WELLINGTON, THURSDAY, FEBRUARY 23, 1905.

Changing the Name of Seaward Moss.

(L.S.) PLUNKET, Governor.
A PROCLAMATION.

WHEREAS under the provisions of "The Designation of Districts Act, 1894," a petition has been presented by settlers in the locality known as "Seaward Moss," in the Southland Land District, praying that the name of such locality may be changed to "Awarua Plains": And whereas the Southland County Council, being the local authority having jurisdiction in that behalf, has by resolution of the said Council, adopted at an ordinary meeting thereof, consented to the name of "Awarua Plains" in lieu of the existing name of "Seaward Moss":

Now, therefore, in pursuance and exercise of the powers and authorities conferred on me by sections two and three of "The Designation of Districts Act, 1894," and of all other powers and authorities enabling me in this behalf, I, William Lee, Baron Plunket, the Governor of the Colony of New Zealand, do hereby proclaim and declare that the name of the locality of Seaward Moss, in the Southland County, shall be and the same is hereby altered to "Awarua Plains," and do assign the last-mentioned name to such locality accordingly; and also do hereby proclaim and declare that this Proclamation shall take effect on and after the thirty-first day of May, one thousand nine hundred and five.

Given under the hand of His Excellency the Right Honourable William Lee, Baron Plunket, Knight Commander of the Royal Victorian Order, Governor and Commander-in-Chief in and over His Majesty's Colony of New Zealand and its Dependencies; and issued under the Seal of the said Colony, at the Government House, at Wellington, this sixth day of October, in the year of our Lord one thousand nine hundred and four.

T. Y. DUNCAN,
Minister of Lands.

GOD SAVE THE KING!

Regulations under "The Government Accident Insurance Act, 1899."

PLUNKET, Governor.

ORDER IN COUNCIL.

At the Government Buildings, at Wellington, this twenty-sixth day of January, 1905.

Present:

THE RIGHT HONOURABLE R. J. SEDDON PRESIDING IN COUNCIL.

WHEREAS by an Order in Council dated the fifth day of June, one thousand nine hundred and one, His Excellency the Governor of the Colony of New Zealand did, in exercise and pursuance of the powers vested in him by the thirty-fourth section of "The Government Accident Insurance Act, 1899" (hereinafter referred to as "the said Act"), make regulations for directing, among other things, the use of tables fixing the rates of premium to be charged in connection with accident insurance contracts, such tables being set forth in the Second Schedule to the said Order in Council: And whereas by an Order in Council dated the fifteenth day of July, one thousand nine hundred and one, the said Second Schedule was revoked in part, and certain other provisions were made in lieu thereof: And whereas it is expedient to revoke the residue of the said Second Schedule, and to make other provisions in lieu thereof:

Now, therefore, His Excellency the Governor of the Colony of New Zealand, in the exercise and pursuance of the powers and authorities vested in him by the said Act, and of all other powers and authorities in this behalf vested in him, and by and with the advice and consent of the Executive Council of the said colony, doth hereby revoke so much of the said Second Schedule as has not been revoked as aforesaid, and in lieu thereof doth hereby order and direct that the rates in the several tables set forth in the Schedule hereto shall be the rates of premium to be used for the purposes of the particular classes of policies referred to in the said tables; and doth hereby order that this present Order in Council shall take effect on and after the first day of March, one thousand nine hundred and five, and shall be read together with the two previously mentioned Orders in Council.

Acting Clerk of the Executive Council.

Removing Restrictions against Alienation of Native Land.

PLUNKET, Governor.

WHEREAS by section fourteen of "The Maori Land Laws Amendment Act, 1903," it is enacted that, notwithstanding anything to the contrary in any Act, or in any Crown grant or other instrument of title, the Governor may, on the recommendation of the Council, remove any restriction on the alienation of land owned by Maoris: Provided that the decision of the Governor on any recommendation of the Council shall be given within six months from the date of the receipt of such recommendation:

And whereas the Aotea District Maori Land Council, by recommendations made and passed by the said Council on the seventeenth day of November, one thousand nine hundred and four, and received on the twenty-fifth day of January, one thousand nine hundred and five, recommended the Governor to vary the restrictions against alienation contained in the instrument of title of the blocks of land particularised and set out in the Schedule hereunder written, so far as to permit the said lands to be leased:

Now, therefore, I, William Lee, Baron Plunket, the Governor of the Colony of New Zealand, in pursuance and exercise of the powers conferred upon and vested in me by the said Act, and of all other powers and authorities me thereunto enabling, and in accordance with the recommendation of the Aotea District Maori Land Council aforesaid, do hereby vary or remove and revoke the restrictions now existing against the alienation of the blocks of land particularised and set out in the Schedule hereto, so far as to permit the said lands to be leased.

SCHEDULE.

ALL those parcels of land, situate in the Provincial District of Wellington, containing respectively 551 acres, 274 acres, and 600 acres, known as Motukawa No. 2a, Section No. 23, Motukawa No. 2b, Section No. 24, and Motukawa No. 2c, Section No. 25, being the lands comprised in orders of the Native Land Court dated respectively the 19th day of June, 1899, and the 7th day of November, 1900, in favour of Toia Ngarangi, and containing the following restriction: "Inalienable."

As witness the hand of His Excellency the Governor, this sixteenth day of February, one thousand nine hundred and five.

J. CARROLL.

Rural Lands in Nelson Land District open for Selection on Lease in Perpetuity.

(L.S.) PLUNKET, Governor.

IN pursuance and exercise of the powers and authorities conferred upon me by section one hundred and thirty-six of "The Land Act, 1892," and section two of "The Bush and Swamp Crown Lands Settlement Act, 1903," I, William Lee, Baron Plunket, the Governor of the Colony of New Zealand, do hereby declare and provide as follows, that is to say,—

1. The rural lands described in the Schedule hereto are hereby set apart for disposal by way of selection on and after the twelfth day of April, one thousand nine hundred and five, at the respective prices specified in the said Schedules.

2. The said lands may be selected on lease in perpetuity only, as provided by section one hundred and twenty-one of "The Land Act, 1892," as they contain, or are supposed to contain, metal, mineral, or valuable stone, and shall not be purchased for cash.

3. For the purposes of "The Bush and Swamp Crown Lands Settlement Act, 1903," the lands enumerated in the First Schedule hereto shall be deemed to be "light-bush land," the lands in the Second Schedule shall be deemed to be "swamp land," and the land in the Third Schedule shall be deemed to be "scrub land."

4. No general rate shall be levied or collected by any local authority from the said lands for the period of three years in the case of light-bush land or swamp land and two years in the case of scrub land, from the date from which in each case respectively such lands are disposed of, and no local authority shall have power to levy or collect any such rate from such lands during such period.

5. After the first half-year's rent has been paid by the selector the further instalments of rent payable by him for a period of three years in the case of light-bush land or swamp land and two years in the case of scrub land shall not be demanded; provided that if at any time during the first five years of his occupancy the selector disposes of his interest in the land the rent so conceded shall be paid by him in full, and thereupon the Land Board may remit such instalments of rent payable by the incoming tenant, not exceeding in the aggregate the amount of rent previously conceded to the selector, as the Board shall think fit.

As witness the hand of His Excellency the Governor, this twentieth day of February, one thousand nine hundred and five.

T. Y. DUNCAN,
Minister of Lands.

Rural Lands in Westland Land District open for Selection on Lease in Perpetuity.

PLUNKET, Governor.

IN pursuance and exercise of the powers and authorities conferred upon me by section one hundred and thirty-six of "The Land Act, 1892," and section two of "The Bush and Swamp Crown Lands Settlement Act, 1903," I, William Lee, Baron Plunket, the Governor of the Colony of New Zealand, do hereby declare and provide as follows, that is to say:—

1. The rural lands enumerated in the Schedule hereto are hereby set apart for disposal by way of selection on and after the twelfth day of April, one thousand nine hundred and five, at the rentals specified in the said Schedule.

2. The said lands may be selected on lease in perpetuity only, as provided by section one hundred and twenty-one of "The Land Act, 1892," as they contain, or are supposed to contain, metal, mineral, or valuable stone, and shall not be purchased for cash.

3. For the purposes of "The Bush and Swamp Crown Lands Settlement Act, 1903," the lands enumerated in the said Schedule hereto shall be deemed to be "heavy-bush land."

4. No general rate shall be levied or collected by any local authority from the said lands for the period of four years from the date from which in each case respectively such lands are disposed of, and no local authority shall have power to levy or collect any such rate from such lands during such period.

