Validating the Proceedings taken by the Raglan County Council in connection with a Loan of £8,000 to complete the Formation and Metalling of the Ngaruawahia and Waimai Road applied for by the Raglan County Council in September, 1906.

ISLINGTON, Governor.

ORDER IN COUNCIL.

At the Government House, at Wellington, this twenty-seventh day of February, 1911.

Present :

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

WHEREAS in September, one thousand nine hundred and five, the Raglan County Council applied to the Colonial Treasurer, under the provisions of the Local Bodies' Loans Act, 1901 (hereinafter called "the said Act"), and its amendments, for a loan of eight thousand pounds, for the purpose of completing the formation and metalling of the road from Ngaruawahia to Waingaro, the road from Waingaro to Waimai, and the Waingaro Beach Road: And whereas by section sixteen (subsection one) of the said Act it is provided that the special rate to provide for the payment of interest or interest and sinking fund upon any special loan shall be made and levied by special order duly gazetted: And whereas a special order of the said Council purporting to make and levy a special rate in respect of such loan was passed by the said Council on the tenth day of January, one thousand nine hundred and six, and confirmed on the twelfth day of February, one thousand nine hundred and six: And whereas the form of special order gazetted by the said Raglan County Council in *Gazette* No. 18, of the eighth day of March, one thousand nine hundred and six, did not correspond with the special order so purported to be made by the said Council, inasmuch as the said special order as appearing in the minute-book of the said county purports to exempt Crown and Native lands occupied by Native owners situated within the rating area for the said loan from payment of the said special rate of one and a half pence in the pound on the rateable value of all rateable property in the Waingaroa-Tainui Special Rating District: And whereas the special order as appearing in the *Gazette* No. 18, of the eighth day of March, one thousand nine hundred and six, and as advertised in the *Waikato Argus* newspapers of the sixteenth, twenty-third, and thirtieth January, and sixth February, one thousand nine hundred and six, makes and levies the said rate over the whole of the rateable value of all rateable property in the Waingaroa-Tainui Special Rating District, and omits the words "Crown and Native land occupied by Native owners excepted," as appearing in the special order as recorded in the minute-book of the said county: And whereas the said Raglan County included the above-mentioned words in its notice of intention to borrow the aforesaid amount of eight thousand pounds, which was advertised in the *Waikato Argus* newspapers of the thirtieth November, and seventh, fourteenth, and twenty-first December, one thousand nine hundred and five, and also on the voting-paper used on the poll taken on the ninth day of January, one thousand nine hundred and five, in connection with the said loan: And whereas the Governor is satisfied that the inclusion of the words "Crown and Native land occupied by Native owners excepted" used by the Raglan County Council in its notice of intention to borrow, the voting-paper used, and the special order made striking the aforesaid rate as security for such loan and recorded in the minute-book of the said Council, was contrary to law and without legal authority, and that the special order striking the special rate of one and a half pence in the pound over the rateable value of all rateable property in the Waingaroa-Tainui Special Rating District, as appearing in the *Gazette* of the eighth day of March, one thousand nine hundred and six, was in the legal form required by the said Act, and that the ratepayers have not been misled by such irregularities or defects: And whereas it appears expedient to validate the proceedings hereinafter mentioned:

Now, therefore, His Excellency the Governor of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, and in pursuance and exercise of the powers and authorities contained in section one hundred and twenty-one of the Local Bodies' Loans Act, 1908, doth hereby validate the proceedings taken by the said Raglan County Council in striking the aforesaid special rate, and doth hereby declare that the special order inserted by the said Council in *Gazette* No. 18, of the eighth day of March, one thousand nine hundred and six, shall be taken as

being in all respects the special order of the said Council striking the said rate, and be deemed to have been as good, valid, and effectual as if the wording of same had been followed by the said Council in passing its said special order.

THE TRANSMISSION OF TIME SIGNALS TO VESSELS AT SEA.

Radio-telegraphic signals for the determination of chronometer errors, and hence time and longitude at sea, are sent out broadcast from each of the United States Naval wireless-telegraph stations every day, excepting Sundays and holidays. The system is combined with the telegraph land-lines, by which the time signals are transmitted from the Naval Observatory at Washington, at noon of the 75th meridian west of Greenwich, to stations on the Atlantic coast, and from the observatory at the Mare Island Navy Yard, near San Francisco, at noon of the 120th meridian west of Greenwich, to stations on the Pacific coast.

It is not necessary that an elaborate wireless-telegraph installation be employed for the purpose of receiving these signals, nor that a skilled operator be in attendance. Any vessel provided with a small receiving apparatus may detect these signals when within the range of one of the sea-coast wireless stations. The nature of the time signal is described as follows:—

U.S. Naval Observatory telegraph time signals begin at 11.55 a.m., standard time, and continue for five minutes. During this interval every tick of the clock is transmitted over the wires except the 29th second of each minute, the last five seconds of each of the first four minutes, and finally the last ten seconds of the last minute. The noon signal is a longer contact after this longer break.

NOTE.—The signal from the Naval Observatory at Washington, for the country east of the Rocky Mountains, is noon of the 75th meridian west from Greenwich, corresponding to 11 a.m., 90th meridian, and 10 a.m., 105th meridian. From the observatory at Mare Island Navy Yard, for the Pacific coast, it is 120th meridian time.
