Present:

THE HONOURABLE G. F. RICHARDSON PRESIDING IN COUNCIL.

WHEREAS by "The Harbours Act Amendment Act, 1883" (hereinafter called "the said Act"), it is, among other things, enacted that, where the foreshore has been legally vested in any Harbour Board or other local governing body, it may from time to time, subject to the provisions of the one hundred and fifty-sixth section of "The Harbours Act, 1878," license and permit any part of the foreshore to be used or occupied, *inter alia*, for the purpose of any local enterprise or object which the Governor in Council may approve: And whereas by the said Act it is also provided that every licensee shall, subject to the provisions of the said Act, have power to make and construct any necessary reclamation for the purpose of erecting on the foreshore comprised in his license, or upon any land below low-water mark immediately contiguous to such foreshore which shall be specified in such license, any building, structure, erection, or other works to enable him to obtain the full benefit of such license: And whereas by the said Act it is further provided that every such license shall be in writing under the seal of the Board or body granting the same, and may be for any period not exceeding fourteen years from the date thereof, and may prescribe a sum of money to be payable either at stated periods or on or before the granting thereof for the use of the foreshore so granted, and may prescribe any other terms or conditions, general or particular, to

be observed or performed by the person to whom the same is granted: And whereas by the said Act it is also enacted that, in any case where there is no Harbour Board, or no Harbour Board empowered to grant any such license as aforesaid, the Governor in Council may in his discretion grant and issue a license for all or any of the purposes hereinbefore mentioned, and all the provisions of the said Act in respect of such licenses shall, *mutatis mutandis*, apply accordingly: And whereas the Kauri Timber Company (Limited), of Auckland (hereinafter called "the company"), has applied for a license under the said Act to occupy a part of the foreshore and the land below low-water mark immediately contiguous to such foreshore, in order to erect and maintain thereon certain booms across the Waihou River, Hokianga, for the purpose of confining floating timber; and, in accordance with the one hundred and fifty-sixth section of "The Harbours Act, 1878," has deposited plans in the office of the Marine Department, at Wellington (marked M.D. 1543 and 1544), showing the place in the said river where it is intended to erect such booms and the area of foreshore or land below low-water mark intended to be occupied for such purposes: And whereas it has been made to appear to the Governor in Council that the proposed work will not be or tend to the injury of navigation; and the said plans have, prior to the making of this Order in Council, been approved by the Governor in Council, without modification or addition: And whereas the foreshore of the Waihou River has not been legally invested in any Harbour Board, and it is expedient that a license should be granted and issued to the company under the said Act, for the purpose aforesaid, on the terms and conditions hereinafter expressed:

Now, therefore, His Excellency the Governor of the Colony of New Zealand, in pursuance and exercise of the power and authority vested in him by the said Act, and with the advice and consent of the Executive Council of the said colony, doth hereby approve of the purpose or object for which the said license is required by the company as aforesaid; and in further pursuance and exercise of the said power and authority, and with the like advice and consent as aforesaid, doth hereby license and permit the company to use and occupy those parts of the foreshore and of the land below low-water mark immediately contiguous thereto which are particularly shown and delineated on the plans so deposited as aforesaid, for the purpose of constructing or erecting thereon booms for confining any floating timber of any kind or description whatsoever belonging to or under the control of the company, such license to be held and enjoyed by the company upon and subject to the following terms and conditions, that is to say,—

1. The concessions and privileges conferred by this Order in Council shall extend and apply only to the parts of the foreshore and of the land below low-water mark necessary for the construction of booms across the Waihou River, as shown on the plans marked M.D. 1543 and 1544.

2. In consideration of the concessions and privileges granted by this Order in Council, the company shall, on being supplied with a copy thereof, pay to the Minister the sum of five pounds, and thereafter an annual sum of five pounds, in respect of such booms, to be paid in two half-yearly instalments on the first day of November and the thirty-first day of May, the first of such half-yearly payments to date from the first day of November, one thousand eight hundred and eighty-nine, and to be paid to the Minister on a copy of this Order in Council being supplied to the company.

