Now, therefore, His Excellency the Governor of the Colony of New Zealand, in pursuance and exercise of the power and authority vested in him by the said Act, and of all other powers and authorities enabling him in that behalf, and by and with the advice and consent of the Executive Council of the said colony, doth hereby approve of the object for which the said license is required by the company as aforesaid; and, in further pursuance and exercise of the

said power and authority, and with the like advice and consent as aforesaid, doth hereby license and permit the company to use and occupy that part of the land below low-water mark on which the extension to the said wharf No. 3 is to be erected, as shown in yellow on the plan so deposited as aforesaid, for the purpose of erecting and maintaining the said extension, such license to be held and enjoyed by the company upon and subject to the following terms and conditions, that is to say:—

1. In these conditions the term "Minister" means the Minister having charge of the Marine Department, as defined by "The Shipping and Seamen's Act, 1877," and includes any officer, person, or authority acting by or under the direction of such Minister.

2. The concessions and privileges conferred by this Order in Council shall extend and apply only to the part of the land below low-water mark occupied by the said extension of the wharf, as shown in yellow on plan marked M.D. 2420.

3. In consideration of the concessions and privileges granted by this Order in Council, the company shall, on being supplied with a copy thereof, pay to the Minister the sum of three pounds, and thereafter an annual sum of two pounds payable on the 1st day of April, dating from the 1st day of April, 1901, the first of such annual payments to be made on the company being supplied with a copy of this Order in Council.

4. All persons shall at all reasonable times, upon payment of the proper dues, have free and full liberty to use the said extension of the wharf, and all rights of ingress and egress thereon and therefrom.

5. His Majesty, or the Governor, and all officers in the Government service acting in the execution of their duty, shall at all times have free ingress, passage, and egress into, through, and out of the said extension without payment.

6. The company shall maintain the above-mentioned extension in good order and repair, and shall at all times exhibit therefrom and maintain at its own cost suitable and necessary lights for the guidance of vessels: Provided that no light shall be exhibited until after it has been approved of by the Minister.

7. The company shall clear all trucks and trollies off the tramways on the said extension of the wharf at the close of each day's work.

8. Any person authorised by the Minister may at all reasonable times enter upon the said extension of the wharf and view the state of repair thereof; and upon such Minister leaving at or posting to the last known registered office of the company in New Zealand a notice in writing of any defect or want of repair in such extension of the wharf, requiring it, within a reasonable time, to be therein prescribed, to repair the same, it shall with all convenient speed cause such defect to be removed or such repairs to be made.

9. Nothing herein contained shall authorise the company to do or cause to be done anything repugnant to or inconsistent with any law relating to the Customs, or any regulation of the Commissioner of Trade and Customs, or with any provisions of "The Harbours Act, 1878," or its amendments, or any regulations made thereunder, and that are now or may hereafter be in force.

10. The ballast of all vessels loading at the said extension of the wharf shall be taken away by the company, and deposited above high-water mark, or at such place as may be approved of by the Minister, by the Harbourmaster at Kaipara, or by any person appointed by the Minister for that purpose.

12. The said rights, powers, and privileges may be at any time resumed by the Governor, without payment of any compensation whatever, on giving to the company six calendar months' previous notice in writing. Any such notice shall be sufficient if given by the Minister, and delivered at or posted to the last known registered office of the company in New Zealand.

13. The company shall be liable for any injury which the said extension of the wharf may cause any vessel or boat to sustain through any default or neglect on its part.

14. In case the company shall—

##### SERVICE ON RESPONDENTS.

9. The copies and notices mentioned in the last preceding regulation may be served—

- (1.) By an officer of the Court; or, at the request of the claimant or his solicitor,
- (2.) By the claimant himself; or
- (3.) By the claimant's solicitor, or a solicitor acting as agent for such solicitor, or some person in the employ of either of them.

10. Service may be effected in the same manner as notice of an injury is directed to be served by section 13 of the Act.

##### ANSWER BY RESPONDENTS.

11. If any respondent—

- (1.) Desires to disclaim any interest in the subject-matter of the arbitration; or
- (2.) Considers that the claimant's particulars are in any respect incorrect or incomplete; or
- (3.) Desires to bring any fact or document before the Court; or
- (4.) Intends to rely on the fact that notice of the accident was not served in accordance with section 12 of the Act; or
- (5.) That the claim for compensation was not made within the time limited by the said section; or
- (6.) Intends to deny (wholly or in part) his liability to pay compensation under the Act,—

he shall, five clear days at least before the day fixed for proceeding with the arbitration, file with the Clerk an answer in Form 7 in the Schedule hereto, or as near thereto as the circumstances will admit.

12. Such respondent shall, with his answer, file three copies thereof for the Court, and one copy for the claimant and for each of the other respondents, and the Clerk shall within twenty-four hours after receiving such copies transmit them by post to the President of the Court, the claimant, and the other respondents respectively.

13. Subject to any answer so filed, the claimant's particulars and, in the case of a claim for compensation, the liability to pay compensation under the Act shall be taken to be admitted:

Provided that the Court may, in case of non-compliance with Regulation 11 and on such terms as it thinks fit, either proceed with the arbitration and allow the respondent to avail himself of any matter of which he should, pursuant to that regulation, have given notice by filing an answer, or adjourn the arbitration to enable the respondent to file such answer.

