weigneen with 245 105. for improvements. Section 277, Block XI., is situated about nineteen miles east of Gladstone, seventeen miles of which is by the Gladstone-East Coast Road, which is a good dray-road, and the remaining two miles by a rough stock-track known as Rocky Hill Road. Carterton, the nearest railway-station, is twenty-seven miles distant via Gladstone. The land is hilly, covered with mixed bush (chiefly rimu), and is well watered. The soil is fair, on a sandstone and pape formation. Section 275, Block XI., is situated about two miles south of Wharau, which is on the Gladstone-East Coast Road, about twenty-two miles from Gladstone. The Gladstone-East Coast Road is a good summer dray-road, but there is only a rough bridle-track from Wharau to the section. Carterton, the nearest railway-station, is thirty-two miles distant vid Gladstone. The land is hilly, is watered by the Pahaoa River, and is composed of rounded spurs and broken gullies. The soil is good mould to light clay.

About 20 acres of the section has been cleared by fire and grassed, the rest being covered with light mixed timber. The land is hilly, is watered by the Pahaoa River, and is composed of rounded spurs and broken gullies. The soil is good mould to light city. Part 2 of Section 287, and part of 281, Block XI., is situated about four miles back from the Gladstone-East Coast Road. The access from Carterton Railway-station is as follows: From Carterton to Gladstone by eight miles of coach-road, from Gladstone to Peterkin's by seventeen miles of dray-road, and thence to the section by the Rocky Hill Road, two miles of which is a rough stock-track, and the remaining two miles an unformed surveyed road. The land is hilly, with rounded ridge and broken faces, covered with mixed bush, and is about 1,100ft. to 1,800ft. above the sea-level. The soil is good to poor, and wholly pastoral, and is watered by streams. Section 279, Block XI., is situated about three miles south of Wharau, which is on the Gladstone-East Coast Road, about thirty miles from Carterton. From Carterton to Gladstone is eight miles by coach-road, from Gladstone to Wharau is twenty-two miles by summer dray-road, and from thence to the section (three miles) there is a roughty-formed bridle-track only. The land is hilly and broken. An area of about 8 acres has been cleared and grassed, the rest being covered with mixed timber with dense undergrowth. It is pastoral country on a clay-and-slate formation, with light but fair soil. It is watered by the Makinikiri River and its branches. Section 292 and part of Section 281, Block XI., is situated about six miles south of Peterkin's, which is on the Gladstone-East Onast Road, about twenty-twe miles from Carterton Railway, station viá Gladstone. The distance from Carterton to Gladstone is about twenty-twe miles from Carterton Railway, station viá Gladstone. Section 308, Block XII., is situated ab fair weather dray-road, from Wharau, and is accessible by Driscall and Oumukura Roads. The distance from Carterton t

about 25 acres of fair fand, the remainder being generally hilly with sour citay soft and stutied matuka. The timber consists of a few clumps of inferior birch. Section 7 and part of Section 6, Block VIII., is situated on the north side of the track from Wharau to Kaiwhata. The distance from Carterton to Gladstone is eight miles by coach-road, from Gladstone to Wharau twenty-two miles by dray-road, from Wharau to Kuamahanga three miles and a half by a fair-weather bridle-track, one mile of which is partially opened as a dray-road. The country is pastoral, with rather poor soil. An area of 25 acres has been cleared and grassed, the remainder is covered with inferior bush and manuka. The land is watered by permanent streams.

Run No. 107 (Stronvar).—Situate about forty miles from Blenheim, up the Waihopai Valley, also extends over into the Acheron Valley. Chiefly high, broken, tussock country, with some patches of birch forest. The Government having arranged to acquire about ten miles of freehold along the Waihopai River, this run can be worked independently by itself.

Run No. 108 (Castle).-Situate about forty-five miles from Blenheim, up the Wairau, Waihopai, and Spray Valleys. High, broken country, with some shingle spurs and birch forest.