5. After the first half-year's rent has been paid by the selector the further instalments of rent payable by him for a period of four years shall not be demanded: provided that if at any time during the first five years of his occupancy the selector disposes of his interest in the land the rent so conceded shall be paid by him in full, and thereupon the Land Board may remit such instalments of rent payable by the incoming tenant, not exceeding in the aggregate the amount of rent previously conceded to the selector, as the Board shall think fit.

SCHEDULE.

Lands permanently reserved.

PLUNKET, Governor.

WHEREAS by the two-hundred-and-thirty-fifth section of "The Land Act, 1892," it is enacted that the Governor may from time to time, either by general or particular description, and whether the same has been surveyed or not, reserve from sale temporarily, notwithstanding that the same may be then held under pastoral license, any Crown lands which in his opinion are required for any of the purposes in the said section mentioned:

And whereas by the two-hundred-and-thirty-sixth section of the said Act it is provided that land temporarily reserved under the said two-hundred-and-thirty-fifth section may, at the expiration of one month but not later than six months after the publication in the *Gazette* of notice of such temporary reservation, be permanently reserved, and that notice of such permanent reservation shall be published in the *Gazette*:

And whereas the lands specified in the first column of the Schedule hereto were, by the Warrants the dates of which are specified in the third column of the said Schedule, and the notifications of which were published in the *Gazette* specified in the fourth column, temporarily reserved under the authority of the said Act for the purposes specified in the second column of the said Schedule:

Now, therefore, I, William Lee, Baron Plunket, the Governor of the Colony of New Zealand, in pursuance and exercise of the power and authority vested in me by the said Act, do hereby permanently reserve the lands so temporarily reserved as aforesaid, and enumerated in the first column of the Schedule hereto, for the purposes specified in the second column of the said Schedule, being the same purposes for which the said lands were so temporarily reserved as aforesaid.

Amending the Description of a Reserve in the Hawke's Bay Land District.

PLUNKET, Governor.

WHEREAS by the two-hundred-and-thirty-ninth section of "The Land Act, 1892," it is enacted that, where there has been any error of description made in any notification of any intended reserve, the Governor may cancel any notification that may have been made in respect of such reserve, and issue fresh notification in respect thereof, with amended particulars and description: And whereas an error was made in the description of Sections Nos. 10 and 11, Suburbs of Tarawera Township, Hawke's Bay Land District, which were wrongly described as Lots Nos. 10 and 11, Tarawera Township, in the Warrant of the twenty-fourth day of March, one thousand eight hundred and eighty, and published in the *New Zealand Gazette* No. 28, of the twenty-fifth day of March, one thousand eight hundred and eighty, reserving the land for telegraph purposes, and it is expedient to cancel the said notification in so far as it relates to Lots Nos. 10 and 11, Tarawera Township aforesaid:

Now, therefore, I, William Lee, Baron Plunket, the Governor of the Colony of New Zealand, do hereby revoke the Warrant of the twenty-fourth day of March, one thousand eight hundred and eighty, in so far as it relates to Lots Nos. 10 and 11, Tarawera Township; and do declare that the land described in the Schedule hereto shall be the land reserved for telegraph purposes intended by the said notification.

SCHEDULE.

ALL that area in the Hawke's Bay Land District, containing by admeasurement 14 acres 1 rood 17 perches, more or less, being Sections Nos. 10 and 11, Suburbs of Tarawera Township. Bounded towards the north by Crown land from the north-east corner of Section No. 9, Suburbs of Tarawera Township, to the right bank of the Waipunga River; towards the east by the right bank of the said river; towards the south by a public road; and towards the west by Section No. 9 aforesaid: as the same is delineated on the plan marked S.G. 53198, deposited in the Head Office, Department of Lands and Survey, at Wellington, in the Wellington Land District, and thereon bordered red. The Corporation of the Borough of Inglewood authorised to erect Electric Lines within the Borough of Inglewood and along a County Road.

IN exercise of the power and authority conferred upon me by "The Electric Lines Act, 1884," I, Joseph George Ward, the Electric Telegraph Commissioner appointed under the said Act, do hereby authorise and license the Mayor, Councillors, and Burgesses of the Borough of Inglewood (hereinafter referred to as "the Corporation") to erect, construct, lay down, and maintain electric lines for lighting and power purposes along the Junction Road between the generating-station, situate on part of Section 38, Moa District, Block I., Huirua Survey District, and abutting on the Ngatoro River, and the Borough of Inglewood, and through the several streets in the said borough, which lines are shown on the plans

marked "A," and "B," deposited in the office of the Superintendent of Electric Lines, and on which plans the electric lines are indicated by red and violet lines, and which are signed by me as such Commissioner as aforesaid, subject to the following conditions, viz. :—

1. The system for the transmission of electrical energy shall be that known as the three-phase three-wire system.
2. Three-phase alternators, star-wound, with stationary armature and revolving field magnets, shall be installed, generating and delivering through the switchboard current at a frequency of 50 complete cycles per second to the transmission-wires at a pressure not exceeding 3,200 volts between any two of the three wires.
3. Each alternator shall be equipped with a separate switchboard panel, on which will be mounted one triple-pole oil break switch, triple-pole fuses, voltmeter, ammeter, exciter shunt regulating resistance, and field regulating resistance.
4. The switchboard shall be polished marble, supported by a substantial iron frame. Connections between the alternators and the switchboard panels shall be made by highly insulated cables, carefully protected against all liability of injury or of interference. The current shall be conveyed from the switchboard through fuses and triple-pole switches to the lines by highly insulated cables, supported on efficient porcelain insulators.
5. The high-tension transmission-line shall extend from the generating-station, situate on Section 38, fronting the Ngatoro River, along the Junction Road, and some distance within the borough. The poles for the transmission-line within the borough shall be spaced at intervals not exceeding 2 chains, and the conductors shall be insulated throughout with not less than 600-megohms-per-mile grade of vulcanised rubber, taped, braided, and compounded.
6. The high-tension transmission-wires shall be run on wooden poles of ironbark or other approved timber, the spans between which, beyond the boundaries of the borough, shall not be of greater length than 200 ft. where the direction of the line is straight, or 150 ft. where the direction is curved or where the line makes a horizontal angle at the point of support. The wires shall be of high-conductivity hard-drawn copper, of a suitable gauge for carrying the current required, and shall not be smaller than No. 8 standard wire gauge.
7. The transmission-wires shall be supported on high-tension triple-shed porcelain insulators, with iron stems fitting into cross-arms of suitable material and cross-section, and outside of the borough the wires may be bare.
8. The minimum height above the ground of all transmission-wires shall be 18 ft., except at railway-crossings, where the minimum height shall be 22 ft.
9. Along the transmission-route two telephone-wires, which may be bare and of iron, shall be run. They shall be not less than No. 10 standard wire gauge, and shall be not less than 18 ft. above the ground at their lowest point. At all railway-crossings the minimum height of the telephone-wires shall be 20 ft.
10. At points along the transmission-line where it may be desired to supply energy *en route* for lighting or power purposes, single-phase transformers may be used to tap the transmission-line, and these transformers shall be as far as possible balanced across the three phases, and shall transform from 3,200 to 220 volts. Three-phase transformers may be used at points along and near to the transmission-routes where the demand for power is such as to render it undesirable to supply from single-phase transformers, and where three-phase transformers are so used motors may be supplied from the three outers at 380 volts, and lamps from any one outer and an earthed neutral at 220 volts.
Supply under this clause shall be given only to premises fronting the road along which the high-tension line runs, or to premises so situated that the wires shall pass wholly along private property over which permission shall have been obtained to run.
11. Three-phase transformers shall be oil-filled unless they are provided with ventilated iron cases or with an earthing-shield. The windings of the primary may be mesh and of the secondary shall be star connected. All transformers shall have easily removable fuses for the primary circuit, may have secondary fuses, and the fuse-chambers shall be entirely separate from the transformers. All transformers affixed to poles shall be fitted with watertight cast-iron cases. Single-phase transformers transforming to 220 volts shall be fitted with an approved earthing device which shall render it impossible for the potential of the low-tension winding to be raised above 450 volts.
12. All wooden poles used shall be of ironbark or other approved timber, and where transformers are not under shelter in a special structure they shall be securely attached to wooden poles, which shall be specially strong.
13. The power-station and every transformer shall be protected against lightning by approved lightning-guards with choking-coils. A guard shall be placed on each transmission-

wire at its entrance to the power-station, and on each high-tension aerial wire leading into transformers. One side of each lightning-guard shall be connected direct to an efficient earth, which shall be provided, in the case of transformers, at the site of the transformer being protected. No wire smaller than a No. 7/16 standard wire gauge stranded wire, which may be of galvanised iron, shall be used for making earth-connections. The wire shall be run as straight as possible, and be securely fastened to the poles, and protected for at least 8 ft. from the ground from liability of damage or of being interfered with. A test shall be made every three months, and oftener if required, of all earths, to secure that the earth-wire is intact, and that the earth is effective. The iron case of each transformer shall be electrically connected direct with the earth at its site.