##### SUBMISSION TO AWARD, OR PAYMENT INTO COURT.

14. Where a respondent from whom compensation is claimed admits liability, he may, at any time before the day fixed for proceeding with the arbitration,—

- (1.) Where the application is made by an injured worker, file with the Clerk a notice in the Form 8 in the Schedule hereto that he submits to an award for the payment of a specified weekly sum; or
- (2.) Where the application is made on behalf of a deceased worker, or for the settlement of the sum payable in respect of medical attendance on and the burial of a deceased worker who leaves no dependants, pay into Court such sum as the respondent considers sufficient to cover his liability in the circumstances of the case.

15. The Clerk shall, within twenty-four hours from the time of any notice filed or payment made under the last preceding regulation, send notice thereof in the Form 9 or 10 in the Schedule hereto as the case requires, together with a copy of the notice filed, if any, to the claimant and to the other respondents, if any.

16. If the claimant is the injured worker, and elects to accept the weekly payment specified in the respondent's notice in satisfaction of his claim, he shall send to the Clerk and to the respondent a written notice in Form 11 in the Schedule hereto stating such acceptance.

17. If the application for arbitration has been made on behalf of the dependants of a deceased worker, or for the settlement of the sum payable in respect of medical attendance and burial as aforesaid, and the claimant is willing to accept the sum paid into Court in satisfaction of the compensation payable to the dependants, or in respect of such medical attendance and burial (as the case may be), he shall send to the Clerk and to the respondent a written notice in the Form 11 in the Schedule hereto of such acceptance.

18. If there are any other respondents the claimant shall in like manner give notice of his acceptance to those respondents; and if they or any of them are willing to accept the sum paid into Court in satisfaction of such compensation as aforesaid, they shall in like manner give notice of their acceptance to the Clerk and to the claimant and the other respondents.

19. The notice required by Regulations 16, 17, and 18 to be sent to the Clerk and to the respondent shall in each case be sent within such reasonable time before the day fixed for proceeding with the arbitration as the time of filing of the notice of submission by the respondent under Regulation 14 permits.

20. If the claimant is the injured worker, and elects to accept in satisfaction of his claim the weekly payment submitted to by the respondent, or if in any other case the claimant and all the other respondents give notice of their acceptance of the sum paid into Court, the following provisions shall apply:—

- (1.) Where the respondent submits to an award for the payment of a weekly sum, the Court may forthwith make an order directing payment of such weekly sum accordingly.
- (2.) Where the respondent has paid money into Court, further proceedings against such respondent shall be stayed, except as hereinafter mentioned.
- (3.) If the claimant and the other respondents agree as to the apportionment and application of such sum, the Court may, on application made on behalf or with the consent of all such parties, forthwith make an award for such apportionment and application.
- (4.) In any other case the arbitration may proceed as between the claimant and the other respondents.
- (5.) In any such case the Court may in its discretion by its award order the respondent filing notice of submission or paying money into Court to pay such costs as the claimant and the other respondents or any of them have properly incurred before the receipt of notice of submission to an award or payment into Court.

21. In default of notice of acceptance by the claimant and all the respondents the arbitration may proceed, but if no greater weekly payment or compensation is awarded than that which the respondent has submitted to pay or has paid into Court, such respondent shall not be liable to pay any further costs than he would have been ordered to pay if the weekly payment offered or sum paid into Court had been accepted; and the Court may order any costs incurred by the respondent after notice of submission or payment into Court to be paid by any party who has not given notice of acceptance, and may order such costs to be set off against any costs payable to such party, or to be deducted from any weekly payment or compensation awarded to him.

#### AWARD.

22. (1.) The award of the Court shall be in writing under the seal of the Court, and signed by the President, and filed.

(2.) The award shall be in one of the forms 12 to 14 in the Schedule hereto, or as near thereto as the circumstances of the case admit.

(3.) A copy of the award shall be served on all persons affected thereby.

#### COSTS.

23. The Court shall in each case determine the amount of the costs to be paid by any party to the arbitration, and to whom the same shall be paid, and shall embody in its award such direction as to the payment of costs as it thinks fit.

24. Where a worker submits himself for examination to a medical referee under clause 5 of the Second Schedule to the Act, and the certificate of the referee is used in any subsequent proceedings, any reasonable travelling and other expenses incurred by the worker in attending the referee for examination or in obtaining such certificate may (if not otherwise provided for) be allowed as costs in the arbitration.

#### ENFORCING PAYMENT.

25. When a party liable to pay compensation or costs under any award makes default in payment of the amount awarded, or, where payment is to be made by instalments, of any instalment, payment may be enforced in the following manner:—

- (1.) On application by the party entitled to payment (in the Form 15 in the Schedule hereto) the Clerk shall issue a certificate (in the Form 16 in the Schedule hereto), under his hand and sealed with the seal of the Court, stating the amount payable and the respective persons to whom the same is payable.
- (2.) That certificate may be filed in any Court of competent jurisdiction, and shall thereupon be enforceable as a final judgment in such Court.

