

SUPPLEMENT  
TO THE  
**NEW ZEALAND GAZETTE**

OF  
THURSDAY, JULY 4, 1907.

Published by Authority.

WELLINGTON, WEDNESDAY, JULY 10, 1907.

*Teachers holding Certificates or Licenses under "The Education Act, 1904."*

Education Department,  
Wellington, 29th June, 1907.

THE following list of teachers is issued in accordance with clause forty of the regulations respecting teachers' certificates made by an Order in Council on the 26th November, 1906.

Reasons for promotion are indicated by the letters E, M, S, which stand respectively for "examination," "marks awarded by an Inspector," and "length of service." Any teacher that has been promoted can have a record of promotion endorsed upon his certificate on making application to the Department; and any teacher whose status has ceased to be provisional can obtain a full certificate on returning his provisional certificate.

In the column headed "Engagement" is inserted the name of the Education Board under which a teacher in a public school is acting, or an indication of other employment in connection with public instruction. A blank in this column signifies that a teacher was not engaged in the work of public instruction at the end of 1906, or at the date of information received during the current year.

The word "Miss" is enclosed in square brackets in the case of married women whose maiden name alone is known to the Department.

In the summary at the end of the list certificated and licensed teachers are classified as employed or unemployed according as the column headed "Engagement" shows or does not show engagement in public instruction. The names of teachers that are not known to have been engaged in public instruction at any time during the past five years have been removed from the list.

GEO. FOWLDS,  
Minister of Education.

has been cancelled.

GEORGE FOWLDS,  
Minister of Education.

By Authority: JOHN MACKAY, Government Printer, Wellington.

The first part of the document discusses the importance of maintaining accurate records. It emphasizes that proper record-keeping is essential for ensuring the integrity and reliability of the data collected. This section also outlines the various methods used to collect and analyze the data, highlighting the challenges faced during the process.

The second part of the document provides a detailed overview of the experimental procedures. It describes the setup of the equipment, the calibration of the instruments, and the specific steps followed during the data collection phase. This section is crucial for understanding the methodology used in the study and for replicating the results.

The third part of the document presents the results of the study. It includes a series of tables and graphs that illustrate the data collected. The tables provide numerical values for various parameters, while the graphs show the trends and relationships between different variables. This section is the core of the report, where the findings of the study are presented.

The fourth part of the document discusses the implications of the results. It analyzes the data to identify patterns and trends, and discusses how these findings relate to the broader context of the field. This section also addresses any limitations of the study and suggests areas for future research.

The fifth part of the document provides a conclusion and summarizes the key findings of the study. It reiterates the importance of the research and the value of the data collected. This section serves as a final summary of the work and a call to action for further exploration in the field.

The final part of the document includes a list of references and a list of figures. The references cite the sources used in the study, and the list of figures provides a detailed description of each graph and table. This section is essential for providing context and supporting the findings of the study.
