All applications for the forms to be filled up by persons who wish to compete must be sent to the Secretary, Civil Service Commission, London, S.W., on or after the 1st of January in each year, and care must be taken that the forms when filled up are returned so as to reach the Civil Service Commissioners on or before the 15th March following, as no notice will be taken of forms received after that date. The list of nominated candidates will be kept at the Admiralty.

4. Candidates must not be less than fifteen nor more than sixteen years of age on the 1st day of May in the year in which they are examined.\*

5. Evidence of age and character will not be required before the examination, but candidates successful in it will not be eligible for appointment unless they satisfy the Civil Service Commissioners on these points.

6. The medical examination of the successful candidates will be held under the authority of their Lordships as soon as possible after the result of the educational examination is made known. No candidate will be entered as an engineer student unless he is pronounced to be physically fit. Candidates in or near London will be medically examined by the Medical Director-General of the Navy at the Admiralty. Those residing near one of Her Majesty's dockyards, or one of the first reserve ships, or drill ships of the Royal Naval Reserve, or the flag-ship at Queenstown, will be examined by the medical officers attached thereto. The medical examinations will be conducted in all respects in strict accordance with the instructions for the examination of persons for admission into the naval service. All candidates at the time of their medical examination must produce certificates to the satisfaction of the examining officers that they have been re-vaccinated, or they must be re-vaccinated before they can be considered eligible for entry as engineer students in Her Majesty's navy.

7. The educational examination will be held by the Civil Service Commissioners in London, Liverpool, Portsmouth, Devonport, Bristol, Leeds, Newcastle-on-Tyne, Edinburgh, Glasgow, and Dublin, and will take place in the month of April in each year. The exact date may be ascertained by application to the Secretary, Civil Service Commission, on or after the 1st of January in each year.

for the competitive examination. They will also be examined in the other subjects to ascertain the extent of their knowledge and to determine their order of merit, and no nominated candidate will be appointed as an engineer student who obtains less than 780 marks in the aggregate.

12. Candidates will be informed by letter from the Civil Service Commission of the result of their examination as soon as it has been ascertained.

13. The successful candidates will be entered as engineer students in Her Majesty's navy about the 1st of July in each year, and will be borne on the books of the guard-ship of the reserve at Devonport for disciplinary purposes. The period of training at Her Majesty's dockyard at Devonport will be for five years, but it will be reduced to four years in the case of engineer students of the latter service who pass the examination described in paragraph 29, clause 1, and also pass very creditably in practical workmanship and knowledge of engine-room duties referred to in paragraph 32.

14. Students in naval construction not exceeding two in number annually will be appointed from among engineer students who have shown special ability at the end of their second year of service. The students in naval construction, on appointment, must join with their parents or guardians in a bond for £500 to enter, if required, into Her Majesty's service as assistant constructors, if at the expiration of their training they should obtain certificates of good conduct and efficiency for entry in that capacity. They will continue to be under naval discipline until their entry as probationary assistant constructors.

15. Students in naval construction will complete five years' service at Devonport in the training school for engineer students, and will be subject to the same conditions as to fees, pay, uniform, and other details as may be prescribed from time to time for engineer students. Their course of instruction will be laid down from time to time.

16. The parent or guardian of each engineer student entered in future will be required to pay yearly in advance the sum of £40 per annum for each year the student may be under training—four or five years as the case may be. It will, however, be at the discretion of the Lords Commissioners of the Admiralty to select from among the students entered at each yearly examination a number not to exceed five, being sons of officers of the navy, army, or marines, or of Civil officers under the Board of Admiralty, with respect to whom the annual payment will be £25 only. Their Lordships also reserve the power to further reduce this latter sum in the case of sons of officers killed or drowned, or who have otherwise lost their lives on service. In making their selection, my Lords will have regard solely to the pecuniary circumstances of the parents or guardians of the students.

17. The payments are to be made to the Cashier of Her Majesty's Dockyard at Devonport; the first payment is to be made before the student is entered, and the subsequent payments on or before the 30th day of June in each of the four succeeding years. Should a student leave from any cause or be dismissed from the service, not any portion of the payments that have been made in his behalf will be refunded.

18. The parents or guardians of the students will also be required to provide the uniform (see paragraph 48) or other clothing, washing, and necessaries of each student. Board and lodging and medical attendance will be provided by the Admiralty. The students will be required to reside in the training school at Keyham.

19. The weekly pay of students during their training will be as follows, provided they are well reported on by the officers:—

First year .. .. .	1s. per week.
Second year .. .. .	2s. "
Third year .. .. .	3s. "
Fourth year .. .. .	5s. "
Fifth year .. .. .	8s. "

20. Five weeks' leave (thirty working days) on full pay will be granted each year to all students whose conduct and progress have been satisfactory. This leave is to be taken during the school vacations at midsummer and Christmas.
