[The arrangements hereinafter described are subject to revision under the orders of the Secretary of State for India.]

1. The Royal Indian Engineering College is primarily maintained, under the orders of the Secretary of State for India in Council, for the education of candidates for the service of Government in the India Public Works, Telegraph, and Forest Departments; but it is open, to the extent of the accommodation available, to all persons desirous of following the course of study pursued in it.

INDIA FOREST DEPARTMENT APPOINTMENTS.

2. The examination, which is conducted by the Civil Service Commissioners, usually takes place towards the end of June; and candidates may undergo the written part of their examination in London, Edinburgh, or Dublin, or at any of the provincial centres at which the simultaneous examination of candidates for admission to the Royal Military College, Sandhurst, is to be held. A list of the probable centres may be obtained from the Civil Service Commissioners at any time after March, 1897. The oral and practical parts of the examination will be held in London only.

A fee of £2 is required from candidates examined in London, but when the written examination is conducted elsewhere than in London the fee is £3. Candidates examined at a college or school will probably be required to pay a local fee in addition to the fee of £3 (in order to defray the expenses of superintendence), as to which they should obtain early information from the college or school authorities. The fee payable to the Civil Service Commissioners must be paid by means of stamps of the specified amount. Instructions on this point will be issued to candidates about ten days before the examination.

3. The number of candidates to be selected annually varies according to the requirements of the Forest Service in India; the figures as regards each particular year will be advertised from time to time. In 1897 there will be six appointments offered for competition.

4. Candidates for the Indian Forest Department are selected under the following arrangements:—

(a.) An applicant must be a natural-born British subject, and must be above seventeen and under twenty years of age on the 1st of June of the year in which he competes for an appointment. He must be unmarried, and if he marries before reaching India he will forfeit his appointment.

*The staff of the College is only given in so far as it concerns the Forest Branch.

(b.) An applicant must send* to the Revenue Department of the India Office, on or before the 1st day of May of the year in which he proposes to compete,—

- (1.) His name and parentage, a certificate or other satisfactory evidence of the date of his birth, and the written consent of parent or guardian that his name should be recorded as a candidate.
 - (2.) A statement of the places of education at which he may have been, accompanied by testimonials of good conduct, during the last four years.
- (c.) Applicants will have to appear before a Medical Board† at the India Office, particular stress being laid upon good vision and hearing. A physical test will also be imposed, so as to insure the selection of persons of active habits and powers of endurance.
- (d.) The applicants who have successfully passed the medical examination and the physical test will be required to undergo an examination before the Civil Service Commissioners in the following subjects‡ (Classes I. to III.), marks being assigned as follows:—

<i>Class I.—Obligatory Subjects.</i> §	Marks.
1. Mathematics (lower)—viz., algebra up to and including the binomial theorem; the theory and the use of logarithms; Euclid, Books I. to IV. and VI.; plane trigonometry up to and including the solution of triangles and mensuration	2,500
2. English composition	1,000
3. German (400 for colloquial)	2,000

In each of these subjects a candidate must obtain not less than one-third of full marks in order to qualify.

<i>Class II.—Optional Subjects.</i>	
4. Mathematics (higher), including analytical geometry, conic sections, statics, and dynamics	2,000
5. French (400 for colloquial)	2,000
6. Latin	2,000
7. Greek	2,000
8. English History. There will be set: one general paper; one paper limited to a fixed period, which will be from the year 1660 to the year 1727 for the examination of 1897	2,000
9. Botany—viz., the elementary parts of vegetable morphology, histology, and physiology, and the principles of a natural system of classification as illustrated by the more important British natural orders. Candidates will be required to describe plants in technical language. Questions will not be set on vegetable paleontology or on the geographical distribution of plants	2,000
10. Chemistry—viz., the elements of inorganic chemistry	2,000
11. Physics. Elementary properties of electricity, magnetism, heat, light, and sound	2,000
12. Physical geography and geology, chiefly economic, including the recognition of the more familiar minerals and rocks, and their properties and uses	2,000

* There is no form of application; the documents specified in paragraph 4, (b), clauses (1) and (2), should be enclosed in a covering letter addressed to the Secretary, Revenue Department, India Office, London.

† With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the forest service, it is suggested that, before any such preparation is begun, candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the following points: (1) A weak constitution, (2) defective vision, (3) impaired hearing, (4) the existence of any congenital defect.

‡ It is to be understood that this private examination is merely suggested to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the official examination.