Run No. 109 (Avondale).-Situate about twenty-seven miles from Blenheim, and at the back of the

Avondale freeholds. High, broken country, with some birch forest along the western boundary. *Run No. 111 (Delta)*.—Situate about twelve miles from Blenheim, up the Wairau Valley, and front-ing the Wairau River. All flat, poor, sandy soil, covered with manuka scrub and native grasses. *Run No. 112 (Dumgree)*.—Situate about eighteen miles from Blenheim, in the Awatere Valley. A hill to entire and the the Dumgree for the back of the second scrub and her the second scrub s

hill-top, entirely surrounded by the Dumgree freeholds, and covered with fern and tussock.

Kun No. 116 (Upcot).--Situate in the Awatere Valley, about fifty-five miles from Blenheim, lying at

the back of the Upcot freeholds. Poor, high, broken country. Run No. 117 (Langridge).—Situate in the Awatere Valley, about fifty-eight miles from Blenheim, and at the back of the freehold. Chiefly high tussock spurs running from a high shingle range. Run No. 118 (Gladstone).—Situate in the Awatere Valley, about fifty-four miles from Blenheim, at the back of the Gladstone freehold, and is practically inaccessible, except through the freehold.

High, mountainous country, including high, rocky ranges and shingle slides. Run No. 120 (Middlehurst).—Situate in the Awatere Valley, about sixty miles from Blenheim, and at the back of the freeholds. There is some good pastoral country round Mowat's Lookout, but the

remainder is high, rugged country, extending back to the summit of the Inland Kaikoura Range. Run No. 121 (Kekerangu).—Situate in the Clarence Valley; the northern end is about twelve miles by bridle-track from Kekerangu Homestead, on the coast, and sixty-five miles from Blenheim. It extends southerly along the Clarence River to Red Hill Stream. This run is very much cut up by numerous freehold sections, otherwise, although broken, it is good pastoral country, chiefly limestone; there is a good deal of tauhinu and matakauri on it.

Run No. 122 (Richmond Brock).-Situate between the head of the Flaxbourne and the Ure Rivers: high, broken, tussock country of good quality. Accessible only up the Ure River, fifty miles from Blenheim.

Run No. 123 (Wakefield Downs).-Situate between two tributaries of the Blind River, and lying between the Starborough and Flaxbourne Estates. Good hillside, pastoral country; about thirty miles from Blenheim.

Run No. 124 (Clarence).—Situate mainly in the Clarence Valley; it is excellent country, a large portion being on limestone. The drawback to this run is the difficulty of access, the sheep baving to be driven over the range to the Kaikoura side to be shorn at what is known as the reserve on the main road. This reserve is now included as part of the run, and on it are the wool-shed, yards, and other buildings, ample for homestead purposes. These buildings go with the run as part of the leasehold.

buildings, ample for homestead purposes. These buildings go with the run as part of the leasehold.
 Run No. 126 (Kincaid).—Situate about five miles up the Hapuku and Puhipuhi (Buebue) Rivers from the coast, and stretching northerly to Mount Alexander. The southern and eastern portions are good limestone country, well grassed. The western portion extends to the summit of the Seaward Kaikouras, and is to a large extent under bush. This run is about twelve miles from Kaikoura Town.
 Run No. 127 (Swyncombe).—Situate about twelve miles from Kaikoura Town, and at the back of the Seaward bis from the freehold, bish broken country extending to the summit of the Lend Kaikoura Barner.

the Swyncombe freehold; high, broken country, extending to the summit of the Inland Kaikoura Range. It is accessible up Cribb Creek.

THE NEW ZEALAND GAZETTE.

Run No. 130 (Dillon) .-- Situate at the south-western corner of the Land District of Marlborough, north-east of the Guide, Acheron, and Clarence Rivers. A large proportion of this run is composed of high ranges of travelling shingle; the lower slopes and river-flats are well grassed—the southern portion, known as "Bullen's Hills," particularly so. This run is about thirty-five miles from Culverden. The above runs will be sold generally in accordance with the provisions of Part VI. of "The Land Act 1909"

Act, 1892."

Possession will be given on the 1st March, 1897.

