Notice of Request to amend Specification.

Patent Office,

Wellington, 18th March, 1896.

REQUEST to be allowed to amend the specification relating to the under-mentioned application for Letters Patent has been received, and is open to public inspection at this office. Any person may, at any time within

one month from the date of this Gazette, give me notice in writing of opposition to the amendments. Such notice should be in duplicate, and be accompanied by a fee of 10s.:—

No. 8090.—27th November, 1895.—EMIL LAWRENCE OPPERMANN, of 132, Hanley Road, Finsbury Park, London, England, Electrician, EWALD FISCHER, of 25, Listria Park, Stoke-Newington, London, England, Engineer, and CARL TUNSTILL JOHN OPPERMANN, of 2, Wynatt Street, London, E.C., England, Electrical Engineer. An invention for an improved process for effecting the amalgamation of gold and the like metals in ores.

The nature of the proposed amendments is as follows, viz.:—

(1.) To strike out the words "may be," line 24, page 1, and substitute therefor the word "is."

(2.) To insert between the words "by" and "suitable," line 24, page 1, the words "means of a jet of steam through."

(3.) To strike out the word "to," line 25, page 1, and to substitute therefor the words "and forced into."

(4.) To insert between the words "ore" and "so," line 26, page 1, the words "under pressure."

(5.) To strike out the present claims, and to insert in place thereof the following, viz.:—

"1. The improved process for effecting the amalgamation of gold and other metals in ores, consisting of heating mercury in a closed receptacle until it vapourizes, the vapour being then drawn through a pipe or pipes by means of an injector actuated by steam, hot compressed air, or other suitable gas, and forced thereby into the body of ore to be treated."

The applicants state: "Our reasons for making this amendment is to more clearly describe the invention and claim."