§ On the subject of the standard of eyesight required for the Indian services, a pamphlet has been published, under the authority of the Secretary of State in Council, by Messrs. Churchill and Sons, 11, New Burlington Street.

¶ Reprints of the papers set at previous examinations, together with tables of the marks assigned to the candidates, are published by the Civil Service Commissioners, and can be obtained through any bookseller. The price of each reprint is 1s.

§ Attention is invited to the appended syllabus, giving further details regarding the extent and character of the examination.

¶ No special text-books are prescribed.

A candidate may take any two, but not more than two, of the optional subjects. Under "Optional Subjects" Nos. 9, 10, 11, and 12, the examination will be partly practical.

Class III.—Additional Subjects.

13. Freehand drawing	500
14. Geometrical drawing	300

Either or both of these subjects may be taken in addition to the obligatory and the two optional subjects.

- (e.) The Secretary of State will nominate as probationers such competitors as attain the highest aggregate of marks (provided they obtain the minimum in the obligatory subjects and satisfy the requisite conditions in other respects). These probationers will then enter the College, where they will be further trained for the Forest Service of India.
- (f.) If the full number of competent probationers required in any year cannot be obtained from the persons so examined, the Secretary of State reserves a discretion to fill up the deficiency by selecting any other person or persons who may satisfy the authorities of the College that he or they are properly qualified to become probationers for the Forest Service.

5. The course of study for candidates for the India Forest Service extends over about three years, at present divided into seven terms, and a period of study in foreign forests. For about seven terms the candidates will prosecute their studies mainly at the College, and during the period of foreign study, which will occupy the remainder of the course, they will visit, under suitable supervision, such continental forests as may be selected for the purpose. Excursions may also be made for purposes of instruction, both during term-time and during part of the vacations.

6. Each annual session begins in September, and is divided into three terms, with vacations of about four weeks at Christmas, two weeks at Easter, and eight weeks in the summer, except at the end of the visit to the Continent, when the vacation will be shorter.

7. A charge of £61 is made for each of the seven terms spent at the College; for the period of foreign study the charge is £150; the amounts must be paid terminally in advance to the Bank of England for the first seven terms, and the amount due for the period of foreign study must be paid before the period begins. Receivable orders, with full directions as to the mode of payment, will be forwarded from the India Office to the parents or guardians shortly before the fees fall due. A student will not be allowed to come into residence or to start for his foreign study of forests until his fee has been paid.

8. A deposit of £5 is required to be paid by each student on admission to the College as caution-money, to cover charges incurred by him for damage to books, instruments, &c., or any College bills outstanding on leaving the College. Any balance over and above such charges will be repaid. This deposit is to be paid with the fee for the first term, making the total payment on that occasion £66.

9. The foregoing payments cover all charges for tuition, board according to the College tariff, lodging, with washing up to a cost of 2s. a week, and ordinary medical attendance while in residence at the College. When students are on tour and during the course of practical instruction, whether in Great Britain or on the Continent, the Secretary of State will defray the expenses of (1) board, lodging, and washing (the aggregate maximum expenditure under these heads being 10s. per diem), (2) travelling-expenses, and (3) fees to local forest officers, &c.

Students are required to provide their own class-books and drawing-instruments. Drawing-paper, drawing-boards, and surveying-instruments are provided by the College.

10. The prescribed course of study comprises the following subjects:—I. Auxiliary subjects: (1) geometrical drawing, (2) freehand drawing, (3) surveying, (4) forest engineering, (5) accounts, (6) German, (7) mechanics, (8) physics, (9) chemistry, (10) geology and mineralogy, (11) entomology, (12) botany, (13) drill and gymnastics. II. Forestry, theoretical and practical, in all its branches.

11. Every student is required to conform to the College rules, to exhibit due diligence in his studies throughout the course, and to give evidence of satisfactory progress in such manner as may be required, failing which, or in the event of serious misconduct, he will be liable to be removed from the College, or to be sent back from the foreign study, which may entail the loss of his appointment.

12. During the course of study the proficiency of the students will be tested by periodical examinations, and on the termination of their studies there will be a final examination. Each student may also, at the discretion of the Secretary of State for India, be required to appear before the Medical Board at the expiration of the first year of

residence at the College, and should the result be unsatisfactory he cannot claim to be allowed to complete the course.

13. The subjects enumerated in paragraph 10 are grouped in certain main branches of study,* and a fixed minimum of qualification is required in each branch and in the subjects taught during the forest tours, as well as a certain minimum for all branches taken together. Students who obtain these minima will receive the College diploma in forestry.

