Teachers' Examination, 1896.

Education Department, Wellington, 20th February, 1896.

THE following lists contain statements of the principal results of the examination held last month. It must be understood that the granting of a certificate depends only in part upon the result of an examination, and that candidates that have not had the experience required by the regulations, or that do not receive the necessary marks from a School Inspector, have no claim to a certificate.

The first list contains the names of the successful candidates for Classes C, D, and E. The names of candidates who, having been partially successful in former years, have now passed in the subjects in which they formerly failed, are included in this list. The second list gives the names of candidates that will be allowed to qualify for Classes C, D, and E respectively by passing at the next examination in those subjects only in which they have this year been unsuccessful. In the case of the candidates that relied partly upon work done at the matriculation examination, the results of that examination have been taken into consideration in preparing these lists. The third list gives the names of the candidates to whom prizes for drawing and for elementary experimental science have been awarded. In a fourth list are given the names of the candidates whose work has been deemed worthy of special mention by the examiners.

Every candidate will receive a private intimation of his success or failure, and those whose names are in the second list will be advised as to the subjects in which they will have to be examined again.

The next examination will take place in January, 1897, beginning about the 7th of the month. Notice must be given so as to be in the office of the Department by the 31st of October. Candidates that have obtained "partial pass" must observe this rule equally with other candidates, and must not expect to receive any further intimation of the date at which the notices become due. Forms of application can be obtained at the office of the Department or of any Education Board.

Certificated teachers that have gained promotion at this examination may send in their certificates for indorsement.

R. J. SEDDON, Minister of Education.
