

SUPPLEMENT

TO THE

NEW ZEALAND GAZETTE

OF

THURSDAY, DECEMBER 10, 1896.

Published by Authority.

WELLINGTON, THURSDAY, DECEMBER 10, 1896.

Notice of Acceptance of Complete Specifications.

Patent Office,
Wellington, 9th December, 1896.

COMPLETE specifications relating to the under-mentioned applications for Letters Patent have been accepted, and are open to public inspection at this office. Any person may, at any time within two months from the date of this *Gazette*, give me notice in writing of opposition to the grant of any such patent. Such notice must set forth the particular grounds of objection, and be in duplicate. A fee of 10s. is payable thereon.

No. 8131.—10th December, 1895.—FARQUHAR MATHESON McLARTY, of 30, Beach Street, Penang, Straits Settlements, but at present residing at 7, Margaret Street, Greenock, North Britain, Mechanical Engineer. An invention for improvements in apparatus for boring earth, minerals, and other materials, for prospecting or other purposes, applicable also for boring operations generally. (Specification, £2 3s.; drawings, £2 15s.)*

No. 8321.—28th February, 1896.—JABEZ AMBROSE PACKER, of Bridge Street, Nelson, New Zealand, Artificial-limb Manufacturer. An invention entitled "J. A. Packer's New or Improved Adjustable Artificial Limb." (Specification, 4s. 6d.; drawings, 5s. 6d.)*

No. 8640.—9th July, 1896.—JULIAN REGINALD HART, of Ashburton, Canterbury, New Zealand, Bank Clerk. An invention for improvements in horse-collars. (Specification, 5s. 6d.; drawings, 6s.)

No. 8706.—6th August, 1896.—JOHN TUCK, of O'Neil Street, Leichhardt, Sydney, New South Wales, Messenger. An invention for a bicycle-brake. (Specification, 3s. 6d.; drawings, 5s. 6d.)*

No. 8780.—20th August, 1896.—PETER ELLIS, of 71, Cathedral Square, Christchurch, New Zealand, Mechanical Engineer. An invention for improvements in and relating to the under-gear of rolling-stock. (Specification, 6s.; drawings, £1 6s. 6d.)*

No. 9012.—3rd November, 1896.—WILLIAM KEYMER, of Auckland, New Zealand, Plumber and Gasfitter. An invention entitled "Keymer's Improved Funnel Attachment for the Charcoal Box-iron," whereby the need of keeping the charcoal alight by continuously blowing is dispensed with. (Specification, 3s. 6d.; drawings, 6s.)

No. 9015.—7th November, 1896.—ALBERT GALLATIN CORRE, of Cincinnati, Ohio, United States of America, Capitalist (assignee of Bernard Granville, of Grand Hotel, Cincinnati aforesaid, Manufacturer). An invention for improvement in type-writing machines. (Specification, 15s. 6d.; drawings, £4 4s.)

No. 9038.—16th November, 1896.—WILLIAM DAVIDSON, Teacher, and SPENCER GEORGE SMITH, Gentleman, both of 2, Commercial Chambers, Manse Street, Dunedin, New Zealand. An invention for improvements in sanitary-paper holders. (Specification, 3s.; drawings, 8s.)

No. 9044.—17th November, 1896.—NORMAN SELFE, of 279, George Street, Sydney, New South Wales, Consulting, Mechanical, and Civil Engineer. An invention for improvements in the construction of compressors for air and gases. (Specification, £1 4s. 6d.; drawings, £1 11s. 6d.)

No. 9054.—14th November, 1896.—ALEXANDER DURIE, of 31, Moray Place, Dunedin, New Zealand, Coffee and Spice Merchant. An invention for improvements in airtight canister-covers for coffee and spice. (Specification, 3s.; drawings, 3s.)

No. 9066.—26th November, 1896.—WILLIAM BARWELL PARSONS, of Queen Street, Melbourne, Victoria, Gentleman. An invention for improvements in cyclists' valises. (Specification, 5s.; drawings, 5s. 6d.)

No. 9067.—26th November, 1896.—ROBERT TAYLOR, of Adelaide, South Australia, Inventor. An invention for an improved combined reciprocating concentrator and amalgamator. (Specification, 10s. 6d.; drawings, 13s.)

No. 9068.—26th November, 1896.—JOSEPH GAUT, lately of Hastings, New Zealand, but now of Renwick Street, Leichhardt, near Sydney, New South Wales, Artist. An invention for an improved electric photographic time- and position-recorder, especially useful for races. (Specification, £1 17s.; drawings, £2 7s. 6d.)

