WELLINGTON, TUESDAY, MAY 26, 1908.

Meeting of the General Assembly for the Despatch of Business.

PLUNKET, Governor.

To the LEGISLATIVE COUNCILLORS of the Dominion of New Zealand and the MEMBERS elected to serve in the HOUSE OF REPRESENTATIVES of the said Dominion, summoned and called to a Meeting of the General Assembly of the said Dominion, at the City of Wellington, on the twenty-ninth day of the month of May, one thousand nine hundred and eight, to have been commenced and held, and to every of you: GREETING.

A PROCLAMATION.

WHEREAS the Meeting of the General Assembly stands prorogued to the twenty-ninth day of May, one thousand nine hundred and eight: Nevertheless, for certain causes and considerations I have thought fit further to prorogue the same to Monday, the twenty-ninth day of the month of June, one thousand nine hundred and eight, so that neither you nor any of you, on the said twenty-ninth day of May, at the City of Wellington, are to be held constrained to appear; commanding and by the tenor of these presents enjoining you and each of you, and all others in this behalf interested, that on Monday, the twenty-ninth day of the month of June, one thousand nine hundred and eight, personally you be and appear, for the DESPATCH OF BUSINESS, at half past two o'clock in the afternoon, in the Parliament Houses, situate in Bowen Street, in the City of Wellington, there to take into consideration the state and welfare of the said Dominion of New Zealand, and therein to do as may seem necessary.

(L.S.)

Given under the hand of His Excellency the Right Honourable William Lee, Baron Plunket, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Knight Commander of the Royal Victorian Order, Governor and Commander-in-Chief in and over His Majesty's Dominion of New Zealand and its Dependencies; and issued under the Seal of the said Dominion, at the Government House, at Wellington, this twenty-fifth day of May, in the year of our Lord one thousand nine hundred and eight.

J. G. WARD.

GOD SAVE THE KING!

The first part of the document discusses the general principles of the proposed system, which is designed to improve the efficiency of the existing one. It is based on the following assumptions:

1. The system should be able to handle a large volume of data.
 2. It should be able to process data in real-time.
 3. The system should be secure and reliable.

The second part of the document describes the architecture of the system. It consists of the following components:

- A central processing unit (CPU) that handles all the data processing.
 - A memory unit that stores the data and the results of the processing.
 - A network interface that allows the system to communicate with other systems.

The third part of the document discusses the implementation of the system. It is based on the following principles:

- The system should be modular, so that it can be easily updated and maintained.
 - It should be able to handle a wide range of data types.
 - The system should be able to handle a large number of users.

The fourth part of the document discusses the results of the implementation. It shows that the system is able to handle a large volume of data in real-time, and that it is secure and reliable.

The fifth part of the document discusses the conclusions of the study. It shows that the proposed system is a significant improvement over the existing one, and that it is worth implementing.