(3.) Where such sum is not payable into Court the party applying for the certificate shall satisfy the Clerk, by affidavit or otherwise, as to the amount in payment of which default has been made.

#### PARTIES TO ARBITRATION.

26. (1.) An application on behalf of the dependants of a deceased worker for the settlement by arbitration of the amount payable as compensation to such dependants shall be made by the legal personal representative (if any) of the deceased worker.

(2.) If there is no legal personal representative the application may be made by the dependants themselves.

(3.) If there is any conflict of interest between the dependants themselves, the application may be made by the legal personal representative on behalf of some only of such dependants, or, if there is no legal personal representative, then by some only of such dependants, the other dependants in either case being named as respondents.

(4.) In this regulation, "dependants" includes persons claiming to be dependants.

27. (1.) In any case where the amount of the compensation is agreed upon or ascertained, but a question arises as to who are dependants, or as to the amount payable to each dependant, it shall not be necessary to make the employer a respondent if he pays the compensation agreed on or ascertained, but otherwise he shall be a respondent.

(2.) If at any time before the hearing the employer, being a respondent, pays the amount of compensation agreed on or ascertained into Court, to be dealt with as the Court directs, further proceedings against him shall be stayed.

#### APPLICATION TO SUSPEND PAYMENTS.

28. (1.) In case a worker is entitled to weekly payments under the Act, and refuses, when required by the employer, to submit himself to an examination by a qualified medical practitioner, or in any way obstructs the same, application may be made to the Court in the Form 17 in the Schedule hereto to suspend the weekly payments awarded to that worker until such examination takes place.

(2.) The application must be served on the other party at least five clear days before the day fixed for the hearing.

#### APPLICATION TO REVIEW OR REDEEM WEEKLY PAYMENT.

29. (1.) Either the employer or the worker may, at any time after the making of the award and while weekly payments are payable under the award, apply to the Court in the Form 18 in the Schedule hereto for review of the weekly payments under clause 7 of the Second Schedule to the Act.

(2.) An application by the employer to redeem the weekly payments under clause 8 of the Second Schedule to the Act may be made in a similar manner as in the case referred to in the last preceding paragraph of this regulation.

(3.) In either case the application must be served on the other party at least five clear days before the day fixed for the hearing.

30. (1.) Application to the Board of Conciliation under section 14 of the Act may be made by lodging with the Clerk a copy of the scheme for compensation, together with an application in the Form 19 in the Schedule hereto.

(2.) On the consideration of the application the Board may require the attendance of the employer, or of any of the workers of that employer, and may examine them as to such scheme.

(3.) The Board may, after due consideration of the scheme, issue a certificate under the hand of the Chairman that such scheme is on the whole not less favourable to the general body of workers and their dependants than the provisions of the Act, or they may refuse to issue a certificate.

(4.) Such certificate may be in the Form 20 in the Schedule hereto.

#### ENFORCING CHARGE ON PROPERTY.

31. (1.) The charge created by section 18 of the Act may be enforced by sale of the property subject to the charge, at such times, in such manner, and subject to such conditions as the Court awarding compensation or damages orders.

(2.) For the purposes of this regulation the Court may make orders from time to time, either on its own motion or on the application of the party entitled to compensation.

#### GENERAL.

32. The practice and procedure of the Court of Arbitration (including the payment of fees), as prescribed by the Industrial Arbitration Act, shall, subject to the provisions of the Act and these regulations, apply in all proceedings under the Act.

*Regulations for Admission to Forest Service Branch of the Royal Indian Engineering College.*

Education Department,  
Wellington, 3rd May, 1901.

THE following regulations of the Forest Service Branch of the Royal Indian Engineering College are published for general information.

W. C. WALKER,  
Minister of Education.

[Revised copy, to be substituted for that issued in September, 1900. (Special attention is invited to the changes in para. 4, para. 5 (note), and paras. 6 to 8.)]

REGULATIONS FOR THE FOREST SERVICE BRANCH OF THE ROYAL INDIAN ENGINEERING COLLEGE, COOPER'S HILL, FOR 1901.

[The arrangements hereinafter described are subject to revision under the orders of the Secretary of State for India.]

1. The Royal Indian Engineering College is primarily maintained, under the orders of the Secretary of State for India in Council, in view to the education of candidates from this country for the service of Government in the Indian Public Works and Telegraph Departments, the Accounts Branch of the Public Works Department, the Traffic Branch of the Indian State Railways, and the Forest Department; but it is open, to the extent of the accommodation available, to other persons, being British subjects, desirous of following the course of study pursued in it.

2. Admission to the College is under the orders of the President, who will allot accommodation as may best secure

the object for which the College is primarily maintained—namely, the training and recruitment of the European element in the departments mentioned in clause 1.

INDIA FOREST DEPARTMENT APPOINTMENTS.

3. The examination, which will be conducted by the Civil Service Commissioners, will be simultaneous with, and (except that German must be taken as an obligatory subject, and that botany is added) in the same subjects and papers as, the examination for the Indian Police Department,\* which is usually held in June.