14. Candidates who have obtained this diploma and are found to be of sound constitution and free from physical defects which would render them unsuitable for employment in the Forest Department (the final decision on which point will rest with the Secretary of State for India), will be appointed Assistant Conservators in the Forest Department of India in the order of their standing at the end of the final examination. They will be allowed before leaving the College to state their preference in respect to the provinces to which they desire to be allotted; but the distribution will be made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India after consulting the President of the College and the Principal Professor of Forestry. Officers are, however, at all times liable to be transferred from one province to another at the pleasure of the Government of India.

15. Within a month of his nomination as Assistant Conservator, each nominee must sign articles of agreement describing the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and will be provided with a free passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.*

16. The pay of an Assistant Conservator of Forests will begin from the date of reporting arrival in India. Probationers who acquit themselves creditably during their course at Cooper's Hill College will begin on a salary of Rs. 350 a month. It will, however, rest with the President of the College, in consultation with the Principal Professor of Forestry, to decide whether any of the probationers, though they have obtained the College diploma in forestry, have failed to deserve that rate of initial salary. Such probationers, if any, will begin on a salary of Rs. 250 a month; and this difference of salary will continue until the first departmental examination is passed in India. Officers entering the forest service will be required to contribute a subscription ranging from a compulsory minimum of 5 per cent. up to a voluntary maximum of 10 per cent. of their salary to the Forest Officers' Provident Fund. Such contributions, with compound interest, will accumulate till the date of retirement, when the total sum will be paid to the contributor, or, in the event of death before retirement, to his legal representative.

17. Promotion, leave, and pension will be governed by the regulations laid down by the Government of India and made applicable to forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. The more favourable pension rules applicable to Public Works and Telegraph officers appointed from Cooper's Hill College have been extended to Forest officers appointed from England; and the Inspector-General of Forests and Conservators of the first grade are now eligible for the extra pension of Rs. 1,000 per annum admissible to an officer after at least three years of approved service as a head of a department in any province, if considered deserving of the special concession. A copy of the regulations relative to these matters can be seen on application either at the Library or the Record Department of the India Office; the principal rules are contained in the Abstract of the Civil Service Regulations, as given in the "India List and India Office List," published by Messrs. Harrison and Sons, 59, Pall Mall, London, which can be procured through any bookseller.

18. Every candidate, before proceeding to India, will be required to furnish to the President of the College satisfactory evidence of his competency in riding.

GENERAL RULES.

19. Chemical, physical, and botanical laboratories, a forestry museum, a forest nursery, a library, and gymnasium are attached to the College. Means are also provided for the practice of photography. Students making use of the laboratories are supplied with the needful apparatus.

20. The responsibility for the discipline and management of the College and for the superintendence of the studies is vested in the President, under the control of the Secretary of State for India.

21. The students are distributed in divisions, under personal charge of one of the professors or instructors selected by the President; such tutor being responsible for exercising

the proper degree of personal supervision over each student in his division, and for conducting necessary correspondence with the student's parents or guardians.

22. Each student residing in the College is provided with a separate room, and with fuel and light, also with the necessary attendance. Furniture and bedding are supplied by the College, but students are required to provide their own towels and bed-linen. Meals are taken in hall. Wine and beer are not included in the ordinary fare, but can be obtained from the College cellar at fixed prices.

23. A chapel is attached to the College, which the students residing in the College are expected to attend, unless specially exempted.

24. Every student will be required to go through a course of gymnastics and also of military exercises, including the use of the rifle.

25. Students are required to wear academical dress, under such regulations as may be prescribed from time to time.

STUDENTS NOT NOMINATED FOR THE INDIAN FOREST SERVICE, BUT DESIROUS OF OBTAINING A DIPLOMA IN FORESTRY FROM COOPER'S HILL COLLEGE.

26. Students not nominated for the Indian Forest Service may be received into the College, as far as the available accommodation permits. Such students may pass through the course of instruction prescribed for the nominees of the Indian Forest Service, as detailed above, or they may be permitted to participate in the instruction given in certain subjects only. On obtaining the prescribed minima of marks in the several branches of study and in totals as laid down above, they will receive, as the case may require, either the College diploma in forestry or special certificates showing in what subjects they have followed the instruction, and with what result.

27. Candidates who desire to be admitted under paragraph 26 may submit the necessary application at any time, but not later than the 15th day of June of the year named for admission, except with the special permission of the President. The application must be made on the prescribed forms, which can be obtained from the Secretary of the College.