3. The company shall cause the said booms to be constructed as shown on the plan marked M.D. 1544, and so as to provide that there shall be no unnecessary delay in allowing the passage of vessels and boats.

4. Should it at any time be made to appear to the Minister that the means of providing proper passage for vessels and boats are insufficient, he may, by a notice in writing left at or posted to the last known address of the company, require it to provide such means as may be specified in such notice, and it shall thereupon, with all convenient speed, cause such means to be provided.

5. That the rights, powers, and privileges conferred by this Order in Council shall continue in force for ten years, computed from the date of this Order in Council, unless in the meantime such rights, powers, and privileges shall be altered, modified, or revoked by competent authority; and the company shall not assign, charge, or part with any such right, power, or privilege without the previous written consent of the Minister first obtained.

6. The said rights, powers, and privileges may be at any time resumed by the Governor, and the company may be required to remove the booms from the Waihou River, and the bed thereof, at its own cost, without payment of any compensation whatever, on giving to the company three calendar months' previous notice in writing. Any such notice shall be sufficient if given by the Minister and delivered at or posted to the last known address of the company.

7. The company shall be liable for any injury which may be sustained by any vessel or boat in passing through the booms or by contact with them, and which may be occasioned by any default or neglect on its part.

8. In case the company shall—

- (1.) Commit or suffer a breach of the conditions hereinbefore set forth, or any of them;
- (2.) Cease to use or occupy the said booms;
- (3.) Fail to pay the sums specified in clause two of these conditions; or
- (4.) Be in any manner wound up or dissolved,

then and in any of the said cases this Order in Council and every right, power, or privilege may be revoked and determined by the Governor in Council without any notice to the company or other proceeding whatsoever; and publication in the *New Zealand Gazette* of an Order in Council containing such revocation shall be sufficient notice to the company, and to all persons concerned or interested, that this Order in Council and the rights and privileges thereby conferred have been revoked and determined; and upon such revocation the Minister may cause the said booms, and all other erections or buildings thereto belonging, to be removed, and may recover the cost incurred by any such removal from the company or its legal representative.

9. In these conditions the term "Minister" means the Minister having charge of the Marine Department, as defined by "The Shipping and Seamen's Act, 1877," and includes any officer, person, or authority acting by or under the direction of such Minister.

This land is all light, sandy soil, principally adapted for grazing purposes only, though probably some of the better land is suitable for root-crops. The greater part of the flat is covered with self-sown rye-grass, and is well known for its grazing capabilities. Artesian water can, it is believed, be obtained in any part of the flat. An artesian well was sunk many years ago on Section 34, Block II., near the sandhill, in the middle of the flat, and is still flowing. Sections 36 to 40, Block II., adjoining the Little River Railway-line, are covered with splendid rye-grass. Sections 27 to 32, Block II., and Sections 1, 2, and 3, Block IV., on the main road, include part of the same rye-grass flat, and have all some ground suitable for building on. Sections 4 to 9, and 13, 14, 15, Block IV., are covered with the lake-weed, growing on a sandy bottom, but are considered capable of improvement if the lake-water is kept off them. The rest of the sections, both in Blocks II., III., and IV., especially those fronting the long straight road, on the ridge known as the base-line ridge, are all more or less covered with rye-grass, affording good pasturage, and carry a large amount of stock. Sections 2 to 8, Block II., are wetter than the rest of the flat, but are all capable of being drained; they do not at present, however, afford such good pasturage as some of the other sections.

The whole of the land is within three and a half miles of either the Greenpark or the Rabbit Island Railway-stations, on the Little River Railway, but a bridge will have to be built across the new cut made for the River Halswell before the latter station can be used. The Ellesmere Flat is situated about eighteen miles from Christchurch, and is eminently fitted for grazing and dairy purposes, being within easy distance of the Taitapu Dairy Factory.
