BY-LAWS OF THE ELLESMERE ROAD DISTRICT.

In pursuance of the powers, provisions, and authorities contained in "The Road Boards Act, 1908," "The Public Works Act, 1908," and of all other enabling powers, provisions, and authorities contained in any other Acts, or otherwise vested in them, the inhabitants of the Ellesmere Road District by the Ellesmere Road Board (hereinafter called "the Road Board") do hereby make and ordain the following by-laws for regulating the conditions on which vehicles, engines, and machines engaged in heavy traffic may be allowed to pass along the public roads within the said road district, and for providing for a yearly license fee on all traction-engines engaged in heavy traffic within the said district, and for regulating the maximum weight of loads, and the speed of traction-engines, and for making other provisions relating to vehicles, engines, and machines, and to the owners and drivers thereof, and for imposing penalties for the breach of the by-laws:—

1. The term "traction-engine" or "engine" where used in these by-laws means a locomotive engine propelled by steam or other motive power, not being used on a railway or tramway. The word "road" means a road as defined in "The Public Works Act, 1908," and situated within the Ellesmere Road District, and includes county roads, district roads, and any roads actually in use by the public. "Local authority" shall have the same meaning as in "The Counties Act, 1908," and shall apply to local authorities having jurisdiction within the Ellesmere Road District. Words importing the singular number include the plural number, and words importing the plural number include the singular number, and words importing the masculine gender include females.

2. Whenever a traction-engine shall be propelled upon a road the person in charge of such engine shall cause a strict and efficient look out to be maintained behind as well as in front of the engine, and shall provide two efficient lights, to be fixed conspicuously, one on each side, on the front of the engine, and one efficient tail-light in the rear of the engine, or if wagons or other vehicles are being drawn by such engine, then in the rear of the last wagon or vehicle so drawn, such light to be kept burning from half an hour after sunset to half an hour before sunrise.

3. Two persons at least shall be employed to drive or conduct any traction-engine upon a road, and the owner of such engine shall be responsible for the observance of this by-law.

4. The driver of any traction-engine upon a road shall give as much space as possible for the passing of other traffic.

5. Whenever any person riding on horseback or driving a horse or horses in a vehicle upon or along a road shall be approaching an engine, and shall indicate his desire by holding up his hand or otherwise signalling for the driver of such engine to stop such engine, such driver shall thereupon immediately stop the same; and also shall, upon being requested by such person so riding or driving as aforesaid so to do, give such person such assistance as may be necessary for the purpose of enabling him to pass by such engine with his horse or horses in safety.

6. It shall not be lawful for any person to propel any traction-engine or to cause the same to be propelled upon any road or highway at a greater rate of speed than seven miles an hour, and when passing through a town or village at a greater rate of speed than five miles an hour. While crossing any bridge or culvert the speed of the engine shall not exceed two miles an hour.

7. It shall not be lawful for any person to sound the whistle of any traction-engine or cause the same to be sounded, or to open the cylinder-tap or cause the same to be opened, or to cause or permit the steam of any traction-engine to be blown off or allowed to attain a pressure exceeding the limit fixed by the safety-valve, within a distance of 10 chains from any person riding or leading a horse or driving any vehicle on any road or bridge.

8. It shall not be lawful for any person to take any traction-engine or propel it upon a bridge while any person riding or leading a horse or driving a horse with a vehicle is upon such bridge, or to stop any engine or wagon attached thereto on any bridge or culvert for the purpose of drawing water from any stream, water-race, or ditch passing under or through such bridge or culvert, or for any other purpose.

9. It shall not be lawful for any person to rake out or discharge ashes or other refuse from the furnace of any traction-engine upon any bridge or culvert, or upon any road within a distance of 1 chain from any bridge or culvert or the approaches thereto; and in every case where such ashes or other refuse are discharged upon a road they shall not be left in a heap, but, if alight, having first been effectually extinguished, shall be spread out upon the road or the sides thereof in such a manner that the road or the sides thereof shall be kept even and the level thereof maintained.

10. No person shall drive, propel, or take any traction-engine upon, across, or along any bridge or road if such engine has studs or other pieces or rings of iron or other metal attached to or raised upon the level of the face of the tires of its wheels for the purpose or which shall have the effect of sinking into, gripping, or breaking the surface of any bridge or road.

11. It shall not be lawful for any person to drive or take any traction-engine upon a road hauling any wagon having tires of less than 6 in. in width.