28. Candidates whose applications are found satisfactory as to character and in other respects will be required to undergo an examination, to be held at the College, about the last week in June of the year for admission. The object of the examination will be to ascertain whether the candidate is qualified to follow the course of instruction with advantage (or certain parts of it, as the case may be). Candidates who do not come up to the required standard will not be admitted to the College.

The President may dispense with the whole or any portion of this examination in the case of a candidate who produces an university diploma, or other similar certificate granted by a recognised examining body.

29. Candidates admitted to the College under paragraph 26, who propose to pass through the full prescribed course of study, will be required to pay the same fees in every respect as those paid by the nominees for the India Forest Service. Candidates who do not become resident, and are admitted only to certain subjects of study, will be required to pay the fees which may be fixed in each special case in consideration of the extent of their studies. The candidates of both classes will be required to abide by the general rules of the College.

India Office, October, 1896.

FOREST EXAMINATION.—SYLLABUS.

Class I.

Mathematics.—The extent of the examination will be as follows:—

- (a.) Algebra, up to and including the binomial theorem, the theory and use of logarithms;
- (b.) Euclid, Books I. to IV. and VI.;
- (c.) Plane trigonometry up to and including solution of triangles and mensuration.

English Composition.—The standard of positive merit will be looked for in logical arrangement of thought, and in accuracy and propriety of expression, but large deductions of marks will be made for faults of writing and spelling.

Candidates are also warned that, for similar faults in the use of the English language, similar deductions will be made from the marks obtained in the German papers in Class I.

German.—There will be translations of unseen passages from German into English, and from English into German; the passages for translation will be taken, mainly, from standard authors, and a few simple questions may be asked on the passages set, as to the structure and character of the language, and allusions of obvious and general interest. The *vivâ voce* examination will include dictation.

* For details, see Royal Indian Engineering College Calendar.

Class II.

Any two subjects may be taken up.

Higher Mathematics.—In all the following subjects great importance will be attached to accuracy in numerical results.

Further questions and problems on the subjects of the examination in Mathematics, Class I.

And, in addition:—

Statics: The equilibrium of forces acting in one plane and of parallel forces, the centre of gravity, the mechanical powers, and friction. (The graphical or geometrical method of treating such problems should be studied, as well as the analytical. No application of the differential calculus to statics will be required.)

Dynamics: Uniform, uniformly accelerated, and uniform circular motion, falling bodies and projectiles *in vacuo*, collisions, and work. (Analytical methods of solution, but not the use of the differential calculus, will be involved.)

Analytical geometry: Problems on straight line and circle.

Conic sections: Elementary properties, with easy problems both on the analytical and geometrical methods.

French.—The passages for translation will be taken mainly from standard authors, and in other respects the examination will proceed on the same lines as in German.

Latin.—Passages selected from the authors usually read in schools will be set for translation into English. Passages from English authors will be given for translation into Latin prose and verse, but candidates will be allowed, in the place of verse composition, to answer questions of a simple character, which will test whether they possess a fundamental knowledge of the grammar of the language, and such an elementary acquaintance with Roman history as is required for the intelligent study of the books they have read.

Greek.—Passages will be set for translation into English from the authors usually read in schools, and in other respects the examination will proceed on the same lines as in Latin.

English History.—The general paper in this subject will test whether the candidates are accurately acquainted with the facts of English history, and also possess an intelligent knowledge of the meaning of the facts. The paper on the fixed period will, of course, require from the candidates more minute knowledge than the general paper.

Botany, Chemistry, Physics, Physical Geography, and Geology.—The standard of examination in these subjects will be such as may be reasonably expected from the education given at schools possessing appliances for practical instruction, such as a laboratory, &c. A considerable portion of the marks will be allotted for the proficiency shown in the practical part of the examination.

Chemistry will be limited to elements of inorganic chemistry.

Physics will include elementary properties of electricity, magnetism, heat, light, and sound.

Geology, chiefly economic, including the recognition of the more familiar minerals and rocks, and their properties and uses.

Class III.

Both subjects may be taken up.

Drawing, freehand; Drawing, geometrical.

General.

Handwriting.—In estimating the papers of candidates, a limited number of marks—namely, 100 out of the maximum allotted to each subject—is assigned for handwriting.

Bonuses for Encouragement of New Zealand Hemp (Phormium tenax) Industry.—Notice No. 430.

Department of Agriculture,
Wellington, 1st November, 1895.

Bonus No. 1.

A BONUS of £1,750 is offered for a machine or process for dressing New Zealand hemp (*Phormium tenax*) which shall be an improvement on the machines or processes now in use, and which shall, after trial, be found to materially reduce the cost of production, improve the product, or increase the quantity of dressed fibre.