Purchasers must deposit a statutory declaration required by section 62 of "The Land Act, 1892," and pay the sum of the half-year's rent, license-fee, and valuation for improvements (if any) on fall of the hammer.

Maps will be ready about the 1st February.

Pastoral Leases, Southland, for Lease by Public Auction.

District Lands and Survey Office, Invercargill, 18th January, 1897. NOTICE is hereby given that the under-mentioned pas-toral lands will be submitted to public auction, for lease, on Thursday, the 25th February, 1897, at the District Lands and Survey Office, Invercargill, at 11 a.m.

Lands and Survey Office, Invercargill, at 11 a.m. PASTORAL LANDS (UNDER PART VI., "THE LAND ACT, 1892"). Run No. 150B, Wallace County: Area, 1,601 acres; term, fourteen years; annual upset rental, £20. This run, at present held by Messrs. Rowley and Hamil-ton, is situated on the north-east end of Taringatura Range. The northern and eastern slopes are sound and fairly-grassed sheep-country, and the contiguity of the run to small settle-ment gives it a considerable value. Run No. 323, Lake County: Area, 23,930 acres; term, 14 years; annual upset rental, £150. The present lessee of this run is Mr. W. S. D. Trotter. The run is bounded by the Invercargill-Kingston Railway for several miles, and, with the exception of the northern portion, has good natural boundaries on the remaining sides. In some of the gullies there are patches of bush and scrub,

and the north side is rocky, and somewhat difficult to muster, and to clear of rabbits. Altogether the land may be classed as fairly good sheep-country. A considerable area of the lower-lying land is capable of great improvement by cultiva-tion and surface (grass-seed) sowing. Run No. 491b, Southland County: Area, 883 acres 2 roods; term, 14 years; annual upset rental, £11. This small run is now held along with the old Isla Station P.R., and some additional freehold, and about one-third of it is covered with scrub. the remainder being cold but well-

it is covered with scrub, the remainder being cold but well-

grassed sheep-country. Run No. 352B, Southland County: Area, 5,250 acres; term, 10 years; annual upset rental, £8 15s. This run consists of high broken country, with poor vege-tation, but well watered. Distance from Athol, about seven miles.

Run No. 394A, Southland County: Area, 21,345 acres; term, 10 years; annual upset rental, £45. This run is situated about eight miles from Lumsden. The country is high and broken, and partly covered with scrub and bush. The height above sea-level is from 300ft. to 4,000ft.

Possession to be given on the 1st March, 1898, except in the case of Runs 352z and 394A, possession of which will be given on 1st March, 1897. The above runs will be sold generally in accordance with the provisions of Part VI. of "The Land Act, 1892." Purchasers must deposit a statutory declaration required by section 62 of "The Land Act, 1892," and pay the sum of the half-year's rent and license-fee on the fall of the hammer. Sections 36117, 36205, 36388, 36389, and 36390, in the Hakataramea, Nimrod, and Waihao Survey Districts, are situated on the slopes of the Station Peak Range, which extends from the junction of the Hakataramea and Waitaki Rivers to the north branch of the Waihao River. They comprise high, open hill-country; the ridges are generally broad and flat, and intersected by deep gullies, the slopes of which are easy and undulating in parts, and in others steep and broken. The soil varies in quality from fair to good, and the vegetation comprises native and English grasses. The country is fairly well watered by springs and streams, and its general elevation varies from about 1,000ft. to about 3,500ft. above sea-level. The two first-named sections are situated near the southern end of the range; Section 36117 has frontage on the Hakataramea Valley Road, and Section 36205 is accessible by a branch from the same road. Sec-tions 36388, 36389, and 36390 are situated at the northern end of the range; the first-mentioned section has access by the Pentland Hills Road to Waimate, a distance of about twenty-six miles, the others connect with the Hakataramea Valley Road to the westward. The sections are weighted with valuations for improve-ments as follows, these amounts being payable in full at the time of application:— Section 36117, f299 10s, for hut, boundary and subdivision Sections 36117, 36205, 36388, 36389, and 36390, in the