14. Where wires on the transmission-line cross other wires, either telephone or telegraph, they shall cross at least 3 ft. above, and as nearly at a right angle as possible. At all such crossings no span shall exceed $1\frac{1}{2}$ chains in length where practicable; and all wires on the transmission-line shall be insulated with not less than 600-megohms-per-mile grade of vulcanised-rubber insulation, taped and braided, and be efficiently suspended from steel bearer-wires by strong raw-hide hangers, spaced not more than 15 in. apart, or by small porcelain insulators firmly fastened to the bearer-wires, which shall be securely attached to triple-shed porcelain insulators. The telephone and telegraph wires at such crossings shall also be insulated, if deemed to be necessary, and at the Corporation's expense.

15. The transmission-lines shall be patrolled at least once a week, and insulation shall be maintained so that the minimum of all three wires tested as one wire shall not be less than 0.15 of a megohm when tested with a voltage equal to that used in transmitting energy. Suitable means shall be provided for the immediate indication of leakage. Daily tests shall be made and recorded.

16. Distribution to consumers shall be on the three-phase four-wire system—the fourth or neutral wire being connected to the centre of the secondary star winding of the transformers, and that centre point of the transformer-winding shall be earthed.

17. Bare hard-drawn copper wire may be used for distribution to consumers.

18. The voltage between the neutral wire and any of the outers shall approximate to 220 volts, and that between any two outers to 380 volts.

19. Where primary and secondary wires are run on the same poles, both primary and secondary shall be insulated with not less than 600-megohms-per-mile grade of vulcanised rubber, taped, braided, and compounded. All insulated aerial conductors should be of hard-drawn copper. If they consist of soft copper they shall be suspended in a satisfactory manner from suitable steel bearer-wires.

20. The maximum declared pressure for lighting purposes (except arc lamps) shall not exceed 220 volts at any pair of terminals on a consumer's premises. For power purposes motors may be connected across the three outers of the distribution system, and the maximum pressure between any pair of terminals shall not exceed 380 volts.

21. The low-tension electric-lighting lines and wires shall be aerial throughout, and shall be placed on one side only of any road or street along which they may run. Where telegraph or telephone lines exist in any street or road along which it may be desired to place electric-lighting lines, the latter shall be run on the opposite side of the street or road to that on which the telegraph or telephone lines run, except by permission from the Electric Telegraph Commissioner.

After the opening of the system for the supply of energy, a notice shall be given of every further extension, through the Postmaster at Inglewood, to the Superintendent of Electric Lines, and in such notice particulars of the proposed extension shall be given.

22. Where the erection of the electric-light line or wires necessitates the alteration of existing telegraph or telephone lines or wires, the expense of such alterations shall be borne by the Corporation.

23. The maximum working-current in any conductor shall not be sufficient to raise the temperature of the conductor, or any part thereof, to such an extent as to materially alter the physical condition or specific resistance of the insulating covering, if any, or in any case to raise such temperature to a greater extent than 130° Fahr. The cross-sectional area and conductivity at joints must be sufficient to avoid local heating, and the joints must be carefully made, using resin as a flux, and must be protected against corrosion. The sectional area of all conductors from any distribution-board on the consumer's premises must be maintained throughout the circuit, and joints should be made only when branching off a circuit, and should be at least 8 in. distant from a joint in any other conductor.

24. The sectional area of the conductor in any electric line for distribution purposes laid or erected in any street

shall not be less than the area of a circular wire 100 mils in diameter, and where the conductor is formed of a strand of wire, each separate wire shall be at least as large as No. 20 standard wire gauge.

25. All material used for insulating electric lines or apparatus shall be of the best quality, and thoroughly durable and efficient, having regard to the conditions of its use. Suitable provision shall be made for the protection of the insulating material against injury or removal.

If the protection so provided be wholly or partly metallic, it shall be efficiently connected with earth.

26. Any metallic body to be "efficiently connected with earth" shall be connected with the general mass of the earth in such manner as will insure at all times an immediate and safe discharge of electrical energy.

27. Every low-tension main shall be tested for insulation after having been placed in position and before it is used for the purposes of supply, the testing-pressure being at least 220 volts, and the Corporation shall duly record the results of the tests of each main or section of a main.

28. The insulation of every complete low-tension distribution-circuit used for the supply of energy, including all machinery, apparatus, and devices forming part of or in connection with such circuit, shall be so maintained that the leakage-current shall not under any conditions exceed one-thousandth part of the maximum supply-current. Every leakage shall be remedied without delay.

29. Every low-tension aerial line shall be attached to supports at intervals not exceeding 200 ft., where the direction of the line is straight, or 150 ft. where the direction is curved or where the line makes a horizontal angle at the point of support.

30. Every support for an aerial line shall be of a durable material, and properly stayed against forces due to wind-pressure, change of direction of the line, or unequal lengths of span. The factor of safety shall be for all aerial lines and suspending wires, and for all other parts of the structure, at least 6, taking the maximum possible wind-pressure at 20 lb. per square foot.

Every support, if of metal, shall be efficiently connected with earth.

31. All aerial lines shall be attached to porcelain insulators, and shall be so guarded that they cannot fall away from the support.

32. Any aerial line or wire for distribution purposes shall not in any part thereof be at a less height from the ground than 18 ft., or, where railways are crossed over, 22 ft., or within 5 ft. measured horizontally or 7 ft. measured vertically from any building or erection other than a support for the line, except where brought into a building for the purpose of supply. Where verandas have to be passed, wooden brackets, suitably strong and securely fastened to the verandas or buildings, may be used to support the aerial wires, which shall be so placed on the brackets as not to be in any way a source of danger.

33. Service lines from aerial lines shall be led as directly as possible to insulators firmly attached to some portion of the consumer's premises which is not accessible to any person without the use of a ladder or other special appliance. Every portion of any service line which is outside a building but is within 7 ft. from the building shall be completely enclosed in stout indiarubber tubing.

34. Where an aerial line crosses a street, the angle between the line and the direction of the street at the place of crossing shall not be less than 60°, and the spans shall be as short as possible.

35. Where an aerial line crosses or is in proximity to any metallic substance, precautions shall be taken against the possibility of the line coming into contact with the metallic substance, or of the metallic substance coming into contact with the line, by breakage or otherwise.

36. Where telegraph or telephone wires are crossed either over or under by the low-pressure electric light and power wires, a distance of at least 3 ft. shall separate the former from the latter. The telegraph and telephone wires shall be insulated, if deemed necessary, throughout the whole length of the span intersected, and when the crossing is near a pole the spans on each side of the pole shall be insulated if required. The distribution-wires shall be rubber-insulated at such crossings, either over the whole span or over such portion of it as will insure that uninsulated portions of the telegraph or telephone and of the low-tension wires shall not come into contact with each other. The distribution-wires may also pass through the telegraph and telephone wires on special permission being obtained in each case. When they are taken through they shall be insulated with not less than 600-megohms-per-mile grade of vulcanised rubber, and the insulation shall extend as is indicated in the preceding part of this clause. They shall be affixed to porcelain insulators, suitably attached to the arms on each side of the line being passed through, and be then taken through bell-mouthed iron pipe secured to the arms. The

iron pipe and brackets shall be efficiently earthed. The cost of insulating the telegraph and telephone wires shall be borne by the Corporation.

37. Efficient guard-wires shall be erected in a manner to meet with the approval of the Electric Telegraph Commissioner at all crossings and places where either transmission or distribution electric-lighting wires intersect telegraph or telephone wires, as may be required by the Commissioner to be so protected. The Corporation shall bear the expense of such guard-wires in all cases where an electric-lighting wire intersects a telegraph or telephone wire previously existing.

38. Every aerial line, including its supports, its conductors, and their insulating covering, and all the structural parts and electrical appliances and devices belonging to or connected with the line, shall be duly and efficiently supervised and maintained as regards both electrical and mechanical conditions.

39. An aerial line shall not be permitted to remain erected after it has ceased to be used for the supply of energy, unless the Corporation intend within a reasonable time again to take it into use.

40. All metal pipes or casings containing any aerial or interior electric wire shall be efficiently connected with earth, and shall be so jointed as to make good electrical connection throughout their whole length.

41. The Corporation shall be responsible for all electric lines, fittings, and apparatus belonging to them, or under their control, which may be upon a consumer's premises being maintained in a safe condition and in all respects fit for supplying energy.

