

SUPPLEMENT

TO THE

NEW ZEALAND GAZETTE

OF

THURSDAY, DECEMBER 24, 1891.

Published by Authority.

WELLINGTON, THURSDAY, DECEMBER 24, 1891.

*Notice of Acceptance of Complete Specifications.*

Patent Office,  
Wellington, 24th December, 1891.

COMPLETE specifications relating to the under-mentioned applications for Letters Patent have been accepted, and are open to public inspection at this office. Any person may, at any time within two months from the date of this *Gazette*, give me notice in writing, in duplicate, of opposition to the grant of any such patent, stating in such notice the particular grounds of his objection. A fee of 10s. is payable with such notice:—

No. 5253.—27th October, 1891.—ALFRED BARTLETT, of Auckland, New Zealand, Watchmaker. An invention entitled "Bartlett's Racing-clock, for starting, handicapping, and timing races."\* (Specification, £1 16s.; drawings, £2 5s.)

No. 5323.—4th December, 1891.—JOSEPH GEORGE NASH, of Hindmarsh Square, Adelaide, South Australia, Engineer. An invention for improvements in the construction of sheep-shearing machines, and in the method of actuating the same. (Specification, 13s.; drawings, 15s.)

No. 5332.—10th December, 1891.—FREDERICK LANGWORTHY, of Unwin's Bridge Road, St. Peter's, Sydney, New South Wales, Builder. An invention for coal-dust briquettes. (Specification, 2s. 6d.)

No. 5337.—12th December, 1891.—ALFRED MELCHIOR, of Sydney, New South Wales, Mechanical Engineer. An invention for improvements in sheep-shearing machines. (Specification, 10s.; drawings, 10s.)

No. 5338.—12th December, 1891.—THOMAS FERGUSON, of 8, Oban Street, Hawksburn, Victoria, Engineer. An invention for an improved machine for injecting syrup to, and filling with aerated waters, internal-stoppered bottles. (Specification, £1; drawings, £2 5s.)

No. 5341.—7th December, 1891.—ALEXANDER STORRIE, of Invercargill, New Zealand, Implement-maker. An invention entitled "Storrie's Patent Folding Drill." (Specification, 3s.; drawings, 3s.)

No. 5345.—15th December, 1891.—PATRICK JOHN HENLEY, of Leeston, Canterbury, New Zealand, Farmer. An invention for a new grain-pickling machine, to be called "Henley's Grain-pickling Machine." (Specification, 6s.; drawings, 5s.)

No. 5349.—14th December, 1891.—ROBERT McEACHERAN PEACE, of Auckland, New Zealand, Kauri-gum Merchant. An invention for an improved mode of, and apparatus for, cleaning and preparing kauri-gum. (Specification, 9s.; drawings, 10s.)

No. 5350.—14th December, 1891.—RICHARD HARRIS HOPKINS, of Ponsonby, Auckland, New Zealand, Commission Agent. An invention for an improvement in metal cans for preserving meat, fruit, syrup, and some other commodities. (Specification, 6s.; drawings, 5s.)

No. 5352.—21st December, 1891.—JOHN DRAKE HURLEY, of Shortland Street, Auckland, New Zealand, Bootmaker. An invention for an improvement in last-making, to be called "Hurley's Patent Trinomial Last." (Specification, 3s.; drawings, 3s.)

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

NOTE.—The cost of transcribing the specification and an estimate of the amount required for copying the drawings have been inserted after the notice of each application. Any order for a copy or copies should be accompanied by a post-office order or postal notes for the cost of copying.

An asterisk (\*) denotes the complete specification of an invention for which a provisional specification has been already lodged.

The date of acceptance of each application is given after the number.

*List of Provisional Specifications accepted.*

NO. 5312.—24th November, 1891.—EDWARD HUGHES ELLIOTT, of Cross Street, Timaru, New Zealand, Mechanical Engineer. An invention for an improved electro-magnetic belt.