No. 9069.—28th October, 1896.—ALFRED BACH, of Crummer Road, Ponsonby, Auckland, New Zealand. An invention for a measure for liquids, to be screwed on the mouth of the tap, also a self-acting vent in connection therewith. (Specification, 2s.; drawings, 3s.)

No. 9070.—23rd November, 1896.—JAMES CRERAR NAINSMITH, of 31, Moray Place, Dunedin, New Zealand, Engineer. An invention for improved portable seed or artificial-manure sower. (Specification, 4s.; drawings, 5s. 6d.)

No. 9075.—28th November, 1896.—JOHN EDWARD FRIEND, of 54, Lambton Quay, Wellington, New Zealand, Engineer. An invention for improvements in steam-boilers. (Specification, 8s. 6d.; drawings, 13s. 6d.)

No. 9078.—27th November, 1896.—JOSEPH FREDERICK LLOYD, of Woolston, Canterbury, New Zealand, Engine-driver. An invention for an improved adjustable fastening or coupling for driving-belts. (Specification, 5s.; drawings, 6s.)

No. 9079.—27th November, 1896.—ALFRED VAUGHAN, of 19, Milton Street, Ashfield, Cumberland, New South Wales. An invention for improvements in incandescent gaslight fittings. (Specification, 6s.; drawings, 6s.)

No. 9083.—1st December, 1896.—GEORGE POLL, of 54, Lambton Quay, Wellington, New Zealand, Miner. An invention for improvements in dredges. (Specification, 10s.; drawings, £1 15s.)

No. 9085.—4th November, 1896.—JOHN HENDERSON, of Hawera, Taranaki, New Zealand, Saddler. An invention entitled "Henderson's Safety Breaching." (Specification, 1s. 6d.)

No. 9089.—3rd December, 1896.—ALEXANDER WOODROFFE GOYDER, of Hillgrove, New South Wales, Assayer. An in-

vention for improvements in discharge-shoots, specially adapted for feeding ore to stamp-batteries. (Specification, 9s. 6d.; drawings, 10s. 6d.)

No. 9090.—3rd December, 1896.—SCHROEDER'S BALL-BEARING COMPANY (LIMITED), an incorporated company according to the laws of the Colony of New South Wales, whose registered office is at Sydney, in the said colony (assignee of Frederick William Schroeder, of Newman Street, Newtown, near Sydney aforesaid, Engineer). An invention for improvements in ball-bearings, and devices for adjusting and lubricating the same, particularly applicable for cycles. (Specification, £1; drawings, 13s.)

No. 9091.—3rd December, 1896.—JAMES ALEXANDER WALKER, of Folkestone, Lavender Bay, North Sydney, New South Wales, Engineer. An invention for an improved sprocket-wheel for chain-gearing, specially useful for cycles. (Specification, 8s. 6d.; drawings, 8s.)

No. 9092.—3rd December, 1896.—PARNELL RABBIDGE, of Sydney, New South Wales, Electrician. An invention for an improved appliance to be used as an indicator, signal, or relay in connection with telephone switch-boards and other analogous apparatus. (Specification, 7s. 6d.; drawings, 8s.)

No. 9093.—3rd December, 1896.—ROBERT WILLIAM WYBETT, of Yarram Yarram, Victoria, Accountant. An invention for improvements in pneumatic tires. (Specification, 2s.; drawings, 3s.)

No. 9094.—2nd December, 1896.—CHARLES COOPER, of Mangorei, Taranaki, New Zealand, Dairy Factory Manager. An invention for aerating and cooling milk, to be called "Cooper's Milk Aerator and Cooler." (Specification, 4s.; drawings, 6s.)

No. 9098.—20th November, 1896.—ROBERT COCKERELL, of Dunedin, New Zealand, Blacksmith. An invention entitled "R. Cockerell's Improved Sectional Step-drop Perforated Tables," for saving gold, silver, and other minerals. (Specification, 2s. 6d.; drawings, 3s.)

No. 9101.—7th December, 1896.—ELLIS SPEAR and FRANK LEANDER MIDDLETON, both of 1003, F Street, Washington, Columbia, United States of America (assignees of Alonzo Louis Sweet, of 202, Maple Street, Norwich, Connecticut, United States of America). An invention for improved machinery for making seamless loops and other leather articles. (Specification, £1 18s.; drawings, £5 15s.)