The following are the conditions:—

1. All applications for the bonus must be sent addressed to the Hon. the Minister for Agriculture, Wellington, and must reach him not later than the 31st March, 1897. Each application must be accompanied by a description of the machine or process, particularly stating improvements on present machines or processes, and also the cost at which the machine or process can be supplied.

2. The applicants must be prepared to submit their machines or processes to examination at such time and place as the Government may direct.

3. The Government shall appoint a committee of three or more experts, to whom all applications shall be submitted. Such committee shall, after perusal, state what machines or processes they deem worthy of consideration, and may inspect the same at any place within the colony; and, having so inspected the whole or any of them, may direct that the whole or any of them be brought for further trial to such place as they may think fit.

The cost of bringing the machines or appliances on to the ground, from within the colony, supplying the necessary shafting, motive-power, and buildings, to be defrayed by the Government. If any machine sent from beyond the colony is awarded the bonus or part thereof, then the cost of bringing such machine shall be borne by the Government.

The following shall be the basis of the test:—

The committee shall supply a sufficient and equal quantity of green hemp to each machine or process as a test.

The committee shall take into consideration—

The time occupied by each machine or process in the operation;

The cost of labour and time required after the fibre has left the machine or process before it is ready for baling;

The percentage of dressed fibre and tow produced by each machine or process;

The cost of producing the same;

The cost of the machine, and the simplicity and durability of the working parts.

On completion of the tests the committee shall furnish a report to the Minister on all the machines or processes which they have examined or tested, and shall state,—

- (1.) The machine or process which they consider on the whole the most efficient and economic.
- (2.) Whether they consider that any machine or process tested so materially reduces the cost of production, or improves the product, as to be worthy of the whole bonus or of a part only.
- (3.) Whether, in the event of no one machine or process being entitled to the whole bonus, they deem any machine or process worthy of a part of the bonus, and, if so, how much.

BONUS No. 2.

A bonus of £250 is offered for a process of utilising the waste products of the hemp.

The first three conditions of Bonus No. 1 to apply to this also.

The committee shall supply a sufficient and equal quantity of the waste products to each process as a test.

On completion of the tests the committee shall report to the Minister, and shall give the following particulars of each process: (a.) The nature of the article made. (b.) The quantity produced, and the cost of production. (c.) The value of the product. (d.) Whether any of the processes are of sufficient importance to warrant the Minister in giving (1) the whole, or (2) any part, of the bonus; (3) if a part only, how much.

JOHN MCKENZIE,
Minister for Agriculture.

Bonus for the Manufacture of Potassium Cyanide.

Department of Industries and Commerce,
Wellington, 17th January, 1895.

1. The plant must be capable of producing at least 70 tons of crude cyanide of potassium annually.

2. The crude cyanide of potassium so manufactured shall contain at least 70 per cent. of *potassium cyanide*.

3. The bonus will be paid in two equal instalments, the first instalment being payable on the production of the first 100 tons, and the second instalment on the production of the second 100 tons, of crude cyanide of potassium containing the required percentage of *potassium cyanide*.

4. On the completion of the plant, notice in writing must be sent to the Minister of Industries and Commerce, Wellington, who will appoint an officer to inspect the same, together with the raw material then available from which the cyanide of potassium is proposed to be manufactured.

5. The officer so appointed shall from time to time inspect the process of manufacture, in order that he may satisfy himself that the whole of the cyanide of potassium is being manufactured from material of New Zealand production; and before any bonus is paid such officer will be required to certify that he is satisfied the crude cyanide of potassium is the product of New Zealand material only, and that it contains the required percentage of *potassium cyanide*.

6. The bonus must be claimed for the first 100 tons on or before the 31st March, 1897, and for the second 100 tons on or before the 30th September, 1898.

J. G. WARD.

Mines Office,
Wellington, 19th September, 1895.

AGES, INCLUSIVE AND EXCLUSIVE OF CHINESE.

TABLE showing (exclusive of Maoris) the Number of Persons, Males, and Females living at each Year of Age, according to the Census taken on the 12th April, 1896.

[NOTE.—The figures here given are the numbers at each year of age, compiled from the entries on the census schedules as made by the householders themselves. A glance at the table will show that many people, either through ignorance, carelessness, or disregard of truth and accuracy, have set down their ages as at the nearest decennial or quinquennial period (30, 35, 40, &c.). To ascertain the true number living at each year of age, the total numbers in each quinquennial or decennial group should be distributed proportionately over the single years.]
