WELLINGTON, THURSDAY, JULY 17, 1902.

Allocating Land reserved and taken for a Railway to the Purposes of a Road in Buller County.

(L.S.) RANFURLY, Governor.
A PROCLAMATION.

WHEREAS the land mentioned in the Schedule hereto forms part of land taken for the purposes of the Westport-Ngakawau Railway, and it is considered desirable to allocate such land to the purposes of a road:

And whereas it has been certified by the Minister for Railways that such land is not required for railway purposes: And whereas such land is situated in Buller County, the local authority of which has assented to the issue of this Proclamation:

And whereas His Excellency the Governor is of opinion that the said local authority can conveniently construct and maintain the said road:

Now, therefore, I, Uchter John Mark, Earl of Ranfurly, the Governor of the Colony of New Zealand, in exercise and pursuance of the powers and authorities in me vested by section one hundred and seventy-seven of "The Public Works Act, 1894," and of every other power and authority in anywise enabling me in that behalf, do hereby proclaim and declare that the land described in the Schedule hereto shall, upon the publication hereof in the *New Zealand Gazette*, become a road, and that the said road shall be under the control of the Buller County Council, and shall be maintained by the said Council in like manner as other public highways are controlled and maintained by the said Council.

SCHEDULE.

ALL that area in the Nelson Land District, in the Kawatiri Survey District, containing 9 acres 2 roods 22 perches, more or less, being strips of railway reserve, 1 chain wide, situate in Block V., Kawatiri Survey District, extending from the southern boundary of the three-chain-wide railway reserve, at Fairdown Station, to the road forming the southern boundary of Section 38, in said Block V., in the said survey district, and being a portion of the railway reserve between the main line of the Westport-Ngakawau Railway and the quarry: as the said parcel of land is more particularly delineated on the plan marked 10897, deposited in the office of the Minister for Railways, at Wellington, and thereon coloured purple.

Given under the hand of His Excellency the Right Honourable Uchter John Mark, Earl of Ranfurly; Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George; Governor and Commander-in-Chief in and over His Majesty's Colony of New Zealand and its Dependencies; and issued under the Seal of the said Colony, at the Government House, at Wellington, this twenty-fifth day of June, in the year of our Lord one thousand nine hundred and two.

RANFURLY, Governor.

ORDER IN COUNCIL.

At the Government House, at Wellington, this fourteenth day of July, 1902.

Present:

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

IN pursuance and exercise of the powers and authorities vested in him by "The Public Domains Act, 1881," His Excellency the Governor of the Colony of New Zealand, by and with the advice and consent of the Executive Council thereof, doth hereby revoke a certain Order in Council, dated the twenty-seventh day of March, one thousand nine hundred and two, making delegation of certain powers in

manner as therein appears; and doth hereby, with the like advice and consent, and in respect of the lands herein-after mentioned, delegate all the powers conferred by the said Act, except the powers conferred by sections five and twelve thereof, for the period of ten years from the date hereof (unless previously altered or revoked under the said Act), to the undermentioned persons, who shall be known as the Kowai Domain Board, namely,—

Frank Courage,
Thomas McNaught,
George Dean Greenwood,
David Brown,
Samuel Coleman,
Thomas Henry Evans,
Alexander McLean,
John McLean, jun.,
George Baynton Starkey,
George Tickner, and
George Wornall

(herein referred to as "the Board"), subject to the stipulations hereinafter contained, that is to say,—

1. The Board shall meet for the transaction of business on the first Wednesday in each month, at eleven o'clock a.m., at the office of the Chairman, or at such other time or place as may from time to time be fixed by the Board. The first meeting shall be held on Wednesday, the sixth day of August, one thousand nine hundred and two.

2. Special meetings may be convened by the Chairman or by any two members of the Board, provided that two days' notice of such meeting be given to each member, specifying the business to be transacted at such special meeting; and no other business than that so specified shall be transacted at such meeting.

3. Any five members of the Board shall form a quorum. Any meeting may be adjourned from time to time.

4. The members of the Board shall, at their first meeting, and thereafter at an annual meeting to be held on the first Wednesday in February in every succeeding year thereafter, elect one of themselves to be Chairman, who may join in the discussion, and shall have an original as well as a casting vote. The Chairman shall hold office until the election of his successor.

5. The Board shall prepare and submit at each annual meeting a report of the proceedings of the Board for the previous year ending on the thirty-first day of December, together with a copy of the receipts and expenditure of the Board for such year. A copy of every such report and statement, certified by the Chairman to be correct, shall be sent to the Minister of Lands as soon as possible after each annual meeting.

6. If at any meeting the Chairman is not present at the time appointed for holding the same, the members present shall choose some one of their number to be chairman of such meeting.

7. If, by resignation, death, or incapacity, or otherwise, the office of Chairman shall be or become vacant, the members may at any monthly or special meeting appoint a Chairman.

8. All questions shall be determined by the majority of votes of the members of the Board present at a meeting.

And with the like advice and consent as aforesaid doth hereby also order that this delegation shall take effect in respect of the parcels of Crown lands described in the Schedule hereto.

SCHEDULE.

ALL that parcel of land in the Canterbury Land District, containing by admeasurement 14 acres 2 roods 16 perches, more or less, being parts of Sections Nos. 3135 and 6675, Block IV., Rangiora Survey District, and bounded as follows: Commencing at a point on the north side of the road forming the southern boundary of the said Section No. 6675, distant 550 links from Pemberton's Road; thence northerly by a right line at right angles to the north side of the said road forming the southern boundary of Section No. 6675, 1000 links; thence easterly by a right line parallel to the north side of that road, 1379.5 links; thence south-easterly by a right line, 1017 links, to a point on the north side of the said road forming the southern boundary of Section No. 6675, distant 2091.5 links from Pemberton's Road; thence westerly by the north side of the said road forming the southern boundary of Section No. 6675, 1541.5 links, to the place of commencement: as the same is delineated on the plan deposited in the District Lands and Survey Office, Christchurch.

Special Order made by the Borough of Alexandra South.

The Treasury,
Wellington, 15th July, 1902.

THE following special order, made by the Council of the Borough of Alexandra South, is published in accordance with the provisions of "The Local Bodies' Loans Act, 1901."

J. G. WARD,
Acting Colonial Treasurer.

BOROUGH OF ALEXANDRA.

SPECIAL ORDER levying Special Rate.—Loan of £7,000 for providing Water-supply.

IN pursuance and exercise of the powers vested in it in that behalf by "The Municipal Corporations Act, 1900," and "The Local Bodies' Loans Act, 1901," the Council of the Borough of Alexandra hereby resolves as follows:—

That, for the purpose of providing the interest, sinking fund, and other charges on a loan of £7,000, authorised to be raised by the Council of the Borough of Alexandra, under the provisions of "The Local Bodies' Loans Act, 1901," for and in connection with the construction and acquisition of waterworks for the supply of pure water for the use of the inhabitants of the said borough, and the acquisition of water for such supply, the said Council of the Borough of Alexandra hereby makes and levies a special rate of 1s. in the pound upon the rateable valuation of all the rateable property of the Borough of Alexandra, comprising all that area bounded towards the north-west by Block VII., Leaning Rock District, 11919 links; towards the north-east by Block VII., Leaning Rock District, 7615 links; towards the east by the Manuherikia River, 8800 links; and towards the south by the Clutha River, 11000 links; and that such special rate shall be an annual-recurring rate during the currency of such loan, and be payable half-yearly on the 1st day of May and the 1st day of November in each and every year during the currency of such loan, being a period of forty-one years, or until the loan is fully paid off.

I, James Kelman, Mayor of the Alexandra Borough Council, do hereby certify that the above special order was duly made and passed at a special meeting of the Alexandra Borough Council held on the 10th June, 1902, and was duly confirmed at a special meeting of the said Alexandra Borough Council held on the 9th July, 1902.

In testimony whereof the common seal of the Alexandra Borough Council has been hereunto affixed.

9th July, 1902. JAS. KELMAN,
Mayor.

The common seal of the Mayor, Councillors, and Burgesses of the Borough of Alexandra was hereunto affixed on the 9th day of July, 1902, in the presence of—

FRANK YOUNG,
Town Clerk.

Special Order made by the Waiapu County Council.

The Treasury,
Wellington, 15th July, 1902.

THE following special order, made by the Waiapu County Council, is published in accordance with the provisions of "The Local Bodies' Loans Act, 1901."

J. G. WARD,
Acting Colonial Treasurer.

WAIAPU COUNTY COUNCIL.
Special Order.