12. 13. Any person authorised in that behalf by the Ellesmere Road Board may stop and detain any traction-engine hauling any wagon upon a road which in his opinion infringes either of the last two preceding by-laws until the width of the tires of such wagon or the weight of the load carried thereon can be ascertained, and any person obstructing such officer in making such investigation shall be guilty of a breach of these by-laws.

14. The person in charge of an engine shall give immediate notice to the Surveyor, Clerk, or road foreman of the Ellesmere Road Board of any damage or injury done by the engine or any wagon attached thereto to any road, or to any fence, bridge, culvert, watercourse, drain, side ditch, or other thing appertaining to any road; and, if such damage has rendered the road or its appurtenances dangerous for ordinary traffic or to public safety, the owner or person in charge of such engine shall, in addition to giving such notice as aforesaid, place and maintain in such position, and for such time as the Surveyor, Clerk, or foreman of the Road Board shall direct, such signals as shall be sufficient to give warning to all persons using such road by day or by night of the existence of such danger, and such damage shall be forthwith repaired and made good by or at the expense of the owner or person having charge of such engine.

15. In crossing bridges or culverts at which planks are provided by the local authority in charge thereof the driver or person in charge of any traction-engine shall lay down such planks, and the engine shall not be taken upon or over any such bridge or culvert except on such planks; and after crossing such bridge or culvert such owner or person in charge of such engine shall return such planks to their proper position at the sides of the bridge.

The lettering and numbers shall be kept clear and legible. The exact and true weight of every engine shall also be painted in like manner upon or affixed to some conspicuous part of such engine.

18. It shall not be lawful for any person to drive any traction-engine upon a road in suchwise that all or any of its wheels shall travel in ruts formed in the road by the wheels of the same or any other traction-engine.

19. The owner of every traction-engine travelling within the Ellesmere Road District, or some person on his behalf, shall register the same with the Clerk of the Ellesmere Road Board, and shall renew such registration every year, on or before the 15th day of January in each year. Every registration of a traction-engine shall be made by the owner of such engine, or some person on his behalf, delivering at the office of the Ellesmere Road Board to the Clerk of the said Board

In the event of a traction-engine being first brought into use in the district after the 30th day of June in any year, the owner shall forthwith register the same in manner aforesaid, but the fee payable for the registration in respect of the then current year shall be 10s. only. Every change of ownership of any traction-engine travelling within the district shall be forthwith notified to the said Clerk by the new owner thereof, who shall also pay a fee of 1s., and the said Clerk shall thereupon indorse upon the existing certificate of registration of the engine a notification of the change of ownership.

20. The Clerk of the Ellesmere Road Board for the time being shall keep a register-book, in which he shall enter, or cause to be entered, particulars of the registration or change of ownership of every traction-engine registered with him under the preceding by-law.

Flat agricultural land. Good soil, on clay subsoil. Well grassed. Distant seventeen miles and a half from Gisborne by coach-road.

12 | XV | 5 0 0 | 100 0 0 | 2 5 0

Agricultural land, comprising flat and low downs. Good soil, on clay subsoil. Well grassed. Distant about seventeen miles and a half from Gisborne by coach-road.

General Description.

The south-east end of the settlement is seventeen miles distant by road from Gisborne. Most of this distance, with the exception of about two miles, is good metalled road. The Wharekopae and Totangi Roads leading through the estate are already formed with the exception of a few short deviations from the old lines. The Taumatapoupu and Ngatapa-Ormond Roads will shortly be formed as far as necessary to give access to the sections abutting thereon.

The settlement comprises some good flats and downs, but is chiefly hilly land at an elevation between 150 ft. and 1,200 ft. above sea-level. The steepest of the ridges are not difficult of access, and horses can be ridden over nearly the whole area. The climate is equable, and the estate fairly well watered throughout. In very dry summers water may be scarce on the higher parts. A portion of the flats are occasionally flooded during exceptionally heavy rainfalls.

The flats consist of good alluvial soil, the hills of friable marl with a slight admixture of pumice, resting generally on a rubby papa subsoil. In places the proportion of pumice is greater and the subsoil somewhat stiff and a little cold. The land was originally covered with manuka scrub and light bush, most of which has been cleared, and the land sown with English grasses. The pasture is a mixture of the native dantonias and English grasses, the latter being more predominant where the land has been stocked with cattle. As an indication of what can be done with even the poorest of the estate, the paddock in front of the homestead can be taken as an example. This is said to have formerly looked the poorest of the whole estate.

Sites have been reserved for a creamery, school, stock-paddock, and other purposes.