42. In delivering the energy to a consumer's terminals the Corporation shall exercise all due precautions so as to avoid risk of causing fire on the premises.

43. All electric lines and apparatus placed on a consumer's premises, excepting such parts as are required to be connected with earth, shall be highly insulated, and be suitable for the voltage at which supply is being given. They shall be thoroughly protected against injury to the insulation or access of moisture, and any metal forming part of the electric current shall not, unless efficiently connected with earth, be exposed so that it can be touched. All electric lines shall be so fixed and protected as to prevent the possibility of electrical discharge to any adjacent metallic substance.

44. The Corporation shall fix where their service mains for supply at 220 volts terminate on any premises single-pole well-protected fuses on each conductor of at least 2 in. clear break. They shall also fix double-pole main switches of ample carrying-capacity, well insulated, with quick break of sufficient clearance to prevent arcing. When the premises are wired for a consumption of 5 kilowatts or over, a distance of at least 4 in. shall separate the terminals of the break switches.

45. All wiring shall be done from distributing-boards, which shall be of incombustible material. Suitable fuses on each conductor, fitted to engage in spring clips, shall be placed on these boards, so that it shall be possible to disconnect any or all circuits from the supply if switches are not provided. If double-pole switches are provided the fuses need not be of the spring-clip type.

46. The covers of fuses, switches, and plugs shall be of porcelain or other incombustible non-conducting material, or of rigid metal lined with vitreous enamel or suchlike substance. All metal parts liable to be touched must be effectively insulated from the electrical circuit. Where switchboards are accessible only to some responsible person, separate insulated covers for the parts mounted thereon will not be required.

47. There must be a porcelain bridge or other efficient insulation between the terminals of lamp-holders, and where lamp-holders are liable to be handled by persons making good earth contact they must be provided with non-conducting covers. Not more than ten sixteen-candle-power incandescent lamps shall be controlled by each switch.

48. The conductors used for the wiring for lighting or heating purposes shall be covered with not less than 600 megohms per mile grade of vulcanised rubber insulation after one minute's electrification and twenty-four hours' immersion in water immediately preceding the test. Concentric conductors may be used, and their insulation-resistance shall not be less than that required for separate conductors.

49. All arc lamps shall be so guarded as to prevent pieces of ignited carbon or broken glass falling from them, and shall not be used in situations where there is any danger of the presence of explosive dust or gas.

50. Arc lamps used in any street for public lighting shall be so fixed as not to be in any part at a less height than 10 ft. from the ground.

51. Arc lamps used in any street for private lighting shall be so fixed as not to be in any part at a less height than 8 ft. from the ground, and shall be so screened as to prevent risk of contact with persons.

52. Arc lamps must be insulated from earth, and fixed so that they cannot swing into contact with any substance, metallic or otherwise, that might connect them to earth. They may be supplied with current from any two outer wires of the supply system. The insulation-resistance of the conductors supplying them with current when such conductors are not aerially suspended shall not be less when the current is taken from two outer wires than 600 megohms per mile after one minute's electrification and twenty-four hours' immersion in water immediately preceding the test. These insulated conductors shall be run in strong metal casing, which shall be electrically continuous and effectively connected with earth. Resistances for the regulation of arc lamps, if exterior to the lamp, shall be mounted on incombustible bases, shall be so placed that they cannot by conduction or radiation set fire to any contiguous materials, and shall be of ample size to safely carry the maximum current that will normally flow through them. Each arc-lamp circuit shall be provided with a switch and a fuse on each conductor.

53. Motors shall be either of the enclosed or semi-enclosed type, and shall be efficiently ventilated. Motors up to 3½-horse power may be supplied with current at 220 volts, due regard being had to avoidance of disturbance to lighting.

54. The frame and shaft of all motors shall be connected to an efficient earth by a copper conductor, which shall be equal to the area of one of the conductors leading to the motor, but need not exceed 7/16 gauge. All metal casings of switches, resistances, fuses, cables, and wires shall be efficiently earthed in a similar manner.

55. Every such motor must be controlled by an efficient double- or triple-pole quick-break switch, suitable to prevent arcing, and conveniently placed so that the person in charge of the motor can cut off wholly the supply from the motor, and all devices in connection therewith.

56. Efficient single-pole fuses must be provided to efficiently protect the conductors from excess of current, and where these are used to guard conductors taken off the three outer wires of the supply system they shall have a clear break of 3 in.

57. Every precaution shall be taken in choosing positions for and in the wiring and setting-up of motors, and the necessary devices in connection therewith, so that there shall be no danger of fire being caused by their normal or abnormal action, or of shock being obtained in the ordinary handling thereof.

58. Terminals of motors must be guarded so that they cannot be accidentally touched or short-circuited.

59. Motors exceeding 3½-horse power must be supplied with current taken from the three outer wires, and a distinct circuit must be run for them. The conductors of all motors must have an insulation-resistance of not less than 600 megohms per mile.

60. The conductors of all motors supplied from the outer wires shall be enclosed in strong metal covering electrically continuous throughout its entire length, and effectively connected to earth, and provision shall be made to prevent the accumulation in the metal pipe of any moisture due to condensation.

61. The insulation-resistance of each motor-circuit, including all devices necessary for the working of the motor, shall be not less than 1 megohm to earth when all metal parts that are required to be connected to earth are so connected.

62. A printed notice shall be fixed in a conspicuous position at every motor and switchboard forbidding unauthorised persons to touch the motors or apparatus, and no alterations shall be made during the time that current is on that part of any lighting or motor circuit to which alterations may be required.

63. The Corporation shall not connect the wires and fittings on a consumer's premises with their mains, or, in the case of premises already connected, continue the supply from their mains, unless they are reasonably satisfied that the requirements of this license are complied with, that the wiring and fittings are suitable for the voltage at which supply is being given, and that the connection or continuance of supply would not cause a leakage from those wires and fittings exceeding one ten-thousandth part of the maximum supply-current to the premises; and where the Corporation decline to make such connection or to continue supply they shall serve upon the consumer a notice stating their reasons for so declining.

64. If the Corporation are reasonably satisfied, after making all proper examination by testing or otherwise, that the wiring and fittings are not suitable for the voltage being employed, that a leakage exists at some part of a circuit of such extent as to be a source of danger, and that such leakage does not exist at any part of the circuit belonging to the Corporation, or that any other requirements of this license are not complied with, then and in such case any officer of the Corporation duly authorised by them in writing, or, if the Corporation so require, on application by them to the

Electric Telegraph Commissioner, any officer of the Post and Telegraph Department (hereinafter referred to as "an Electric Inspector") instructed to so act may, for the purpose of discovering whether the leakage exists at any part of a circuit within or upon any consumer's premises, whether the wiring is suitable and the general requirements of the license are complied with, by notice require the consumer, at some reasonable time after the service of the notice, to permit him to inspect and test the wires and fittings belonging to the consumer and forming part of the circuit.

In any case where the Corporation require the services of an Electric Inspector under this section, they shall pay the cost of such inspection.

If on such testing and inspection the officer or the Electric Inspector discovers a leakage from the consumer's wires exceeding one ten-thousandth part of the maximum supply-current to the premises, that the requirements of this license are not properly conformed to, or if the consumer does not give all due facilities for inspection and testing, the Corporation shall forthwith discontinue the supply of energy to the premises in question, giving immediate notice of the discontinuance to the consumer, and shall not recommence the supply until they are reasonably satisfied that the leakage has been removed, and that the installation is in conformity with this license.

65. If any consumer is dissatisfied with the action of the Corporation in refusing to give, or in discontinuing, or in not recommencing, the supply of energy to his premises, the wires and fittings of that consumer may, on his application to the Electric Telegraph Commissioner, and on payment of the cost of such inspection, be inspected and be tested for the existence of leakage by an Electric Inspector.

This provision shall be indorsed on every notice given under the provisions of either of the two last preceding sections.

66. From and after the time when the Corporation shall commence to supply energy through any distributing-main they shall maintain during such portion of the twenty-four hours as they shall from time to time determine to supply energy sufficient power for the use of all the consumers for the time being entitled to be supplied from such main: Provided that, for any purposes connected with the efficient working of the

undertaking, the Electric Telegraph Commissioner may give permission to the Corporation to discontinue the supply at such intervals of time and for such periods as he may think expedient. When the supply is so discontinued, public notice, as far as may be possible, shall be given of such discontinuance, and of the probable duration thereof.

67. The variation of pressure at any consumer's terminals shall not under any conditions of the supply which the consumer is entitled to receive exceed 4 per cent. from the normal pressure at which he is being supplied.