IN pursuance and exercise of the powers vested in it in that behalf by "The Local Bodies' Loans Act, 1901," and "The Rating Act, 1894," and the amendments thereof, the Waiapu County Council hereby resolves as follows:—

That, for the purpose of providing the interest and other charges on a loan of £1,000 authorised to be raised by the Waiapu County Council, under the provisions of "The Local Bodies' Loans Act, 1886," and the amendments thereof, and "The Local Bodies' Loans Act, 1901," for constructing a wagon-road along the Tapuwaeroa Valley from the Waiapu River to Raparaparariki, and a stock-road along the valley of the Mangaoparo Stream from Rotokautuku No. 5 to Pakira, the Waiapu County Council hereby makes and levies a special rate of $\frac{3}{16}$ d. in the pound upon the rateable valuation of all rateable property of the Tapuwaeroa Special District as defined in the Schedule hereto, and that such special rate shall be an annual-recurring rate during the currency of such loan, and be payable half-yearly on the 1st day of January and the 1st day of July in each and every year during the currency of such loan, being a period of twenty-six years, or until such loan is fully paid off.

SCHEDULE.

Tapuwaeroa Special District.

A. B. WILLIAMS,
Member of Council.
T. E. SHEERWOOD,
Member of Council.

I hereby certify that the above special order has been made in accordance with law, and that all the provisions of "The Counties Act, 1886," and "The Local Bodies' Loans Act, 1901," have been complied with.

WILLIAM O'RYAN,
Clerk, Waiapu County Council.

Special Order made by the Arch Hill Road Board, County of Eden, making By-laws.

Colonial Secretary's Office,
Wellington, 14th July, 1902.

THE following special order, made by the Arch Hill Road Board, is published in accordance with the provisions of "The Road Boards Act, 1882."

JAS. MCGOWAN,
For Colonial Secretary.

SPECIAL ORDER made by the Arch Hill Road Board.

That the Board make by-laws by special order under the provisions of "The Road Boards Act, 1882," and its amendments, "The Public Health Act, 1900," and all other Acts empowering the said Boards in that behalf, to apply to the whole of the district, as under:—1. The form of drain-connection to be permitted; the method of junction, with flushing of such house-drains; the material to be used in the construction, and the inspection and sanctioning of all such work by the Board. 2. The description of privy and

nightsoil receptacle which alone may be used in the district. 3. The keeping of animals, birds, &c. 4. The removal of house-refuse. 5. The prevention of overcrowding of dwellings; and generally the good order and well-being of the district.

SANITARY AND OTHER BY-LAWS.

BY-LAW of the body corporate called "The Inhabitants of the Arch Hill Road District," made on the 7th day of July, 1902, in pursuance of the powers and under the provisions of "The Road Boards Act, 1882," and its amendments, "The Public Health Act, 1900," and all other Acts empowering the said body corporate in that behalf, and sealed with the common seal of the said body corporate on the 7th day of July, 1902, and to apply to the whole district:—

In pursuance of the powers contained in the said Acts the Arch Hill Road Board ordain as follows, that is to say:—

1. In this by-law—

"Board" means the Arch Hill Road Board.

"Occupier" includes the person for the time being in charge of any property.

"Property" means and includes lands and buildings.

"Sewer" means every sewer or drain vested in the Board, or under the control of or maintained by the Board.

"Drain" means every drain or sewer neither vested in the Board nor maintained by the Board.

"Inspector" means the person or persons for the time holding the office of Inspector or Inspectors of Nuisances under the Arch Hill Road Board.

2. All property within the district shall be provided with suitable and sufficient drains to carry away the whole of the sewage and household waste water to a sewer; and it shall be the duty of every owner or occupier of property, and of every person on behalf of whom any building shall be erected, added to, altered, or repaired, to cause the provisions of this by-law to be complied with.

3. It shall be the duty of every person on whose behalf any earth-closet, urinal, bath, sink, lavatory, or other sanitary convenience or appliance shall be established, erected, or set up, to cause all the provisions of this by-law in any way affecting the same to be complied with, both as regards the establishing, erecting, and setting-up thereof, and the providing, constructing, laying, erecting, setting-up, or affixing every drain, trap, article, or thing appertaining or which should appertain thereto; and in default thereof such person shall be deemed guilty of an offence, notwithstanding that some licensed drain-connector, or licensed plumber, or other person, may also be liable to a penalty in respect to the same matter.

4. The owner or occupier of any property desiring to have the same connected with a sewer shall make application at the Clerk's office in Form A in the Schedule hereto, and pay a fee of 2s. 6d. in advance towards cost of inspection, &c.; this fee to be paid for each dwelling or property to be drained.

5. On receipt of such application, and payment of the permit fee, the Inspector shall visit and inspect the applicant's property, and point out the position and line in which the connection shall be made.

6. The Board only may make or give permission to make connections with sewers and lay drainpipes beneath public streets and footpaths. In the event of it being necessary to construct any portion of a drain on the property of some person other than the owner of the property to be drained, the Board only may undertake the construction of such portion.

7. As soon as possible after the receipt of an application the Board will, where practicable, at its own cost, lay down a drainpipe from the main sewer to within 100 ft. of the applicant's nearest boundary.

8. The expense of keeping in repair the drainpipes mentioned in section 6 may be borne by the Board; but if any of such pipes shall be choked by the placing, or allowing to remain therein, of any substance other than ordinary sewage, the owner or occupier of the property drained by such pipes shall defray the cost incurred by the Board of clearing the pipe so choked. Where two or more properties are drained by one pipe, the Board shall determine by whom, and in what proportion, the cost of removing such obstruction shall be paid.

9. In no case shall two or more premises be allowed to be drained by one common pipe, unless a special permit has first been obtained from the Board.

10. All drainpipes, traps, and other fittings provided by the Board, and all drainpipes beneath public streets and footpaths, shall be the property of the Board.

11. No person shall connect any drain, pipe, urinal, trap, cesspool, or other fitting with any drainpipe communicating, or intended to communicate, with any sewer unless he shall have previously obtained a permit from the Board.

12. No person shall remove or make any alteration in any drainpipe, urinal, trap, or other fitting communicating

with any sewer unless he shall have previously given the Clerk three days' notice in writing of his intention to do so. Such notice to be given on Form B in Schedule hereto.

13. No person shall do any plumbing-work in connection with the drainage of any property unless he shall have been licensed by the Board as an "authorised plumber," and shall have engaged to conform to and comply with these regulations.

14. No person shall lay any drains, or remove or alter or make any connection with the drains of any property, unless he shall have been licensed by the Board as an "authorised drain layer and connector," shall have obtained the necessary permit, and shall have engaged to conform to and comply with these regulations.

15. The Clerk shall keep a register of all licenses of drain-connectors and plumbers issued under this by-law, and any such license may be revoked by the Board.

The licensed plumbers or drain-connectors employed on any work shall carry their licenses with them, and shall produce the same when required to do so by the person for whom the work is being performed, or by the Inspector.

In the event of any license being defaced, lost, or destroyed, a fresh license may be obtained from the Clerk on payment to him of a fee of one shilling.

All work undertaken by licensed drain-connectors or licensed plumbers under or in connection with this by-law shall be done by them personally, or by some other licensed drain-connector or plumber; but the licensed drain-connector or plumber undertaking the work shall at all times be liable to make good any defects which may arise through the carelessness or incompetence of the person actually performing the work.

Any person making use of a license which does not belong to him, or allowing his license to be used by any one else, shall be guilty of an offence, and, in addition, the license thus improperly used may be cancelled by the Board.

16. It shall not be lawful for any person other than a licensed drain-connector duly licensed under this by-law to execute any of the work hereinafter specified:—

- (a.) To lay any private drain;
- (b.) To alter, reconstruct, extend, repair, open up, or remove any private drain;
- (c.) To connect any private drain with another private drain or sewer;
- (d.) To disconnect any private drain from another private drain or sewer;
- (e.) To affix, repair, or remove any disconnecting-trap or gully-trap or other trap in connection with a private drain.

17. It shall not be lawful for any person other than a licensed plumber, duly licensed under this by-law, to execute any of the works hereinafter specified:—

- (a.) Any work in connection with the laying-on of the water to and the trapping and ventilating of the traps of urinals;
- (b.) The affixing, repairing, or removing of lead and other safes under baths, sinks, and other conveniences;
- (c.) The affixing, repairing, or removal of overflow or waste pipes connected with baths, sinks, and sanitary conveniences or appliances of any description;
- (d.) The affixing, setting-up, repairing, or removal of the ventilation-shafts required under this by-law, and the caps or cowls thereof, and the connection of the said shafts with their disconnection from drains;
- (e.) Any plumbing-work in connection with any sanitary convenience or appliance required to be provided, affixed, or set up by virtue of this part of the by-law.

18. Any and all work connected in any way with the drainage of any premises shall be executed in every respect in accordance with this by-law. All such work shall be inspected by the Inspector, and every facility shall be offered for such inspection. No underground or enclosed work shall on any account be covered up or concealed from view until the same has been duly inspected and passed by the Inspector.

The owner or his authorised agent must give notice in writing to the Clerk when any work is ready for inspection, and such inspection shall be commenced within forty-eight hours of such notification being received at the office of the Board, except when the notice is given on Friday or Saturday, when seventy-two hours' notice must be allowed. The Inspector may apply any fair and good test to prove the thoroughness of the work done. The owner or his authorised agent shall remove or repair any defective material or work when so ordered by the Inspector.

