(c) £1 The Potaka Township (hitherto known as Kaikoura) is situated on the Main Coach-road between Mangaweka and Taihape, the distance to the latter being about six miles. The North Island Main Trunk Railway, which is under construction, passes through the township, where a reserve has been made for proposed railway-station. The area comprises open, flat, and undulating land laid down in English grasses. Remnants of the forest—stumps and logs —still remain. The soil is of good quality, capable of pro-ducing garden- and farm-produce freely. There exist a few stores, accommodation-houses, a temporary public school, post-and-telegraph office, and a daily coach- and mail-service both ways from the terminus of the railway at Mangaonoho, which is about twenty miles distant. The climate is healthy, the district is being rapidly settled, and the township affords an opportunity to business people, labourers, and small settlers to establish homes on reason-able and advantageous terms. These sections are situated on the western bank of the Waitotara River, lying in a north-westerly direction from the Waitotara Township, the present access being from the Waitotara Township, from which the land is distant, viê the Mangawhio Road, about twenty miles, which is formed as far as McConochie's Bridge, over the Waitotara River, as a dray-road; from thence another mile is in course of construction to the northern boundary of Section 5. A more direct route from the land later on will probably be by road down the Waitotara River and by Puao Road through the University Reserve; thence by Mangawhio Road on to Waitotara Township. This route is, with the exception of three or four miles at the northern end, constructed either as a dray- or horse-road. The sections consist of undulating land, sloping towards the river, the soil varying from poor to good. There is a good homestead-site on each section, of moderate size, along the river. The land is well watered, and, with the exception of some old Native clearings on the river, the whole is heavily timbered, the timber consisting chiefly of birch on the ridges, and tawa, tawhero, rimu, hinau, kahikatea, and other mixed forest on the slopes and valleys. other mixed forest on the slopes and valleys.