68. The Electric Telegraph Commissioner may at any time order an inspection to be made of the works, lines, and wires of the Corporation used for electric-lighting and power purposes. When a defect or defects are found to exist they must be remedied forthwith, and, should they be serious in the opinion of the officer or person inspecting, the Electric Telegraph Commissioner may, on receipt of the report, direct the Corporation to at once cease transmitting energy either over the whole of the Corporation's lines and wires, or over any part thereof that to him may seem fit, until such defect or defects are repaired or remedied. The cost of such inspections shall be borne by the Corporation.

69. In running their lines through streets or along roads where no telegraph or telephone lines exist, the Corporation shall keep to one side of the street or road, and the Telegraph Department, in running its lines, shall do the same.

70. If the Corporation make default in complying with any of the provisions of this license they shall be liable to a penalty not exceeding £20 for every such default.

The recovery of a penalty under this license shall not affect the liability (if any) of the Corporation to make compensation in respect of any damage or injury which may be caused by reason of the default.

And I do hereby declare that this license shall come into force on and after the date of publication thereof in the *New Zealand Gazette*.

As witness my hand, this 16th day of February, 1905.

J. G. WARD,
Electric Telegraph Commissioner.

Pastoral Runs in Southland Land District for Lease by Public Auction.

District Lands and Survey Office,

Invercargill, 20th February, 1905.

NOTICE is hereby given that the undermentioned pastoral runs will be offered for lease by public auction, at this office, on Monday, the 27th day of March, 1905, at 11 o'clock a.m., for the terms and at the upset annual rentals stated, under the provisions of "The Otago University Reserves Act, 1904," and "The Land Act, 1892."

SCHEDULE.

SOUTHLAND LAND DISTRICT.

Otago University Endowment.

RUN NO. 300B, WALLACE COUNTY: Area, 35,900 acres; term, fourteen years; upset annual rental, £373 19s. 2d. Valuation for improvements, £358 18s.

RUN NO. 304, WALLACE COUNTY: Area, 38,600 acres; term, fourteen years; upset annual rental, £361 17s. 6d. Valuation for improvements, £971 15s. 10d.

Description of Runs.

Run No. 304 contains 38,600 acres, is known as "Mararoa," and is situated in Te Anau, Snowdon, Mararoa, and Burwood Survey Districts, Wallace County, about nineteen miles from Mossburn Railway-station, by Main Lumsden—Te Anau Road. The lower country ranges in altitude from 1,000 ft. to 3,300 ft. above sea-level. The flats are fairly well grassed with white tussock. The undulating and hilly portions are generally fairly well grassed with white, blue, and snow tussock, and in some places there are patches of fern. The run is easy of access, and has good boundaries.

Run No. 300B contains 35,900 acres, is known as "Burwood," and is situated in Mararoa and Burwood Survey Districts, Wallace County, about nineteen miles from Mossburn Railway-station, by main Lumsden—Te Anau Road to Mararoa Valley, or thirteen miles from Mossburn to Burwood Bush. The altitude on the river-flats, which are extensive, is about 1,200 ft. above sea-level. The flats are well grassed with white tussock to an altitude of some 2,300 ft. on the hilly portions, which are grassed principally with snow-tussock and a little blue tussock. The south-west portion, which is known as the "Haycocks," is well grassed with white tussock, but the area to the north of Burwood Bush is rather wet and sour, grassed principally with snow-tussock. The run is easy of access, and has good boundaries.

Possession of the runs will be given on the 1st April, 1905.

Purchasers will be required to deposit a statutory declaration in accordance with section 195 of "The Land Act, 1892," and to pay the sum of the half-year's rent and license fee, and also the valuation for improvements, on the fall of the hammer.

JOHN HAY,
Commissioner of Crown Lands.

Pastoral Runs in Otago Land District for Lease by Public Auction.

District Lands and Survey Office,
Dunedin, 23rd January, 1905.

NOTICE is hereby given that the undermentioned pastoral runs will be offered for lease by public auction at this office on Tuesday, the 28th day of February, 1905, for the terms and at the upset annual rentals stated, under the provisions of Part VI. of "The Land Act, 1892."

SCHEDULE.

OTAGO LAND DISTRICT.

SECTIONS 12, 13, 14, 15, and 16, Block V., Lower Wanaka District, Vincent County: Area, 2,798 acres 3 roods 15 perches; term, fourteen years; upset annual rental, £5; valuation for improvements, £14 4s. The improvements consist of fencing. This run is situated on the shores of Lake Wanaka, from two to four miles from Albert Town.

Sections 6, 7, 9, 10, 11, road and bridge reserves, Block XI., Mount Hyde District, and Sections 3, 4, and 6, Block XVI., Maungatua District, Taieri County: Area, 1,942 acres 3 roods; term, fourteen years; upset annual rental, £5. These sections form a peninsula, bounded on the east and partly on the south side by Lee Stream. The land generally is rough and broken. Very little fencing is required, as the Taieri River and Lee Stream form good natural boundaries on three sides. Situated about six miles from Outram.

Runs 226 and 226f, and Sections 86 and 92, Block I., St. Bathans District, Maniototo County (Class I.): Area, 8,824 acres 3 roods 27 perches; term, fourteen years; upset annual rental, £65; valuation for improvements, £211 12s. The improvements consist of fencing, wool-shed, sheepyards, and dip. The sections are situated about two miles and the runs about three miles and a half from St. Bathans. The runs consist of open, broken, pastoral land, with fair soil of a gravelly nature. The sections are undulating, the soil on them being good.

Possession will be given on 1st March, 1905.

D. BARRON,
Commissioner of Crown Lands.

Possession of these runs will be given on 1st March, 1906.

Description of Runs.

Runs Nos. 254, 254A, 260: Known as Rocklands Station, and situated about twenty-five miles from Outram, on the old Dunstan Road. These runs comprise high pastoral country, the elevation ranging from 1,500 ft. to 3,700 ft. About 16,000 acres of good lambing country lie between Deep Stream, Deep Creek, Sutton Creek, and the east boundary of the run. The higher lands, situated on the Lammerlaw Range, are mostly summer country.

Runs Nos. 9, and 9A, 346A: These runs are situated on the east side of Lake Wakatipu, Nos. 9 and 9A being some twelve to eighteen miles, and No. 346A eighteen to twenty-four miles, from Queenstown. The lower portions are mostly covered with fern and the higher contain fair tussock. The country, though somewhat rough, is apparently good healthy sheep-country.

Run No. 121L: This run is situated about ten miles from Palmerston. It is well watered, and contains broken pastoral country of very fair quality.

Sections Nos. 19, 20, and 21, Block VI., Budle District: These sections are situated about five miles from Macrae's. They comprise rough broken ridges, somewhat high, but contain fair pastoral country.

OTAGO LAND DISTRICT.

RUNS Nos. 170, 170A, 170B, 170C, 170D, 170E, and 353B (grouped), Tuapeka and Maniototo Counties (Class I.): Area, 69,000 acres; term, fourteen years; upset annual rental, £500.

The country is known as "Beaumont Station." It is situated about thirteen miles from Lawrence, and is near the Beaumont Bridge over the Clutha River. The frontage extends about seven miles up-stream, thence it runs back over the Lammerlaw Range to the head-waters of the Teviot and Taieri Rivers, upwards of 33,000 acres being on the watershed of these streams, the balance sloping by easy ridges to the Clutha River. The front part may be described as well grassed throughout where the country is not covered with scrub. This scrub is estimated to cover about 4,000 acres, leaving upwards of 20,000 acres of first-class grazing country.

Possession will be given on 1st March, 1905.

9	XX.	1 0 21	3 10 0	7 years.

These sections are situated in the Township of Taihape, the access to Section 7 being by Kuku Street, which has been formed and metalled, and to Section 9 by Kaka Road, which has been metalled past the section. The lots comprise flat and undulating land. The soil is of good quality, resting on papa formation. Section 7 is all in grass. The forest on Section 9 is thin, having been milled; it comprises some kahikatea and hinau, with undergrowth of mako, konini, &c.

Mangaweka Township.

40	..	0 1 0	7 0 0	14 years.
----	----	-------	-------	-----------

This section is situated on the main street in the Township of Mangaweka, about 10 chains from the post and telegraph office. It comprises flat land, felled and in grass. The soil is of good quality, resting on papa formation. Note: The owners of the buildings on this section will be allowed one month from date of sale in which to remove them if they do not become the purchasers of the lease.

TERMS AND CONDITIONS OF LEASE.

