Validating an Irregularity in connection with a Loan of £1,200 for the Purpose of Road-construction at Horahora-Maungatautari, applied for by the Matamata County Council.

PLUNKET, Governor.

ORDER IN COUNCIL.

At the Government Buildings, at Wellington, this thirtieth day of December, 1909.

Present:

THE RIGHT HONOURABLE SIR J. G. WARD, K.C.M.G.,
PRESIDING IN COUNCIL.

WHEREAS the Matamata County Council, under the provisions of "The Local Bodies' Loans Act, 1908," recently applied to the Minister of Finance for a special loan of one thousand two hundred pounds (£1,200) for the purpose of road-construction at Horahora-Maungatautari: And whereas the public notifications of the special order

making the special rate as the security for the proposed loan were irregular, inasmuch as the dates of payment of the rate mentioned therein appear as being half-yearly on the first days of January and July in each year during the currency of the loan, whilst in the special order itself the rate is stated to be payable yearly on the first day of September in each year during the currency of the loan: And whereas, the ratepayers having consented to pay the rate yearly as aforesaid, it appears that they have not been misled by such irregularity, and it is expedient to validate the same:

Now, therefore, His Excellency the Governor of the Dominion of New Zealand, in pursuance and exercise of the powers conferred by section one hundred and twenty-one of "The Local Bodies' Loans Act, 1908," and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby validate the said public notifications of the said special order, and doth hereby declare that the proceedings with reference to the said loan shall be deemed to have been as good, valid, and effectual as though the said public notifications had been correctly made.

J. F. ANDREWS,
Clerk of the Executive Council.

GENERAL DESCRIPTION.

Tongoio Settlement is situated near the southern end of Wairoa County on the main coach-road from Napier to Wairoa, the nearest portion being eleven miles from Port Ahuriri and thirteen miles from Napier. A road is to be formed through the block, leaving the main road at the Te Ngaru Ford and joining it again near The Elbow. A bridle-track is also to be made from this road to the Waipatiki River to meet the present track to Mohaka. The right to use the present formed horse-track is reserved to the public until such time as the new roads are formed and opened.

The estate generally consists of good limestone country, intersected by deep gullies carrying good water. Section No. 5, Block IV, Puketapu Survey District, and Sections Nos. 6, 7, and 8, Block I, Tongoio Survey District, also have small alluvial flats of good quality. Sections Nos. 4, 5, and 12, Block I, Tongoio Survey District, contain the Punakurua Swamp, which could easily be drained. There is no timber suitable for fencing purposes, the only growth being manuka, ngaio, and other kinds of scrub. Blackberries have spread on to some of the sections, chiefly on the hillsides facing Te Ngaru and Kotomangengi Streams. Many of the sections are, however, almost free from them. All have been cut within the last two years, and with the help of the Angora goats are now well under control.

The sections as a whole are covered with a good sole of grass, but places have gone back to native pasture, and required to be resown. Rat-tail is found on all the sections, but principally near the coast. Immediate possession will be given.

They have been copied, however, as they stand in the General Register; and if they are inaccurate in any case it is because the changes of residence have not been officially notified to the Registrar-General, as it is obviously desirable that all such changes should be.

Fairly good pastoral country, some of which along the Ure River is good limestone formation. There is some scrub and light bush, but the major part is covered by tussock, with a little imported and native grass. Access is by the Ure River bed, six miles and a half from the main coach road to the homestead-site, which is rather cramped and bad. A wagon can generally be taken to within half a mile of this, but a good road can never be expected because of the floods which occasionally stir up the river-bed.

Situated generally in the Middle Clarence Valley on the left or north bank of the river between Boundary and Red Hill Streams, and extends to the summit of the Inland Kaikoura Mountains. The altitude varies from about 300 ft. at Boundary Stream to 9,465 ft. at the summit of Mount Tapuaenuku. The quality of the soil varies very much, some of the land in the valley and low hills being good limestone formation; some fairly good flats and pastoral country, with much rough mountain-faces, said to be much infested with rabbits. The run is much cut up by small scattered freeholds, and the only access at present is through adjoining freeholds and leaseholds.

Situated to the north side of Kaituna Valley, about sixteen miles by good road from Blenheim, and varies in altitude from 200 ft. to 2,000 ft. It consists of hillsides of inferior to fairly good quality, and upon which the native grasses are increasing. It is covered generally on the south with short manuka and fern, with a sprinkling of flax and scrub, and on the north generally with fern and patches of bush in the gullies, and is fairly well watered. The run is fenced only along portions of the boundary, and, as in addition to partly adjoining it is also intersected by freehold land, there is an expensive contingent liability in regard to the balance of the fencing.
