Notice of Request to amend Specification.

Patent Office,
Wellington, 27th October, 1892.

A REQUEST to be allowed to amend the specification relating to the under-mentioned application for letters patent has been received, and is open to public inspection at this office. Any person may, at any time within one month from the date of this *Gazette*, give me notice in writing, in duplicate, of opposition to the amendment, stating in such notice the particular grounds of his objection. A fee of 10s. is payable with such notice:—

No. 5747.—DONALD ARCHIBALD DOUGLAS, of Blenheim, New Zealand, Architect. An invention for an automatic thermo-electric annunciator.

The nature of the proposed amendments is as follows, viz.:—

1. By inserting, after line 53—*i.e.*, at the end of the descriptive portion of the specification—the following paragraph, viz.: "I have described a form of apparatus which I find suitable for my purpose, but I do not confine myself to the several mechanical details. For instance, it is possible to dispense with two of the legs (E), and use only one, in a vertical position, supported by one tablet cup and tray, and the several details may be modified by a skilled workman without departing from the spirit of my invention."

2. By striking out the whole of the present claim, and insert instead thereof the following, viz.: "In a thermo-electric annunciator, a weight or attachment such as (I), supported by tablets such as (D), in such a manner as to make or break electric contact in order to actuate a signal or bell as and for the purposes substantially as hereinbefore described and illustrated."

The applicant states as his reason for the amendments, "In order that the specification may be rendered clearer and the matter claimed more particularly defined."