1. A deposit of six months' rent, together with £1 1s. lease fee, must be paid on the fall of the hammer.
2. There are no restrictions or limitations as to the number of sections which one person may lease, and no declaration is required. Residence and improvements are not compulsory. No compensation shall be claimed by the lessee, nor shall any be allowed by the Government, on account of any improvements effected by the lessee, nor for any other cause.
3. Possession will be given on the day of sale.
4. The leases shall be for the term of years stated hereon, but shall be subject to termination by twelve months' notice in the event of the land being required by the Government.
5. The rent shall be payable half-yearly in advance.
6. The lessee shall have no right to sublet, transfer, or otherwise dispose of the land comprised in the lease, except with the written consent of the Commissioner of Crown Lands first had and obtained.
7. The lessee shall prevent the growth and spread of gorse, broom, and sweetbriar on the land comprised in the lease; and he shall with all reasonable despatch remove, or cause to be removed, all gorse, sweetbriar, broom, or other noxious weeds or plants, as may be directed by the Commissioner of Crown Lands.
8. The lease shall be liable to forfeiture in case the lessee shall fail to fulfil any of the conditions of the said lease within thirty days after the date on which the same ought to be fulfilled.

Pastoral Runs in Southland Land District for Lease by Public Auction.

District Lands and Survey Office,
Invercargill, 25th January, 1905.

NOTICE is hereby given that the undermentioned pastoral runs will be offered for lease by public auction at this office, on Tuesday, the 28th day of February, 1905 at 11 o'clock a.m., for the terms and at the upset annual rentals stated, under the provisions of Part VI. of "The Land Act, 1892."

SCHEDULE.

SOUTHLAND LAND DISTRICT.

Class I., suitable exclusively for Pasturage.

Runs Nos. 413 and 463, Wallace County: Area, 10,950 acres; term, fourteen years; upset annual rental, £70.

Run No. 423b, Southland County: Area, 10,000 acres; term, fifteen years; upset annual rental, £65.

Run No. 500, Stewart Island County, Codfish Island: Area, 3,450 acres; term, fourteen years; upset annual rental, £5 5s.

Possession of the above runs will be given on the 1st March, 1906.

Descriptions of Runs.

Run No. 423b: Situated in the Nokomai, Rockside, Gap, Garvey, and Wakaia Survey Districts, Southland County, about ten miles from Wakaia Township, six miles of which can only be packed upon; the balance is unformed, but could be used for dray traffic with a little expenditure. All high stony country, hilly and broken, ranging in altitude from 1,500 ft. to 4,000 ft. above sea-level. Although high, the country is fairly warm and sheltered, and carries fair grass, consisting principally of snow and blue tussock.

Runs Nos. 413 and 463: Known as Sunnyside, situated in Monowai and Titiroa Survey Districts, Wallace County, and on west bank of Waiau River, about forty-five miles from Otautau Railway-station by good road. The country south of Monowai River is hilly and broken, well sheltered, and in some places fairly well grassed with white tussock and other finer grasses, but a considerable portion is heavily covered with fern and patches of manuka scrub; the country north of the Monowai River is all a level stony flat, very poorly grassed, and carrying patches of manuka scrub. The whole area varies from 600ft. to 1,600 ft. above sea-level.

Run No. 500: This run, known as "Codfish Island," lies to the west of Stewart Island about two miles and a half, some twelve miles to the north of Mason Bay, or about forty miles from Bluff Harbour, and in Stewart Island County. The island is all bush-clad, varying from scrub to heavy bush, with the exception of a small patch of open land on the east side, facing Stewart Island. The country is undulating, varying in height from sea-level to about 300 ft.

Village-homestead Allotments in Southland Land District open for Selection on Lease in Perpetuity under the Provisions of "The Land Act, 1892," and "The Bush and Swamp Crown Lands Settlement Act, 1903."

District Lands and Survey Office,
Invercargill, 19th December, 1904.

NOTICE is hereby given that the undermentioned village-homestead allotments will be open for selection on lease in perpetuity, at this office, on Tuesday, the 28th day of February, 1905, under the provisions of "The Land Act, 1892," and "The Bush and Swamp Crown Lands Settlement Act, 1903."

If more than one application is received for the same allotment on the same day the order of selection will be decided by ballot.

For the purposes of "The Bush and Swamp Crown Lands Settlement Act, 1903," the lands enumerated the First Schedule hereto are classed as "light-bush land," and the lands in the Second Schedule are classed as "scrub land."

No general rate shall be levied or collected by any local authority from the said lands for the period of three years in the case of light-bush land, and two years in the case of scrub land, from the date from which in each case respectively such land is disposed of, and no local authority shall have power to levy or collect any such rate from such land during such period.

After the first half-year's rent has been paid by the selector the further instalments of rent payable by him for a

period of three years in the case of light-bushland, and two years in the case of scrub land, shall not be demanded: provided that if at any time during the first five years of his occupancy the selector disposes of his interest in the land the rent so conceded shall be paid by him in full, and thereupon the Land Board may remit such instalments of rent payable by the incoming tenant, not exceeding in the aggregate the amount of rent previously conceded to the selector, as the Board shall think fit.

Locality and Description.

These runs are situated on the west bank of the Whanganui River, the access being from Wanganui, which is about twenty-one miles distant by the river, or about thirteen miles overland, by about eight miles of formed road and about five miles of good horse-track. The runs comprise low and somewhat steep-faced bush hills; the soil is of good quality, resting on papa formation. The forest is light, comprising tawa, rimu, rata, hinau, &c., with a light undergrowth of rangiora, karamu, &c. The runs are well watered by numerous streams. The elevation ranges from about 100 ft. to 1,000 ft. above sea-level.

NOTE.—The above runs are offered subject to amendment of areas and rentals on final survey, and the right to take roads through them is reserved for five years.

TERMS AND CONDITIONS.

1. Every tender shall be enclosed in a sealed envelope addressed to the President, and marked on the outside as follows: "Tender for lease of Lot No. , as advertised in the newspaper of the day of , 19 ,," and shall be accompanied by a statutory declaration in the form or to the effect set forth in Form K in the Schedule hereto.

2. If any person desires to tender for more than one lot, a separate tender for each such lot must be made, and separate declarations as required by the last preceding rule. And each such tender must be accompanied by six months' rent and £3 3s., and stamp duty and registration fee.

3. All tenders shall be opened simultaneously by the Council on a day appointed for the purpose.

Every tender shall be deemed to be informal and incapable of being accepted where the rental tendered is less than the upset rental fixed as aforesaid.

4. The highest tenderer, if his tender shall equal or exceed the upset rental, shall be declared the lessee, and be entitled to possession of the lands so soon as he has been notified of acceptance of tender, and has complied with all other conditions lawfully prescribed in that behalf.

5. If the rent offered by two or more persons is the same amount, and is higher than that offered by any other tenderers, then the Council shall, after opening all the tenders, decide by lot, in such manner as it shall think fit, which of such two or more persons shall be declared the lessee.

6. The deposits and fees paid by the unsuccessful tenderers for any lease shall be returned to them by the Council immediately after any tender for such lease has been accepted.

7. When the Council shall declare any person to be the lessee of any block it shall forthwith notify the same to such person by registered letter, addressed to such person at

the address given in the tender, and shall in such notice require such person, within thirty days after such notice, to execute the lease in triplicate. If two or more persons jointly tender, the notice shall be posted to each of such persons. Such notice shall be in the Form L in the Regulations under "The Maori Lands Administration Act, 1900," or to the effect thereof.

8. If any person who has been declared a lessee shall fail to execute his lease within thirty days after being required by notice so to do, then his deposit and the above-mentioned sum of £3 3s. shall be absolutely forfeited to the Council, and the right of such person to obtain such lease shall absolutely cease and determine.

Where any lessee shall forfeit his right to a lease as aforesaid, and as often as such a case shall occur from time to time until the land be leased, or until there be a failure of tenderers whose tenders are formal, the Council may, at any time within seven days of such forfeiture, declare the next highest tenderer for the same lease whose tender is not informal to be the lessee, or, if the rent offered by two or more persons is the same amount, and is higher than the rent offered by any other tenderer save the one who has so forfeited his right to a lease as aforesaid, may decide by lot which of such other persons shall be the lessee. Every person declared a lessee under this section shall, upon his paying the deposit and fees as aforesaid, be declared to have become the lessee on the day of the opening of the tenders as if he had been so declared on such day.

9. If no tender shall be received prior to the time fixed for opening the tenders for any of the leases advertised for sale, any person may at any time thereafter apply for any one of such leases, unless the same shall have been withdrawn from sale by the Council, and be declared the lessee thereof at the upset rental fixed, upon complying with the other conditions prescribed as to tenders. If, in any such case, two or more applicants shall lodge their tenders on the same day, the right to the lease shall be decided by lot.

10. The Council may at any time reduce the upset value of land which it has failed to lease for three months, and may again call for tenders for the same at such reduced value.

