

SUPPLEMENT
TO THE
NEW ZEALAND GAZETTE

OF
THURSDAY, MAY 14, 1891.

Published by Authority.

WELLINGTON, THURSDAY, MAY 14, 1891.

Notice of Acceptance of Complete Specifications.

Patent Office,
Wellington, 14th May, 1891.

COMPLETE specifications relating to the under-mentioned applications for Letters Patent have been accepted, and are open to public inspection at this office. Any person may, at any time within two months from the date of this *Gazette*, give me notice in writing, in duplicate, of opposition to the grant of any such patent, stating in such notice the particular grounds of his objection. A fee of 10s. is payable with such notice:—

No. 4970.—THOMAS WHITE, of Rangiora, New Zealand, Coachbuilder. An invention for simplex springs for two-wheeled vehicles. (Specification, 2s.; drawings, 3s.)

No. 4972.—JOSIAH CLIFTON FIRTH, of Auckland, New Zealand, Gentleman. An invention for a new process or method for cleaning kauri gum. (Specification, 4s.)

No. 4974.—RICHARD TODD, of 13, Mason Street, Manchester, Lancaster, England, Embroiderer. An invention for improvements in sewing-machine attachments for facilitating the stitching of button-holes and for other purposes. (Specification, £1 13s. 6d.; drawings, £3.)

No. 4976.—ROBERT WILLIAM RUTHERFORD, of Caversham, Otago, New Zealand, Photographer. An invention for New Zealand tanning extract. (Specification, 1s. 6d.)

No. 4507.—WILLIAM LUCAS, of Christchurch, New Zealand, Mechanical Engineer. An invention for a new or improved method of manufacturing malleable-iron castings. (Specification, 2s. 6d.)

No. 4531.—ROBERT ALLAN, of Ballarat, Victoria, Engineer. An invention for an improved method of, and apparatus for, raising sunken vessels, and to prevent vessels from foundering. (Specification, 8s. 6d.)

No. 4506.—WILLIAM SERVICE, of Auckland, New Zealand, Box Manufacturer. An invention for an improved spade for agricultural purposes. (Specification, 1s.)

No. 4977.—GEORGE TAYLOR, of Seel Street, Liverpool, Lancaster, England, Glass Manufacturer. An invention for improvements in apparatus for automatically supplying disinfectant liquids to water-closets, urinals, and the like. (Specification, 11s.; drawings, 10s.)

No. 4978.—JOHN HENDERSON GALBRAITH, of Oxford Street, Thompson Estate, South Brisbane, Queensland, Carpenter. An invention for an improved hinge for automatically closing gates and the like. (Specification, 5s.; drawings, 7s. 6d.)

No. 4979.—ROBERT REID, of Union Lane, Little Collins Street, Melbourne, Victoria, Engineer, ROBERT HANNA, of 18, Market Street, Melbourne, aforesaid, Importer, THOMAS HOLROYD, of Barkly Street, Brunswick, near Melbourne, aforesaid, Draughtsman, and HENRY ARTHUR WHEAT, of Union Lane, Little Collins Street, Melbourne, aforesaid, Engineer. An invention for an improved lamp for burning gasoline and other light liquid hydro-carbons. (Specifications, 15s.; drawings, £1.)

No. 4980.—JOHN SMAILL, of Fernhill, Dunedin, New Zealand, Mechanical Engineer. An invention entitled "The Safety Swingle-tree and Mountings," for uncoupling traces of buggies and other vehicles from runaway horses instantaneously. (Specification, 6s.; drawings, 10s.)

No. 4981.—THOMAS PEACOCK, of Auckland, New Zealand, Optician. An invention for an improved case for winding narrow steel bands, and means of rendering them available for link-measurements. (Specification, 6s.; drawings, 7s. 6d.)

No. 4982.—PERCY ADOLPHUS VAILE, Solicitor, and WILLIAM VAILE, Draper, both of Auckland, New Zealand. An invention for Vaile's patent roller-eyelet, for the more speedy lacing of boots, shoes, corsets, surgical appliances, &c. (Specifications, 2s. 6d.; drawings, 2s. 6d.)

C. J. A. HASELDEN,
Registrar of Patents, Designs, and Trade-marks.

NOTE.—The cost of transcribing the specification and an estimate of the amount required for copying the drawings have been inserted after the notice of each application. Any order for a copy or copies should be accompanied by a post-office order or postal notes for the cost of copying.

Notice of Application to amend Specification.

Patent Office,
Wellington, 14th May, 1891.

A REQUEST to be allowed to amend the complete specification relating to the under-mentioned application has been received, and is open to public inspection. Any person may, at any time within one month from the date of this *Gazette*, give me notice in writing, in duplicate, of opposition to the amendment, stating in such notice the particular grounds of his objection. A fee of 10s. is payable with such notice:—

No. 4319.—**JOSIAH CLIFTON FIRTH**, of Auckland, New Zealand, Miller. An invention for an insulator, to be called "Firth's Patent Pumice Insulator."

The applicant desires to amend the last page of his specification, viz., the one containing the claims, in the following manner, and gives as his reasons "to make the claims more distinct:"—

1. By inserting immediately after the words "I declare that what I claim is" the following words, viz., "First. Forming a non-conducting or heat-insulating covering for diminishing the transmission of heat through the walls of structures of various kinds, wherein the covering is composed of pumice-stone prepared and packed between the inner and outer walls of such structures substantially as herein described."