The owner or his authorised agent shall, on the completion of the work, file in the office of the Board a ground-plan of the work done under the permit of the Board issued for the same.

19. Any drain, pipe, trap, urinal, sink, or other fitting

laid, used, or constructed otherwise than in accordance with these regulations, or which shall in the opinion of the Board or the Inspector be or become of bad or defective quality, shall, upon notice in writing from the Board, be removed or repaired in the manner and within the time fixed by the Board; and the Board may, should it think fit, on failure by the person liable to perform such removal or repair, remove or repair the said defective fitting, and charge the owner or occupier of the premises with the cost incurred.

20. The drain outside a house or building shall be constructed of stoneware pipes, unless laid less than 2 ft. deep from surface to top of pipe in places liable to heavy traffic, when it shall be of cast or wrought iron. Heavy cast- or wrought-iron pipes must be used if the ground has been made up, or filled in, or adjoin a cellar.

21. No right-angled junction shall be permitted in any drain. All junctions of pipe drains shall be effected with Y junction-pipes of their respective diameters. Every branch drain shall join a main drain, and a main drain the sewer, obliquely in the direction of its flow.

22. Trenches for the drains shall be dug so as to meet the public sewers at the position of the Y branches indicated by the Board. The material thrown from the trench shall be placed so as not to obstruct, and so as to cause the least inconvenience to the public. Proper barriers and lights must be maintained on the banks of the trench, to guard the public against accident during the progress of the work. In refilling the trench the earth shall be carefully rammed so as to keep the pipe in position and avoid settling. No stone shall be used in refilling until there has been a depth of at least 2 ft. of earth placed over the pipes.

23. As far as possible all pipe-lines shall be perfectly straight. Where changes of direction or grade occur these shall be made by open manholes, or by bend pipes and inspection-openings, as directed by the Inspector.

24. The pipes must be laid with true gradients, the inclination being not flatter than 1 in 40 for 4 in. pipes, 1 in 60 for 6 in. pipes.

25. Pipe-trenches must be carefully cut in the solid ground, and must be evenly graded before the pipes are laid. They shall be of such widths as to allow of the pipes being properly jointed and to permit of thorough inspection.

26. All 4 in. stoneware pipes shall be laid on a bed of concrete composed of one part hydraulic lime and four parts of fine scoria ash. The concrete to extend the full width of trench, be 3 in. in depth below the bottom of pipes, and be brought up on each side to the centre line of pipes. All 6 in. pipes shall be similarly bedded in concrete, but where the grade for 6 in. pipes is steeper than 1 in 10 the concrete shall extend 4 in. below the bottoms of the pipes and be brought up on each side to the centre line of the pipes. All traps in the ground to have at least 4 in. of concrete under them.

27. The ends of all private drains not immediately connected with the plumbing-fixtures, also all access-openings, shall be securely closed with removable, watertight, imperishable materials. If lead pipe, the end must be soldered; if wrought-iron pipe, a plug must be screwed on the end; if cast-iron pipe, a cast-iron plug must be caulked in with lead.

28. Where roots exist their ingress to the pipes must be prevented by surrounding the pipes with 4 in. thick of cement concrete.

29. It shall not be lawful for any person to plant, keep, or continue any tree or scrub on or near any public drain laid or to be laid throughout the district that the Board consider will destroy or damage such public drains; and every owner or occupier of any premises who for seven days after notice from the Board to remove any such tree or scrub shall suffer it to remain shall forfeit, on conviction for such offence, a sum not exceeding forty shillings for every day after such conviction during which such offence shall continue.

30. The diameter of pipes shall mean the internal diameter.

31. All stoneware pipes shall be double-glazed, truly cylindrical, and of uniform bore and thickness. They shall be thoroughly sound, well burnt, and glazed, and free from blisters, scabs, cracks, and other imperfections. Taper pipes shall be used in all cases where different sizes are connected. No bend pipe shall have a smaller radius than 2 ft. at centre line.

32. All drainpipes are to be at least 4 in. in diameter unless otherwise ordered by the Board.

33. All cast-iron pipes must be sound, free from holes or cracks, and coated with tar or asphaltum. The following weights of cast-iron pipes will be accepted as standards: 4 in. diameter, 13 lb. per lineal foot; 5 in. diameter, 17 lb. per lineal foot; 6 in. diameter, 20 lb. per lineal foot.

34. All wrought-iron pipes must be of approved standard and quality, and galvanised or coated to the satisfaction of the Inspector.

35. All fittings used in connection with such pipes shall correspond with them in weight and quality.

36. Where lead pipe is used for waste or vent pipes such pipes must not be lighter than of 6lb. lead, but where in the opinion of the Board a heavier weight may be required, its instructions shall be complied with. Lead pipes must be seamless.

37. The arrangement of waste-pipes must be as direct as possible. The following are the minimum sizes of waste and vent pipes and weights of lead to be used throughout, unless otherwise specially ordered by the Inspector :—

Fitting.	Diameter of Waste-pipe.	Minimum Weight of Lead Waste-pipe.	Diameter of Vent-pipe.	Minimum Weight of Lead Vent-pipe.
	Inches.	lb.	Inches.	lb.
One wash-basin ..	1½ to 1¾	6	1½	6
Row of wash-basins ..	1½ to 2	6	1½ to 1¾	6
Wash-basin overflow ..	1½ to 1¾	6
One bath ..	1½ to 2	6	1½	6
Combined waste for baths	2 to 3	6	2	6
Bath overflow ..	1½ to 2	6
Wash-tub ..	1½ to 2	6	1½	6
Set of tubs ..	2	6	1½	6
Kitchen-sink ..	1½ to 2	6	1½	6
Pantry-sink ..	1½ to 2	6	1½	6
Slop-sink ..	2½ to 3	7	1½ to 2½	7
One urinal ..	1½ to 1¾	7	1½ to 1¾	7
Row of urinals ..	1½ to 2	7	1½	7

38. Vent-pipes shall not be less than two-thirds the diameter of the waste they ventilate, and no vent-pipe is to be less than the sizes given above.

39. External vent-pipes and waste-pipes of galvanised iron shall not be less than 26-gauge.

40. Stoneware pipes shall be jointed with freshly mixed mortar, composed of one part of Portland cement and two parts of clean, sharp, coarse sand. The spigot end of pipe shall be right home in the socket, and the faucet space shall be concentric and thoroughly well filled with fresh mortar. After a joint is made a scraper must be used to remove from the inside any mortar that may have squeezed in, and the joint be left perfectly even.

41. All joints in cast-iron pipes must be so filled with gasket and lead as to make them perfectly gastight. Joints between lead and cast-iron to be made in a similar manner, the lead pipe being first provided at end with a brass sleeve or ferrule of similar diameter attached by a wiped joint. All lead to lead joints to be wiped-soldered. Joints with white-lead to be used for wrought-iron.

42. As far as possible no drainpipe shall pass beneath any building; where, however, this is unavoidable the pipe must be of cast-iron, lead-jointed, or if of stoneware the pipe must be bedded in and surrounded with good cement concrete 4 in. in thickness. In every such case the pipe shall be properly ventilated by a suitable shaft or opening at each end.

43. A boundary or disconnector trap shall be placed in the line of every house-drain over 10 ft. in length, at a point on the sewer side of the first branch drain, at or as near as possible to the boundary of the premises. Such trap shall be of stoneware of approved pattern and quality. (The pattern known as the Buchan trap is admissible.) Such trap shall have, situated on the side furthest from the sewer, an air-inlet, which shall be carried up to surface of ground and fitted with an iron grating.

44. Every drainpipe constructed so as to be capable of carrying off water or any liquid from any private premises in the district, and connecting with any main sewer or public pipe drain in the said district, shall have proper and efficient, and at all times well and sufficiently repaired, stench-traps, with properly and efficiently constructed watertight receiving-pits or basins above attached, of earthenware, stone concrete, brickwork, or metal, to the satisfaction of the Board.

45. Every owner or occupier of any such private premises the pipe drain from which shall connect with any main sewer or public pipe drain and shall be without such appliances shall, after receipt of a note in writing from the said Board, or any officer thereof, so to do, and within the time specified, provide, and properly and efficiently construct, such stench-trap, with watertight receiving-pits or basins as aforesaid, to the satisfaction of the said officer; and in the case of stench-traps, receiving-pits, or basins out of repair, after receipt of a like notice, well and sufficiently repair the same within the time specified in such notice to the satisfaction of the said officer.

46. Traps of three classes may be used, viz. :—

(a.) Traps for intercepting gases only, to be of round section and self-cleansing form, but not so easy as to empty by momentum or suction.

(b.) Silt-traps, for intercepting both gases and solids, to have slightly tapered sides, flat bottoms, and rounded, not sharp, angles, and provided with trays fitted with handles for catching or removing solids.