Candidates may undergo the written part of their examination in London, Edinburgh, or Dublin, or at any of the provincial centres at which the simultaneous examination of candidates for admission to the Royal Military College, Sandhurst, is to be held. A list of the probable centres may be obtained from the Civil Service Commissioners at any time after January, 1901. The oral and practical parts of the examination will be held in London only.

A fee of £2 is required from candidates examined in London, but when the written examination is conducted elsewhere than in London the fee is £3. Candidates examined at a college or school will probably be required to pay a local fee in addition to the fee of £3 (in order to defray the expenses of superintendence), as to which they should obtain early information from the college or school authorities. The fee payable to the Civil Service Commissioners must be paid by means of stamps of the specified amount. Instructions on this point will be issued to candidates about ten days before the examination.

4. The number of candidates to be selected annually varies according to the requirements of the Forest Service in India; the figures as regards each particular year will be advertised from time to time. *In 1901 there will be ten appointments offered for competition.*

5. Candidates for the Indian Forest Department are selected under the following arrangements:—

- (1.) An applicant must be a natural-born British subject, and must be above seventeen and under twenty years of age on the 1st June of the year in which he competes for an appointment. He must be unmarried, and if he marries before reaching India he will forfeit his appointment.
- (2.) An applicant must send† to the Revenue Department of the India Office, on or before the 1st day of May of the year in which he proposes to compete,—
  - (a.) His name, parentage, and home address, a certificate or other satisfactory evidence of the date of his birth, and the written consent of parent or guardian that his name should be recorded as a candidate.
  - (b.) A statement of the places of education at which he may have been, accompanied by testimonials of good conduct, during the last four years.
- (3.) Applicants will have to appear before a Medical Board‡ at the India Office, particular stress being laid upon good vision§ and hearing. A physical test will also be imposed, so as to insure the selection of persons of active habits and powers of endurance.

\* Candidates may, if qualified, enter for both the Police and the Forest Department. They will, in such case, have to pay the fee due in respect of each examination.

† There is no form of application; the documents specified in paragraph 5, (2), clauses (a) and (b), should be enclosed in a covering letter addressed to the Secretary, Revenue Department, India Office, London.

‡ It is suggested that a candidate, before commencing any special course of study, should undergo a thorough medical examination. By such an examination any serious physical disqualification would probably be revealed, and the candidate might thus be spared the expense and waste of time involved in a course of preparation for a service for which he is physically unfit.

§ Candidates for the Forest Service may, if they wish it, undergo a preliminary examination by the Medical Board at the India Office, not more than two years before they are qualified to compete, under the following conditions:—

- (a.) Applications must be addressed to the Under-Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas and by a statement of the candidate's age.
- (b.) Candidates must pay their travelling expenses.
- (c.) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, at their own risk, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, shortly before the literary examination at which they wish to compete.

(d.) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

§ On the subject of the standard of eyesight required for the Indian services, a pamphlet can be obtained on application to the Secretary, Revenue and Statistics Department, India Office.

- (4.) Applicants who have passed the medical examination and the physical test will be permitted to undergo an examination before the Civil Service Commissioners in the following subjects\* (Classes I. and II.), marks being assigned as follows:—

<i>Class I.†</i>	Marks.
Mathematics I. (including arithmetic) ..	3,000
German‡ (300 for colloquial) ..	2,000
Botany .. .. .	2,000
English composition .. .. .	1,000
Geometrical drawing .. .. .	500
Freehand drawing .. .. .	500
Geography .. .. .	500
<i>Class II.</i>	
Mathematics II. .. .. .	2,000
Latin .. .. .	2,000
French .. .. .	2,000
Greek .. .. .	2,000
English history .. .. .	2,000
Chemistry and heat .. .. .	2,000
Physics .. .. .	2,000
Physiography and geology .. .. .	2,000

Candidates must obtain such an aggregate of marks in the examination as a whole as may indicate in the judgment of the Civil Service Commissioners a competent amount of general proficiency.

- (5.) The Secretary of State will nominate as probationers such competitors as attain the highest aggregate of marks (provided they obtain the aggregate referred to above, and satisfy the requisite conditions in other respects). These probationers will then enter the College, where they will be further trained for the Forest Service of India.
- (6.) If the full number of competent probationers required in any year cannot be obtained from the persons so examined, the Secretary of State reserves a discretion to fill up the deficiency by selecting any other person or persons whom, after consulting the authorities of the College, he may consider properly qualified to become probationers for the Forest Service.
6. The course of study for candidates for the India Forest Service extends over about three years. For about six terms the candidates will prosecute their studies mainly at the College, and during the period of foreign study, which will occupy the remainder of the course, they will visit, under suitable supervision, such continental forests as may be selected for the purpose. Excursions may also be made for purposes of instruction, both during term-time and during part of the vacations.
7. Each annual session begins in September, and is divided into three terms, with vacations of about four weeks at Christmas, two weeks at Easter, and eight weeks in the summer.
8. A charge of £61 is made for each of the six terms spent at the College; for the period of foreign study the charge is £70 for each of the three terms: the amounts must be paid terminally in advance to the Bank of England. Receivable orders, with full directions as to the mode of payment, will be forwarded from the India Office to the parents or guardians shortly before the fees fall due. A student will not be allowed to come into residence or to start for or continue his study of foreign forests until his fee for the term has been paid.
9. A deposit of £5 is required to be paid by each student on admission to the College as caution-money, to cover charges incurred by him for damage to books, instruments, &c., or any College bills outstanding on leaving the College. Any balance over and above such charges will be repaid. This deposit is to be paid with the fee for the first term, making the total payment on that occasion £66.
10. The foregoing payments cover all charges for tuition, board according to the College tariff, lodging, with washing up to a cost of 2s. a week, and ordinary medical attendance while in residence at the College. When students are on tour, and during the course of practical instruction, whether in Great Britain or on the Continent, the Secretary of State will defray the expenses of (1) board, lodging, and washing (the aggregate maximum expenditure under these heads being 10s. per diem), (2) travelling-expenses, and (3) fees to local forest officers, &c.