11. The lease to be granted in pursuance of any tender may be in the Form M in the Regulations under "The Maori Lands Administration Act, 1900," or in such other form as the circumstances may require.

12. No tender shall be accepted or lease granted except the same be in accordance with the provisions of "The Maori Lands Administration Act, 1900" (herein referred to as "the said Act"), and its amendments, and the regulations made thereunder.

13. No lease shall comprise more than 2,000 acres, inclusive of not more than 640 acres of first-class land, except in the case of small grazing-runs and pastoral leases, nor shall any lessee have any right to acquire the freehold of the demised land.

No lessee or person, by himself or by or jointly with any other person on his behalf, shall hold at one time, whether as occupier, lessee, assignee, sub-lessee, or otherwise, more than 2,000 acres, inclusive of not more than 640 acres of first-class land, except in the case of small grazing-runs and pastoral leases. Any occupation license, lease, assignment, sub-lease, or other instrument in contravention of this section shall be illegal and void from the commencement:

Provided always that this section shall not apply to any person who acquires an interest in any lease by bankruptcy, or under an intestacy, or by virtue of a will.

14. The Council shall have power to offer for lease any lands as small grazing-runs which are suitable only for occupation in larger areas than 2,000 acres, and may classify the land into first- or second-class pastoral country. The area of a first-class small grazing-run shall not exceed 5,000 acres, and the area of a second-class small grazing-run shall not exceed 20,000 acres; and the whole of these regulations, and the forms of tender, declaration, &c., with necessary alterations and amendments, shall, *mutatis mutandis*, apply.

15. Any person of the age of seventeen years and upwards may become a lessee hereunder, and if under full age shall be as capable of executing a lease, and shall be bound by the terms thereof, and of the said Act, as if such person was of full age.

16. The term fixed by the lease shall be twenty-one years, with right of renewal for a further term of twenty-one years, to take effect in possession and not in reversion; but such lease may be renewable as provided hereafter.

17. Every lease shall be prepared by the Council, and shall be in such form, and shall contain such covenants, conditions, and agreements, not being inconsistent with the provisions of the said Act or these regulations, as the Council may prescribe by regulations which it is hereby authorised and empowered from time to time to make, and from time to time to alter, amend, or revoke, and which may either be general, or applicable to any particular case or class of cases, and, when not otherwise provided, shall be subject to the stipulations following:—

- (1.) The demise shall reserve unto the lessor all mines, metals, minerals, coal, lignite, slate, or freestone in or upon or under the land, with power to work, win, use, possess, sell, and dispose of the same, or any part thereof respectively, except such as may be required by the lessee for the lessee's own use but not for sale or disposal; with power also to the lessor to make roads through the demised lands, and for such purposes or any of them to erect or build houses and other convenient buildings thereon, on paying compensation for damage done to the surface only, the amount of such compensation in case of disagreement to be ascertained and determined by arbitration.
 - (2.) The lessee shall and will during the term of the lease pay the rent reserved thereby free and clear from all deductions or abatements whatsoever, and shall and will pay all rates, taxes, charges, or assessments now made or hereafter during the said term assessed, charged, or imposed upon the demised premises, or tenant in respect thereof, or upon any buildings or improvements thereon; and in case any of the said rents shall at any time be and continue in arrear and unpaid for fourteen days next after any of the days appointed for payment thereof, the lessee will (if demanded) pay to the lessor interest upon such arrears at the rate of £8 per centum per annum, calculated from the time appointed for the actual payment of such rent to the time of actual payment thereof; and such interest shall for all purposes, whether of distress or otherwise, be deemed to be rent payable under the demise, and be payable and recoverable by distress or otherwise in the same manner as the rent reserved under the demise may or can be.
 - (3.) The lessee "will insure in the name of the lessor."
 - (4.) The lessee "will fence."
 - (5.) The lessee "will paint outside every fourth year."
 - (6.) The lessee "will cultivate," and will preserve and keep the demised premises in a clean and husbandlike manner, free from all noxious weeds growing or to grow on the said demised premises, and will not plant on the demised premises, or permit to spread thereon, gorse or furze, and will keep properly cut and trimmed all live hedges and fences on the demised premises.
 - (7.) No lessee shall transfer the possession or occupation of the land leased to or occupied by him, or any part thereof, by sale, underlease, or other disposition, except the Council shall sanction the proposed transfer, and until such lessee has been twelve months in possession or occupation of the demised land.
 - (8.) When a statutory declaration is required from any lessee, no transferee, and no purchaser of any lease under any power of sale vested in any mortgagee, assignee, or trustee in bankruptcy, shall be admitted into possession or occupation of the land comprised in such lease until he has deposited with the Council a statutory declaration in the same form or to the same effect.
 - (9.) Every lawful transferee of any lease, or purchaser as aforesaid of any lease, shall have all the rights and privileges, and be subject to the same obligations, as the original lessee: Provided that the transferor shall be liable for the instalment of rent which shall become due next after such transfer.
 - (10.) No transfer of any lease shall be valid unless all the conditions upon which the lease was granted have been complied with as to payment of rent or otherwise up to the date of such transfer.
 - (11.) If any lessee or licensee shall fail to fulfil any of the conditions of his lease within sixty days after the day on which the same ought to be fulfilled, his lease shall be liable to be forfeited, and he shall be deemed, upon such forfeiture, to be in illegal occupation of the land comprised in the lease, and the Council may proceed for recovery of possession thereof without prejudice to the right of the lessor to recover any rent then due or payable, or any right of distress, action, or suit that may have arisen prior to such re-entry.
- The foregoing conditions as regards leases shall operate and shall be deemed to bind the Council and the lessee as fully and effectually as if they were set forth in every lease.
18. The lessee shall be liable for all rates, taxes, or assessments of every nature or kind whatsoever imposed upon the occupier of the lands included in his lease during the term for which he is lessee.

19. The Council, upon being satisfied that any lease has been lost or accidentally destroyed, may grant a new lease in lieu thereof, upon such terms and conditions and upon payment of such fee in each case as it shall think fit. When any indorsement is required to be made on any lease, and the same is lost or destroyed as aforesaid, the Council may grant a new lease in lieu thereof, and make the required indorsements thereon, or, if it shall so think fit, may incorporate the substance of the indorsements with the terms of the original lease, and insert them together in the new lease.

20. The Council and the lessee shall each execute the lease in triplicate.

21. Every lease, after execution thereof as aforesaid, shall be registered by the Council under "The Land Transfer Act, 1885," or any Act hereafter passed in lieu thereof, in like manner, as nearly as may be, *mutatis mutandis*, as a Crown grant is registered; and the lease which is retained in the office of the District Land Registrar shall form a folium of the register-book in such office, and on it all dealings therewith shall be registered; but no fee shall be payable by way of contribution to the assurance fund on the registration of any such lease.

All dealings with or transmissions of land comprised in such lease shall be made in accordance with the provisions of the last-mentioned Acts, and be in all respects subject thereto.

22. All dealings with or under leases in contravention of the provisions of the said Act as to transfers of leases shall be absolutely void, and the District Land Registrar shall refuse to register any dealing with or under a lease until he is satisfied that the said provisions have been complied with.

23. Every lessee shall, within twelve months of the commencement of his term, and thereafter for a period of six consecutive years, reside on some portion of the lands leased by him.

This condition shall not apply to any person who has acquired an interest in any lease under an intestacy or by virtue of a will.

The Council may dispense with the necessity of such residence, in the case of bush or swamp lands, during the first four years of the term, and altogether as to all lands if the lessee resides on lands contiguous to the lands leased, or with the concurrence of the Minister for any other sufficient reason. Lands shall be deemed to be contiguous to each other if only separated by a road or stream, or by such interval of space* as the Council may in each case determine.

In cases of youths who may become lessees, and who are living within the Maori land district and are residing with their parents or near relatives, the Council may dispense with residence until four years after the commencement of the term.

When any two lessees shall lawfully intermarry, the Council may dispense with residence by either of such lessees on the lands comprised in one of the leases.

24. Every lessee shall bring into cultivation—

- (a.) Within one year from the date of his lease, not less than one-twentieth of the land leased by him;
- (b.) Within two years from the date of his lease, not less than one-tenth of the land leased by him;
- (c.) Within four years from the date of his lease, not less than one-fifth of the land leased by him;

and shall, within six years from the date of his lease, in addition to the cultivation of one-fifth of the land, have put substantial improvements of a permanent character on first-class land to the value of £1 for every acre of such land, and on second-class land to an amount equal to the net price of every acre of such land: Provided that in no case shall the additional improvements required on second-class land be more than 10s. per acre.