sheep-yards. Sections 36220 and 36503 are situated on the eastern slopes Sections 36220 and 36503 are situated on the eastern slopes of the Mount Nimrod Range, at the back of and adjacent to the Cannington and Pareora Estates, and comprise hilly and mountain open country, ranging from about 1,500ft. to 5,000ft. above sea-level, with bush in some of the gullies. The lower slopes include land of fair average quality, carry-ing good tussock, native, and some English grasses. The The

high portions of the range are rocky, and subject to heavy falls of snow in the winter season. The run is watered by branches of the White Rock River, and is well adapted for pastoral purposes; is connected with the Cave Railway-sta-tion by formed road, and is distant therefrom about eleven miles. This run is weighted with a sum of £552 for dwell-ing-house, boundary and subdivision fencing, planting, &c.

CONDITIONS OF LEASE.

1. The term of lease is twenty-one years, with the option of renewal for a further period of twenty-one years, at a rent to be fixed by valuation, and improvements being secured to lessee as provided by "The Land Act, 1892," section 182. Each lessee is required to make the declaration as per form writted below. printed below.

2. No person can lease more than one run. 3. Residence on small grazing-runs is compulsory, and com-mences within three years in bush or swamp land, and within one year in open or partly open land, unless the lessee obtain the consent of the Land Board to reside on other land in his occupation.

his occupation. 4. Permanent improvements must be effected equal to one year's rental by the end of the first year, two years' rental by the end of the second year, and four years' rental at the end of the sixth year; and on bush land, in addition thereto, improvements must be made to the value of 10s. an acre if first-class land, or of 5s. an acre if second-class land. 5. One half-year's rent, and £1 ls. for the lease, and the amount of valuation for improvements, must be paid im-mediately the application is declared successful; the rent to be paid half-yearly in advance during the term of the lease. The next payment of rent will become due on the 1st Sep-tember, 1897. 6. The lessee has no right to purchase any part of the land;

6. The lessee has no right to purchase any part of the land; but he can select 150 acres around the homestead through which no road can be taken or other public privilege exercised without compensation.

DECLARATION.

I, , of , do solemnly and sincerely declare— 1. That I am of the age of seventeen years and upwards. 2. That I am the person who, subject to the provisions of "The Land Act, 1892," am desirous of becoming the pur-chaser of a lease of Run No.[†]

c. The nature of the transaction proposed for validation is contract, made on or about the day of \mathbf{F}

1883, between the owners of the Waitangi Block and the 1883, between the owners of the Waitangi Block and the New Zealand Native Land Settlement Company (Limited), for the transfer to the said company by the owners of the said land of the said block of land in trust for the Native owners thereof, in accordance with the articles of association of the said company. The said company, in accordance with the said contract, expended large sums of money on behalf of the said owners, and made advances to the said owners in pursuance of the said contract in connection with the said land. the said land.

D. The land which was intended to be alienated by the above-mentioned contract was included to be an latter by the above-mentioned contract was the block of land called or known as the Waitangi Block, above described, the original title to which is a memorial of ownership under the Native Land Court Acts, 1873 and 1874, bearing date the 21st day of Mar. 1975

of May, 1875. E. The estate in the said land which we seek to obtain from the said Court is an estate in fee-simple.

F. The manner in which and the persons through whom we came to be invested with the title to the said land which we now hold are as follow :-

- (1.) Contract, as above set out, between the Native owners of the said Waitangi Block and the New Zealand Native Land Settlement Company (Limited).
- (2.) Memorandum of mortgage, dated the 3rd day of July, 1888, by the said New Zealand Native Land Settlement Company (Limited) to the Bank of New Zealand.

- THE NEW ZEALAND GAZETTE.
- (3.) Memorandum of transfer, dated the 5th day of August, 1890, by the said Bank of New Zealand to the Bank of New Zealand Estates Company (Limited).
- (4.) Memorandum of transfer, dated the 10th day of July, 1891, by the Registrar of the Supreme Court of New Zealand at Gisborne to the said Bank of New Zealand Estates Company (Limited).
- (5.) Memorandum of agreement, dated the 17th day of February, 1892, between the Bank of New Zea-land Estates Company (Limited) of the first part, William Lee Rees, of Gisborne, solicitor, of the second part, and ourselves (the applicants) of the third part.