(c.) "Grease-traps," for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, must be of such form as may be approved by the Inspector.

47. The term "gully" will be applied to traps (a) and (b) in cases where they are to be used externally and fitted with dished tops and gratings. In such cases the dish must be in one piece with the trap, or jointed thereto, spigot and faucet, and the depth of the dish from the top of the grating must not be less than half the diameter of the pipe, and the grating must be removable.

48. The term "disconnector" will be applied to the traps in cases where provision has to be made for inlet ventilation for the pipe or pipes discharging therein.

49. All traps must have a water-seal of at least half the diameter of the outlet-pipe, but in no case less than 2½ in.

50. Every urinal, lavatory, slop-sink, kitchen-sink, bath, and every tub, or sets of tubs, having more than 10 ft. of waste must be separately trapped by an approved trap placed on the waste-pipe as close to fixture as possible. The trap must be of equal bore with the waste-pipe, and be provided with an access-cap for inspection.

51. Sinks in all butchers' shops, hotels, restaurants, and boardinghouses, or wherever ordered by the Board, shall be provided with suitable approved grease-traps. Wash-rooms for carriages, carts, &c., must have silt-traps provided, with proper means of intercepting mud, grit, &c.

52. Stables, cab-stands, &c., and paved back-yards, for which drainage permits have been granted, must be provided with suitable approved silt-traps.

53. In no case shall traps known as D traps or Bell traps be used.

54. All lead traps shall be drawn or worked.

55. In all cases where houses are provided with water-closets, or where the drain-connection to sewer exceeds 40 ft., at the highest point of the drain a ventilation-shaft shall be furnished, having a diameter of 4 in., or the soil-pipe may be carried up full width as air-shaft. No part of such shaft shall be placed inside any building. Such shaft shall be carried to a height not less than 4 ft. vertically above high eave in respect of which such disconnector trap is made. A cap or cowl of an approved pattern shall be fixed on the top thereof. No connection other than with the drain shall be made to any main ventilation shaft. Where underground, every such ventilation-shaft shall be of stoneware drainpipes laid in a workmanlike and efficient manner and to the satisfaction of the Inspector, or of cast-iron pipe with lead or rust joints. To a height of 6 ft. above the surface of the ground the shaft shall be of cast-iron not less than 5/16 in. in thickness, similarly jointed, or of screwed wrought-iron piping; thence to its outlet it may be made of cast-iron, screwed wrought-iron pipe, 6 lb. lead or galvanised iron of not less than 24 B.W.G. The connection between the stoneware and the vertical pipe shall be made with cement, which, together with all other joints, shall be perfectly airtight. If galvanised iron is used, the pipes shall be made with double-lapped and soldered longitudinal joints in long lengths, and the transverse joints shall be not less than 2 in. in length, slipped or socketed and soldered. The connection between the galvanised-iron pipe and the cast-iron portion of the shaft shall be of lead run in and caulked, the portion of the galvanised-iron pipe inside the socket of the cast-iron pipe being strengthened by a galvanised-iron band, 3 in. wide, of 20 B.W.G. soldered to it. Putty shall not, under any circumstances, be used for jointing any ventilation-pipes. No angular joints or elbows shall be used below the eaves level. This shaft shall be properly constructed and supported, and carried in as direct a manner as possible.

56. If after a ventilation-shaft shall have been erected the same shall, by reason of the erection of any new building or buildings, or the addition to or alteration of any building (including any building in respect whereof such shaft may have been furnished), or by reason of any other matter or thing, become or be in a position, or in any other respect, not in accordance with the foregoing section, it shall be lawful for the Board, by notice in writing signed by the Clerk, to require the owner of the premises upon which such shaft shall be erected to do within a stated time any reasonable act or things, to be specified or indicated in such notice, so as to cause such shaft to be in accordance with the said foregoing section, or with any of the provisions of such section that may be referred to in that behalf in such notice; or by like notice to require such owner, within a stated time, to remove or effectually stop up such shaft, and to remove or

alter the position of the disconnecting-trap, in such manner and subject to such stipulations as may be set out in such notice. The Board may from time to time renew any notice given under this section.

57. Disconnected bath, sink, and lavatory vents need not extend more than 3 ft. above the eaves unless otherwise ordered by the Inspector. Every vent-pipe must be of undiminished size, without return bend, with educt or induct cowls approved by the Inspector, and it must not open near a window, a chimney, nor an air-shaft which ventilates a living-room.

58. All vent-pipes in an extension of a main building must be extended to such a height as may be deemed necessary by the Board, above the roof of the main building, when otherwise they would open within 30 ft. of the windows of the main house or of the adjoining house.

59. Branch drains need not be ventilated if the gully-traps are less than 15 ft. from the main house-drain, or unless ordered by the Board.

60. Traps subject to siphonage must have the waste-pipe leading therefrom vented by a special pipe taken from such a position that its entrance will not be fouled by the discharge of the traps. The vents must be not less than two-thirds of the diameter of the pipe they ventilate.

61. Vent-pipes must be of cast-iron, wrought-iron, or lead inside a building; dipped and folded galvanised iron may be used where they are entirely outside a building; and all shall be connected with the traps they ventilate by brass or lead ferrules, or other joints approved by the Inspector.

62. The various vent-pipes may be branched into a waste-pipe of the same class above the inlet from the highest fixture. They may be combined by branching together those which serve several traps of the same class. These vents must always have a continuous slope, and be as nearly vertical as possible, to avoid collecting water by condensation.

63. No vent-pipe shall be used as a waste-pipe. Rain-water-pipes shall not be used as ventilators. As far as possible all vent-pipes shall be placed outside buildings. No brick, earthenware, or house-chimney flue shall be used as a sewer-ventilator, nor to ventilate any drain or waste-pipe.

64. All inlets to drains or openings for ventilation shall be efficiently protected by proper gratings of ample area. The aggregate area of the apertures in any grating covering a ventilation-opening shall be not less than the sectional area of the pipe or drain to which such grating is fitted.

65. All bath, lavatory, sink, wash-tub, or other waste-pipes shall discharge into the open air, either directly over a trapped gully, at a height of not less than 6 in. nor more than 12 in. above the grating thereof, or over (and at a height of 3 in. above) a watertight channel led to a gully-trap and not being distant therefrom more than 6 ft. The effective area of the intake shall not be less than that of the pipe.

66. Where a safe is provided under any bath, sink, or other convenience it shall be provided with an overflow-pipe of lead not less than 1½ in. in diameter discharging into the open air through the nearest external wall.

67. Wastes from disconnected fittings (except urinals and slop-sinks) need not be ventilated unless they exceed 12 ft. inclined or 18 ft. vertical in length, and branch wastes to such fittings if connected to a ventilated main waste may be 12 ft. in length without being ventilated, unless siphonage occurs in a trap, in which case air must be supplied to the waste of that trap.

68. Waste-pipes must have an approved fall, be as free from bends and as short as possible.

69. Separate internal wastes shall be provided for each of the following classes of polluted waters, viz. :—

- (1.) Dirty water from baths, pantry and china-closet sinks, lavatories, and wash-troughs, and other waters with a small proportion of soap and dirt.
- (2.) Greasy water from kitchen and scullery sinks where grease-traps are required.
- (3.) Sludge-water from factories, stables, cow-houses, cab-stands, and other specially polluted surfaces for which consent has been granted by the Board.
- (4.) Discharge from housemaid-slop sinks, public or private urinals.

70. A main waste-pipe into which lavatories, baths, or kitchen-sinks discharge must be at least 2 in. in diameter, with at least 1½ in. branches, except for single lavatories and urinals, which may be 1½ in.

71. Wastes in outhouses entirely disconnected from living-rooms and kitchens may be of 22-gauge galvanised iron for baths and wash-troughs.

72. No steam-exhaust blow-off or drip-pipe shall be connected with a drain or sewer, or with any soil or waste pipe connected with any drain or sewer.

73. No waste liquids or refuse products of any manufacturing process shall be admitted into any sewer without the express sanction of the Board having been first obtained in writing under the hand of the Inspector, and such waste

liquids or products shall, if necessary, be first passed through strainers of approved construction to prevent the passage of any solid matters other than sewage into the sewers.

Hot liquid shall not be allowed to flow directly into the sewers, but shall be retained in properly constructed and approved cooling-tanks until the temperature is reduced to below 100° Fahr.

The Board may attach any conditions it thinks fit to any such sanction, and breach or non-observance of any such conditions shall be deemed an offence. The Board may at any time, and of its own motion, revoke any such sanction by writing, under the hand of the Inspector, delivered at the premises where the manufacturing process is carried on.

74. The entrance to exit-pipes from all fixtures shall be furnished with suitable fixed strainers. The perforations in strainers must be small, but sufficient in number to enable a good scour of the waste-pipes.

75. Internal basin urinals must be small and of non-absorbent materials; the waste-pipe shall be of pottery-ware, lead, or glass-enamelled cast iron. The urinal must be provided with an approved flushing-apparatus. The floor under urinals must be covered with non-absorbent material.