\* Reprints of the papers set at previous examinations, together with tables of the marks assigned to the candidates, are published by the Civil Service Commissioners, and can be obtained through any bookseller from the following agents:—Eyre and Spottiswoode, East Harding Street, Fleet Street, London, E.C.; John Menzies and Co., Rose Street, Edinburgh, and 90, West Nile Street, Glasgow; and Hodges, Figgis, and Co., Limited, 104, Grafton Street, Dublin. The price is one shilling.

† All the subjects of Class I. may be taken up. Only two of the subjects of Class II. may be taken up.

‡ Candidates must qualify in German.

Students are required to provide their own class-books and drawing-instruments. Drawing-paper, drawing-boards, and surveying-instruments are provided by the College.

11. The prescribed course of study comprises the following subjects:—I. Auxiliary subjects: (1) geometrical drawing, (2) freehand drawing, (3) surveying, (4) forest engineering, (5) accounts, (6) German, (7) physics, (8) chemistry, (9) geology and mineralogy, (10) entomology, (11) botany, (12) drill and gymnastics. II. Forestry, theoretical and practical, in all its branches.

12. Every student is required to conform to the College rules, to exhibit due diligence in his studies throughout the course, and to give evidence of satisfactory progress in such manner as may be required, failing which, or in the event of serious misconduct, he will be liable to be removed from the College, or to be sent back from the foreign study, which may entail the loss of his appointment.

13. During the course of study the proficiency of the students will be tested by periodical examinations, and on the termination of their studies there will be a final examination. Each student may also, at the discretion of the Secretary of State for India, be required from time to time to appear before the Medical Board, and should the result be unsatisfactory he cannot claim to be allowed to complete the course.

14. The subjects enumerated in paragraph 11 are grouped in certain main branches of study,\* and a fixed minimum of qualification is required in each branch and in the subjects taught during the forest tours, as well as a certain minimum for all branches taken together. Students who obtain these minima will receive the College diploma in forestry.

15. Candidates who have obtained this diploma, and are found to be of sound constitution and free from physical defects which would render them unsuitable for employment in the Forest Department (the final decision on which points will rest with the Secretary of State for India), will be appointed Assistant Conservators in the Forest Department of India in the order of their standing at the end of the final examination. They will be allowed before leaving the College to state their preference in respect to the provinces to which they desire to be allotted; but the distribution will be made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India after consulting the President of the College. Officers are, however, at all times liable to be transferred from one province to another at the pleasure of the Government of India.

16. Within a month of his nomination as Assistant Conservator, each nominee must sign articles of agreement describing the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and will be provided with a free passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

17. The pay of an Assistant Conservator of Forests will begin from the date of reporting arrival in India. Probationers who acquit themselves creditably during their course at Cooper's Hill College will begin on a salary of Rs. 350 a month. It will, however, rest with the President of the College to decide whether any of the probationers, though they have obtained the College diploma in forestry, have failed to deserve that rate of initial salary. Such probationers, if any, will begin on a salary of Rs. 250 a month; and this difference of salary will continue until the first departmental examination is passed in India. Officers entering the forest service will be required to contribute a subscription ranging from a compulsory minimum of 5 per cent. up to a voluntary maximum of 10 per cent. of their salary to the Forest Officers' Provident Fund. Such contributions, with compound interest, will accumulate till the date of retirement, when the total sum will be paid to the contributor, or, in the event of death before retirement, to his legal representative.

18. Promotion, leave, and pension will be governed by the regulations laid down by the Government of India and made applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. The pension rules applicable to Public Works and Telegraph officers appointed from Cooper's Hill College have been extended to Forest officers appointed from England; and the Inspector-General of Forests and Conservators of the first grade are now eligible for the extra pension of Rs. 1,000 per annum admissible to an officer after at least three years of approved service as a head of a department in any province, if considered deserving of the special concession. A copy of the regulations relative to these matters can be seen on application either at the Library or the Record Department of the India Office; the

principal rules are contained in the Abstract of the Civil Service Regulations, as given in the "India List and India Office List," published by Messrs. Harrison and Sons, 59, Pall Mall, London, which can be procured through any bookseller.

19. Every candidate, before proceeding to India, will be required to furnish to the President of the College satisfactory evidence of his competency in riding.

#### GENERAL RULES.

20. Chemical, physical, and botanical laboratories, a forestry museum, a forest nursery, a library, and gymnasium are attached to the College. Means are also provided for the practice of photography. Students making use of the laboratories are supplied with the needful apparatus.