G. Our address for service in the Town of Gisborne is at the office of Messrs. Rees and Day, solicitors, in Gladstone Road.

H. We desire the estates and interests of the Native owners of the said land, and the estates and interests of all the several parties mentioned in paragraph F of this applica-tion, through whom we claim, to be bound by the decrees of this Court, and for that purpose require that copies of this application be served on them or their representatives according to the list herewith, and we desire that all others

#### LAND TRANSFER SURVEY REGULATIONS.

THEREAS " The Land Transfer Act, 1885," empowers the Surveyor-General of the colony, with the approval of the Governor in Council, to make such regulations as he may think necessary for insuring the accuracy of plans and surveys required under the said Act, and to cancel and alter such regulations when and as necessary: Now, therefore, I, Stephenson Percy Smith, the Surveyor-General of New Zealand, do, in pursuance of the said power, and with such approval as aforesaid, hereby revoke the regulations made by the Surveyor-General on the nineteenth May, one thousand eight hundred and eighty-six, and published in the New Zealand Gazette of the twentieth May, one thousand eight hundred and eighty-six, and in lieu thereof I do hereby make the regulations following, that is to say :-

1. The regulations numbered 1 to 91 of even date herewith, made under "The Land Act, 1892,' shall apply equally to surveys made under "The Land Transfer Act, 1885," wherever they are not inconsistent with these rules.

2. Any plan purporting to be a survey, resurvey, or subdivision of any land is to be signed by the surveyor who actually made the measurements in the field, and shall also be verified by statutory declaration of the licensed surveyor employed to make such survey, in the following form, or to the like effect so far as applicable :-

#### DECLARATION.

### For Subdivision of or bringing Land under the Act.

I hereby certify that this plan has been made from surveys executed by me, and that both plan and survey are correct, and have been made in accordance with the regulations of the Surveyor-, 1896. A.B., Licensed Surveyor. General dated

Such plan shall be sent through the District Land Registrar for approval by the Chief Surveyor or officer acting for him, and when so approved shall be deemed to be accurate for all purposes of the Land Transfer Act.

3. The surveyor will be expected to disclose all doubts, discrepancies, and difficulties, and to afford all such other information obtainable by him relating to the property and the application for certificate of title or transfer as will aid in securing accuracy and completeness in the business of the Land Transfer Department. A regard to the in-terests of his employer will not be considered as excusing in any degree the withholding of any information affecting the merits of the application, even though the description supplied may be literally and technically correct.

4. In districts where triangulation exists, and where the triangulation points have not been obli-terated, if a resurvey or subdivision of the whole of a rural section is made for the purposes of the Land Transfer Act the survey must be connected by traverse or by a subsidiary triangle with the nearest trig. station. If only a portion of a section is being dealt with this may be dispensed with at the option of the Chief Surveyor, but the survey must be connected with at least two of the corners of the original section. If only part of a section on an already deposited plan is being dealt with, then such survey need only be connected with two or more points of that section; provided always that the section has been previously properly connected with two or more points of the original section in such a manner as to definitely fix the H

position thereof. In districts and cities where permanent standard points have been placed, then the survey must be connected both by angular and linear measurement with such bench-marks, and the surveyor must, in his traverses, use the standard points as his initial for bearing and distance.

5. All measured lines and distances must be shown in red, all observed bearings in blue, all calculated bearings or distances in black, the same being written along the lines. Included angles will only be admissible in such districts where minor triangulation does not exist, or where the original stations have been lost, and where the standard points for obtaining the meridian have not been re-established, or in the subdivision of small allot-ments. All work adopted from a previous survey must be shown in black.

6. Tie-lines in lieu of angles will only be admissible in the subdivision of very small pieces of land.

7. The true meridian bearing between two or more trig. stations or bench-marks will be always obtained by reference to the survey office of the provincial district.