No. 5328.—9th December, 1891.—DONALD STUART, of Foxton, New Zealand, Bootmaker. An invention for an improved method of colouring and enamelling leather.

No. 5329.—9th December, 1891.—JAMES FREYBERG, of Percival Street, Wellington, New Zealand, Surveyor and General Business Agent. An invention for a new rotary ball-caster.

No. 5330.—9th December, 1891.—JAMES FREYBERG, of Percival Street, Wellington, New Zealand, Surveyor and General Business Agent. An invention for a new solid-horn castor.

No. 5331.—9th December, 1891.—JAMES FREYBERG, of Percival Street, Wellington, New Zealand, Surveyor and General Business Agent. An invention entitled "The Arctic Freezer."

No. 5333.—11th December, 1891.—JOHN BIRCHALL, of 51 and 53, Little Latrobe Street, Melbourne, Victoria, Engineer.

An invention for an improved automatic fire telegraph instrument.

No. 5336.—THOMAS FREEMAN BRENCHLEY, of Mauriceville, Wellington, New Zealand, Limeburner. An invention for destroying various kinds of blight on fruit-trees and ornamental shrubs, and exterminating field and garden insect-pests, called "Branchley's Fertiliser and Farm and Garden Insecticide."

No. 5339.—12th December, 1891.—SAMPSON WILLIAMS, of Knigge's Avenue, Wellington, New Zealand, Builder (Assignee of William Pengilly Martin, of the Melbourne Coffee Palace, Bourke Street, Melbourne, Victoria, Engineer). An invention for improvements in the arrangement and working of the sliding doors of landings of lift-shafts or tramcars.

No. 5340.—12th December, 1891.—SAMPSON WILLIAMS, of Knigge's Avenue, Wellington, New Zealand, Builder (Assignee of William Pengilly Martin, of the Melbourne Coffee Palace, Bourke Street, Melbourne, Victoria, Engineer). An invention for a new or improved contrivance whereby lift-cages may be fixed at landings to avoid accidents.

No. 5342.—11th December, 1891.—ENOS BOND, of Wade, Auckland, New Zealand, Storekeeper, and JAMES GOODFELLOW, of Dairy Flat, Auckland, New Zealand, Farmer. An invention for an improved stirrup.

No. 5343.—15th December, 1891.—HENRY ASHWORTH, of Wadestown, Wellington, New Zealand, Engineer. An invention entitled "The Patent Stop-gap or Antivibrator," for placing between the ends of rails in the spaces or joints of tram or railways.

No. 5344.—16th December, 1891.—VICTOR JAMES WILLIAMS, of Grey-Street, Auckland, New Zealand, Brush Manufacturer. An invention entitled "The Syringe Brush for washing Bottles."

No. 5351.—16th December, 1891.—JOHN JOHNSTON, of Wood's Hotel, Rattray Street, Dunedin, New Zealand, Solicitor. An invention for the separation and amalgamation of gold, to be called "The Johnston Separator and Amalgamator."

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*Notice of Application to amend Specification.*

Patent Office,  
Wellington, 24th December, 1891.

A REQUEST to be allowed to amend the specification relating to the under-mentioned application has been received, and is open to public inspection at this office. Any person may, at any time within one month from the date of this *Gazette*, give me notice in writing, in duplicate, of opposition to the amendment, stating in such notice the particular grounds of objection. A fee of 10s. is payable with such notice:—

No. 1237.—EDWARD JOHN PEARSON, of Hamilton East, Auckland, New Zealand, Carpenter. An invention for carbo-lic sand-soap.

The proposed amendments consist in (1) inserting the following words, figures, &c., between lines 4 and 5 of the schedule, viz.: "In order that my invention may be more easily understood, I will now proceed to describe the same. My composition consists of the following ingredients, combined in the proportions stated below, viz.:—

"Tallow .. .. .	15lb.
Caustic soda .. .. .	4lb.
Sifted pumice-sand .. .. .	78lb.
Calvert's carbo-lic acid, No. 5 .. .. .	3lb.

100lb.

