This block is situated between the railway-stations Arno and McLean's, on the Waimate Gorge branch line, about five miles from Waimate, with a bi-weekly train-service. There is a first-class road from the latter place, and a good metalled road running through or abutting on each section, with the exception of Lot 12, which fronts on a formed road. The land is at an altitude ranging between 295ft. and 510ft. above sea-level. The sections north of the railway have a strip of land about 10 chains wide abutting on the road, which is dry and suitable for building-sites; the remaining land in the said sections being rich partly-reclaimed swamp of first-class quality, rather wet within the contour-line, 298ft. above sea-level. The sections on the south side of the railway comprise rich, partly-reclaimed swamp of the same as those on the northern side, with rather more bogwood, and partly good limestone land; the road passing through the sections marking the division between swamp and hill-land. Lot 12 is of fairly good quality, not very steep, but hummocky. Nearly the whole block has been ploughed. All south of the road intersecting Lots 5 to 11 is in English and native grasses, and all north is lying fallow after a heavy crop of turnips. At this season the School Reserve and Lots 1, 2, 3, and 4 have water in the places indicated on the plan. Lot 12 has several springs. Lots 6 to 11 have an ample supply of swamp-water, and possibly might get better by sinking wells. Lot 5 would have to entirely depend on well-sinking. These sections from their excellent position and the quality of the land should afford gardeners, small farmers, and others an opportunity to secure holdings on advantageous terms.

As witness the hand of His Excellency the Governor this twenty-fourth day of November, one thousand eight hundred and ninety-three.

P. A. BUCKLEY,  
For the Minister of Lands.

Lands permanently reserved.

GLASGOW, Governor.

WHEREAS by the two hundred and thirty-fifth section of "The Land Act, 1892," it is enacted that the Governor may from time to time, either by general or particular description, and whether the same has been surveyed or not, reserve from sale temporarily, notwithstanding that the same may be then held under pastoral license, any Crown lands which in his opinion are required for any of the purposes in the said section mentioned:

And whereas by the two hundred and thirty-sixth section of the said Act it is provided that land temporarily reserved under the said two hundred and thirty-fifth section may, at the expiration of one month, but not later than six months after the publication in the *Gazette* of notice of such temporary reservation, be permanently reserved, and that notice of such permanent reservation shall be published in the *Gazette*:

And whereas the lands specified in the first column of the Schedule hereto were, by the warrants the dates of which are specified in the third column of the said Schedule, and the notification of which was published in the *Gazette* specified in the fourth column, temporarily reserved under the authority of the said Act for the purposes specified in the second column of the said Schedule:

Now, therefore, I, David, Earl of Glasgow, the Governor of the Colony of New Zealand, in pursuance and exercise of the power and authority vested in me by the said Act, do hereby permanently reserve the lands so temporarily reserved as aforesaid, and enumerated in the first column of the Schedule hereto, for the purposes specified in the second column of the said Schedule, being the same purposes for which the said lands were so temporarily reserved as aforesaid.

These sections are situated adjacent to and south of Burke's Pass, being part of the original Albury Station, and comprise generally mountainous and hilly open tussock country

of good quality, rocky and shingly on the main tops and spurs, with patches of undulating land and small flats. The sections are fairly well watered by springs and streams. The elevation of the country ranges from 1,900ft. to about 4,300ft. above sea-level, and it is subject to heavy falls of snow, which lie on the higher lands during the winter. The access is by the main road connecting Burke's Pass with Albury, the distances therefrom to the nearest points on the sections being respectively about four miles and fourteen miles. The Duck Stream and other branch roads are unformed. The sections, except for the drawback of being subject to falls of snow, are by quality of soil and situation well adapted for pastoral pursuits. These sections are disposed of subject to the right of the Crown to amend boundaries and areas, and to take all necessary roads.