No. 9102.—7th December, 1896.—KATE ALBERTA MAY, of 42, Blyth Road, London, England, Gentlewoman (administratrix of estate of Franklin Clay May, of 10, Sterndale Road, London, England, Exhibitor, deceased). An invention for an improved process for the extraction of gold and silver from their ores. (Specification, 5s.)

No. 9105.—27th November, 1896.—HARRISON GIBSON, of Ngaire, New Zealand, Settler. An invention for an improved composition for branding of cattle, horses, and sheep. (Specification, 2s.)

F. WALDEGRAVE,
Registrar.

NOTE.—The cost of transcribing the specification, and an estimate of the amount required for copying the drawings, have been inserted after the notice of each application. An order for a copy or copies should be accompanied by a post-office order or postal notes for the cost of copying.

An asterisk (*) denotes the complete specification of an invention for which a provisional specification has been already lodged.

The date of acceptance of each application is given after the number.

Provisional Specifications.

Patent Office,
Wellington, 9th December, 1896.

APPLICATIONS for Letters Patent, with provisional specifications, have been accepted as under:—

No. 9018.—7th November, 1896.—AUDLEY CHARLES MILES, of Woodstock House, Woodstock, Oxfordshire, England, Esquire, and BERNHARD FIEZT DE MORGENSTERN, of 268, Strand, London, England, Experimental Chemist. An invention for improvements in and relating to galvanic batteries.

No. 9064.—17th November, 1896.—ALEXANDER EVANS, of Gore, Otago, New Zealand, Engineer. An invention for improvements in attachment of endless belts.

No. 9065.—25th November, 1896.—HENRY GEORGE BEDDELL, Jun., of Windsor Place, Wellington, New Zealand, Tailor, and LENA BEDDELL, of Windsor Place, Wellington, New Zealand, Settler. An invention for improved spouting-dies, to be known as the "Lightning Dies."

No. 9072.—27th November, 1896.—HARRY MORRISON, of 27, Martin's Lane, Cannon Street, London, England, Engineer. An invention for improvements in chain driving-wheels.

No. 9074.—26th November, 1896.—GEORGE ARTHUR FULLER, of 71, Cathedral Square, Christchurch, New Zealand, Butcher. An invention for improved wool-washing machine.

No. 9076.—28th November, 1896.—ANDREW JOHN PARK, of 2, Commercial Chambers, Manse Street, Dunedin, New Zealand, Solicitor. An invention for improvements in candles.

No. 9077.—25th November, 1896.—WILLIAM CHALMERS, of Milburn, New Zealand, Blacksmith. An invention entitled "Chalmers's Cyclone Lime-spreader."

No. 9080.—28th November, 1896.—WILLIAM FAIRWEATHER, of Blenheim, Marlborough, New Zealand, Engineer. An invention for a yielding beating-bar for flax-strippers.

No. 9081.—25th November, 1896.—LOUISA LAWSON, of 402, George Street, Sydney, New South Wales, Printer and Publisher. An invention for an improved combination buckle and fastener, specially applicable for fastening mail-bags, and for other similar purposes.

No. 9084.—1st December, 1896.—JAMES W. ROBERTSON, of 2, Commercial Chambers, Manse Street, Dunedin, New Zealand, Miner. An invention for an improved apparatus for saving gold.

No. 9087.—27th November, 1896.—WALTER BROWN, of Tay Street, Invercargill, New Zealand, Blacksmith. An invention entitled "Brown's Improved Road-scoop Handle."

No. 9095.—2nd December, 1896.—ARTHUR JOHN CUMING, of Randolph Street, Woolston, Christchurch, New Zealand, Journalist. An invention for a simplex prop for bicycles.

No. 9096.—2nd December, 1896.—ALEXANDER STORRIE, of Matura Implement-works, Matura, New Zealand, Agricultural Engineer. An invention for improved apparatus for regulating the width of turnip-drills, turnip-thinners, and similar implements.

No. 9103.—7th December, 1896.—JOSEPH GORDON-JONES, of Taheke, Hokianga, New Zealand, Farmer. An invention entitled "The Apex Photographic Rocker and Washer."

F. WALDEGRAVE, Registrar.

NOTE.—Provisional specifications cannot be inspected, or their contents made known by this office in any way, until the complete specifications in connection therewith have been accepted.

The date of acceptance of each application is given after the number.

Notice of Request to amend Specification.

Patent Office,

Wellington, 9th December, 1896.

