"St. Louis," and published in Notice to Mariners No. 36 (2027) of 1909, have been remedied.

The white tripod on Breaker Point is now a solid white tower 16 ft. high, 16 ft. across the bottom, and 4 ft. square at the top. It is 188 ft. above the sea-level, and can be seen by the naked eye from Sail Rock, a distance of 5 miles.

The range at the Catholic Mission has been improved. The original back range mark is now the front range, and a new rear range tower has been erected 300 ft. from the front tower. The present front tower is of solid white, 11 ft. high, 12 ft. across the bottom, 4 ft. square at the top, and stands 75 ft. above sea-level. The rear range tower is of solid white, 8 ft. high, 12 ft. across the bottom, 4 ft. square at the top, and stands 150 ft. above sea-level.

A white fan-shaped structure surmounts the rear tower in rear of the light.

This range is easily distinguished from some distance outside Breaker Point.

The range marks at Steppes Point are now solid white towers, the rear (eastern) one being 24 ft. high, 16 ft. across the bottom, and 4 ft. square at the top, elevated 75 ft. above sea-level, and the front (western) one, 7 ft. high, 10 ft. across the bottom, and 4 ft. square at the top, elevated 66 ft. above sea-level. They can be seen several miles at sea.

The light on Anuu Island is now shown from a white tower 14 ft. high, 16 ft. across the bottom, and 4 ft. square at the top, elevated 250 ft. above sea-level.

Vessels approaching Pago Pago Harbour from any direction should experience no trouble in making out the different ranges as they are now constructed and painted.

SOUTHERN INDIAN OCEAN.

KERGUELEN ISLAND.—SOLITARY ISLAND.—CORRECTED POSITION.—Capt. Charles C. Dixon, of the British ship "Arctic Stream," reports the existence of an island south-westward of Kerguelen Island, Southern Indian Ocean, in (approximately) latitude 50° 05' 30" S., longitude 68° 13' 30" E. The longitude was obtained by taking the mean of ten observations and was checked by the distance run by patent log, corrected for current, from a point 5 miles due south of the island to a point midway between and on a line joining Round Island and the eastern islet of the Benodet Group.

Captain Dixon was uncertain whether this island was Solitary Island or a newly discovered and uncharted island, but, owing to the fact that Solitary Island was not seen during the run of the ship past its assigned position, the inference is that the island observed was Solitary Island.

GENERAL DESCRIPTION.

Kohika No. 2 Settlement is situated on the downs which rise to the eastern slopes of the Hunter's Hills Range. The point where the road crosses the Makikihi River and enters the settlement is about six miles in a north-westerly direction from the railway-station at Makikihi. The latter is on the Main Trunk Railway line, Christchurch to Dunedin, about one hundred and eighteen miles from Christchurch and eighteen miles from the Port of Timaru. The main road leading down the Makikihi Valley is well formed and metalled. The original Kohika Settlement, formerly part of Mr. T. J. Teschmaker's ~~State~~ Estate, which was established in 1901 and is now a prosperous settlement, lies about three-quarters of a mile in a direct line eastward from the Kohika No. 2 Settlement.

The settlement lies at an elevation of about 500 ft. above sea-level. It comprises open undulating arable downs land, intersected by broken watercourse channels and by a creek. The soil is of good quality on clay subsoil. About 49 acres on Section 3 and 41 acres on Section 4 have been ploughed; the remainder of the settlement is all in old cultivated grass pasture, with the exception of the terrace faces, which are in tussock.

A new road has been laid out through the settlement in order to give suitable access to each section, and this road will be constructed by the Government in due course. Provision has also been made for the erection of a light footbridge across the Makikihi River at the entrance to the settlement.

IMPROVEMENTS.

The improvements on the sections consist of fencing only, the value of which is included in the prices of the sections. Particulars of the improvements are as follow: Section 1, half-value of 131 chains of boundary-fencing, £20 18s. 9d. Section 2, half-value of 76 chains of boundary-fencing, £12 1s. 9d. GENERAL DESCRIPTION.

Ruapuna No. 2 Settlement is situated between the Rangitata River and the south branch of the Ashburton River. The south-easternmost corner of the settlement is about twenty miles in a north-westerly direction from Ashburton. The same point on the settlement is about fifteen miles and a half in a north-westerly direction from Hinds Railway-station, the latter being on the Main Trunk Railway line, Christchurch to Dunedin, about sixty-four miles from Christchurch, or thirty-six miles from the port of Timaru. The settlement may also be approached from the railway-station at South Rangitata (seventy-five miles from Christchurch), a distance of about sixteen miles across the Upper Rangitata traffic-bridge at Arundel, or from the flag-station at Ealing (seventy-two miles from Christchurch) a distance of about twelve miles. The roads leading to the settlement are level, and the main roads are formed and metalled.