The estate is within the Gisborne Harbour Board rating-area, but at present the Harbour Board does not levy any rates.

Until quite recently it has been farmed as part of a large run, and the paddocks are consequently large. With smaller holding better results may be expected, but even now it is said to winter about 9,500 sheep and 2,000 head of cattle, &c.

The estate is very free from noxious weeds. The buildings, with the exception of part of the old homestead and cookhouse, are in very good order, the greater part having only been erected about seven or eight years. The fences also have been kept in good condition.

The successful applicants can take immediate possession.

The present owner has, however, the right to graze stock till the 31st March, 1910, but probably will not exercise this privilege.

Commissioner of Crown Lands.

GENERAL DESCRIPTION.

The Sloane Settlement is situated from three-quarters of a mile to a mile and a half from the Belfast Railway-station, on the northern trunk railway-line, by a good road. Belfast is distant nine miles from Christchurch by rail. The property has been acquired by the Government for the purpose of providing working-men and others engaged in the industries established at and near Belfast with small lots on which to settle permanently and make homes for themselves and their families. The rents are reasonable and the terms secure. The settlement adjoins the property of the Canterbury Frozen Meat Company, and is close at hand to the company's freezing-works and other industries established at and in the vicinity of Belfast.

The quality of the land is good, being alluvial deposit on a substratum of shingle. The land is practically level, with a slight fall to the Kaputone Stream. Excellent crops of potatoes, onions, oats, clover, &c., have been grown on the property. All the sections, with the exception of Nos. 2, 3, 12, and 13, have frontages to Kaputone Stream. There are artesian bores on Sections 3 and 12, and a well on Section 11. Water can be obtained on any of the sections by sinking a short distance. The fences along the frontages of Sections 3, 4, 5, 12, and 13 are erected on the public road, and the obligation of removing them to the legal boundaries is imposed on the tenants.

Section 5 contains a good barn and cow-byre, and shed, and as part of the latter is standing on the road it will have to be removed when the Commissioner of Crown Lands or the local body so directs. Section 12 contains a comfortable cottage of five rooms, with conveniences, valued at £185, repayable by the tenant in cash, or in twenty-one years by half-yearly instalments of £7 4s. 4d.

In the matter of "The Public Works Act, 1908"; and in the matter of "The Land Drainage Act, 1908."

NOTICE is hereby given that the Sefton-Ashley Drainage Board, incorporated under the provisions of "The Land Drainage Act, 1908," requires to take, under the provisions of "The Public Works Act, 1908," for the public work hereinafter described,—

All that parcel of land, being part of Rural Section 2051, situated in the Rangiora Survey District of the Provincial District of Canterbury, containing by admeasurement 1 rood 22 perches, more or less, the boundaries of which are as follows: Commencing at a point on the western boundary of the said section, the said point being distant 1268 $\frac{4}{10}$ links southerly from the north-western corner of the said section; thence south-easterly and bearing 132° 28' 30" true, a distance of 799.05 links; thence north-westerly and bearing 270° 27' 30" true, a distance of 74 $\frac{7}{10}$ links; thence north-westerly and bearing 312° 28' 30" true, a distance of 380.15 links; thence north-westerly and bearing 310° 34' 30" true, a distance of 306.7 links; and from thence returning northerly by a straight line, a distance of 82.8 links, to the commencing point.

The following is a general description of the works proposed to be executed by the said Board on the said parcel of land, namely: A protective bank of earth and shingle, of an average height of about 5 ft., and an average width at the base of about 15 ft. and on the top of 5 ft.; a wire fence on each side of such parcel of land, with willows planted on the said bank and on the said parcel of land; the whole to form protective works to prevent the River Ashley from overflowing on to or encroaching on the adjoining lands in the Sefton-Ashley Drainage Board District.

And notice is hereby further given that a plan showing the land required to be taken, and the names of the owners and occupiers of such land so far as they can be ascertained, is deposited at the general store of James Barclay, situated opposite the Government Railway-station at Sefton, where the same lies open for public inspection daily without fee during all reasonable hours.

And notice is also given that all persons affected by the execution of the said public work or by the taking of the said land shall, if they have any well-grounded objection to the taking of such land or to the execution of such public work, set forth in writing such objection, and send such writing, within forty days from the date of the first publication of this notice, being the 26th day of January, 1910, to the Chairman of the Sefton-Ashley Drainage Board, addressed to him at the office of the said Board in Sefton aforesaid.

Dated this 25th day of January, 1910.

THOS. WYLLIE,