A REQUEST for leave to amend the specification (including drawings) relating to the under-mentioned application for Letters Patent has been received, and is open to public inspection at this office. Any person may, at any time within one month from the date of this *Gazette*, give me notice in writing of opposition to the amendments. Such notice must set forth the particular grounds of objection, and be in duplicate. A fee of 10s. is payable thereon.

No. 8959.—7th October, 1896.—ARTHUR BILLCLIFF, of Addington, near Christchurch, Canterbury, New Zealand, Grocer. An invention for improved method of adjusting certain parts of apparatus for subdividing butter, butterine, or lard, and also improvements in said apparatus.

The nature of the proposed amendments is as follows, viz.:

(1.) To strike out the words beginning "one end" and ending with the word "said," and substitute therefor the words "the rods in each," lines 30 and 31, page 4.

(2.) To strike out the words "and is," and insert instead the word "are," line 32, page 4.

(3.) To strike out the words "a disc," and insert instead the word "discs"; also to strike out the letter "a"; and to insert the letter "s" after the word "rod," line 32, page 4.

(4.) To strike out the word "both," and insert instead the words "each pair of," line 33, page 4.

(5.) To insert the word "screw" after the word "two"; and to strike out the word "when," and insert instead the word "for," line 34, page 4.

(6.) To alter figures 1, 2, 3, 4, 5, and 7 of the drawings.

The applicant states, "My reasons for making this amendment are that I deem it advisable to more clearly describe that portion of the invention referred to, the drawings being amended to correspond, and to correct portions inaccurately drawn."

F. WALDEGRAVE,

Registrar.

Letters Patent sealed.

LIST of Letters Patent sealed from the 26th November, 1896, to the 9th December, 1896, inclusive:—

No. 7627.—J. A. Belk, cycle-gearing.

No. 7848.—C. V. Jenkins, setting out angles and bevels.

No. 7854.—J. McKenny and R. Martin, threshing cocksfoot, &c.

No. 7926.—F. J. King, ploughshare.

No. 8068.—J. Hart and W. E. Humphreys, pain specific.

No. 8719.—A. K. Huntington, hydrocyanic acid.

No. 8720.—H. J. I. Bilton and T. Timmins, scraping interior of water-mains, &c.

No. 8741.—H. Frasch, mining.

No. 8742.—E. Pontin, lining for butter-boxes, &c.

No. 8805.—E. A. Ashcroft, propelling cycles, &c.

No. 8807.—H. J. I. Bilton and T. Timmins, thimble and hatch-box in connection with scrapers for water-mains, &c.

No. 8814.—A. G. Brown, metal castings and moulds.

No. 8815.—O. Mergenthaler, linotype-machine.

No. 8817.—F. D. T. Lehmann and P. N. Kohlsaat, continuous kiln.

No. 8828.—E. B. Beecher and J. P. Wright, match-machine.
 No. 8829.—J. S. Scarr, lanterns, lamps, &c.
 No. 8830.—J. Fraser, fuse-lighter.
 F. WALDEGRAVE, Registrar.

Letters Patent on which Fees have been paid.
 [NOTE.—The dates are those of the payments.]

SECOND TERM'S FEE.

No. 5982.—J. C. Teare, nail for corrugated-iron roof, &c.
 (F. Gold). 26th November, 1896.

THIRD TERM'S FEE.

No. 4092.—D. and J. S. Mercer, harvester. 27th November, 1896.
 F. WALDEGRAVE, Registrar.

Subsequent Proprietors of Letters Patent registered.

[NOTE.—Names in brackets are those of the patentees, and the dates the dates of registration.]

No. 6545.—Frank Fowler and William Fowler, of Auckland, New Zealand, Plumbers and Iron Merchants, trading there in copartnership, under the style or firm of "Fowler Brothers." Skylight-frame: For and within the limits of the Provincial District of Auckland—that is to say, for the City of Auckland, Townships of Onehunga, Otahuhu, Papakura, the Waikato district, and extending north to and including the Kaipara district, but excluding those portions of the said provincial district known as the Thames and Coromandel. [J. W. Wade.] 26th November, 1896.

No. 8104.—Herbert Edgar Smith, of Great Ryburgh, Norfolk, England, Miller, and Walter Salter, of Merton Abbey, Surrey, England, Match-manufacturer, trading together at Merton Abbey aforesaid, under the style of "The Merton Match Company." Matches. [G. W. Thomas.] 9th December, 1896.

No. 8262.—Zealandia Soap and Candle Company (Limited), whose registered office is at Heathcote Bridge, Woolston, New Zealand. Soap: License for Colony. [E. R. Standfield and F. Biggs.] 9th December, 1896.