In hotels and other public places enamelled slate or other approved water-troughs shall be provided, either raised above the floor or sunk in an impervious floor, and kept full of flowing water by some approved apparatus. The walls behind and screens between urinals must be of non-absorbent material. The screens must be free from the floor for a portion of the width of divisions.

76. The waste-pipe from a slop-sink must be of lead or glass-enamelled cast iron, and be carried independently out to the open air, with a quick fall, and into a full-bore ventilated 2½ in. downpipe to the ground, where a gully-trap or disconnecter trap must take the waste to the drain. The trap or waste-pipe must be well opened out to receive the sink-basin, and trap must be fitted out with a 1½ in. vent-pipe. The sink must be of approved material. Draw-off taps must not be used directly over slop-sinks unless at least 2 ft. above the sink. Approved flushing-arrangements must be used.

77. Every drain shall be so arranged as to be self-cleansing, in order that it may remain at all times free from deposit. Where this cannot be effected without flushing, proper flushing-apparatus shall be provided in the manner directed by the Inspector.

78. Rain-water from roofs shall not communicate directly with any drainpipe, but must discharge over an open gully provided with proper trap and ventilator, or into an open channel leading to such trap and ventilator.

Without special consent of the Board rainwater-conductors must not be connected with sewers. All stables, dairies, paved yards, cab-stands, or other places for which the Board may from time to time grant consent to be connected with the sewers or drains must be properly graded, cemented, tar-paved, flagged, or well paved, and properly drained, and must be trapped with an approved gully-trap.

79. No pipe leading from the district water-mains or from any service-pipes connected therewith shall on any pretext whatever be connected directly with any urinal, trap, drain or sewer; where water-supply is required, the water-pipe must in all cases deliver with a free outfall into an open cistern above the highest water level of such cistern.

80. All openings for ventilation made in accordance with these regulations or by order of the Inspector shall at all times be kept open and free from obstruction. Every occupier shall at all times see that all openings to the drains on his premises, whether for ventilation or otherwise, and all traps and other fittings, are at all times in good order, clean, and free from obstruction.

81. No person shall interfere with, break up, or remove any gully, ventilation-shaft, manhole, lamp-hole, or any part of the sewerage or drainage system without the Board's permission, or throw or deposit in any drain or sewer, or any drain or sewer accessory, any garbage, offal, dead animals, vegetable-parings, ashes, cinders, rags, or any other matter or thing which may injuriously affect the sewers.

82. It shall be the duty of the owner of any premises in which any water-closet, urinal, drain, trap, sink, gully, waste-pipe, ventilation-shaft, or other sanitary appliances are erected to keep the same and all appliances connected therewith in good and substantial repair, and good and efficient working-order; and it shall be the duty of the occupier of any such premises to keep all such things as aforesaid clean and (same as to ventilation-shafts) properly flushed with water, and if and when necessary to effectually disinfect the same; and when any drains are opened up, either on private ground or in public streets, proper disinfectants shall be used, or caused to be used, by the person causing such drains to be so opened up.

83. The ground underlying every building shall be so formed and graded that no water can lodge thereon or under any part of such building.

84. Any footpath, road, channel, kerb, or other property

under the control of the Board cut or opened up, or removed, by a drain-layer must be repaired and put into a thoroughly satisfactory condition without delay, otherwise the work will be done by the Board, and the drain-layer will be charged with the expense, together with an additional 10 per cent. on the cost.

85. All drainage-work must be carried out expeditiously, and with as little inconvenience to traffic as possible.

86. Every privy not being a water-closet shall at all times be provided with a proper seat and with a proper receptacle or pan approved by the Board. In the case of all new receptacles, or of defective receptacles at present in use, the owner or agent shall provide a watertight iron pan of the pattern approved by the Board. The flooring of privies shall be raised at least 3 in. off the ground, and the space below the seat shall be floored in such manner and raised to such height as to enable the pan to fit in below the seat, and to allow of cleansing. Each privy shall be provided by the occupier of the premises on which such privy is erected with a box supplied with dry earth, ashes, or other deodoriser. Where an automatic apparatus to a dry-earth closet is used, the said apparatus shall be kept at all times by such occupier in thorough working-order.

87. The occupier of the premises on which any privy is situated shall keep such privy, building, and appurtenances in a good state of repair, and in thoroughly clean and sanitary condition, to the satisfaction of the Board or the Inspector of Nuisances. Where premises are unoccupied, the owner shall be in all cases liable and responsible for the repair and cleanliness of the closet, building, and appurtenances.

88. No nightsoil shall be buried within the district, unless under special permit of the Board.

- (1.) No person shall permit or suffer any nightsoil or refuse, or any offensive rubbish or matter of any kind whatever, to accumulate or remain or to be in such premises so as to be injurious or dangerous to health;
- (2.) Or permit or suffer the contents of any earth-closet or privy, or any receptacle for refuse or offensive rubbish or matter of any kind whatever, to fall or soak therefrom so as to be injurious or dangerous to health.
- (3.) Every privy or closet shall be so placed as not to be an offence or a nuisance to any adjoining premises or public thoroughfare, and the entrance thereto shall be screened. No privy or closet shall be permitted to be erected at a less distance than 15 ft. from any house or building used as a dwelling, or from any road, street, or footpath. The owner or occupier of the premises upon which any privy or closet shall be in contravention of this section shall be liable to a penalty.

89. No person shall throw any nightsoil, carrion, or offensive matter, or any animal (with the intention of drowning it), into any stream, watercourse, or open drain.

90. The occupier of any land on which is erected any stable, cow-yard, cattle-shed, or on which land is erected any building wherein any horse or other beast of draught or burden or any cattle are kept, shall cause such premises to be kept in such a state in respect of cleanliness as not to be a nuisance or injurious to health, and shall cause all soil, dung, or other manure produced or accumulated therein to be removed once at least in every week.

91. No horses, cattle, or sheep shall be buried in the district.

92. No person shall throw or leave any dead animal on any street or public place, or on any private property.

93. No swine or goats shall be kept within the district.

94. No poultry, horse, mule, ox, cow, dog, or other animal shall be kept in any part of the district except in properly constructed houses, or in suitably enclosed runs, and no such houses shall be built less than 10 ft. from any dwelling, or from any public or private street or public place. All such houses, and all buildings, outhouses, and yards, shall be kept by the owner, occupier, or agent so as not to be a nuisance or injurious to health.

95. It shall be lawful for the Inspector of Nuisances, at any time between the hours of 8 a.m. and 6 p.m., on any day except Sunday, to enter into and inspect any land or building for the purpose of ascertaining whether such premises, or any water-closet, privy, urinal, drain, bath, sink, lavatory, overflow or waste pipe, receptacle, or other sanitary appliance or thing contained therein, complies with this by-law, or whether any breach of this part of the by-law has been committed in any respect whatever; and every person who shall wilfully obstruct or hinder the Inspector in the exercise of such powers shall be guilty of an offence.

It shall be lawful for the Inspector to dig up and open any part of the ground, or remove any part of any building on such premises, for the purpose of examining any drain, or pipe, or trap, or other appliance: Provided always that the person inspecting as aforesaid shall not dig up or open any ground,

or remove any part of any building as aforesaid, without having given to the occupier of the said premises, or the owner thereof, or his agent, at least twelve hours' previous notice of his intention in that behalf; nor in any case unless such Inspector shall have reason to suspect that some nuisance exists upon the premises in question, or on any premises in the vicinity thereof, and he shall not have been able to discover the cause of such nuisance upon an ordinary inspection of such premises; nor unless he shall have reason to believe that the drain, or pipe, or trap, or other appliance he desires to inspect exist under, or behind, or in the immediate vicinity of the ground or part of building intended to be interfered with as aforesaid, and is probably defective, and also the probable cause of the nuisance existing, or suspected to exist, upon the said premises, or on any premises in the vicinity thereof: Provided also that in digging up and opening such ground, or removing such part of building as aforesaid, as little ground or as small a part of the building as reasonably can be shall be dug up, or opened, or removed (as the case may be), and as little damage done to the premises as can be; and, unless some defect or nuisance shall be found requiring attention, such ground or building shall forthwith be reinstated in a good and workmanlike manner by or at the expense of the Board.

96. No new house may be erected which shall not have along its whole frontage an open space measuring at least 30 ft. to the boundary of any land or premises opposite, or to the opposite side of the street; and an open space at the back free from any erection thereon above the ground-level, except a privy or ashpit, such space to belong exclusively to such house and extend the whole width of the house, and be at least 15 ft. in depth from the back wall of the house, and be at least 200 square feet in area.

97. No person shall tether or otherwise put or place any horse, ass, mule, ox, or goat, or any other cattle, for the purpose of depasturing or grazing the same in or upon any street or road, whether public or private, within the district.