The terms "improvements," "substantial improvements," and "substantial improvements of a permanent character," mean and include reclamation from swamps, clearing of bush, gorse, broom, sweetbriar, or scrub, cultivation, planting with trees or live hedges, the laying-out and cultivating of gardens, fencing, draining, making roads, sinking wells or water-tanks, constructing water-races, sheep-dips, making embankments or protective works of any kind, in any way improving the character and fertility of the soil, or the erection of any building.

25. Whenever a lease is to be sold or otherwise disposed of, the valuation of the improvements shall, in all cases where it is not otherwise provided by the said Act, be made as by section eighty-three hereinafter provided; and payment of such valuation shall be made to the Council on or before the day of the commencement of the term of the new lease by the purchaser of such lease.

Whenever a lease is forfeited for breach of conditions, the

* The Council will be prepared to allow the term "interval of space" to apply to residence anywhere outside the Paetawa Block

Council shall cause such valuation to be made on recovering possession of the land.

26. The amount of the valuation of the improvements, when paid by the purchaser of a new lease, shall be paid by the Council to the original lessee, less any arrears of rent or other moneys due in respect of such land by the outgoing tenant; and, in case of forfeiture, less also the amount of expenses incurred in recovering possession of the land and the lease or other disposal thereof.

27. In every case of the forfeiture of a lease for breach of conditions, the payment of the amount of the valuation of improvements, or of any part thereof, shall be absolutely at the discretion of the Council.

28. If payment of any such valuation is not made as aforesaid, the Council may sue for and recover the same in any Court of competent jurisdiction from the person who should make such payment.

29. In any case where a lease is granted with a right of renewal for one further term only, not exceeding twenty-one years, the Council shall, on the expiration of such further term, or on the expiration of the original term, or in the case of a lease where the right of renewal is perpetual, on the expiration of any term, if the right of renewal has in any case been surrendered or otherwise determined, weight the land with the value of the improvements of the outgoing tenant on again offering it for lease; or the Council may in its discretion retransfer the land to the Native owners on payment of the value of the improvements and all other charges to which the land may be lawfully subject. The value of such improvements, or the balance thereof, after deducting any amounts which may be due to the Council by the outgoing lessee, shall, when recovered by the Council, be paid over to him.

30. No outgoing tenant shall have any right or claim against the Maori owners or the Council in respect of the value of any improvements made by him on the lands in his occupation, in case any person shall fail to pay such value to the Council:

Provided that in any such case of failure the Council may retransfer the land to the Native owners on payment of such value and all other charges to which the land may be lawfully subject.

31. All claims for compensation in respect of any matters arising under the said Act, or for value of improvements or other matters, shall, unless otherwise specially provided, be settled in the manner provided in Part III. of "The Public Works Act, 1894," for which purpose the said Part III. shall be deemed to be incorporated with the said Act.

In every such claim the Council shall be the respondent.

32. Where it is provided or agreed that any matter shall be referred to arbitration, then such reference, unless herein otherwise provided, shall be to one or more arbitrators appointed by the parties on each side respectively, and an umpire to be appointed by such arbitrators.

- (a.) If either party shall fail to appoint an arbitrator within twenty-one days after being requested in writing to do so by the other party, then the arbitrator appointed by the other party shall alone conduct the arbitration, and his decision shall be final and binding on both parties.
- (b.) If the said arbitrators shall fail to agree upon the matter referred to them within twenty-eight days of the same having been so referred, then the matter so referred shall be decided by an umpire to be appointed by the said arbitrators, whose decision shall be final and binding on both parties.
- (c.) Every such arbitration shall be carried on in the manner prescribed by "The Arbitration Act, 1890," and be subject to such last-mentioned Act in the same manner as if the reference to such arbitration had been made by consent of parties under a deed.
- (d.) Each party shall pay his or its costs of such reference, and any costs incidental to the appointment of an umpire shall be paid equally by the parties to the arbitration.
- (e.) Such arbitrators or umpire shall have all the powers vested in Commissioners by "The Commissioners' Powers Act, 1867," as well as all the powers given to them by "The Arbitration Act, 1890."

33. Not sooner than one year and not later than three months before the end of the original or renewed term for which the lease is granted, a valuation shall be made by arbitration, or in some other manner that may be agreed upon between the Council and the lessee, of the then value of the fee-simple of the lands then included in the lease, and also a valuation of all substantial improvements of a permanent character made by the lessee during the term and then in existence on the land then comprised in the lease.

The publishing of the valuations made as aforesaid may be effected by serving a copy of the same on the lessee and another copy on the Council; and thereafter, but

not later than two months before the expiry of the term for which the lessee then holds the lands, the lessee shall elect, by notice in writing delivered to the Council, whether he will accept a fresh lease of the said lands for a further term of twenty-one years from the expiration of the then term, at a rental equal to not less than five pounds per centum on the gross value of the lands after deducting therefrom the value of the substantial improvements of a permanent character as fixed respectively by the valuation.

34. If the lessee shall not elect to accept a renewal as above mentioned, or shall refuse or neglect to execute a lease within seven days after the same is tendered to him for the purpose, a lease of the said lands shall, not later than one month before the end of the term for which the terminating lease was granted, be put up to public competition by public tender for such term of twenty-one years, on the following terms and conditions:—

- (a.) The upset rent shall be such rent as shall be fixed by the Council, not being a greater sum than that at which the lease was offered to the outgoing lessee under the last preceding clause.
- (b.) The amount of such upset rent shall be stated in the advertisements calling for tenders; and it shall be a condition of tender that the tenderer shall, together with his tender, deposit the amount of one half-year's rent, which shall be returned to him if he fails to obtain the lease.
- (c.) If any person other than the outgoing lessee be declared the purchaser, he shall, within seven days after the day fixed for opening the tenders, pay over to the Council the amount of the value of the substantial improvements of a permanent character as fixed in manner provided by the last preceding clause.
- (d.) When the day has arrived on which the terminating lease expires, or thereafter, if the Council shall have satisfied itself that the outgoing lessee has let the new lessee into quiet possession of the lands to be leased, and that none of the improvements on the lands which were thereon when the valuations mentioned in the last preceding clause were made have been destroyed or appreciably damaged, the Council shall pay over to the outgoing lessee the amount received by it from the incoming lessee as aforesaid.
- (e.) If any of the improvements as mentioned in the preceding subclause have been destroyed or appreciably damaged, as in the said subclause referred to, then the value of the improvements so destroyed, or the cost of repairing such damage, shall be decided by the Council or some person appointed by it; and the amount so fixed, with the costs attending such decision, shall be deducted from the amount payable as aforesaid to the outgoing lessee, and, save the amount deducted for costs, shall be returned to the incoming lessee.

25. If such lease shall not be disposed of as above mentioned to some person other than the lessee, or if such person fails to execute the lease in triplicate within thirty days, or to pay the sum offered by him as aforesaid within thirty days from the day on which the tenders were opened, then the lessee may again, within sixty days after the day fixed for the opening of the tenders, elect in a manner aforesaid whether he will accept a fresh lease as aforesaid; and if he does not elect to accept the same, or refuses or neglects to execute such lease within seven days after the same is tendered to him for the purpose, then he may continue as lessee of the said land from year to year, so long as he shall pay the rent reserved by his lease and observe and perform the covenants and conditions contained in the same or in this Act, or until the Council shall succeed in finding a purchaser of the new lease, unless, prior to the finding of such purchaser by the Council, he shall elect to accept a new lease for the said further period of twenty-one years as aforesaid.

36. The Council, in selling a renewed lease to a purchaser, may make provision that the right to take possession under such new lease shall always commence on the 1st day of January or of July in any year.

37. All the provisions of the foregoing rules and regulations (except the provisions as to cultivation) as regards the tenders for sale, form, and conditions of first leases made under the said Act, and otherwise howsoever as regards such leases, shall, *mutatis mutandis*, apply to the sale, form, and conditions of the new or renewed leases above mentioned, and to the lessees thereunder, and otherwise howsoever, except as herein is otherwise expressly provided.

Rent.—The rent shall commence on the first day of January or July following the date of acceptance of tender by the Council.

Timber.—It shall be a condition of the lease that the lessee shall pay to the Council from time to time one half of the royalty rates then current in the district for all marketable timber (not required by himself for building or other improvements on the land comprised in his lease, or or firewood

for his own use) that may be cut and removed from the land: Provided that such royalty rates shall in no case be less than the minimum schedule rates fixed by the Timber Regulations for Crown Lands in force at the time of cutting. In the event of the land reverting to the Council through any cause, or of the lessee's interest being determined or forfeited, all rights to the timber that he may have given, or agreements that he may have entered into for the disposal thereof, shall absolutely cease and be determined.