2. By striking out the word "First," in the fourth line, and substituting therefor the words "Second."

3. By striking out the word "composition," in the fifth line, and inserting instead the words "compositions or materials."

4. By striking out the words "either by packing it between an inner and an outer wall or otherwise and," in the seventh and eighth lines.

5. By striking out the word "Second," in the seventeenth line, and inserting in place thereof the word "Third."

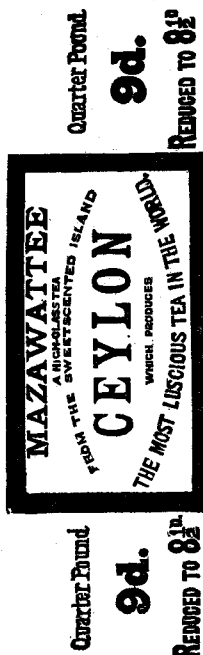

6. By striking out the word "Third," in the twentieth line, and substituting therefor the word "Fourth."

C. J. A. HASELDEN,
Registrar of Patents, Designs, and Trade-marks.

Application for Registration of a Trade-mark.

(No. 207.) Patent Office,
Wellington, 14th May, 1891.

NOTICE is hereby given that **DENSHAM AND SONS**, of 11, Philpot Lane, in the City of London, E.C., England, Merchants, have applied to register, under "The Patents, Designs, and Trade-marks Act, 1889," the trade-mark of which the following is a representation:—

The applicants claim to have used this mark prior to 1889. Nature of the Article to which it is intended such Trade-mark shall apply.

Tea.

Class of Goods in connection with which the Applicants desire the Trade-mark to be registered.

Class No. 42.

Any person may, within two months of the date of this Gazette, give notice, in duplicate, at this office, of opposition to the registration of the trade-mark.

C. J. A. HASELDEN,
Registrar of Patents, Designs, and Trade-marks.

Application for Registration of a Trade-mark.

(No. 208.) Patent Office,
Wellington, 14th May, 1891.

Designs, and Trade-marks Act, 1889," the trade-mark of which the following is a description:—

The words or name "BACON'S LEMON SQUASH."

The applicant claims to have used this trade-mark for over two years.

Nature of the Article to which it is intended such Trade-mark shall apply.

A beverage.

Class of Goods in connection with which the Applicant desires the Trade-mark to be registered.

Class No. 44.

Any person may, within two months of the date of this Gazette, give notice, in duplicate, at this office, of opposition to the registration of the trade-mark.

C. J. A. HASELDEN,
Registrar of Patents, Designs, and Trade-marks.

Application for Registration of a Trade-mark.

(No. 209.) Patent Office,
Wellington, 14th May, 1891.

NOTICE is hereby given that **JOHN LEWIN BACON**, of Tory Street, Wellington, New Zealand, Aërated-water Manufacturer, has applied to register, under "The Patents, Designs, and Trade-marks Act, 1889," the trade-mark of which the following is a description:—

The words "ANTI MAL DE MER."

The applicant claims to have used this trade-mark for over eight years.

Nature of the Article to which it is intended such Trade-mark shall apply.

An aërated drink, to be used as a palliative in cases of sea-sickness.

Class of Goods in connection with which the Applicant desires the Trade-mark to be registered.

Class No. 44.

Any person may, within two months of the date of this Gazette, give notice, in duplicate, at this office, of opposition to the registration of the trade-mark.

C. J. A. HASELDEN,
Registrar of Patents, Designs, and Trade-marks.

Provisional Specifications accepted.

LIST of Provisional Specifications accepted, from the 30th April, 1891, to the 14th May, 1891:—

No. 4971.—**SAMUEL BARBER**, of the Adelphi, London, England, Engineer. An invention for improvements in the method of, and machinery or apparatus for, continuous cleaning and mechanically distilling with other materials of coal, coke, metal ores, pulps, and such like materials.

No. 4973.—**WILLIAM AITKEN**, of Totara Valley, Canterbury, New Zealand, Contractor. An invention for an improvement in the tines, points, or shares of grubbers, horse-hoes, or scarifiers, whereby the weeds, roots, or rubbish can be raised and left on the surface of the ground, and to be called "Aitken's Patent Grubber-foot."

No. 4975.—**EDWARD WILLIS VAN SENDEN**, of Adelaide, South Australia, Wool Broker (nominee of William Clark Loe, of London, England, Engineer). An invention for improved method or process for treating metal-bearing bodies, and the recovery of metals therefrom.

No. 4983.—**ROBERT MOORHEAD**, of Southbridge, Canterbury, New Zealand, and **JOHN MOORHEAD**, of Ashburton, Canterbury aforesaid, Threshing-mill Owners. An invention for improvements in chaff-blowers for automatically removing chaff from combine threshing-machines.

No. 4984.—**HERBERT CHARLES HAUCHARD**, of Auckland, New Zealand, Gentleman. An invention for gold-saving appliance, to be called "Simplex Gold-saver."

No. 4985.—**WILLIAM ISAAC SPENCER**, of Napier, New Zealand, Surgeon. An invention for improvements in, and apparatus for, manufacturing iron from ironsand.

Letters Patent lapsed.

LETTERS PATENT lapsed through non-payment of renewal-fee, from the 30th April, 1891, to the 14th May, 1891:—

- 1703. G. McDonald and J. McLean, boat-clearing apparatus.
- 1710. J. Trebentscheck, pencil and pen-holder.
