GENERAL DESCRIPTION.

Generally speaking, sections for selection lie midway between the Waihou River and Piako River, and extend from the Kerepehi-Turua-Netherton Road northwards.

The land is all excellent alluvial clay-deposit on sand, and none of the land offered for selection has any peat on it. It is all level, and is partly drained, and with the exception of Sections 12 to 15 and 17 to 20 inclusive, Block II, Waihou Survey District, are all in worked-out kahikatea bush, the remaining timber being of a generally light nature.

All roads, drains, and stop-banks shown on poster are either constructed or under construction, and will be completely finished by the Department.

The sections near the Piako River are covered with raupo and puroa grass.

Access to the lands is from Kopuarahi Wharf, on Piako River (readily reached from Thames by launches working under tidal conditions), and also from Turua, Kerepehi, and the several temporary landings erected where necessary on the Piako River.

Attention is drawn to the fact that rough sleeping-accommodation has been provided for intending selectors, at a point known as "The Bush Shanty." Selectors must, however, provide their own blankets and provisions.

Various launches ply for hire between Thames and Piako River every day under usual tidal conditions.

Artesian bores have been sunk by the Department at several points on the Hauraki Plains, and very good flows have been obtained. The water is, however, mineralized, but is excellent for stock purposes. The Department is prepared to sink bores for selectors at practically cost price.

Guides will, where necessary, be stationed at different points to show selectors the various sections, but generally speaking, selectors will not have the slightest difficulty in locating each section.

All road-lines forming boundaries of sections must be securely fenced so that cattle shall not damage the drains or stop-banks.

Stop-banks, roads, drains, and protective works considered necessary will be completed by the Department. All main drains will be maintained for two years from date of ballot.

The Department reserves the right at any time to make new drains or deepen drains through any section.

IMPROVEMENTS.

Attention is drawn to the fact that the fence and drain shown on eastern boundaries of Section 14, Block XI, Thames Survey District; Sections 7 and 16, Block II, Waihou Survey District; Section 7, Block VI, Waihou Survey District; and Section 1, Block VII, Waihou Survey District, have been erected and constructed by Messrs. Bagnall Bros. at their own expense. The fence where shown on plan is generally along the boundary-lines of sections mentioned, but the drain is entirely on the property of Messrs. Bagnall Bros.

The improvements which go with the land are as follows, the measurements being in all cases approximate:—

Block II, Waihou Survey District.

Section 13: 25 chains of combined drain and stop-bank. Section 14: 25½ chains of combined drain and stop-bank. Section 15: 34½ chains of combined drain and stop-bank. Section 17: 1½ chains of drain. Section 18: 35½ chains of combined drain and stop-bank. Section 19: 13½ chains of combined drain and stop-bank. There are also some old drains through the above sections, and also on Sections 12 and 20.

Block VI, Waihou Survey District.

Section 10: 40 chains of new subdivisional fence, and 17 acres of grass in good heart.

Block VII, Waihou Survey District.

Section 1: 22½ chains of new subdivisional fence, and 10 acres of grass in good heart. Section 2: 35 chains of new subdivisional fence, and 14 acres of grass in good heart.

As witness the hand of His Excellency the Governor, this tenth day of December, one thousand nine hundred and ten.

GENERAL DESCRIPTION.

The Town of Pipiroa is situate in Hauraki Plains, on the west bank of the Piako River. The nearest access is by launch or steamer, &c., from Thames, which is distant about seven miles. Through-access roads from Pokeno and Waerenga Railway-stations pass directly through the town to Pipiroa Wharf, and then continue from the Kopuarahi Wharf to Turua and Kerepehi, these roads being now under construction.

The town lands are partly drained alluvial clay-deposit, and covered with native grass, manuka, and some mangrove. Some of the sections have small dried-up watercourses through them, which can, however, be readily filled in.

The suburban lands are also partly drained alluvial clay-deposit, and the vegetation consists of light and heavy manuka in places, raupo, cabbage-trees, native grasses, &c. There are a few dried-up watercourses passing through some of the sections, which can, however, be readily filled in.

The rural lands are similar in character to the suburban sections.

The roads will be duly formed and stop-bank and other protective works maintained for a period of two years by the Department.

As witness the hand of His Excellency the Governor, this tenth day of December, one thousand nine hundred and ten.

NOTICE is hereby given that the sum of £3,000 has been voted by Parliament for distribution to public libraries.

The distribution will take place on the 3rd February, 1911, and no claim will be entitled to consideration that shall not have been sent in in due form and received by the Secretary for Education, Wellington, on or before the 27th January, 1911.

1. A library to be entitled to a subsidy must be public in the sense of belonging to the public, and of not being under the control of an association, society, or club whose membership is composed of a section of the community only, and if within a borough it must be open to the public free of charge. The *net* proceeds of concerts, lectures, or other entertainments on behalf of the current expenses of the library will be regarded as voluntary contributions. 3. The whole of the subsidy must be expended without delay in the purchase of books for the library.

4. Application to share in the distribution must be by means of a statutory declaration by the Chairman, or Secretary, or Treasurer of the institution on behalf of which it is made, and must be accompanied by a statement of the receipts and expenditure of the institution for the year ending on the 31st day of December, 1910; and *such declaration must be on the form provided for the purpose*, which form shall be as follows:—

#### LOCALITY AND DESCRIPTION.

Maraetaua Nos. 9c and 10 are situated on both sides of the Te Kuiti-Awakino Road, which intersects the block for a distance of about three miles. The road is metalled, and provides convenient access to Te Kuiti, probably the most prosperous township in the King-country. The portion of the block lying to the north of the Mokau River is in particular a good piece of country, in the main well suited for

dairying, while the portion lying to the south of the river should be suited for carrying sheep and cattle.

Maraetaua No. 2B Nos. 3 and 4 are off the main Te Kuiti-Awakino Road, but a road has been surveyed to give access to that road. This surveyed road will be formed by the Board. This land also is of good quality, and well adapted for dairying; while the access to be provided will place it within easy distance of Te Kuiti.

The areas of these blocks may be subject to slight alteration.

The lands are described for the general information of intending selectors, who are recommended, nevertheless, to make a personal inspection, as the Board is not responsible for the absolute accuracy of any description.