8. Where the boundary consists of natural features they must be traversed unless they form the boundary of the original section, and have been traversed by the Government surveyor. A retraverse of such boundaries may, however, be required in cases where the original survey appears to be faulty.

9. When an irregular boundary is defined by offsets measured thereto from one or more survey lines the surveyor must furnish the distances along such line or lines at which offsets have been taken, and the length of such offsets.

10. Should a property be bounded on one or more sides by natural features, of which a retraverse is not required, the survey must be closed by traverse-lines or tie-lines in such a manner as will enable the work to be thoroughly checked.

11. All traverse-lines to be numbered, and mathematically reduced on the meridian and perpendicular of the initial station of the circuit, or, if that is not required to be connected with in the survey, on the starting or initial point of the survey, and tables

are to be deposited with maps. 12. In the subdivision of small areas or town lands 2 links to the mile will be the maximum error allowed, and in the case of the survey of rural land 4 links to the mile; bearings must close to two or three minutes, according to the nature of the survey. Recent approved surveys adjacent should be

connected with the survey being made. 13. All bearings must be observed with a serviceable and adjusted theodolite; the steel measuring-band must be tested and corrected before survey to the Government standard.

14. Deposited plans must be on mounted draw-ing-paper cut to 30in. by 30in., or 20in. by 20in., cut so that due north is perpendicular to the paper, which must be the exact size named, to fit the

office portfolios. 15. The smaller sizes protracting sheets can be obtained at the survey office of the provincial district. Plan to accompany application, transfer, lease, or mortgage to be 15in. by 10in., or on the larger size mentioned above if necessary.

16. Plans of allotments containing 1 to 10 perches should be drawn to a scale of not less than  $\frac{1}{2}$  chain to 1in.; 10 to 20 perches, 1 chain to 1in.; 20 perches to 1 acre, 2 chains to 1in.; 1 acre to 10 acres, 5 chains to 1in.; 10 acres to 320 acres, 10 chains to 1in.; 320 acres and above, 20 chains to 1 lin. In cases where details are numerous, plans

may be enlarged to 10 or 20 links to an inch. Marginal diagrams of intricate portions may be used. All plans should bear the surveyor's name and address; they should be drawn in a neat, plain, and professional manner, in accordance with examples, which will be shown to surveyors on application.

17. Where the land forms a part of two or more original sections the boundaries of such sections must be shown by a distinguishing colour.

18. The sectional numbers, or names of Native blocks, with the names of the owners or occupiers of the land represented by the plan, and also the names of the owners or occupiers of adjoining lands, whenever obtainable, should be written on the plan, and inquiries, if necessary, must be made for that purpose by the surveyor. Names of adjoining proprietors may be dispensed with in surveys for subdivisional purposes.

19. If the boundary is a wall, it must be shown whether it is a party wall, and whether the line runs through the centre or otherwise. The true position of all boundary-fences must be shown, and the nature of the boundary of the land, whether wall, house, fence, ditch, hedge, stream, road, or undefined, should be stated. The position of a traverse line relative to the hedge, ditch, or fence should be clearly stated (or shown by enlarged marginal plan), whether the line measured is inside or outside or in the middle of the boundary. Swamps, terraces, or irregular fences are inadmissible as boundaries. These must be reduced to straight lines, having defined bearings and distances.

20. Every plan of any survey made under the Land Transfer Act must exhibit, distinctly delineated, the adjacent and included natural features, all the sides of roads, streets, passages, thoroughfares, fences, squares, reserves appropriated or set apart for public use, and also show all allotments into which the land may be divided, marked with distinct numbers. In towns, all the buildings on the section dealt with, and the buildings abutting on the boundaries of adjoining lots, are to be shown on the plan. All plans of private townships, or of extensions of private townships, which require to be submitted to the Governor under sections 17 and 18 of "The Land Act, 1892," are to conform in all particulars with that Act, the 10th section of "The Land Act Amendment Act, 1895," and these regulations.

21. The nature of the boundary—namely, roads, reserves, sections, natural features, together with all easements, such as eaves, light-rights, drainagerights, whether on, over, or under the surface, and all claims by adjoining owners over the property under survey, &c.—should be shown.

