. 41° W.; Barnett Point, N. 59° E.; Cape Dussejour open of Vancouver Point, N. 16° E. Bearings true.

The leading marks, Flat Top Hill in line with fall of high land of Adolphus Island, would take a vessel directly on to it. It is therefore necessary to keep to the westward of this mark.

From the above position the shoal extends in a north-easterly direction about $1\frac{3}{4}$ miles, having a patch, which dried 2ft. at the north-east end.

C. R. RUSSELL,
Chief Harbourmaster.