98. If any horse, ass, mule, ox, or goat, or any other cattle, shall be at large and without proper guidance in or upon any street, road, or public place in the district, the owner thereof shall be guilty of an offence.

99. No person shall take or allow any horse or cattle to be upon any footpath.

100. No person shall sweep or throw, or allow to be swept or thrown, any dust, dirt, or rubbish into or upon any street, footway, channel, or public place whatsoever.

101. No person shall permit or suffer any nightsoil or refuse, or any offensive rubbish or matter of any kind, to accumulate or remain or be in any premises in his occupation so as to be injurious or dangerous to health.

102. No person shall use, drive, or conduct any velocipede, bicycle, tricycle, or similar carriage or vehicle of any description on or upon any footway or footpath within the district.

103. Every velocipede, bicycle, tricycle, or similar carriage used in any street, private street, or public place after sunset shall carry a light in a conspicuous place in the front thereof, and shall also at all times carry an alarm-bell, and the rider thereof shall, if there be any possibility of collision, ring such bell when meeting or approaching any vehicle, or any person, whether on foot or on horseback.

104. Every person who shall do or cause to be done, or permit or allow, anything whereby a nuisance of any kind not hereinbefore mentioned or prohibited by any Act or any by-law of the district for the time being in force shall exist shall be guilty of an offence.

105. Every owner or occupier of a building within the district built fronting the street shall provide a spouting and down-pipe, which shall be connected with a water-channel, drain, or sewer.

106. Any owner or occupier of any land or building from which any water shall flow or drip on or over a footpath shall be liable to a penalty.

107. All notices under this by-law shall be deemed duly served if given to the person for whom they are intended personally, or if sent to him through the post, addressed to or left for him at his usual or last known place of abode or business in the district, or if affixed to any part of any premises to which such notice may relate.

108. If any person fails or refuses to do anything required by these by-laws to be done, observed, or performed, or in any manner obstructs, impedes, or interferes with the doing anything enjoined or required to be done, or does anything prohibited by these by-laws, every such person in any case so offending shall be liable to a penalty not exceeding five pounds.

The following acts are prohibited:—

109. Leading or riding any horse or other animal, or drawing, wheeling, or driving any cart, carriage, sledge, truck, barrow, or other thing, upon or along any footpath without permission from the Arch Hill Road Board so to do.

110. Burning any shavings, straw, or other materials or

matter upon any footpath, channel, surface drain, or carriage-road without such permission as aforesaid.

111. Drawing or trailing any sledge, timber, or other material upon any footpath or carriage-road to the injury of such footpath or carriage-road.

112. No person who contracts for the removal of nightsoil shall empty any privy, or load, carry, remove, or deposit any nightsoil offal, or other offensive refuse, save within the hours of 10 p.m. and 4 o'clock a.m.

113. Leaving any inflammable materials or matter in any public street or place, or on any open space near any building, without such permission as aforesaid.

114. Throwing or discharging any stone or other missile to the damage or danger of person or property.

115. Blasting any rock, stone, or timber in or near any public place without permission of the Arch Hill Road Board.

116. Furiously or negligently riding or driving through any public place, street, or thoroughfare.

117. Riding or driving around the corner of any street at a faster pace than a walk.

118. Any driver of any vehicle leaving the same unattended in any public thoroughfare without passing through the near wheel or wheels a suitable chain or chains so as effectually to prevent the rotation of the said wheel or wheels.

119. Any person placing an obstruction upon any street-line whereby life or limb is likely to be endangered.

120. Any person leaving upon any public street or thoroughfare any plough, harrow, cart, or other vehicle without any horse or animal harnessed thereto, unless in consequence of some accident having occurred.

121. Any person slaughtering or skinning any beast upon any public street or thoroughfare, or permitting any slaughtered beast or skin to remain there, or leaving any dead beast on such street or thoroughfare.

122. Keeping any disreputable house or house of ill-fame, or having the control, conduct, or management of the same, or being a reputed occupier or an inmate of any such house.

Result of Poll for Proposed Loan, Heathcote Road Board.

The Treasury,
Wellington, 14th July, 1902.

THE following notice, received from the Chairman of the Heathcote Road Board, is published in accordance with the provisions of "The Local Bodies' Loans Act, 1901."

J. G. WARD,
Acting Colonial Treasurer.

HEATHCOTE ROAD BOARD.

Notice pursuant to the Provisions of "The Local Bodies' Loans Act, 1901."

PURSUANT to the provisions of "The Local Bodies' Loans Act, 1901," I hereby give notice that a poll of the ratepayers in respect of the properties comprised in the undermentioned wards in the Heathcote Road District, to decide by vote of the ratepayers whether the proposals for raising a special loan of £16,000 for a period of forty-one years, with interest and sinking fund payable at the rate of £3 10s. per centum per annum, notice of which was published in the *Lyttelton Times* of the 13th, 20th, and 27th days of May, 1902, and the 3rd day of June, 1902, should be carried into effect, was duly taken at the offices of the Heathcote Road Board, Ferry Road, Woolston, for the ratepayers of the Opawa, Hillsborough, St. Martin's, Bromley, and Avon Wards respectively, and at the Wesleyan School-room, Heathcote Valley, for the ratepayers of the Valley Ward of the said district, on Thursday, the 19th day of June, 1902, between the hours of 9 of the clock in the forenoon and 6 of the clock in the afternoon of the said day. And I hereby give further notice that at the taking of the said poll the votes of the said ratepayers in the several wards of the said district were given as stated in the Schedule hereunder written.

THE SCHEDULE ABOVE REFERRED TO.		
Name of Ward.	Number of Valid Votes recorded in Favour of the Proposal.	Number of Valid Votes recorded against the Proposal.
Opawa	68	8
Hillsborough	30	8
St. Martin's	28	22
Bromley	27	0
Avon	37	5
Valley	35	11

The total number of valid votes recorded at the said poll in favour of the said proposals in the Opawa, Hillsborough, Bromley, Valley, and Avon Wards of the said district respectively exceeds three-fifths of the total number of valid votes recorded thereat in each of such wards respectively. I therefore declare the said proposals carried in such wards respectively.

The total number of valid votes recorded at the said poll in favour of the said proposals in the St. Martin's Ward of

the said district does not exceed [three-fifths of the total number of valid votes recorded thereat in the said St. Martin's Ward. I therefore declare the said proposals rejected in the said St. Martin's Ward.

Dated this 20th day of June, 1902.

GILBERT HAMILTON MCHAFFIE,
Chairman of the Heathcote Road Board.

Bonus for Treatment of Auriferous Black Sand.

Mines Department,
Wellington, N.Z., 14th November, 1901.

NOTICE is hereby given that a bonus of £2,000 will be paid to any person who, before the 1st January, 1904, shall invent such appliances as will successfully save gold from black sands in New Zealand.

The bonus will be paid on compliance with the following conditions:—

1. The invention shall, in its main features, differ from all machinery and appliances at present in use for the saving of gold, whether coarse or fine.

2. It shall be readily transportable from place to place, and shall be capable of utilising local water for all its requirements.

3. The invention must be capable of treating not less than 30 cubic yards an hour of black sand or any coarser material up to a diameter of 4 in.; and it must be capable of treating such material profitably where there is not more than a value, in gold, of 3d. per cubic yard; not less than 80 per cent. of the gold contained in the material to be recovered by the machine.

4. No bonus to be paid until the invention has been continuously worked for not less than six months, and it shall, during that period, have treated not less than 100,000 cubic yards of material, working three shifts a day.

5. The bonus will be paid on the certificate of an officer that not less than twenty persons other than the applicant for the bonus are successfully working the invention.

6. Any person who receives the bonus shall not be allowed to take out patent rights in New Zealand for his invention.

JAS. MCGOWAN,
Minister of Mines.

Bonus for the Production of Quicksilver.

Mines Office,
Wellington, 7th June, 1900.

NOTICE is hereby given that a bonus of fourpence (4d.) per pound will be paid on the production of the first one hundred thousand pounds weight (100,000 lb.) of good marketable retorted quicksilver, free from all impurities, from any mine in New Zealand, on the following conditions, that is to say:—

1. That at least one-third of the quantity is produced on or before the 31st March, 1903, and the remaining two-thirds on or before the 31st March, 1904.

2. No bonus will be payable until the whole of the one hundred thousand pounds (100,000 lb.) of quicksilver has been produced as stipulated to the satisfaction of an officer to be appointed by the Minister of Mines, and on whose certificate alone the bonus will be paid.

3. In the event of more than one person producing the required quantities of quicksilver before the dates named, inquiry will be made by the officer above referred to, when, if it is found that each applicant is equally entitled to a bonus, the amount will be divided in proportion to the quantities produced by each applicant, but in no case shall any bonus be paid until at least one hundred thousand pounds (100,000 lb.) of quicksilver has been produced in the aggregate.

JAS. MCGOWAN,
Minister of Mines.

Bonus for Plans for Cowshed.—Notice No. 703.