These proportions may be varied, more especially if the quality of the ingredients vary. In carrying out my invention I place the caustic soda and tallow in a suitable vessel containing a quantity of cold water, which for the above proportions should be 8 gallons, and boil the same together till the mixture become soap. I then add the sifted pumice-sand and the carbo-lic acid, preferably Calvert's No. 5, in the above proportions. After thoroughly mixing the whole together in the boiler, either by hand or by a mixing-machine fixed therein, I pour the mixture into moulds and allow the same to remain until cold. It is then turned out of the said moulds and dried by natural or other means. (2.) Striking out the words 'Combination of carbo-lic acid with fine sand and soap' in the 2nd and 3rd lines of the claim, and inserting in place thereof the words 'herein described cleansing and disinfecting composition, manufactured in the manner and in the proportions substantially as specified.' (3.) By striking out the words 'or anything' in line 9 of the schedule, and inserting in place thereof the words 'and other similar objects.'

The reasons given for seeking to make this amendment are as follows, viz.: To give more minute details of the proportions of the ingredients used in the manufacture of my soap, and to better define what is claimed.

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*List of Subsequent Proprietors of Letters Patent registered*

SUBSEQUENT proprietors of Letters Patent, by assignment, registered since the 11th December, 1891. (The name of the patentee is given in brackets):—

No. 2340.—Lamson Store Service Company (Limited). [E. Rowlands.]

No. 3666.—B. Hale (half share). [W. W. Dalby.]

No. 4809.—F. B. Carritt. [A. Helwig.]

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*Letters Patent lapsed.*

LETTERS PATENT lapsed through non-payment of renewal-fee, from the 11th December, 1891, to the 24th December, 1891:—

No. 2009.—A. W. Bickerton, balance-beam.

No. 2014.—S. Chandler, sen., S. Chandler, jun., and J. Chandler, lamps or lanterns.

No. 2017.—H. J. Ranger, hedge-cutter.

No. 2019.—C. V. de Velde (The Compagnie de Five Lille), metal bridge.

No. 2020.—W. E. Wilson (L. Brown), paint.

No. 2024.—G. Methven, chaff-cutter.

No. 2025.—J. B. Carter, terra-cotta timber.

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*Applications for Letters Patent lapsed.*

APPLICATIONS for Letters Patent (with which complete specifications have been lodged) lapsed, from the 11th December, 1891, to the 24th December, 1891:—

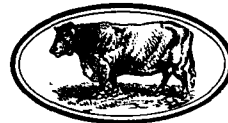

Nil.

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*Application for Registration of a Trade-mark.*

(No. 355.) Patent Office,  
Wellington, 24th December, 1891.

NOTICE is hereby given that ANTON HENDREK HANSEN, of Wellington, New Zealand, Meat-extract Manufacturer, has applied to register, under "The Patents, Designs, and Trade-marks Act, 1889," the trade-mark of which the following is a representation:—

*A H Hansen*

Nature of the Article to which it is intended such Trade-mark shall apply.

A nutritive jelly.

Class of Goods in connection with which the Applicant desires the Trade-mark to be registered.

Class No. 42.

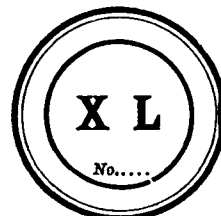

Any person may, within two months of the date of this *Gazette*, give notice, in duplicate, at this office, of opposition to the registration of the trade-mark. A fee of £1 is payable with such notice.

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*Application for Registration of a Trade-mark.*

(No. 380.) Patent Office,  
Wellington, 24th December, 1891.

The applicant claims, as the essential particular of the above represented trade-mark, the letters "X L" in the distinctive manner as shown, and disclaims any right to the exclusive use of the letters "No."

*Nature of the Articles to which it is intended such Trade-mark shall apply.*

Sewing silks, in skeins or on spools.

*Class of Goods in connection with which the Applicant desires the Trade-mark to be registered.*

Class No. 30.