The settlement lies at an elevation of about 1,000 ft. above sea-level. It consists of agricultural and pastoral land of good light quality, with soil varying from 5 in. to 10 in. on clay. The land is capable of growing excellent grass and root crops, and has been used almost entirely for sheep-farming and lamb-fattening. Crops of turnips and rape have recently been fed off parts of Sections 6, 7, 8, 9, 10, 11, 12, 13, and 14. The remainder of the settlement is in cultivated pasture, with the exception of Sections 5 and 6, the whole of which, exclusive of the areas recently cultivated, are in the original native pasture. All the sections are watered by county water-races. There is a good rainfall, and the climate is generally mild, owing to the prevalence of north-west rains.

A right is reserved in favour of the owner of certain stacks on the property of removing the same, and the successful applicants for the sections on which the stacks stand will take subject to this right.

IMPROVEMENTS.

The buildings on Sections 6, 12, and 14 are not included in the price of those sections, but are to be paid for separately. They are as follow: On Section 6, cottage of five rooms and outbuildings, and stable with twelve stalls combined with granary; the whole of these improvements are valued at £235, and may be paid in cash or by instalments extending over a period of fourteen years. On Section 12, dwellinghouse of seven rooms and conveniences, valued at £500, which may be paid in cash or by instalments extending over twenty-one years. On this section there are also a four-roomed cottage and shed and stable, these buildings being valued at £100, which may be paid in cash or by instalments extending over a period of seven years. On Section 14 there are a cottage of seven rooms, stable, harness and chaff room, blacksmith's shop and tool-shed, cart-shed, men's hut of two rooms, and swaggers' hut; the whole of these buildings are valued at £197, which may be paid in cash or by instalments extending over a period of seven years. On this section there is also a large wool-shed and grain-store, valued at £200, which may be paid in cash or by instalments extending over a period of twenty-one years.

The selectors of Sections 12 and 14 may (upon payment of the capital value of any such building) apply to the Land Board for permission to dispose of any of the smaller buildings for removal.

GENERAL DESCRIPTION.

Clandeboye No. 2 Settlement is situated between the Orari and Rangitata Rivers, and adjoins the Clandeboye Settlement, which has already been successfully disposed of, and is now being occupied under similar conditions. The westernmost corner of the settlement is about six miles and three-quarters in a north-easterly direction from the railway-station at Temuka, the latter being on the Main Trunk Railway line, Christchurch to Dunedin, about eighty-nine miles from Christchurch, or eleven miles from the port of Timaru. Winchester Railway-station, which is four miles northward from Temuka, is about eight miles from the western end of the settlement. The main roads leading to both Temuka and Winchester are well formed and metalled.

The land included in the settlement is flat, and was formerly swamp, which has now been drained. The soil rests on a clayey subsoil overlying shingle. The greater portion of the area is in grass, but turnip crops have recently been fed off parts of Sections 1, 2, and 3; parts of Sections 3 and 4 are now in rape stubble, and parts of Sections 4 and 5 are in fallow.

The sections are excellently adapted for use as dairy-farms. The Clandeboye Creamery, which is worked in conjunction with the dairy factory at Timaru, is situated on a small block of freehold at the northernmost corner of Section 1. The Clandeboye Public School is situated a few chains from the site of the creamery.

There are good formed and metalled roads along both the north-western and north-eastern frontages of the settlement. A new road has been laid off along the south-western boundary of the settlement, separating it from the Clandeboye Settlement, and this road will be formed and metalled by the Government in due course.

The whole of the improvements on the settlement are included in the prices of the sections. Particulars of the improvements are as follow: Section 1, 35½ chains of road-boundary fencing; total value, £26 12s. 6d. Section 2, 56 chains of road-boundary fencing; total value, £32 15s. Director: MR. J. E. STEVENS.

FOR Deaf Children of sound intellect. The pupils are taught to use and understand ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act, the education of deaf children between the ages of 7 and 16 is made compulsory. A child is, as a rule, best fitted to begin the school course at about the age of 6, but advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted:—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in an ordinary school.
3. Children who have lost their hearing after having learned to speak.

Parents and other persons acquainted with such cases above the age of 4 are invited to communicate with the Director, or with