Department of Agriculture,
Wellington, 21st May, 1902.

IT is hereby notified that a first prize of twenty guineas and a second prize of ten guineas are offered by the Department for the best plan, with complete specification, of a cowshed suitable to house fifty cows, with fodder-sheds and dairy; also a first prize of seven guineas and a second prize of three guineas for the best plan and specification of a silo for the same number of cows: all plans and specifications, whether awarded a prize or not, to become the property of the Government.

Packages containing plans and specifications entered for these competitions should be addressed to the Secretary for

Agriculture, Wellington, and marked outside "Cowshed Competition" or "Silo Competition," as the case may be, and forwarded so as to reach him by the 31st August, 1902.

The plans must be signed with a *nom de plume*, and must bear no indication as to the competitor's name; the competitor's signature and *nom de plume* must, however, be forwarded in a sealed envelope in the same package with the plans.

T. Y. DUNCAN,
Minister for Agriculture.

Education Board Election.

THE following persons have been re-elected unopposed to fill the three vacancies on the Grey Education Board:—

JOHN BYRNE,
JEREMIAH MCCARTHY, and
JOSEPH PETRIE.

W. RIEMENSCHNEIDER,
Secretary.

Education Board Office,
Greymouth, 9th July, 1902.

Education Board Election.

MESSRS. THOMAS JOHN BAIGENT, WILLIAM NORRIS FRANKLYN, and ANDREW THOMAS MAGNINITY being the only candidates nominated, I hereby declare them duly re-elected members of the Education Board of the District of Nelson.

Education Office, Nelson,

"The Industrial Conciliation and Arbitration Amendment Act, 1901."—Notice of Cancellation of Registry.

Department of Labour,
Wellington, 17th July, 1902.

NOTICE is hereby given that, pursuant to and in exercise of the powers in this behalf conferred upon me by section 20 of "The Industrial Conciliation and Arbitration Amendment Act, 1901," the registration of the Wellington Coopers and Boxmakers' Industrial Union of Workers, registered No. 209, situated at Wellington, will be cancelled at the expiration of six weeks from the date hereof unless within such period it is shown that such union has not ceased to exist.

EDWARD TREGEAR,
Registrar of Industrial Unions.

Election of Members of the South Canterbury Education Board.

Education Office,
Timaru, 8th July, 1902.

IN accordance with the provisions of the Education Acts, 1900 and 1901, it is hereby notified that

WILLIAM BARKER HOWELL, Esq., J.P.,
DANIEL McCASKILL, Esq.,
JOHN CAMPBELL, Esq.,

have been re-elected members of the Education Board of the District of South Canterbury to fill the annual vacancies. There being three vacancies and only three candidates duly nominated, no poll was necessary.

J. H. BAMFIELD,
Returning Officer.

Notice published pursuant to the Provisions of Section 15 of "The Public Trust Office Consolidation Act, 1894."

Public Trust Office,
Wellington, 15th July, 1902.

NOTICE is hereby given that, no person having taken out administration, the Public Trustee has filed in the office of the Supreme Court at Wellington an election to administer the several intestate estates of the persons deceased whose names, residences, and occupations, so far as known, are hereunder respectively set forth, their gross properties being estimated not to exceed £250 in each case.

William Brown, late of Kumeroa, in the Provincial District of Hawke's Bay, blacksmith. Filed on the 12th day of July, 1902.

J. HECTOR, Director.

Meteorological Office, Museum, Wellington, New Zealand.

FURTHER results of the census taken for the 31st March, 1901, as set out in the accompanying tables, relating to the occupations of the people, are published for general information. Details of the occupations belonging to each sub-order make too long a table for publication in the *Gazette*: they will be found in Part VIII. of the census volume now going through the press. Summaries of all particulars obtained at the recent enumeration have now been gazetted.

E. J. von DADELSZEN, Registrar-General.

* In the Professional Class are included persons returned as "Government officers"; but the figures given under this heading do not represent the full number employed by Government, the principle adopted having been to complete other groups where the scheme of classification required it, rather than to show the total number paid by Government. Thus, Postal and Telegraph officers are classified under "Transport and Communication," in Class IV. Railway employees are similarly dealt with. The full statement of persons paid by Government but not included in Order 1 would comprise some or all of the following: Persons connected with charitable or benevolent institutions, hospitals and lunatic asylums, museums, education, life insurance, railways, harbours, lighthouses, post and telegraph and mines, also civil engineers, electricians, surveyors and assistants, architects and draughtsmen, printers and binders in the Government Printing Office, and artisans in Government Railway workshops

Small Grazing-runs, Otago, open for Lease on Application.

District Lands and Survey Office,
Dunedin, 17th June, 1902.

NOTICE is hereby given that the undermentioned small grazing-runs will be open for lease on application, at this office, on Monday, the 11th August, 1902.

In the event of more than one application being received for the same run on the same day, priority of selection will be decided by ballot.

SCHEDULE.
OTAGO LAND DISTRICT.

Section.	Block.	Area.	Rent per Acre.	Half-yearly Rent.
----------	--------	-------	----------------	-------------------

TUAPEKA COUNTY.—GLENKENICH SURVEY DISTRICT.

	A.	R.	P.	s.	d.	£	s.	d.	
10	XII.	1,082	2	29	0	4	9	0	6

This land is of fair quality, but is rather exposed to the south-west winds. It is hilly, well watered, and has a southerly aspect. Valuation for improvements, consisting of house and fencing, £133 17s. 6d.

CLUTHA COUNTY.—KURIWAO SURVEY DISTRICT.

6, 7, 8	IX.	861	3	6	0	6	10	15	6
---------	-----	-----	---	---	---	---	----	----	---

Open, undulating land, with a good aspect; soil somewhat light and sour; contains patches of almost undrainable bog; well watered. Situated on a good road, about eight miles from Clinton Railway-station, and about four miles from a school. Valuation for improvements, £201 3s.

TAIERI COUNTY.—SILVER PEAK SURVEY DISTRICT.

2	IV.	2,331	1	23	0	6	29	2	9
---	-----	-------	---	----	---	---	----	---	---

This run fronts the Taieri River, on the Otago Central Railway, about one mile from Mount Allan Siding. The country is high and rough. It is, however, fair grazing-land, and is well watered. Access is difficult, being obtained by sledge-track from Little Mount Allan Railway-siding. Average elevation is about 1,200 ft. above sea-level. Valuation for improvements, £582 13s. 6d.

D. BARRON,
Commissioner of Crown Lands.

Land in Auckland for Sale by Public Auction.

District Lands and Survey Office,
Auckland, 23rd June, 1902.

IT is hereby notified that the undermentioned land will be submitted for sale by public auction, at this office, on Friday, the 19th day of September, 1902, at 11 a.m.:

Parish Omaha (Rodney County): N.W. pt. Section 156B, containing 1 acre 2 roods 8 perches; total upset price, £23. Level land, on Whangateau Harbour, about one mile from Leigh Post-office.

Terms of sale: One-fifth cash on fall of the hammer, and the balance, with Crown-grant fee, within thirty days thereafter, otherwise the one-fifth paid by way of deposit will be forfeited and the contract for the sale of the land be null and void.

G. MUELLER,
Commissioner of Crown Lands.

Forest Reserve in Auckland for Lease by Public Auction.

District Lands and Survey Office,
Auckland, 28th May, 1902.

IT is hereby notified that a grazing lease, as under, will be submitted for sale by public auction at this office on Friday, the 18th day of July, 1902, at 11 a.m.

SCHEDULE.

PARISH WAIPAREIRA (WAITEMATA COUNTY).

SECTION 184, containing 300 acres, and known as the Forest Reserve, situated two miles from Swanson Railway-station. Upset annual rental, £5.

Terms of lease: Seven years; for grazing purposes only.

The lease will convey no right to fell or remove any live or dead trees or timber, whether standing or lying on the ground.

No compensation for improvements at any time, but lessee may remove all fencing and buildings erected on the land. The lease will be subject to the conditions of section 232 of "The Land Act, 1892."

GERHARD MUELLER,
Commissioner of Crown Lands.

Pastoral Runs, Otago, for Lease by Public Auction.

District Lands and Survey Office,
Dunedin, 17th June, 1902.

NOTICE is hereby given that the undermentioned pastoral runs will be offered for lease by public auction, at the District Lands and Survey Office, Dunedin, on Monday, the 11th day of August, 1902, at 11 o'clock a.m., for the term of fourteen years, at the upset annual rentals stated below.

SCHEDULE.

OTAGO LAND DISTRICT.

SECTIONS 29, Block VII., and 72, Block IV., Table Hill District, Bruce County: Area, 145 acres 1 rood 27 perches; upset annual rental, £7 5s. Rough hilly country, well watered; fair pastoral land; situated about three miles from Round Hill Siding, on the branch railway-line to Lawrence. Possession of this run will be given on the 1st March, 1903.

