Regulations for cutting and removing Flax from Certain Reserves within Mining Districts.

GLASGOW, Governor.

WHEREAS by section six of "The Mining Act Amendment Act (No. 2), 1893" (hereinafter termed "the said Act"), it is enacted that it shall be lawful for the Governor, subject as therein mentioned, from time to time to make, alter, and revoke such regulations as may be necessary for regulating the mode of granting any licenses under the provisions of the section aforesaid, and generally for prescribing any form of lease, license, instrument, or form of procedure required for carrying into effect the purposes of the said Act:

Now, therefore, I, David, Earl of Glasgow, the Governor of the Colony of New Zealand, in pursuance and exercise of the powers and authorities in that behalf conferred upon me by the said Act, do hereby make the under-mentioned regulations for the cutting and removal of flax from lands situate within any of the reserves mentioned in section five of the said Act within mining districts. And I do further hereby prescribe that the form of license to be granted in respect of such cutting and removal shall be that set forth in the Second Schedule to the said regulations.

REGULATIONS FOR GRANTING FLAX LICENSES WITHIN A MINING DISTRICT.

1. Every person desirous of obtaining a license to cut flax within any of the reserves mentioned in section five of "The Mining Act Amendment Act (No. 2), 1893," shall make application to the Warden of the district in the form in

Schedule I. hereto, or to the like effect, accompanied by a sketch-plan of the area applied for, with approximate measurements of the boundary-lines.

2. A copy of every application shall be posted at each corner of the area applied for, and maintained for at least fourteen days before the day of hearing. All objections (if any) to the granting of any such application must be lodged at the Warden's Office within fourteen days after receipt of the application at such office. A copy of every application shall be posted outside the Warden's Office at least ten days prior to the day of hearing.

3. If no valid objection be made, and the Warden is not aware of any reason why a license should not be issued, he may, with the consent of the Minister of Mines, grant a license to the applicant on the following terms and conditions, viz. :—

Term, not exceeding seven years.

Area, not to exceed 80 acres.

Rent, 6d. per acre per annum, payable in advance.

Royalty, 4s. per ton of fibre manufactured from green flax cut or taken from the area described in the license, payable half-yearly.

Half-yearly returns shall be sent to the Warden by the licensee of the number of tons of green flax cut or taken from the said land.

The licensee shall have no right whatever to the ground, but only the right to cut and remove the flax growing thereon, and the license may be cancelled by the Warden if at any time the area granted is used for any purpose or purposes other than those connected with the flax-dressing industry, without the written consent of the Warden.

If the rent or royalty, or any portion, or either, shall be in arrear for thirty days, or if true and correct half-yearly returns be not sent to the Warden within thirty days after the close of each and every half-year of the term of license, the Warden may cancel the license forthwith without prejudice to the recovery of any arrears of rent or royalty due, and the licensee shall immediately cease to cut or remove flax from the land described in the license.

The licensee may surrender his license at the expiration of any year on giving notice to the Warden and paying all arrears of rent and royalty due up to the date of such surrender.

The licensee may also in like manner surrender a part of the area held under license, but not less than one-fourth; and in such case the rent shall only be charged on the reduced area from the date of surrender.

If the first year's rent be not paid within fourteen days from the date of notice that the license is granted and ready for issue, the license shall be *ipso facto* void, and the application shall be cancelled by the Warden accordingly.

Should the land be required at any time during the currency of the license for any public purpose, the licensee shall surrender the license and give up peaceable possession of the land upon demand by the Warden or any other person duly authorised by the Minister of Mines in that behalf, at any time, after notice of not less than thirty days, without any right to refund of rent or compensation to the licensee.

These regulations are made subject to the provisions of "The Mining Act, 1891."

Bonuses for Encouragement of New Zealand Hemp (Phormium tenax) Industry.—Notice No. 387.

Department of Agriculture,
Wellington, 1st February, 1894.

BONUS No. 1.

A BONUS of £1,750 is offered for a machine or process for dressing New Zealand hemp (*Phormium tenax*) which shall be an improvement on the machines or processes now in use, and which shall, after trial, be found to materially reduce the cost of production, improve the product, or increase the quantity of dressed fibre.

The following are the conditions:—

1. All applications for the bonus must be sent addressed to the Hon. the Minister of Agriculture, Wellington, and must reach him not later than the 30th August, 1894. Each application must be accompanied by a description of the machine or process, particularly stating improvements on present machines or processes, and also the cost at which the machine or process can be supplied.

2. The applicants must be prepared to submit their machines or processes to examination at such time and place as the Government may direct.

3. The Government shall appoint a committee of three or more experts, to whom all applications shall be submitted. Such committee shall, after perusal, state what machines or processes they deem worthy of consideration, and may inspect the same at any place within the colony; and, having

so inspected the whole or any of them, may direct that the whole or any of them be brought for further trial to such place as they may think fit.

The cost of bringing the machines or appliances on to the ground, from within the colony, supplying the necessary shafting, motive-power, and buildings, to be defrayed by the Government. If any machine sent from beyond the colony is awarded the bonus or part thereof, then the cost of bringing such machine shall be borne by the Government.

The following shall be the basis of the test:—

The committee shall supply a sufficient and equal quantity of green hemp to each machine or process as a test.

The committee shall take into consideration—

The time occupied by each machine or process in the operation;

The cost of labour and time required after the fibre has left the machine or process before it is ready for baling;

The percentage of dressed fibre and tow produced by each machine or process;

The cost of producing the same;

The cost of the machine, and the simplicity and durability of the working parts.

On completion of the tests the committee shall furnish a report to the Minister on all the machines or processes which they have examined or tested, and shall state,—

- (1.) The machine or process which they consider on the whole the most efficient and economic.
- (2.) Whether they consider that any machine or process tested so materially reduces the cost of production, or improves the product, as to be worthy of the whole bonus or of a part only.
- (3.) Whether, in the event of no one machine or process being entitled to the whole bonus, they deem any machine or process worthy of a part of the bonus, and, if so, how much.

BONUS No. 2.

A bonus of £250 is offered for a process of utilising the waste products of the hemp.

The first three conditions of Bonus No. 1 to apply to this also.

The committee shall supply a sufficient and equal quantity of the waste products to each process as a test.

On completion of the tests the committee shall report to the Minister, and shall give the following particulars of each process: (a.) The nature of the article made. (b.) The quantity produced, and the cost of production. (c.) The value of the product. (d.) Whether any of the processes are of sufficient importance to warrant the Minister in giving (1) the whole, or (2) any part, of the bonus; (3) if a part only, how much.
