WHEREAS by section one hundred and nineteen of "The Public Works Act, 1905" (hereinafter termed "the said Act"), it is, *inter alia*, enacted that the Governor may, upon the terms and conditions in the said section mentioned, by Warrant publicly notified, direct that any bridge already constructed, or which may hereafter be constructed, over or across any river or arm of the sea respectively shall, from and after a date to be fixed in such Warrant, be under the exclusive care, control, and management of such local authority as shall be mentioned in that behalf in such Warrant; and may by any such Warrant as aforesaid fix and determine whether all or any, and if so what part, of the cost, whether theretofore incurred or thereafter to be incurred, of maintaining, repairing, improving, or reconstructing any such bridge is to be provided and paid by the local authority or local authorities, and, if so, by what local authority or authorities; and may by any such Warrant as aforesaid direct how, when, and to whom any such payment is to be made:

And whereas by the said Act it is further provided that the Governor may from time to time, with the view of determining whether it is expedient to vest the exclusive care, control, management, and maintenance of any such bridge in any local authority, direct any person to be a Commissioner to inquire into and report to him upon any matter which he shall deem necessary to enable him to determine any such question as aforesaid; and may by any subsequent Warrant, publicly notified from time to time, vary or alter such care, control, and management:

And whereas a Commissioner was appointed under the provisions of section one hundred and nineteen of "The Public Works Act, 1905," and an inquiry was duly held, with a view to determine what local authority could most conveniently and efficiently control the bridge known as the Upper Gorge Bridge, mentioned in the Schedule hereto, and hereinafter referred to as "the said bridge," and what proportion of the cost of maintaining, repairing, improving, or reconstructing the said bridge to be paid by any, and if so which, local authority or authorities:

\* These remaining suburbs do not lie within borough boundaries, and particulars respecting them have not been obtained for the Vital Statistics. Closely correct annual statements of population outside boroughs are not obtainable.

In the above table are given the deaths and death-rates for each of the four cities, for the suburban boroughs severally, and for each city with its suburban towns. As regards Auckland and Christchurch, the whole of the area usually recognised as suburban has not yet been brought under municipal government, and the vital statistics do not deal with such portions as still remain in road districts. But the omission is not very important, for there are in either case quite enough suburbs included within borough boundaries to give a fair idea of the death-rate of Greater Auckland and Greater Christchurch. As further boroughs are formed the vital statistics will be made to include them.

Deaths occurring at hospitals, of persons not residents of the borough wherein the hospital is situated, have been allotted in each case to the borough where the disease was contracted, and not to that in which the death actually took place.

The inclusion of the suburban boroughs tends to lower the rate at each of the four centres.

	Death-rates per 1,000 of Population.	
Auckland City .. .. .	0.89	
and seven suburban boroughs .. .. .		0.66
Wellington City .. .. .	0.88	
and three suburban boroughs .. .. .		0.84
Christchurch City .. .. .	0.70	
and three suburban boroughs .. .. .		0.68
Dunedin City .. .. .	1.12	
and six suburban boroughs .. .. .		0.88

Including the suburbs, the rate at Dunedin is the highest, and at Auckland the lowest.

Compared with May, 1908, the results are,—

	1908.	1909.
Auckland and suburbs .. .. .	0.88	0.66
Wellington and suburbs .. .. .	0.79	0.84
Christchurch and suburbs .. .. .	0.69	0.68
Dunedin and suburbs .. .. .	0.91	0.88

The total births in the above boroughs amounted to 686, against 639 in April—an increase of 47. The deaths in May were 208, the same number as in April. Of the total deaths, males contributed 108, females 100. Fifty-one of the deaths were of children under five years of age, being 24.52 per cent. of the whole number; 44 of these were under one year of age.

There were seventy-three deaths of persons of 65 years and upwards: Eight men, 67, 69, 70 (two), 73, 77, 84, 89, and five women, 65, 66, 75, 80, 87, died at Auckland; nine men, 65, 69, 70, 75 (two), 78 (two), 80, 81, and six women, 65, 66, 70, 71, 78, 83, at Wellington; six men, 69, 76, 79 (two), 81, 84, and ten women, 65 (two), 66, 68, 69, 71, 74, 76, 80, 84, at Christchurch; and eighteen men, 67, 68 (two), 72 (two), 74, 75 (four), 76 (two), 77 (two), 81, 83, 86 (two), and eleven women, 66 (two), 67 (two), 68, 69, 73, 74, 75, 77, 78, at Dunedin.