22. All measurements must be given in links.

23. In case of intricate boundaries an accurate description of them must be furnished with the plan.

^{24.} Roads, streets, and rights-of-way to be coloured with burnt sienna; edge of land to be dealt with, green; water, Prussian blue. Where natural features, such as terraces, are shown as the boundary of an allotment or section, they should be coloured with sepia.

25. If required, the licensed surveyor must produce his actual field-book for the inspection of the officer checking his work.

26. The actual measurements made in the field must be given, notwithstanding that they may not agree with the Crown grant or public map, and, should the difference be material, the measured distance and bearing to the next adjacent Crown-

grant boundary is to be furnished, in order to determine whether there is any real encroachment, or whether the differences arise from former defective surveys. The license of any surveyor will be cancelled if it is found that the measurements or bearings certified by him as correct differ materially from those which exist on the ground. And, in dealing with this subject, the surveyor must adhere to the principle of the unchangeableness of original lines and corners, established by Government or other duly-authorised surveyors, done in good faith; in other words, where the lines and corners are originally established on the ground by a proper officer, in pursuance of the survey system ordered by the law of the time, they must be regarded as the true lines and corners which they represent, even if subsequent surveys indicate that the posts, pegs, or marks are out of line, and that the corners are out of position, according to the original de-scription thereof. Surveyors should also bear in mind that the Act prohibits the District Land Registrar from issuing a title to land held in adverse occupation.

27. When an existing fence or building is relied on as the boundary of a property the surveyor should state in a note on the plan the evidence he can obtain as to the erection of such boundary, and the date on which it was erected; and also, in cases where such boundary is departed from, the same information and the reasons for the same should be given.

28. When a survey made under the Land Transfer Act differs materially from the Crown grant or public map the Chief Surveyor, before altering or rectifying the records of his department to enable a correct certificate of title to be issued, will, if he deem it necessary, require a verifying survey to be made by another surveyor, to be approved of by him, or by the Inspector, to determine the correctness or otherwise of the deposited or of the original survey.

29. The required declaration shall be made on the margin of large plans, and may be on the back of those of a small size.

30. All surveys under the Land Transfer Act are to be substantially pegged on the ground, such pegs to be not less than 3in. by 2in. scantling of the heart of totara, kowhai, blue-gum, kauri, matai (black-pine), puriri, or hinau, not less than 18in. or 24in. long, to be driven 15in. or 21in. into the ground, according to the nature of the soil, the hole having first been driven by an iron jumper; the pegs to be branded with the allotment number, with not less than 1in. figures branded one-eighth of an inch into the wood. At frontage-pegs of rural and suburban lands, when practicable, trenches at least 2ft. long, 9in. deep, and 9in. wide, and not less than 2ft. therefrom, to be cut in the direction of boundary-lines. Where wooden pegs cannot be driven, as in cities, iron bolts or spikes are to be used instead. Boundary pegs must wherever possible be inserted on the boundary, and not at stated distances therefrom.

31. The position of every peg is to be shown on the plan by a red circle; old pegs, when found, by a black circle; the position of lockspits or other original marks to be shown on plan if necessary. In all cases in which lands are subdivided for townships at least four iron pegs, not less than 1in. square and 18in. long, reciprocally visible from one another, should be driven in the street 25 links off the section lines, to which reference may be made in cases of dispute. Where the boundaries on the ground differ materially from the Crown-grant boundaries such Crown-grant boundaries to be shown by dotted black lines. **Feb.** 4.]

32. Plans returned to surveyors for correction | are to be at once amended as directed, and be returned to the Chief Surveyor.

33. All plans for use under the Land Transfer Act are to be signed by the proprietor of the land, or by his lawfully-authorised attorney or agent. 34. All plans shall show on the face of them

the town district, borough, or road district within which the land is situated.

35. These regulations shall come into force on and after the 15th day of February, 1897.

> As witness my hand, this seventeenth day of December, one thousand eight hundred and ninety-six.