Run No. 221c, Vincent County: Area, 4,600 acres; upset annual rental, £30. This run is part of what is commonly known as the Clyde Commonage, and is all open undulating land with a good aspect. About 1,000 acres are level, dry, and rather poor land; but the remainder of the run consists of gently rising slopes carrying a very fair sole of grass. The altitude varies from 700 ft. to 2,000 ft. There is water in Waikerikeri Creek, near the eastern boundary, and also in some of the gullies. This run is situated near the Town of Clyde. Possession will be given on day of sale.

Valuations for improvements must be paid to the Receiver of Land Revenue, Dunedin, before the licensees will be let into possession.

The above runs will be sold generally in accordance with the provisions of Part VI. of "The Land Act, 1892."

Purchasers must deposit statutory declarations required by section 62 of "The Land Act, 1892," and pay the first half-year's rent, together with license fee (£1 1s.), on fall of the hammer.

Native Land Court Office, Auckland.

WHEREAS by section 5 of "The Native Land Claims Adjustment and Laws Amendment Act, 1901," the Court is empowered and directed to investigate and decide the claims of certain Natives, descendants of Wetera te Kaua and Katariana, to certain moneys arising out of the sale of Purapura Block, which were advanced by them to pay for the original survey of Opuatia Block, Lower Waikato; and, upon the amount (if any) so found to be due being ascertained, the Court may make an order directing payment thereof by such Natives as shall be found liable to pay the same to the Natives entitled thereto:

And whereas it is provided by the said section that such order may be registered as a survey lien or charging order against the interest of all or any of the owners of the said Opuatia Block who may be found liable to contribute, or may have benefited by such survey; also, that no such order shall affect any portion of the said Opuatia Block already sold and awarded to the Crown, and that any order made as aforesaid shall be final:

Now, therefore, notice is hereby given that the Native Land Court sitting at Mercer, Waikato, will proceed to investigate and decide the said matter on the 22nd day of July, 1902, or as soon thereafter as the business of the Court will allow.

Dated this 3rd day of July, 1902.

THAMES COUNTY COUNCIL.

SPECIAL ORDER.—BY-LAW RE HEAVY TRAFFIC.

THAT the Thames County Council hereby make, by special order, by-laws for the regulation of heavy traffic, under the powers of "The Public Works Act, 1894," and all other Acts enabling in that behalf.

BY-LAW.

In pursuance and exercise of the powers vested in them by "The Public Works Act, 1894," and by every and any other Act enabling them in that behalf, the Chairman, Councillors, and Inhabitants of the County of Thames hereby order as follows:—

In these by-laws, "heavy traffic" shall have the meaning given to those words by section 180 of "The Public Works Act, 1894."

1. No person shall engage in any heavy traffic upon any road within the County of Thames until he shall have applied for and be in possession of a license, obtained from the County Council of Thames as herein provided, authorising him to engage in such heavy traffic.

2. Every application for such license shall be in writing, and shall state the number of carts or timber-wagons intended to be used in such heavy traffic.

3. Every license issued under these by-laws shall specify the number of carts, junkers, or wagons in respect of which such license is issued, and such license may be issued for three, six, or twelve months. The yearly license fee shall be, for every four-wheeled wagon or two-wheeled junker or dray engaged in heavy traffic, £15 per year, £7 10s. per half-year, and £3 15s. for every three months: provided that any wagon, junker, or dray having tires of not less than 9in. in width shall only be charged half the foregoing license fees.

4. Provided that drays drawn by not more than two horses and used by settlers for ordinary traffic, such as cartage of firewood, shall be free and exempt from any such license fees.

5. Heavy traffic, as hereinbefore defined, shall cease during the months of May, June, July, August, and September in every year on all the roads as hereinbefore defined: provided always that it shall be lawful for the County Council of Thames, by advertisement under the hand of the Clerk of the said Council, and published in some newspaper circulating in the County of Thames, from time to time during the said period to exempt any roads, road, or part of a road from the operation of this section for all or any part of such period, and also by any advertisement to make or alter any exemption made by any previous advertisement. Every such advertisement as mentioned in this section shall take effect as part of this by-law. No person shall conduct, or cause or procure to be conducted, any heavy traffic, as hereinbefore defined, on or along any roads, road, or part of a road that shall in terms of this by-law be closed for heavy traffic.

6. Provided that when the roads are closed for heavy traffic the County Council of Thames will refund to the licensees such part of fees paid as shall be in proportion to the time lost by the closing of such road.

7. The person for the time being in charge of any vehicle, engine, or machine proceeding or being upon any road shall, whenever required by any officer of the County Council of Thames, or by any constable, so to do, cause such vehicle, engine, or machine to be and remain stopped for a reasonable and sufficient time for the purpose of enabling such officer or constable to inspect, examine, and measure such vehicle, engine, or machine, and any or every part thereof, and the load being transported thereon; and the person so in charge shall permit such inspection, examination, and measurement to be made accordingly; and no person shall obstruct any such officer or constable in or about making such inspection, examination, or measurement.

8. The owner of any wagons, junkers, or carts engaged in heavy traffic shall cause his name and address to be painted on the off side in plain and distinct lettering. Each cart, or wagon, or junker to be distinguished by a consecutive number or letter.

9. Every person who shall do, or cause to be done, or be concerned in doing, anything contrary to any provision of this by-law, or shall omit anything required to be done by him by any such provision, shall be guilty of an offence against this by-law, and shall for each such offence be liable to a penalty not exceeding £5 sterling, and, where the offence is a continued one, then to a penalty not exceeding £5 sterling for every day, or part of a day, during which such offence shall continue.

10. Any person or corporation engaged in heavy traffic may, in lieu of license fees, enter into an agreement with the County Council of Thames, and make an annual or other payment by way of compensation for any damage likely to occur on any road, bridge, ferry, or ford therefrom; but such person or corporation entering into an agreement with

the County Council of Thames shall give security that no special damage will accrue to any road, bridge, ferry, or ford by reason of such heavy traffic thereon: provided that such security shall be held by the County Council of Thames until the ending of the agreement to the satisfaction of the County Council of Thames.

County Council of Thames Vehicle License.

No. _____ License fee _____
THIS is to certify that _____, pursuant to the provisions of by-law regulating heavy traffic on roads, passed by the County Council of Thames on the _____ day of _____, 1902, numbered _____, of which _____, of _____, is the owner, is hereby licensed to engaged in heavy traffic in flax and timber on the roads under the control of the said Council until the _____ day of _____, 19 _____.

Made by special order passed by the Thames County Council, and confirmed on the 4th day of June, 1902, and given under the seal of the Chairman, Councillors, and Inhabitants of the County of Thames.

Sealed in the presence of—

E. W. HOLLIS, Clerk.

TARANAKI COUNTY COUNCIL.

NOTICE OF INTENTION TO TAKE LANDS.

In the matter of "The Public Works Act, 1894."

NOTICE is hereby given that the Council of the County of Taranaki proposes to take, under the provisions of "The Public Works Act, 1894," the lands described in the Schedule hereto for the purpose of a public work, namely, the widening of part of the county road, known as Devon Road. And notice is hereby further given that a plan showing the lands so required to be taken, together with the names of the owners and occupiers thereof (so far as they can be ascertained), has this day been deposited at the Post-office in the Fitzroy Township, in the Henui Road District, near New Plymouth, and is there open to inspection by all persons at all reasonable hours—that is to say, during the ordinary office hours of the said office. And notice is hereby further given that all persons affected by the execution of the said public work, or by the taking of the said lands, shall, if they have any well-grounded objections thereto respectively, set forth the same in writing, and send such writing within forty days from the first publication of this notice to the said County Council, addressed to the County Clerk, at the office of such Council, situate in Devon Street, New Plymouth.

Schedule.

Firstly, all that parcel of land in the Henui Road District, in the County of Taranaki, containing twenty-three perches and one-tenth of a perch, more or less, being part of Section numbered 92, Fitzroy District, as delineated on the said deposited plan, and coloured red. Secondly, all that parcel of land in the said Henui Road District, containing six perches and four-tenths of a perch, more or less, being part of Clinton Road, part of the said Section numbered 92, Fitzroy District, as delineated on the said deposited plan, and coloured mauve. Thirdly, all those parcels of land in the said Henui Road District, containing together thirteen perches and two-tenths of a perch, more or less, being parts of Subsections 1, 2, and 3 of the said Section numbered 92, Fitzroy District, as delineated on the said deposited plan, and coloured red. Fourthly, all that parcel of land in the said Henui Road District, containing one perch and eight-tenths of a perch, more or less, being part of Native Reserve number 18, Fitzroy District, as delineated on the said deposited plan, and coloured mauve. And fifthly, all that parcel of land in the said Henui Road District, containing two perches and two-tenths of a perch, more or less, being part of Section numbered 53 on the plan of the Fitzroy Township, on part of Native Reserve number 18, Fitzroy District, as delineated on the said deposited plan, and coloured green.

Dated this 8th day of July, 1902.