21. The responsibility for the discipline and management of the College and for the superintendence of the studies is vested in the President, under the control of the Secretary of State for India.

22. The students are distributed in divisions, under personal charge of one of the professors or instructors selected by the President; such tutor being responsible for exercising the proper degree of personal supervision over each student in his division, and for conducting necessary correspondence with the student's parents or guardians.

23. Each student residing in the College is provided with a separate room, and with fuel and light, also with the necessary attendance. Furniture and bedding are supplied by the College, but students are required to provide their own towels and bed-linen. Meals are taken in hall. Wine and beer are not included in the ordinary fare, but can be obtained from the College cellar at fixed prices.

24. A chapel is attached to the College, which the students are required to attend at Sunday morning service, unless specially exempted.

25. Every student will be required to go through a course of gymnastics and also of military exercises, including the use of the rifle.

#### STUDENTS NOT NOMINATED FOR THE INDIAN FOREST SERVICE, BUT DESIROUS OF OBTAINING A DIPLOMA IN FORESTRY FROM COOPER'S HILL COLLEGE.

26. Students not nominated for the Indian Forest Service may be received into the College, as far as the available accommodation permits. Such students may pass through the course of instruction prescribed for the nominees of the Indian Forest Service, as detailed above, or they may be permitted to participate in the instruction given in certain subjects only. On obtaining the prescribed minima of marks in the several branches of study and in totals as laid down above, they will receive, as the case may require, either the College diploma in forestry or special certificates showing in what subjects they have followed the instruction, and with what result.

27. Candidates who desire to be admitted under paragraph 26 may submit the necessary application at any time, but not later than the 15th day of June of the year named for admission, except with the special permission of the President. The application must be made on the prescribed forms, which can be obtained from the Secretary of the College.

28. Candidates whose applications are found satisfactory as to character and in other respects will be required to undergo an examination, to be held at the College, about the last week in June of the year for admission. The object of the examination will be to ascertain whether the candidate is qualified to follow the course of instruction with advantage (or certain parts of it, as the case may be). Candidates who do not come up to the required standard will not be admitted to the College.

The President may dispense with the whole or any portion of this examination in the case of a candidate who produces an University diploma or other similar certificate granted by a recognised examining body.

29. Candidates admitted to the College under paragraph 26, who propose to pass through the full prescribed course of study, will be required to pay the same fees in every respect as those paid by the nominees for the India Forest Service. Candidates who do not become resident, and are admitted only to certain subjects of study, will be required to pay the fees which may be fixed in each special case in consideration of the extent of their studies. The candidates of both classes will be required to abide by the general rules of the College.

India Office, February, 1901.

Education Department,  
Wellington, 15th May, 1901.

THE following report of the person appointed by the Governor, under the provisions of "The Native Schools Sites Act, 1880," to ascertain the title of certain

Natives to land at Takahiwai, in the County of Whangarei, appropriated by them for the site of a school, having been adopted by the Governor, is published in accordance with the said Act.

WM. HALL-JONES,  
For Minister of Education.

REPORT UNDER "THE NATIVE SCHOOLS SITES ACT, 1880."

The Magistrate's Office,  
Auckland, 30th April, 1901.

I HAVE the honour, in accordance with the direction of His Excellency the Governor conveyed to me in your letter of the 4th April instant, "to ascertain the title of certain Natives to land at Takahiwai, in the County of Whangarei, appropriated by them for the site of a school," under "The Native Schools Sites Act, 1880," to report as follows:—

1. I gave public notice by advertisement (printed in English and Maori) in the *Northern Advocate*, a local newspaper published at Whangarei, that I would hold an inquiry at Takahiwai on the 26th April instant, and caused copies of such notice to be posted in the Native settlement at Takahiwai, and otherwise communicated to the Natives concerned.

2. I met the Natives at the Native settlement of Takahiwai on the 27th instant. The following Natives were present: Wiki te Pirihi, Kawhena Paki, Maraea Petimana, Hoone Tana, Hori Petimana, Henare Pirihi, Hori Maki, Hoorowai Honetana, Hohepa Petimana, Wirituki, Wiremu Pirihi, and Paki Pirihi.

3. The object of the inquiry was explained to the Natives, and the plan of the site was produced and its locality identified, being the land described in the Schedule hereto. Wiki te Pirihi, the head chief of the settlement, stated that the following were the owners of the site: Wiki te Pirihi, Kawhena Paki, Maraea Petimana, Hoone Tana.

4. Those present unanimously agreed that the Natives named were the owners, and that no other had, or rightfully could have, any claim to the land.

5. The effect of the owners agreeing to the appropriation of the land for the purpose in view having been explained, the Natives named as the owners then severally agreed to the appropriation of the site to the purpose of a Native school.

6. The whole of the Natives expressed the wish that the owners' act of appropriation, having been for a long time intended, should be given effect to by the Government as speedily as possible.

7. In conclusion, I am satisfied that the persons named in paragraph 3 hereof are the owners of the land described in the Schedule, being the school-site referred to, and that they severally agreed to the appropriation thereof as a site for a Native school.

