And whereas in the special order authorizing the raising of the said loan made the twelfth day of February, one thousand nine hundred and ten, by the Waimarino County Council, the area over which a special rate should be made as security for the said loan was referred to as "The Morikau No. 1 Special Rating District" :

Now, therefore, His Excellency the Governor of the Dominion of New Zealand, in pursuance and exercise of the power and authority conferred by section one hundred and twenty-one of the Local Bodies' Loans Act, 1908, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby order and declare that the proceedings taken for the raising of the said loan of thirteen thousand five hundred pounds shall not be called into question by reason only of the irregularity aforesaid.

Subsidies to Public Libraries.

Education Department,
Wellington, 26th October, 1910.

NOTICE is hereby given that the sum of £3,000 has been voted by Parliament for distribution to public libraries.

The distribution will take place on the 3rd February, 1911, and no claim will be entitled to consideration that shall not have been sent in in due form and received by the Secretary for Education, Wellington, on or before the 27th January, 1911.

1. A library to be entitled to a subsidy must be public in the sense of belonging to the public, and of not being under the control of an association, society, or club whose membership is composed of a section of the community only, and if within a borough it must be open to the public free of charge. The receipts for the year from subscriptions and donations must not have been less than £2, exclusive of moneys received from endowments, or from Government, or from Borough or County Councils, or for special building purposes, or as rent, hire, or consideration for the use of any room, or building, or land belonging to the institution, in respect of none of which will subsidy be allowed. The *net* proceeds of concerts, lectures, or other entertainments on behalf of the current expenses of the library will be regarded as voluntary contributions. A subsidy will not be given to more than one library in the same town.

2. In the division of the vote a nominal addition of £25 will be made to the amount of the income of each library derived from subscriptions, donations, and rates, and the vote will be divided according to the amounts thus augmented; but no library will receive credit for a larger income than £75—that is, in no case will the augmented amount on which distribution is based exceed £100.

3. The whole of the subsidy must be expended without delay in the purchase of books for the library.

4. Application to share in the distribution must be by means of a statutory declaration by the Chairman, or Sec-

retary, or Treasurer of the institution on behalf of which it is made, and must be accompanied by a statement of the receipts and expenditure of the institution for the year ending on the 31st day of December, 1910; and such declaration must be on the form provided for the purpose, which form shall be as follows:—

* These remaining suburbs do not lie within borough boundaries, and particulars respecting them have not been obtained for the Vital Statistics. Closely correct annual statements of population outside boroughs are not obtainable.

In the above table are given the deaths and death-rates for each of the four cities, for the suburban boroughs severally, and for each city with its suburban towns. As regards Auckland and Christchurch, the whole of the area usually recognized as suburban has not yet been brought under municipal government, and the vital statistics do not deal with such portions as still remain in road districts. But the omission is not very important, for there are in either case quite enough suburbs included within borough boundaries to give a fair idea of the death-rate of Greater Auckland and Greater Christchurch. As further boroughs are formed the vital statistics will be made to include them.

Deaths occurring at hospitals, of persons not residents of the borough wherein the hospital is situated, have been allotted in each case to the borough where the disease was contracted, and not to that in which the death actually took place.

The inclusion of the suburban boroughs tends to lower the rate at Auckland, Wellington, and Dunedin, but raises it at Christchurch.

	Death-rates per 1,000 of Population.	
Auckland City	1.13	
and seven suburban boroughs		0.88
Wellington City	0.61	
and three suburban boroughs		0.58
Christchurch City	0.73	
and three suburban boroughs		0.76
Dunedin City	0.93	
and five suburban boroughs		0.83

Including the suburbs, the rate at Auckland is the highest, and at Wellington the lowest.

Compared with October, 1909, the results are,—

	1909.	1910.
Auckland and suburbs	0.65	0.88
Wellington and suburbs	0.69	0.58
Christchurch and suburbs	0.74	0.76
Dunedin and suburbs	0.93	0.83

The total births in the above boroughs amounted to 618, against 593 in September—an increase of 25. The deaths in October were 213—a decrease of 8 on the number in September. Of the total deaths, males contributed 108, females 105. Twenty-nine of the deaths were of children under five years of age, being 13.62 per cent. of the whole number; 17 of these were under one year of age.

There were eighty-two deaths of persons of 65 years and upwards: Fifteen men, 66, 68, 69, 70 (two), 71, 73 (two), 75, 77, 79, 80, 81, 84, 87, and seventeen women, 67 (two), 69 (two), 70 (two), 72 (three), 74, 76 (three), 84, 90, 94 (two), died at Auckland; seven men, 65, 66, 81, 82 (two), 87, 88, and four women, 67, 68, 70, 83, at Wellington; nine men, 66, 69, 73 (two), 76, 78 (two), 79, 89, and ten women, 65 (three), 66, 71, 72, 76, 83, 89, 95, at Christchurch; and thirteen men, 69, 72 (two), 73 (two), 75 (two), 76, 79 (three), 82, 83, and seven women, 69, 70, 72, 76, 82, 83, 85, at Dunedin.

GENERAL DESCRIPTION.

The Meadows Settlement is situated between the Christchurch-Dunedin Main Trunk Railway line and the well-known Washdyke Lagoon, the south-western corner of the settlement being distant about half a mile from the Washdyke Junction Railway-station, at the junction of the branch line to Fairlie with the main line. The distance from the business portion of the Town of Timaru to the settlement is about four miles, and the Washdyke school lies within a distance of one mile.

The settlement consists of flat agricultural land of good quality, on subsoil of clay and gravel. The quality of the land and its situation, together with the proximity of the dairy factory at Timaru, render it admirably adapted for small-farming and dairying purposes. The road leading through the settlement and giving access to the various sections will be constructed by the Government in due course.

The buildings on the homestead section are in particularly good order, the dwellinghouse being built of brick; there is a good garden, and the grounds are well laid out.

IMPROVEMENTS.

The improvements which are not included in the price of the sections, but which have to be paid for separately by the selectors, are the buildings on Sections 1 and 14, as follows:—

On Section 1: Dwellinghouse built of brick, containing seven rooms, with conveniences; detached washhouse and dairy; barn containing store-rooms, trap-sheds, stalls, &c.; draught stables; implement-shed; sheep-yards; wind-mill and tank. The whole of these improvements are valued at £695, to be paid for in cash or by half-yearly instalments of £27 2s. 2d. for a period of twenty-one years.

On Section 14: Five-roomed cottage built of wood, with iron roof. Valued at £65, to be paid for in cash or by half-yearly instalments of £4 4s. 2d. for a period of ten years.

The improvements included in the price of the sections are as follows:—

Section 1: Half-value of 88½ chains of boundary-fencing and whole value of 30 chains of subdivision-fencing, £55 13s. 9d.

Section 2: Half-value of 23½ chains of boundary-fencing, £8 16s. 3d.

Section 3: Half-value of 23½ chains of boundary-fencing, £8 16s. 3d.

Section 4: Half-value of 77½ chains of boundary-fencing and whole value of 17 chains of subdivision-fencing, £41 16s. 3d.

Section 5: Half-value of 66½ chains of boundary-fencing and whole value of 16 chains of subdivision-fencing, £33 15s.

Section 6: Half-value of 68 chains of boundary-fencing and whole value of 33½ chains of boundary and subdivision fencing, £30 10s. 6d.

Section 7: Half-value of 90½ chains of boundary-fencing and whole value of 26½ chains of boundary and subdivision fencing, £26 13s. 6d.

Section 8: Half-value of 71½ chains of boundary-fencing and whole value of 12½ chains of boundary-fencing, £25 8s. 2d.
