ORDER IN COUNCIL.

At the Government Buildings, at Wellington, this tenth day of January, 1896.

Present:

THE HONOURABLE R. J. SEDDON PRESIDING IN COUNCIL.

BY virtue and in exercise of the power and authority vested in me by the eighth section of "The University Endowment Act, 1868," and of every other power and authority enabling me in that behalf, and acting by and with the advice and consent of the Executive Council of the Colony of New Zealand, I, David, Earl of Glasgow, the Governor of the Colony of New Zealand, do hereby declare that the land described in the First Schedule hereto shall be leased upon the terms and conditions mentioned in the Second Schedule hereto, and for that purpose I do hereby authorise the Land Board of Westland to deal with the land in the manner set forth in the said Second Schedule.

FIRST SCHEDULE.

ALL that parcel of land, situate at Hokitika South, in the Provincial District of Westland, containing by admeasurement 5 acres, more or less, bounded on the north by Railway Reserve No. 25, and on the east, south, and west by Section 1605; being University Reserve No. 27, situate in Block IV., Mahinapua Survey District.

SECOND SCHEDULE.

1. THE Land Board shall cause the said land to be surveyed into ten allotments and a tunnel reserve, as shown on the plan deposited in the office of the Chief Surveyor at Hokitika.

2. The Land Board shall offer the lease for a term of three years of each of the said allotments to a party of not less than three *bonâ fide* miners for mining purposes. At the end of such term the interest of the lessees shall cease and determine.

3. The lease shall be in such form, and subject to such conditions (not inconsistent with these presents), as the Land Board may think fit; but the lease shall provide that the lessees shall *bonâ fide* carry on mining operations, and shall hold the land subject to the provisions herein contained, and that they will be bound thereby. The lease shall be signed by the Governor as lessor, and shall be prepared by the Board at the cost of the lessee, but such cost shall not exceed £2 2s.

4. The rental of each allotment shall be £6 for the term of three years, payable in advance, and shall be paid by each party immediately on being notified that their application has been granted, or immediately after the ballot has been declared as hereinafter mentioned.

5. Each party of miners shall apply to the Land Board in writing under the hands of the members thereof for not more than one allotment, and no person shall be a member of more than one party.

6. In case there is only one applicant for any allotment, such allotment shall be leased to the party applying therefor, and the applicant shall be notified accordingly.

7. In case there are more applications than one for any allotment, the successful applicant shall be selected by ballot in such manner as the Board thinks fit.

8. If the rent in respect of any allotment is not paid at the time prescribed in section 4 hereof, the application shall be deemed cancelled, and such allotment shall be disposed of by fresh application or fresh ballot, as the case may be.

9. Each application shall specify the dates and numbers of the miners' rights of the members thereof, and such miners' rights shall be produced to the Land Board before the application is disposed of.

10. No person other than a *bonâ fide* miner shall apply for any allotment.

11. If any miner applies, either directly or indirectly, on behalf of any person other than himself, the application shall be void.

12. In case any dispute may arise on the disposal of any allotment the same shall be referred to the Warden, whose decision shall be final and conclusive.

13. Each party obtaining a lease of any allotment shall be entitled to mine thereon for gold, and, as between themselves and other parties, shall be subject to "The Mining Act, 1891," and the regulations made thereunder.

14. The Warden may arrange with the trustees hereinafter referred to, or, failing them, with any other person, for the construction of the said tunnel, and may grant permission to the trustees or to any other persons to use the said tunnel after construction, on such conditions as may be prescribed hereunder: Provided, however, that the value of any gold taken therefrom, less the reasonable cost of excavating the tunnel and of obtaining such gold, shall be equally divided among the lessees of the said land; and the Warden may at any time cancel the permission hereby authorised to be given.

15. If any dispute arises between any of the lessees of the said land in respect to any right or claim in connection with the said land, such dispute shall be dealt with as provided by "The Mining Act, 1891," and regulations made thereunder.

16. The Warden shall have power to direct any person to inspect the ground in any way so as to insure the safety of the main tunnel and the workings adjacent thereto, and any Mining Inspector shall have the right at any time to enter in and upon such land, and workings thereon, for the purpose of inspection and report and direction.

17. If any two or more of the lessees shall make application to the Warden he shall declare the tunnel hereinbefore referred to to be a main tail-race or tramway, as the case may require; and the lessees shall elect from among themselves three persons as trustees to hold the said tail-race or tramway on behalf of all concerned; and the said trustees may enter into contracts or employ labour for the construction or maintenance of the said tail-race or tramway, and may collect, sue for, and recover any moneys due in respect of such contributions, rates, dues; and the said trustees may also arrange for the construction or maintenance of the said tramway or tail-race by the joint labour or contributions of all parties concerned. No lessee or any other person shall be permitted to use the said tramway or tail-race unless and until all rates, dues, or other contributions in money or labour have been paid. The Warden shall prepare conditions prescribing the manner in which the said tunnel or tramway shall be used and maintained by the said trustees, and also for the registration thereof as nearly as may be in accordance with "The Mining Act, 1891," and the regulations made thereunder.

18. The tunnel shall not be excavated to a greater width than 6ft., and shall be protected on either side for a further width of 4ft. Any lessee desirous of working the ground on either side of the main tunnel shall do so only on the authority of the Warden, and on conditions to be prescribed by him.