I have, &c.,  
T. HUTCHISON.

The Secretary, Education Department.

\* Interest and sinking fund on buildings valued at £490, repayable in twenty-one years by half-yearly instalments of £19 2s. 2d.: total half-yearly rent, £159 12s. 11d.

Run No. 85 (southern portion); Section 2a; 508 acres 3 roods.

Mixed agricultural and pastoral land, at an altitude about 450 ft. above sea-level. With the exception of two low terraces and watercourses, the section is level throughout, and well watered by the River Waitaki, natural springs, and streams. It is subdivided into nine paddocks by substantial post, standard, and wire fencing, seven and eight wires. The soil varies considerably, ranging from rich deep alluvial loam to light and stony, the whole being well adapted to growing oats, root-crops, turnips, and rape. It has nearly all been cultivated and laid down in English grass five to ten years, and at the present time is laid down to English grasses. Distance from Hakataramea Railway-station, ten miles and a half; from Glenavy, twenty-two miles; and adjoins school reserve. The improvements, which go with the land, consist of 388½ chains of substantial seven- and eight-wire fencing, with posts and standards, valued at £149 9s. There are also a substantial dwellinghouse of six rooms, bath-room, wash-house, &c., overseer's house of five rooms, iron wool-shed for eight shearers, shearers' quarters, dip, stable, and coach-house, garden, plantations, and ornamental trees and willows, valued at £490, repayable in twenty-one years, in half-yearly instalments of £19 2s. 2d.

Water is obtained from springs in the gullies. The section is ring-fenced, with the exception of the road running through the section and the reserves therein, and is subdivided into three paddocks. About 670 acres have been cultivated and laid down in English grass for five and six years, the remainder in native grasses. The soil on the downs is generally a fair depth and good, on a loamy clay subsoil on a limestone formation, which crops out in the terrace near the south-east corner. A large portion would yield good crops of wheat. The ploughable portion is very suitable for oats, rape, and turnips. The soil on the flat is lighter, but suitable for growing turnips. Altitude, from 436 ft. to 1,400 ft. above sea-level. Distance from Hakataramea, eleven miles; from Glenavy, twenty-two miles; and adjoins school reserve. The improvements, which go with the land, consist of 505 chains of boundary and subdivision fencing, valued at £159 19s.

This land is situated on the Waitotara River. Section 1 contains 2,200 acres, and Section 1B 1,780 acres, consisting of good birch ridges but narrow valleys. The timber is tawa, rata, rimu, &c., with the usual undergrowth, and the land will make good sheep-country, estimated to carry two sheep to the acre. On Section 1 there is a good homestead-site north of the road dividing the lots, where there is a clearing of from 5 to 7 acres. On Section 1B there are two good flats on the Waitotara River, estimated to contain 15 to 20 acres each, one of which has from 8 to 10 acres cleared and in grass, which would enable a homestead to be erected immediately. There is a dray-road already made for seven miles from Waitotara Township, and a 6 ft. bridle-track formed on to the Waitotara River, dividing the two blocks. The nearest part of the land is about ten miles from Waitotara by the formed road.

JAMES B. HEYWOOD,  
Secretary to the Treasury.ROBERT J. COLLINS,  
Accountant to the Treasury.

The foregoing accounts have been examined and found correct subject to the following remarks:—

1. The "Customs," "Railways," and "Territorial Revenue" receipts are not now examined by the Audit Office.

2. The Audit Office is unable satisfactorily to verify the receipts of gold revenue, through the failure of the Mines Department to comply with a requisition for a certified statement of the amounts collectible as such revenue.

3. The Deputy Commissioner of Stamps, Wellington, failed to make to the Audit the return prescribed by the regulations under the Stamp Act, showing the value of stamps in his hands on the last Saturday in June, in July, and in August, 1900, supported by a certificate by an officer of or on the part of the Audit Office that the stock named in such return had been counted and found correct.

4. The "Advances in the hands of officers of the Government" include payments to the amount of £8,816 15s. 3d., though the accounts of the same were received at the Treasury before the close of the year.

5. The following amounts paid during the financial year are not included in the estimates for the year, as required by section 37 of the Public Revenues Act:—

(a.) £50, being the amount by which £150 paid in respect of the Khandallah Bridge, as unauthorised expenditure in anticipation of the Appropriation Act, exceeds the sum of £100 included in the estimates;

(b.) £17,866 14s. 9d., being sums paid, in respect of charter of steamers to South Africa, as unauthorised expenditure in anticipation of the Appropriation Act;

(c.) £7,020 4s. 3d., being sums paid, under authority of Imprest Supply, as expenditure of the Department of Industries and Commerce for charter of ship to South Africa, &c., and transferred subsequently to the Unauthorised Expenditure Account.

6. The lodgments to the credit of Deposit Accounts include a sum of £5,657 10s. 6d., which was received for the repurchase by the Bank of New Zealand, under section 8 of "The Bank of New Zealand and Banking Act, 1895," of the preferred shares, and which, being such part of "all moneys received for the said repurchase" as consisted of "the amount of all dividends accrued and unpaid in respect thereof up to the time of payment of the price," should have been transferred to, and shown in the statement of receipts and expenditure of, "The Bank of New Zealand and Banking Act, 1895," Account, and paid to the Public Trustee.