Any person may, within two months of the date of this *Gazette*, give notice, in duplicate, at this office, of opposition to the registration of the trade-mark. A fee of £1 is payable with such notice.

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*Application for Registration of a Trade-mark.*

(No. 381.)

Patent Office,  
Wellington, 24th December, 1891.

NOTICE is hereby given that WHITTINGHAM BROTHERS AND INSTONE, of Invercargill, New Zealand, Merchants, have applied to register, under "The Patents, Designs, and Trade-marks Act, 1889," the trade-mark of which the following is a representation:—

*Nature of the Articles to which it is intended such Trade-mark shall apply.*

Substances used as food: Oatmeal, flour, pearl barley, bran, pollard, and cheese.

*Class of Goods in connection with which the Applicants desire the Trade-mark to be registered.*

Class No. 42.

Any person may, within two months of the date of this *Gazette*, give notice, in duplicate, at this office, of opposition to the registration of the trade-mark. A fee of £1 is payable with such notice.

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*Application for Registration of a Trade-mark.*

(No. 382.)

Patent Office,  
Wellington, 24th December, 1891.

NOTICE is hereby given that JAMES HAMILTON, of Bridge Street, Nelson, New Zealand, Aërated-water and Cordial Manufacturer, has applied to register, under "The Patents, Designs, and Trade-marks Act, 1889," the trade-mark of which the following is a representation:—

The applicant claims to have used this trade-mark since the 1st May, 1888.

*Nature of the Articles to which it is intended such Trade-mark shall apply.*

Aërated waters (including ginger-beer), cordials.

*Classes of Goods in connection with which the Applicant desires the Trade-mark to be registered.*

Classes Nos. 44 and 42.

Any person may, within two months of the date of this *Gazette*, give notice, in duplicate, at this office, of opposition to the registration of the trade-mark. A fee of £1 is payable with such notice.

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*Application for Registration of a Trade-mark.*

(No. 383.)

Patent Office,  
Wellington, 24th December, 1891.

NOTICE is hereby given that J. U. WURSTER, trading as "The J. U. Wurster Soap Company," of Invercargill, New Zealand, Maker of Toilet Soaps and Toilet Requisites, has applied to register, under "The Patents, Designs, and Trade-marks Act, 1889," the trade-mark of which the following is a description:—  
The word "Universal."

*Nature of the Articles to which it is intended such Trade-mark shall apply.*

A shaving-soap and all his "other pure, honest, perfumed soaps."

*Class of Goods in connection with which the Applicant desires the Trade-mark to be registered.*

Class No. 48.

Any person may, within two months of the date of this *Gazette*, give notice, in duplicate, at this office, of opposition to the registration of the trade-mark. A fee of £1 is payable with such notice.

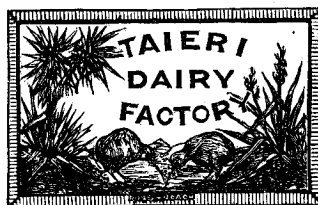

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.

*Application for Registration of a Trade-mark.*

(No. 384.)

Patent Office,  
Wellington, 24th December, 1891.

NOTICE is hereby given that J. AND R. CUDDIE, of Mosgiel, Otago, New Zealand, Storekeepers, have applied to register, under "The Patents, Designs, and Trade-marks Act, 1889," the trade-mark of which the following is a representation:

The applicants claim that the essential particular of this trade-mark is the whole print or brand as delineated, except the words "Dairy Factory," the right to the exclusive use of which they disclaim. They also claim to have used the mark before the date of the passing of "The Patents, Designs, and Trade-marks Act, 1889," having used it first in 1887.

*Nature of the Article to which it is intended such Trade-mark shall apply.*

Butter.

*Class of Goods in connection with which the Applicants desire the Trade-mark to be registered.*

Class No. 42.

Any person may, within two months of the date of this *Gazette*, give notice, in duplicate, at this office, of opposition to the registration of the trade-mark. A fee of £1 is payable with such notice.

C. J. A. HASELDEN,  
Registrar of Patents, Designs, and Trade-marks.