19. Subject to the foregoing conditions the Land Board shall from time to time fix a date when applications for the allotments shall be made; and all the provisions of "The Land Act, 1892," relative to applications and ballot shall, as far as possible, apply thereto; and such date for receiving applications shall be publicly notified for at least one week prior to the date fixed.

The figures on the balls shall have a line drawn horizontally under them to show which is the right side up.

4. At the time fixed for the ballot the Commissioner of Crown lands, or officer appointed by him, shall read over each name on the list aforesaid with its rotation number, and, as each name and number is read over, the ball bearing the corresponding rotation number shall be deposited in the ballot-box.

* The remaining suburbs do not lie within borough boundaries, and particulars respecting them have not been obtained for the Vital Statistics.

Deaths occurring at hospitals have been omitted, except where deceased had previously resided in one or other of the above boroughs, in which case the death is counted against the borough of residence.

The total births in the above boroughs amounted to 344, against 325 in November, an increase of 19. The deaths in December were 127, an increase of 1 on the number in November. Of the total deaths, males contributed 74, females 53. Thirty-four of the deaths were of children under 5 years of age, being 26.77 per cent. of the whole number; 26 of these were under 1 year of age. There were 22 deaths of persons of 65 years and upwards: Two men of 70 and 72 died at Auckland; six men of 68, 73, 76, 78, 84, 86, at Wellington; five men of 70 (two), 73, 77, 80, and five women of 66, 68, 78, 83, 87, at Christchurch; four men of 65, 67, 71, 78, at Dunedin.

The following Table shows the Causes of the Deaths of Persons of both Sexes under 5 Years of Age and 5 Years and upwards, and the Proportions per Cent. of Deaths from each Cause, in the Boroughs above given registered during the Month of December, 1895.

In the first table are given the deaths and death-rates for each of the four cities, for the suburban boroughs severally, and for each city with its suburban towns. As regards Auckland and Christchurch, the whole of the area usually recognised as suburban has not yet been brought under municipal government, and the vital statistics do not deal with such portions as still remain in road districts. But the omission is not very important, for there are in either case quite enough suburbs included within borough boundaries to give a fair idea of the death-rate of Greater Auckland and Greater Christchurch. As further boroughs are formed the vital statistics will be made to include them.

The inclusion of the suburban boroughs tends to lower the death-rate for last month at Auckland and Wellington, but raises it at Christchurch and leaves it unchanged at Dunedin. The rates for December are,—

	Death-rate per 1,000 of Population.
Auckland City	0.76
" and five suburban boroughs	0.75
Wellington City	0.83
" and three suburban boroughs	0.77
Christchurch City	0.51
" and four suburban boroughs	0.66
Dunedin City	0.76
" and eight suburban boroughs	0.76

Specific Febrile and Zymotic Diseases.—The number of deaths from diseases of this class was 11, as against 5 in November and 9 in October. Whooping-cough caused 1 death (at Wellington), and diphtheria 3 (1 at Auckland and 2 at Wellington). Four persons died from diarrhoeal complaints: 2 at Auckland, 1 at Wellington, and 1 at Dunedin: 3 were children and 1 an old man. A man of 68 died from stricture of the urethra, and two women (aged 26 and 28) of septicaemia, consequent, in one case, on childbirth.

Parasitic Diseases.—A child 2 years old died from worm-fever at Auckland.

Constitutional Diseases.—The deaths in this class at the four centres during December were 37, as against 33 in November. Tubercular diseases accounted for 23 deaths (phthisis 12), and cancer for 11. Of those who died from phthisis, 7 were under and 5 over 30 years of age. The cases of cancer were as follow: Men, 9—of tongue, 1; of stomach, 3; of bowels, 1; of liver, 2; undescribed, 2: Women, 2—of stomach, 1; undescribed, 1.

Local Diseases.—The deaths fell from 67 in November to 46 in December. The mortality from diseases of the respiratory organs continues low, comprising only 12 deaths, 6 of which were due to pneumonia. Eleven deaths were attributed to affections of the nervous system, 13 to diseases of the heart and aorta, 7 to diseases of the digestive organs, 2 to Bright's disease, and 1 to disease of the ovaries.

Violent Deaths.—Of these, 10 were accidental and 5 suicidal. A girl of 19 was killed through falling from a railway-carriage, and a boy of 9 by falling out of a swing; a child of 8 fell through a skylight and injured her head, a Kanaka sailor aged 26 had his skull fractured by a blow, a boy of 16 succumbed to tetanus following a wound in the leg, a groom (29) and a blacksmith (52) died of sunstroke, two young men were drowned in Dunedin Harbour, and an infant was smothered in bed. Four persons committed suicide by shooting: a bank clerk aged 29, a laundryman (51), a bricklayer (55), "while temporarily insane"; and a boy of 14 "while in a state of mental excitement." The remaining suicide was the case of a cabdriver aged 67, who cut his throat while temporarily insane.

The subjoined table shows the mortality for the last two months at each of the four centres from six principal specific febrile or zymotic diseases, and also the deaths from certain inflammatory diseases of the lungs. These causes of death have been distinguished from the others of the classes to which they belong as being the most important special diseases which give rise to sudden increases in the death-rates of towns, and the prevalence of which is closely connected with sanitary condition and climatic influence of the season on health.