7. The "Statement of the Receipts and Expenditure of the Government Accident Insurance Loan Account" is not satisfactory. On that account there were the following transactions, which are not entered, and for the entry of which no requisition has been received from the Treasury:—

(a.) £1,000, being the sum raised by the Governor in Council as a temporary advance from the Government Insurance Office on the security of the debentures created for £2,000; and

(b.) £1,000, being the sum so raised, which was placed to the credit of the Government Accident Insurance Account.

8. The Treasury Cashier, out of moneys issued to him by way of imprest under votes, made four advances to other officers for unauthorised expenditure, though in each case the application had neither been passed by the Audit Office, nor returned to it with any reply to its objection to the proposal to charge the required advance to a vote.

8th May, 1901.

J. K. WARBURTON,  
Controller and Auditor-General.

The following remarks may be added in explanation of the comments made by the Audit Office as above:—

1. The usual comment: In accordance with law, the heads of revenue named are not now, and have not been for some years past, examined by the Audit Office.

2. The usual comment: It is sufficient to state that the law does not require the statement.

3. The regulations have been amended, and the Deputy Commissioner has complied with them.

4. These outstandings are known to be unavoidable, and the Audit Office has previously admitted it.

5. (a.) By mistake Parliament was asked to vote £100 instead of £150.

(b) and (c). The Audit Office should have mentioned that a vote for a net sum of £1,000 was taken for these services. It was specially worded so as to provide for recoveries, but the Audit Office decided that no more than the amount voted could be charged; therefore the sums named were transferred to "Unauthorised" until credits are ascertained.

6. The Solicitor-General was consulted, and gave his opinion that it was unnecessary to pay over to the Public Trustee more than the £500,000 of repurchase money.

7. This is a matter concerning the Accident Insurance Branch of the Government Life Insurance Department alone. So far as the Treasury is concerned the facts are that £2,000 of debentures were issued to the Insurance Department, and this amount has to be included in the Public Accounts as a liability of the public debt.

8. The officers alluded to were the Commander of the Forces and other military officers who were ordered to visit Australia in connection with the Commonwealth and military business. The Audit Office is in error in stating that no replies were made to the objections raised.

Treasury, 11th May, 1901.

R. J. SEDDON,  
Colonial Treasurer.

JAS. B. HEYWOOD,  
Secretary to the Treasury.  
ROBERT J. COLLINS,  
Accountant to the Treasury.

The foregoing accounts have been examined and found correct subject to the following remarks:—

1. The "Customs," "Railways," and "Territorial Revenue" receipts are not now examined by the Audit Office.
2. The Audit Office is unable satisfactorily to verify the receipts of gold revenue, through the failure of the Mines Department to comply with a requisition for a certified statement of the amounts collectible as such revenue.
3. The "Advances in the hands of officers of the Government" include payments to the amount of £8,816 15s. 3d., though the accounts of the same were received at the Treasury before the close of the year.
4. The Deposit Accounts, in "The balance at beginning of quarter," include the sum of £5,657 10s. 6d. which, being part of all moneys received for the repurchase by the Bank of New Zealand of its preferred shares, as provided by section 8 of "The Bank of New Zealand and Banking Act, 1895," should have been transferred to "The Bank of New Zealand and Banking Act, 1895," Account, and paid to the Public Trustee.
5. The "Statement of the receipts and expenditure of the Government Accident Insurance Loan Account" is not satisfactory. On that account there were the following transactions which are not entered, and for the entry of which no requisition has been received from the Treasury:—
  - (a.) £1,000, being the sum raised by the Governor in Council as a temporary advance from the Government Insurance Office on the security of the debentures created for £2,000; and
  - (b.) £1,000, being the sum so raised, which was placed to the credit of the Government Accident Insurance Account.
6. The Treasury Cashier, out of moneys issued to him by way of imprest under votes, made four advances to other officers for unauthorised expenditure, though in each case the application had neither been passed by the Audit Office nor returned to it with any reply to its objection to the proposal to charge the required advance to a vote.

J. K. WARBURTON,  
Controller and Auditor-General.

The following remarks may be added in explanation of the comments made by the Audit Office as above:—

1. The usual comment: In accordance with law, the heads of revenue named are not now, and have not been for some years past, examined by the Audit Office.
2. The usual comment: It is sufficient to state that the law does not require the statement.
3. These outstandings are known to be unavoidable, and the Audit Office has previously admitted it.
4. The Solicitor-General was consulted, and gave his opinion that it was unnecessary to pay over to the Public Trustee more than the £500,000 of repurchase money.
5. This is a matter concerning the Accident Insurance Branch of the Government Life Insurance Department alone. So far as the Treasury is concerned, the facts are that £2,000 of debentures were issued to the Insurance Department, and this amount has to be included in the Public Accounts as a liability of the public debt.
6. The officers alluded to were the Commander of the Forces and other military officers who were ordered to visit Australia in connection with the Commonwealth and military business. The Audit Office is in error in stating that no replies were made to the objections raised.

R. J. SEDDON,  
Colonial Treasurer.