No. 8749.—Louis Henry Goodman, of 212, Cromwell Road, London, England, Gentleman; Joseph Edward Lilley, of 10,

Throgmorton Avenue, London aforesaid, Stockbroker; and John Chapman, of St. Mary's Road, Ealing, Middlesex, England, Gentleman. Disintegration of quartz, &c. [A. Gutensohn.] 9th December, 1896.

F. WALDEGRAVE, Registrar.

Applications for Letters Patent lapsed.

LIST of applications for Letter Patent (with which complete specifications have been lodged) lapsed from the 26th November, 1896, to the 9th December, 1896, inclusive:—

No. 7638.—R. E. McRae and H. E. Good, starting-machine.

No. 7642.—W. Morton, siphon-starter.

No. 7649.—E. R. Sincock, candle-holder.

No. 7656.—A. Burt, trap for drains.

No. 7657.—T. E. Danks, cleaning knives.

F. WALDEGRAVE, Registrar.

Letters Patent void.

LIST of Letters Patent void through non-payment of fee for second term from the 26th November, 1896, to the 9th December, 1896, inclusive:—

No. 5745.—W. Henry, electrical generator.

No. 5746.—W. S. Bayston, store-service apparatus (The Lamson Store-service Company (Limited), the Lamson Consolidated Store-service Company, and J. H. Goodfellow).

No. 5749.—F. W. Gough, invalid-carriage.

No. 5754.—G. Massey, shearing-machine.

No. 5756.—R. R. Taylor, horse-cover.

No. 5757.—W. Withell, butter-printer.

F. WALDEGRAVE, Registrar.

Design registered.

A DESIGN has been registered in the following names:—

[NOTE.—The date is that of registration.]

No. 75.—Thomas Falvey and Walter Henry Chapman, of Barbadoes Street, Christchurch, New Zealand. Class No. 5. 25th November, 1896. F. WALDEGRAVE, Registrar.

Applications for Registration of Trade Marks.

Patent Office, Wellington, 9th December, 1896.

APPLICATIONS for registration of the following trade marks have been received. Notice of opposition to the registration of any of them can be lodged at this office within two months of the date of this Gazette. Such notice must be in duplicate, and accompanied by a fee of £1.

No. 1801.

4th September, 1896.

The following eminent authorities have, after extensive experiments and careful research, pronounced most favourably on the ingredients, which are all of vegetable origin, of this Compound:—

1439; 1765.—Lever Brothers (Limited); Class 47. (*Gazette* No. 76, of 1st October, 1896.)

F. WALDEGRAVE,
Registrar.

COPIES of "The Patents, Designs, and Trade-marks Act, 1889," with Regulations thereunder, and printed forms of application and specification, can be obtained from the Patent Office, the Government Printer, Local Patent Offices, or Money-order Offices.

Local Patent Offices for the reception of applications for Letters Patent have been established at the following places: Auckland, Thames, New Plymouth, Wanganui, Gisborne, Napier, Blenheim, Westport, Greymouth, Hokitika, Christchurch, Ashburton, Timaru, Oamaru, Dunedin, Queenstown, Lawrence, and Invercargill. In every case the office is at the Courthouse.

Specifications of all Patents and Letters of Registration applied for in the colony can be inspected at the Patent Office, and particulars of Patents, &c., granted in England, the United States, Canada, and the Australian Colonies can be seen at the Patent Office Library at the Museum, Wellington.

The following publications of this office can be had from the Government Printer:—

1. Printed Specifications to the end of the year 1879.
2. Annual Lists of Letters Patent and Letters of Registration applied for, and Particulars of Applications, and Patents lapsed, from 1880 to 1888 inclusive.
3. Annual Report of the Registrar, containing list of Letters Patent, nature of Letters Patent, &c., applied for during the years 1889 to 1895, inclusive.

The Patent Office Supplement to the *New Zealand Gazette* is published fortnightly, and contains all notices required by law to be gazetted concerning Patents and Trade-marks. It also contains particulars of lapsed applications for Patents and of expired Letters Patent, and other information useful to inventors, manufacturers, and others. This Supplement is issued free to subscribers to the *Gazette*, and to others on payment of a special subscription of 10s. per annum, payable in advance to the Government Printer.

By Authority: JOHN MACRAY, Government Printer, Wellington.

CHAPTER I

The first part of the book is devoted to a general history of the United States from its discovery by Columbus in 1492 to the present time. It covers the period of the early settlement, the struggle for independence, the formation of the Constitution, and the development of the Union.
